THE LARGEST CIRCULATION
of any Cass County Paper.

TUESDAY, AUGUST 29, 1899.

NEBRASKA'S three hundred million
bushel corn crop is rapidly maturing.
SINCE Si Holcomb's nomination for
supreme judge, it is in order for the
editors of the Plattsmouth Journal to
devour their large supply of crow.

A LIBERAL amount of the Journal's
crow was devoured in the last issue.
Elly Bryan has told all of the demo-
cratic papers that it is good and they
down it without salt.

S. A. MORRISON has found it neces-
sary to increase the number of home-
print pages of his Eagle Beacon.
"Sandy" is getting out a good paper
and deserves success.

SETH MOBLEY has taken to Manila
a complete printing outfit and will
establish a paper in that city. The
people may now expect to get the
straight of things on the Philippines.

IT IS now a settled fact that there
will be no attempt on the part of the
Cass County Agricultural society to
hold a fair. That is one reason why
we should hold a rousing street fair.
Will it be done?

IT is beginning to be realized, as yel-
low journalism steps aside and history
takes its place in the late Spanish war,
that in spite of the entire unprepared-
ness of the country, great results were
achieved with marvelous celerity.

WITH Bryanism feeding on populism
and clamor, it would seem that Kan-
sas, with her 300,000,000 to 400,000,000
bushel corn crop, worth in cash at
least \$100,000,000, could not be consid-
ered even among the "possible" states
for the candidate.

LOGIC proves and experience will
also prove the inaccuracy of democra-
tic anti-expansion views, as thor-
oughly as both logic and experience
have proved the inaccuracy of the
democratic expansion views on the
currency question. Three years ago
the demoe at its worst expansionists,
and events have since proved the utter
fallacy of their theories. Now they
are anti-expansionists, and time will
as completely show their error in this
particular.

THE people of the United States are
sending \$250,000,000 a year out of the
country to buy tropical products, in-
cluding fibers, fruits, coffee and sugar.
The articles for which this money is
expended can all be grown in Porto
Rico, Hawaii and the Philippines, to
say nothing of Cuba. When Ameri-
can capital and Americans become in-
terested in the industries of those is-
lands this vast sum of money can be
expended among our own people, in-
stead of being, as at present, paid to
those of other countries.

THE trust monster does not seem to
be proving very destructive to small
business interests throughout the
country. July failures, according to
Dunn's Review, an accepted authority,
were among manufacturers but 116
against 208 in July, 1898; 213 in July,
1897, and 271 in July, 1896; while
among the traders the number in July
of the present year was but 457
against 645 in July, 1898; 716 in July,
1897, and 836 in July, 1896. The total
liabilities were but \$4,872,197, against
\$10,101,455 in July, 1898, and \$15,505,-
095 in July, 1896.

Mr. S. A. Morrison of Eagle in this
paper makes just complaint against
the Advocate for continually casting
false insinuations upon his candidacy
for the office of county superintendent.
The Advocate is supporting a democ-
rat for that office, but that should be
no reason why means unbecoming a
newspaper should be used to injure an-
other. Mr. Morrison is a good republic-
an, a good man and a scholar, per-
fectly competent to fill the office to
which he aspires, and he deserves
fair treatment at the hands of the frater-
nity.—Weeping Water Republican.

WORKMAN who are interested in
seeing business activity among home
manufacturers will be gratified to
know that the importations of woollen
manufactures in 1899, under the Ding-
ley law, were but \$13,881,967, against
\$19,162,992 in the last year of the Wil-
son law; manufactures of fibers, \$25,-
132,395, against \$32,546,967 in the
last year of the Wilson law; manufactures
of wool, \$14,499,487, against \$20,543,-
810 in the last year of the Wilson law;
manufactures of iron and steel, \$12,-
098,239, against \$16,094,557 in the
last year of the Wilson law; manufactures
of leather, \$11,116,551, against \$13,-
283,151 in the last year of the Wilson
law, and manufactures of tin plate,
108,484,826 pounds in the fiscal year
1899, against 230,073,683 pounds in the
fiscal year 1897, the last year of the
Wilson act.

