HE'S VILL LILL Declares Titat No Girl Can Use Him for

a Dray.

Washington Post: "You don't catch me ever doing anything for any girl again as long as I live," said the young man with the polka dot band on his Miss Peach went to Cape May last Thursday, and when I heard she was going I had to break in and ask if I might come up and carry her bag to couldn't have held me. I was up at her house before the doors were open, and there she was with a bag the size of a trunk, all knobby and lumpy on the outside from the things she'd jammed into it-you know how a woman packs -puts five Saratogas full of things nto one small steamer trunk and gets the janitor to sit on the lid so it'll go shut. Well, that's the way Miss Peach's bag was packed, and it weighed a ton at that. I picked it up gayly it and a crate of umbrellas and parasols, and a box of candy, and a basket of fruit, and a rug and a jacket and a bandbox and a bundle of magazines and a few other trifles, and we set off. When we got to the station I lugged the things into the waiting-room, and sat down with the bag on my knees. Pretty soon I looked down and there was a stream of something black running out of it and soaking my new gray trousers. Did that girl say she was sorry? Did she say she was a born fool for packing things like that in a bag? Did she tell me I was an at grocers. angel of light? No, she didn't. She Skaggs,' says she; 'there you've gone and spilled all my shoe polish, How awfully careless of you!' Never again, and you watch me. No more helping

the military journal Reichswehr, has hold their value well. been giving prominence to the alleged hands of a "trained soldier," emit no mere handful of men as continental armies go-would require 50,000 cartous engagement. For a campaign of Ebinger Hardware company. invasion each soldier would require to be followed by a magazine; and a shell exploding in a company would produce as many devastating explosions as there were men. If, on the other hand, each soldier marched with, say, his own 200 rounds, he could fire them all in less than five minutes and be left without ammunition for the rest of the engagement. Such considerations are, of course, extreme; but they show that the "reductio ad absurdum" of quickfiring rifles is easily reached. Even now the difficulty is to get enough ammunition to the firing line and to keep control of the fire. If rapidity of fire is much increased without some entirely new method of bringing up ammunition the occasional advantage of being able to pour in a deadly hall of bullets for a minute or two will be dearly quartet. purchased at the cost of whole bri-Judge Clayton, of the Oklahoma su- gades perhaps being rendered "hors de preme court, has rendered a decision combat" for want of ammunition at the beginning of a fight. What applies to rifle fire applies also to artillery; and the armies which have been in a hurry to arm themselves with so-called quick-firing artillery before the machinery was perfect or the ammunition problem solved may find themselves in a worse quandary than if they had re-
