THE LARGEST CIRCULATION of any Cass County Paper.

TUESDAY, AUGUST 8, 1899.

THE recent rains ought to be an incentive to the merchants of Plattsmouth to hold a street fair.

ANOTHER one of those calamity abolishing rains fell last night and this morning and now the pessimistic howlers are sad.

THE wages paid by the railroad companies in 1898 amounted to the enormous sum of \$495,953,618, an increase of \$39,454,637 over the preceding year.

ONE more rain like the one of last week and it will be next to impossible to get enough men to take care of the Nebraska corn crop. Step ladders will be necessary to reach the corn, so fast is it growing.

MR. BRYAN, says the St. Paul Dispatch, ought to get some consolation out of the thought that if this country is wrecked on the rock of imperialism it will save it from going to smash on the gold standard.

IN 1892, the big year of American foreign trade, the first billion-dollar year of the country's history, the value of manufactured exports was \$158,500,337; the year ending June 30 their value was \$338,667,794.

SAYS the St. Louis Globe-Democrat: "Democrats must not forget that Thomas Jefferson, who wrote the Declaration of Independence, annexed the Louisiana purchase without giving the slightest attention to the consent of the governed."

The president has issued orders to all first and second class postmasters that whenever a letter is contemplated looking to the removal of an office of a sailor or soldier of the civil or Spanish wars all the facts in the case must be communicated to Washington before action is taken.

NOTWITHSTANDING the agricultural exports for the year ending June 30 were \$85,000,000 less than the previous year, the total exports of all kinds were only about \$3,000,000 less. The difference was nearly made up by an increase of \$82,000,000 in the amount of manufactures sent abroad. The Dingley law is getting all kinds of vindications.

THE Louisville Kicker, edited by G. C. Kicker, which was started for the purpose of kicking against everything that is not in keeping with the ideas of the demo-nops, is now kicking very strong because it has been refused transmission through the mails as second-class matter. Very little of its space is devoted to Louisville, and it is a question whether or not it is a for-profit newspaper and entitled to second-class rates.

LAW WILL BE STRONG FOR GOLD. The interview with Mr. H. H. Hanna, chairman of the Indianapolis monetary convention, expressing approval of the plans for currency legislation already agreed upon by the caucus committee of the house and the finance committee of the senate, furnishes gratifying assurance that the currency bill that will be presented to the fifty-sixth congress will unqualifiedly recognize gold as the fixed monetary standard of the country, says the Chicago Times-Herald.

THE interview with Mr. H. H. Hanna, chairman of the Indianapolis monetary convention, expressing approval of the plans for currency legislation already agreed upon by the caucus committee of the house and the finance committee of the senate, furnishes gratifying assurance that the currency bill that will be presented to the fifty-sixth congress will unqualifiedly recognize gold as the fixed monetary standard of the country, says the Chicago Times-Herald. Having been in consultation with the members of the senate finance committee at their recent meeting at Narragansett Pier, Mr. Hanna is in a position to speak authoritatively regarding the prospects for financial legislation. That he was invited to the councils of the committee will doubtless surprise the party trimmers, who have always opposed the scheme of currency reform proposed by the Indianapolis monetary convention. But the political trimmers on the currency question have had their day. The time for evasion and equivocation is past. The gold standard party must take counsel of such men as Mr. Hanna, who stands for honest currency reform and who represents the intelligent business interests of this country.

THE party in power has been prevented by a silver majority in the senate from redeeming its promises made at St. Louis, to give the gold standard "the validity and vitality of law." With a sound money majority in both houses of the fifty-sixth congress there is every reason to expect the enactment of a law "consistent in a broad and courageous way with the pledge offered the people in the money plank of the St. Louis platform."

PHILIPPINES AND THE REPUBLICANS. Senator Burrows of Michigan, who is an anti-expansionist, says that if the end of the Philippine war is not in sight next year "the situation will be to the disadvantage of the republican party." There is a very strong probability that the war will be ended before the national conventions, early next summer, meet. The increase

under way, however, when the next national conventions meet this condition would not necessarily injure the republicans. It would simply provoke an inquiry as to who was responsible for the war in the first place, and that would exonerate the republican party. The men who voted the treaty defeated, and who voted against it when it came up in the senate are among the persons who are responsible for the war. All of those except an insignificant fraction are democrats. A large share of the responsibility for the war also belongs to the men who opposed the bill for the creation of an army of 100,000 men. These, too, were almost all democrats.