POINTS FROM SCHURMAN.

Through Mr. Schurman, president
of the Philippines commission, has not
yet presented his official report to the
administration, he has touched in con-
versation upon some matters that
should be steadily kept in mind, says
the Globe-Democrat. What he says
concerning the importance to this
country of commerce in the Pacific
and of trade with the populous nations
of Eastern Asia cannot be impressed
with too much emphasis. This is a
nation of workers rapidly multiplying
in numbers and we cannot afford to
neglect the development of business
with races that are nearer to us than
to industrial rivals. In regard to the
war in the Philippines Mr. Schurman
dwells upon the fact that only one
tribe, the Tagals, is hostile, and that
the rebellion does not embrace the
whole of the island of Luzon. He
places the total population of the is-
lands at 9,000,000, of whom not more
than one-sixth are inclined toward in-
surrection. Where revolt has ap-
peared in a few other islands the
Tagals are behind it.

Mr. Schurman was against annexa-
tion when he departed on his mission.
He has changed his mind. On the
way home he remarked to a corres-
pondent that "for reasons of commerce
and because of opportunities of invest-
ment, the Philippines should remain
as they are—a part of the United
States." In the islands of Panay and
Negros Aguinaldo has Tagal detach-
ments to levy tribute on the people
and compel them to rise against the
United States. They are unwelcome
visitors and would be expelled by the
natives if they had effective arms.
Commissioner Schurman believes that
the Filipinos, when the Tagals are
subdued, will be a desirable popula-
tion, and rapidly improve under the
influences of civilization. There are
500 islands, and serious revolt in only
one. The authority of the United
States is practically unchallenged in
the entire group except by one tribe,
bent on dominating the others against
their will and defying our rights of
treaty. It is not surprising that Mr.
Schurman is now in favor of keeping
the sovereignty ceded by Spain.

People who are susceptible to the
cold should make a point of wearing
loose clothing in cold weather. Loose
garments are always warmer than
tight-fitting ones, not only because
they allow room for circulation, but
because they permit a layer of air be-
tween the skin and the outside cold.

It is interesting to know that there
are some people who very strongly ob-
ject to being photographed. The late
empress of Austria was one of these,
and for many years before her death
eluded the vigilance of all photo-
graphers. The dislike of the late Em-
press Elizabeth to the camera is shared
by the ex-Empress Eugenie, who has
not been photographed for thirty
years. Three decades have passed
since John Ruskin was photographed,
and only once has John Hare allowed
himself to be thus victimized; this was
after a performance at Balmoral and
by the express desire of Queen Vic-
toria. Miss Marie Corelli is one of
the very few people who have never
sat to the camera.

dozen or more drawing room plants
that one may possess.

REPUBLICAN STATE CONVENTION.
The republican electors of the state
of Nebraska are requested to send dele-
gates from their respective counties
to meet in convention in the city of
Omaha on Thursday, the 21st day of
September, 1899, at 2 o'clock p. m., for
the purpose of placing in nomination
candidates for the following offices:

One judge of the supreme court.
Two regents of the state university.
And to transact such other business
as may properly come before the conven-
tion.

The several counties are entitled to
representation as follows, the apportion-
ment being based upon the vote cast
for Hon. M. L. Hayward for govern-
or in 1898, giving each county one
delegate at large and one for each 100
votes and major fraction thereof, to-wit:

Table listing Nebraska counties and their respective delegates: Adams, Antelope, Banner, etc.

It is recommended that no proxies
be admitted to the convention and
that the delegates present be author-
ized to cast the entire vote of the dele-
gation of the county which it repre-
sents.

It is further recommended that
wherever two county conventions be
held the selection of a county commit-
tee shall take place at the first con-
vention and then in every case the
secretary be required to promptly ad-
vise the state committee of the organ-
ization of such new committee with
the names of officers, members, post-
office address and name of precinct
represented by each.

