THE stoppage of an annual gold production of \$65,000,000 in the South African mines will not prove so serious an injury to the business of the world as a loss of this amount wou d have Proper proven a few years ago. The world's gold production in 1898 w s \$287,000,-000, of which \$65,000,000 was from the South African mines, and the estimate for the year 1899 is \$320,000,000 for the entire world, including \$75,000,000 rom the South African mines. This ndicates that the world, outside of South Africa, is producing from \$225,-000,000 to \$250,000,000 of gold per annum, or more than double what was the entire world never reached more than about \$30,000,000. M. C. HARRINGTON. This letter is of particular interest and significance to all Populists of Nebraska. It sets forth the avowed purpose of the Democrats to swallow the Populists next year. What concessions are made this year by the Democrats are expected to bear fruit an hundred fold next year, when Candidate Bryan the Populist party out of sight. This is the meaning of the adherence of Bryan to Holcomb in the state convention. despite the protest of many leading Democrats who objected to supporting Holcomb, but who are doing so in a desultory sort of way merely to profit by it next year, when the Populist party, just as Mr. Harrington writes, is to disappear and when leaders of Democracy now will continue to be leaders after the swallowing has taken place. Mr. Harrington's letter, which has just come to the surface, throws a strong side light on the working of Boss Bryan

and his Democratic machine. General Fred Funston, like Admiral Dewey, has disappointed the opponent's of the administration's war policy. He has confirmed what the admiral has said since his return. He denies the apacity of the Filipinos for self-government and favors going ahead in a vigorous manner to subdue the rebellion in Luzon. He characterizes Aguinaldo as a "con" man. He is confidencing his followers into believing they can whip the Americans and drive them out of the islands. As a disciple of George Washington, according to General Funston, the little rebel is a miserable failure, and Nebraskans who may think they are supporting a pure and highminded patriot by voting against the administration should open their eyes to

Silas A. Holcomb as governor repudiated Mr. Sturgess, recommended by organized labor for appointment on the state commission for the Omaha exposition. United labor now has its opportunity to repadiate Mr. Holcomb, and the prospects are very good that it will do so. The truth is there is positively no warrant for labor of any kind supporting Mr. Holcomb and his ticket, on general principles. All kinds of labor because there is a Populist state administration, but because the good Lord has sent big crops and the Republican party has maintained sound money and kept its promise to reopen the mills and restore prosperity.