Here are some facts which will come out in a very impressive way next summer if the war in the Philippines should be still in progress at that time. These facts will be destructive to the democratic party. Many men were declaiming from the beginning of the war against all purpose to obtain any territory from Spain. These men would have given up even Porto Rico. They would give it up now, notwithstanding its cession by the treaty, if they could bring this about. All these persons are democrats. The Bryans, Gormans, Vests, Cockrells, Stones and the rest of the men who which is being made in the army points in that direction. The trouble heretofore has been that Otis did not have enough men to garrison the towns which were captured. This drawback will not exist when the campaign next fall opens, says the Globe-Democrat.

Even if the war should chance to be have been howling against expansion—and all of those who were in congress voted against all measures calculated to strengthen the hands of the government in the war—are the persons who responsible for the conflict, and they, with a few trifling exceptions, are democrats. It is reasonably certain that American sovereignty will be acknowledged throughout the whole of

the Philippines before the beginning of next summer, but if, on the other hand, the war should be still under way it would be the democracy and not the republican party that would be the sufferer in the election.

INFORMATION AND OPINION.

THE Mutual Life Insurance company of New York has instituted proceedings against Thomas Chase and wife of Milligan, Tenn., in which it alleges that Chase, who is supposed to have died in February, is not dead, and that \$20,000 collected by the supposed widow was fraudulently paid. The bill enjoins four banks, in which the money is deposited, from paying it to Mrs. Chase's order. An order has also been secured allowing the grave in which Chase is supposed to have been buried to be searched.

Three hundred years ago, in England, it was customary to add beer to mortar to produce the required consistency. It was asserted that the beer rendered the mortar more durable than if it were made with water. It is certain that the workmen often tasted the beer, perhaps to convince themselves that it was of the proper strength and flavor.

THE men-of-war of the Romans had a crew of about 225 men, of which 174 were oarsmen working on three decks. The speed of these vessels was about six miles an hour in fair weather.

There are certain languages which, although they are still spoken and written, are for all intents and purposes dead. For instance, Icelandic is practically identical with the dead Norse language, out of which the Scandinavian tongues have grown. Provençal, the ancient language of Provenca, and the speech in which the Troubadours sang, has now sunk to the level of a patois, although a cor-

blem was revived as being that of the Holy Roman empire, and Rudolph of Hapsburg adopted it as his imperial arms. It appeared the Russian imperial arms in the sixteenth century, when Czar Ivan Basilovitch married Princess Sophia, niece of the eleventh Constantine, and the last of the Byzantine emperors.

Shakespeare, among his many allusions to the sweetness, the innocence and the helplessness of the lamb, only once cites it as an article of food.

The schooner Humboldt, fifty-eight tons burden, hailing from Boston, is said to be the only vessel in the world exclusively devoted to the collection of sea shells for sale. Much of its work is undertaken for public and private schools.

That a swan will fight fiercely was shown by an exciting struggle between a swan and a park constable on the upper lake at Waterlow Park, England. Some India rubber balls had rolled into the water, and to get them the constable paddled out in a punt. This drew the notice of the male swan, which deserted his consort and the brood of cygnets, and went for the constable with great fury. Once or twice he almost upset the punt by raising the constable to overbalance it in saving his legs from the bird's beak. It was only with difficulty and risk that the balls were recovered. The swan then followed the punt to the bank, making vicious darts at the constable.

One of the most remarkable things on the North Pacific coast is the large number of halibut in Alaskan waters. Small steamers catch cargoes in a few hours' time, and it is no strange thing to see a hundred thousand caught in from two to three days.

NO HOSTILE EXPEDITION

Heureaux's Rival Feels Assured of the Hearty Support of the Domingans.

A Large Force Awaits the Arrival of the New Candidate For the Presidency.

HAYANA, Aug. 4.—General Juan Isidro Jimenez, when his attention was called today to a cable summary of an alleged declaration made by him here recently and published in the United States to the effect that he was about to proceed to the United States to organize an expedition against the existing government of San Domingo, replied that he had not made the statement attributed to him. He went on to say that it was quite unnecessary to proclaim himself hostile to the present government, as it could not possibly last beyond August 15.

"I did hear," he continued, "that Heureaux was sending men to Cuba to kill me, but I know nothing whatever regarding the plot to kill him. I had no connection and have no connection with Ramon Caceres, who did the shooting. I do not believe that the United States will interfere with my government in San Domingo, which will be a government peaceful and helpful to all, for the United States did not interfere with the government of Heureaux, who robbed and murdered for fourteen years."

General Jimenez admits that he has often been to the United States incognito, but says he has not had interviews with official persons. He considers that there is no need of promoting expeditions to land in San Domingo, as there already are 1,000 men waiting for him, a force which he deems quite sufficient for his purposes.

Referring to the future relations of San Domingo with the United States he expressed a desire to be on friendly terms with Washington and said he could count on American sympathy. Gomez, he referred to as "esteemed by all classes of Dominicans, but not sought for as president."