Omaha, Nebraska, June 23, 1899.

P. O. HELDUND, Secretary.

CALL FOR COUNTY CONVENTION.
The republican electors of Cass
county are hereby called to meet in
convention to be held at Weeping
Water, September 16, 1899, at 11
o'clock a. m., for the purpose of elect-
ing twenty-six delegates to attend the
state convention to be held in Omaha,
September 21, also twenty-four dele-
gates to attend the judicial conven-
tion to be held at Nebraska City, Sep-
tember 22, and to place in nomination
candidates for the following offices, to-wit:

County clerk, county treasurer,
clerk of the district court, county
judge, county sheriff, superintendent
of public instruction, coroner, county
surveyor, one member of board of
county commissioners for Second
commissioner's district, and for the
transaction of such other business as
may come before it. The committee
recommends that there be no proxies
admitted, but that delegates present
cast the full vote of their several pre-
cincts and wards. Primaries to select
delegates to said convention will be
held on Saturday, September 9. Rep-
resentation is based upon vote cast for
candidate for governor, Judge Hay-
ward, in 1898, being one delegate for
each twelve votes or major fraction
thereof, and one delegate at large for
each precinct or ward.

Following is given the place of hold-
ing, time and delegates each ward and
precinct are entitled to:

Table listing precincts and voting places with delegate counts: Avoca, Center, Elmwood, etc.

Judicial Convention.
NEBRASKA CITY, Neb., Aug. 13.—
The republican judicial convention
for the Second judicial district in Ne-
braska is hereby called to meet at Ne-
braska City September 22, 1899, at 1
o'clock p. m. of said day in the dis-
trict court room in said city for the
purpose of putting in nomination one
judge of the district court in said dis-

trict, and to transact such other busi-
ness as may properly be brought be-
fore said convention.

The representation in said conven-
tion will be Cass county, 24; Otoe
county, 23; being one delegate for
each hundred votes cast for Hon. M.
L. Hayward in 1898, or the major frac-
tion thereof.

M. L. HAYWARD, Chairman.
JESSE S. MAPES, Secretary.

SOME NEW INDIAN WOMEN.

Celebrities of Dusky Hue in Art and
Literature.
White women are not alone in push-
ing themselves to the front along ar-
tistic and literary lines. Their sisters
of the red race are also making
reputations in the same ways. One
of the most distinguished literary Indian
women in America is undoubtedly
Pauline Johnson, the daughter of a
chief on the reservation at Brantford,
Ont. Miss Johnson is a poet of no
mean ability. Her poems have been
published in many periodicals for the
last five years. Miss Johnson also
reads from her own poems and gives
impressions of Indian character in
costume. In London she is received
by literary students on an equal foot-
ing. Eugenie is an Indian princess,
who lives with her father, Chief Phil-
ippe Vincent of the Hurons, at the In-
dian Lorette, near Quebec. She is
well educated, having spent eight years
in the convent at Charlestown; she
speaks French and English as well as
her own tongue and plays, sings and
composes a verse, wail and melody. One
of her official duties is to guard the
medals presented to her family by
George IV., Queen Victoria and the
prince of Wales. Bright Eyes, or In-
sha Theamba, is a daughter of the Om-
ahas, who has won distinction both in
literature and art. She has written
many magazine articles and has illus-
trated a book of Indian folklore. Jane
Waldron of the Sioux selected music
as her profession. She became prof-
icient and labors constantly at the
various government schools to teach
the pupils the rudiments of music.
There are two Indian girls on the stage
—Go-Wan-Go-Mohawk and Gretchen
Lorette. The former writes her own
plays and is stage manager as well as
star. There is a very clever Pawnee
girl, Maud Echo Hawk, who teaches in
the Hope Indian school at Springfield,
S. D. Minnie Cornelius, an ambitious
Oneida Indian girl, was graduated
from Gratton hall, Fond du Lac, Wis.,
last June. She speaks five languages
fluently and will practice medicine
among her own people.

"DeWitt's Little Early Risers did
me more good than all blood medicines

stipation, arouse the torpid liver to ac-
tion and give you clean blood, steady
nerves, a clear brain and a healthy ap-
petite. F. G. Fricke & Co.

Reclaiming California Dunes.
The reclamation of the sand dunes
territory of the Pacific coast at Golden
Gate Park, near San Francisco, is car-
ried on as follows: The shifting sand
is first seeded with sand grass (Arundo
arvensis) and this is allowed to grow
for two years; by this time the ground
is sufficiently held in place to permit
the planting of the Monterey pine and
cypress, and these trees, in two or
three years, complete the reclamation.
The entire cost of reclamation does not
exceed \$50 per acre, and out of the
1,040 acres in the park 500 acres are
now planted with the pines.—Engineering
News.

A Pretty Stone.
It is recorded of a young fop who
visited one of the Rothschilds that he
was so proud of his malachite sleeve
buttons that he insisted upon exhibit-
ing them to his host. The latter looked
at them and said: "Yes—it is a pretty
stone. I have a mantelpiece
made of it in the next room."—Mod-

Always Able and Willing.
In April every good American was
a naval expert. In June he was mak-
ing military campaigns. In August he
was a diplomatist. In October he will

colonies. The American citizen is
hard pressed, but he shrinks from no
 duty in running his government.—St.

fact
That the old thinkers thought of
them first. —Washington Star.

Frightened Into Health.
Fear is sometimes curative, al-
though vastly less so than the oppo-
site emotions of joy and hopeful ex-
pectation. Dr. Tuke reports the case
of a man suffering from rheumatic
fever who was instantly cured by the
shock and fright of a railway acci-
dent. Sharp relapse a similar history.
Hysterical paralysis has been cured by
fear more than in generally sup-
posed. Michea, a celebrated phys-
ician, one of the most profound in the
knowledge of mental diseases used to
write insulting anonymous letters to
some of his patients in order to cure
them, and with good results in some
hypochondriacal cases. Physicians
have sometimes had recourse in hys-
terical cases to threats or sudden fright
to check dangerous symptoms when
all other remedies have proved use-
less. Anann tells of a hysterical pa-
tient who suffered from tetanic con-
vulsions and trances, and whose father
treated her with blows and cured her.
Panselaris relates that a youth re-
covered his speech in the fright caused
by the sight of a lion; and Herodotus,
in his history, narrates that the son
of Croesus was dumb, and that at the
taking of Sardes, seeing a Persian with
drawn sword about to kill his father,
he cried out, overcome with fright:
"Kill not Croesus!" and from that mo-
ment he was able to speak.—Tit-Bits.

to the most powerful constitution. The
whole trouble is in the blood, and
Swift's Specific is the only remedy
which can reach such deep-seated blood
diseases.

Eczema broke out on my daughter, and con-
tinued to spread until
her head was entirely
covered. She was treated
by several good doctors,
but grew worse, and the
dreadful disease spread
to her face. She was
taken to two celebrated
health springs, but re-
ceived no benefit. Many
valuable medicines were
taken, but without re-
sult, until we decided to
try S. S. S. And by the
time the first bottle was
finished, her head be-
gan to heal. A dozen bot-
tles and left her skin per-
fectly smooth. She is
now sixteen years old, and
has a magnificent growth
of hair. Not a sign of the
dreadful disease has
ever returned.

Don't expect local applications of
soaps and salves to cure Eczema. They
reach only the surface, while the dis-
ease comes from within. Swift's
Specific

S. S. S. For the Blood
is the only cure and will reach the most
obstinate case. It is far ahead of all
similar remedies, because it cures cases
which are beyond their reach. S. S. S. is
purely vegetable, and is the only blood
remedy guaranteed to contain no po-
tash, mercury or other mineral.