The people of San Domingo, he declared, are impetuous and are urging him to come to them at once, but for a time he prefers delay, "as each day is worth a battle won."

GOATS ARE SOLD AS MUTTON.

Thousands of Angoras Are Placed Upon Markets of Chicago.

CHICAGO, Aug. 4.—The Daily News says: Thousands of goats are brought, slaughtered and placed upon the markets of Chicago and sold as mutton by some packers at the stockyards. This traffic is carried on most extensively during the winter and early spring up to and including the month of April. The goats and kids are of the Angora kind and come from the northwest, while a few are shipped in from the south. The latter are of the common goat species and do not find as ready a sale as the Angoras.

Besides being very palatable as a food, the Angora goat and kid are used for other purposes. The skins of the goats are used for making floor mats and robes for babies, while the skin of the kid is used in trimming furs.

Dr. W. S. Devore of the Bureau of Animal Industry, when asked today in regard to goats being sold for mutton, said: "They certainly are quite free from disease, are fat and make excellent eating. Of course the very common 'billy' goat would have a tendency to be strong and have a bad odor. There is no law to prevent them being sold and when we find them in the packing houses they are inspected the same as any other carcass."

WASHINGTON, Aug. 4.—Referring to the reports that goat meat is being sold in some of the western cities as mutton, Dr. Salmon, chief of the Bureau of Animal Industry, said today that the law provided only for the inspection of cattle, sheep and hogs and that nothing short of congressional action would remedy the defect. Dr. Salmon said, however, that he did not anticipate much danger from the use of goat meat, as goats were generally healthy animals.

Last Honors For Hawkins. SAN FRANCISCO, Aug. 4.—The body of Colonel Alexander Hawkins of the Tenth Pennsylvania will receive last military honors in this city tomorrow afternoon. The services will take place under the auspices of the Masonic and Knights Templar organizations. The Tenth Pennsylvania regiment will occupy the places of chief mourners and General Shafter has ordered a military escort to take part in the funeral. The volunteers now encamped at the Presidio will also attend out of respect to the memory of the deceased and sympathy with their comrades in arms.

The body will be transported east tomorrow night. Chaplain Hunter, Tenth Pennsylvania regiment, has been ordered to take charge of it on the way home. Under orders from the department, Colonel Hawkins' body will be transported from here to Washington, Pa.

No one knows the unbearable torture, the peculiar and agonizing pain, caused by piles, unless they have suffered from them. Many believe them incurable. This is a mistake. Proper treatment will cure them. Tabler's Buckeye Pile Ointment is an infallible cure. Price, 50c. in bottles, tubes 75c. F. G. Fricke & Co.

POINTED PARAGRAPHS.

Fishing stories are white lies. A woman's meanness never fully develops until she is married. A sixteen-year-old girl is pretty, but never as pretty as she thinks she is. Quickly cure constipation and rebuild and invigorate the entire system—never gripe or nauseate—DeWitt's Little Early Risers. F. G. Fricke & Co. The kissing bug must be a girl-bug; all who claim to have been kissed are men.

Every one reaches the day when he tells something he wishes he had kept secret. "Our baby was sick for a month with severe cough and catarrhal fever. Although we tried many remedies she kept getting worse until we used One Minute Cough Cure, — it relieved at once and cured her in a few days." — B. L. Nance, Prin. High school, Bluffdale, Texas. F. G. Fricke & Co.

Refuse to take a drink with a drunkard and he will congratulate you on having good sense. Blotches and excrecence, which so often annoy people, are simply efforts of nature to throw off impediments to the proper performance of her duties. Herbine will aid and assist nature in her work, and ensure a skin clear and beautiful, entirely free from all imperfections. Price 50c. F. G. Fricke & Co.

Alfred Parsons, son of Anarchist Parsons, who was executed for complicity in the Haymarket riot, was arrested at Chicago for assaulting his mother with a knife because of her objections to his enlisting in the army. He was not prosecuted by Mrs. Parsons when the case was called.

A free and easy exhortation is produced by a few doses of Ballard's Horehound Syrup, in all cases of hoarseness, sore throat, or difficulty of breathing. Price 25c and 50c. F. G. Fricke & Co.

Charlotte Cullinan, of Williams avenue, Norwood, filed suit in the common pleas court recently asking that the Cincinnati Street Railroad company be restrained from changing the grade of the street in front of her premises in the construction of the proposed belt line through Norwood.

Where the digestion is good, and the general powers of the system in a healthy state, worms can find no habitation in the human body. White's Cream Vermifuge not only destroys every worm, but corrects all derangements of the digestive organs. Price 25c. F. G. Fricke & Co.

FOR SALE OR RENT—Store room and dwelling combined, 34x58 feet, known as the T. V. Davis store, in Murray. Inquire of J. W. Edmunds, Murray, Neb.

START A BANK ACCOUNT. Every Woman Who Could Ought to Have a Check Book.

A business woman, whose experience has been long and successful, said to me the other day: "If I were asked to give the best advice I could think of for young women who are earning their own living, or who have the cares and expenses of a household to look after, and if I had to confine myself to just four words, I should say, 'Start a bank account.' It is an easy matter to do so nowadays, when both the savings banks and others offer women every opportunity and inducement. Besides, it is a good thing to do for several reasons. It fosters a feeling of independence and develops business-like habits, two essentials for a business woman. Then, too, it is a convenient and desirable thing to pay bills by means of checks where it is possible to do so. It preserves a record of the transaction and frequently prevents annoyances and mistakes. To say way of thinking, a bank account, even though it be a small one, should be looked upon as a necessity rather than a luxury by every woman who has business affairs of any consequence whatever."—Albany Times-Union.

Wanted—A partner with \$50 capital to promote and extend a new and profitable business in every county in the United States. Address C. W. Dennis, King Ferry, N. Y.

The Transval Boer. The Transval Boer will eat almost anything in the flesh, fish or fowl line, for all is gnat that comes to his gastronomic mill, and the following mixture is voted most delectable by the majority of the rougher classes: A great square slice is cut off a loaf made of coarse unaltered meal and covered with a thick layer of jam—preferably strawberry; a row of sardines is then placed on top, and the oil from the sardine box is liberally poured over the whole. A load smacking of Hops and other manifestations of thorough appreciation accompany the disposal of this delicate bonne-bouche; but the unsophisticated Boer only indulges in this luxury when he means to enjoy a special treat, quite regardless of expense.

Clara—There is a rumor that Miss Passay is engaged. May—Indeed? She has been a long time looking for a junior partner.—Puck.

Largest Loaves. The largest loaves of bread baked in the world are those of France and Italy. The "pipe" bread of Italy is baked in loaves two or three feet long, while in France the loaves are made in the shape of very long rolls, four or five feet in length, and in many cases six feet.

Smokers in France. In France there are 6,000,000 smokers, and of every fifteen there are eight who smoke a pipe, five who smoke cigars, and only two who use cigarettes. Still, they use more than 800,000,000 cigarettes a year, or enough to go around the world 500 times if they were placed end to end in a line.

THE NEWS prints the news.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Diseneo" fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hammick & Co., of Shelby N. C. Trial bottles free at F. G. Fricke & Co.'s drug store. Regular size 50c and \$1.00. Every bottle guaranteed.

Rates for Greater America Exposition. Reduced rates to Omaha will apply from points on the Burlington route within 250 miles of that city during the entire period of the Greater America exposition, which open July 1 and closes October 31.

There will be three different kinds of tickets: Ten-day tickets, which will be sold at 80 per cent of double the one-way rate. Seven-day tickets, the rate for which will be one fare for the round trip, plus 5 per cent on sale Tuesdays. "Week-end" tickets, which will be on sale Saturdays and for Sunday trains due in Omaha before 1 p. m.—one fare for the round trip.

J. FRANCIS, G. P. A., Omaha, Neb.

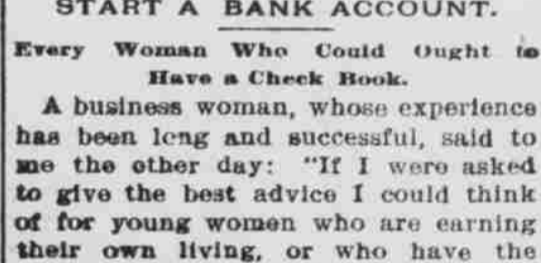

He Fooled the Surgeons. All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fissula, he would die unless a costly operation was performed; but he cured himself with five bottles of Bucklen's Arnica Salvo, the surest Pilo cure on earth, and the best Salvo in the world. 25 cents a box. Sold by F. G. Fricke & Co., druggists.

Insure in the German American. Fred Ebinger, Agent.

Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may dose a patient for years on their mercurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the cause of the disease and forces it from the system.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I took almost every medical remedy, but they did not seem to reach the disease, and had no effect whatever. I was distressed, and had no hope. I continued to take medicine, and it cured me completely, building up my health and increasing my appetite. Although this was ten years ago, I have never yet had a sign of the disease to return.

It is like self-destruction to continue to take potash and mercury; besides totally destroying the digestion, they dry up the marrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.

S.S.S. The Blood

is guaranteed Purely Vegetable, and is the only blood remedy free from these dangerous minerals. Book on self-treatment sent free by Swift Specific Company, Atlanta, Ga.
