CRISIS IN THE CABINET.

Another Proclamation Is Issued
By Aguinaldo.

Urgently Advises His Soldiers to Conduct Themselves as American Congress Will Consider Them Worthy of Independence—Thirty-ninth Regiment Sails For Manila.

MANILA, Nov. 2.—5:45 p. m.—Aguinaldo has issued a proclamation announcing that the American congress will meet in December to decide whether the imperialistic policy and "this bloody work are to be continued." He exhorts his soldiers to conduct themselves so that congress will consider them worthy of independence and asks the objects to avoid politics.

A crisis in the Filipino cabinet is predicted as the result of the resignation of Paterno and Nacianina, two Filipino leaders, who have lost the confidence of the radical revolutionists.

Some Filipinos who attempted to come to Manila with the Spanish commission received a message from Major General Otis saying the woman and children would be given American protection, but that the men who had cast their lot with the insurrection must remain with it. The party includes a brother of General Luna, who was assassinated by the guard before Aguinaldo's house, with his family and the Filipino secretary of treasury's family. The party returned to Tarsia.

Lieutenant Stevens of General MacArthur's staff, reconnoitering with eight men in front of Angeles, discovered a Filipino outpost in a trench. The Filipinos numbered about forty. As the Filipinos had sighted the Americans, Lieutenant Stevens' only course was to charge, and his party rushed to the trench, shooting and yelling. They killed three of the insurgents and wounded several, who, however, succeeded in escaping. Not one of the Americans was hit. The lieutenant secured valuable information about the enemy's position.

The feeling of disquiet at Iloilo by the arrest of Santiago, a wealthy Filipino who has been charged with forming a revolutionary junta, has subsided. The Filipinos inside the lines were heard chanting the death song at night, with the refrain "The Americans sleep." A provost marshal's force surrounded the quarter and drove the suspicious looking natives outside the line.

The Americans of Iloilo and adjoining towns of Jaro and Molo number about 4,000 men, consisting of the Eighteenth and Twenty-sixth regiments, two battalions of the Nineteenth regiment, a detachment of the Sixth regiment and a battery of the Sixth artillery. The Filipino force is supposed to be about 5,000 and many men unarmed. Their lines are about 900 yards from Jaro, which is occupied by the Twenty-sixth regiment. The insurgents are supposed to have five smooth-bore cannon. For a long time past they have been building trenches between Jaro and their stronghold, Santa Barbara, eight miles north.

Thirty-ninth Sails For Manila.

PORTLAND, Ore., Nov. 2.—The United States transports Pennsylvania and Olympia sailed for the Philippines tonight with the Thirty-ninth infantry, recruited at Fort Crook, and two companies of the Forty-fifth infantry on board. Colonel Bullard and his staff sailed on the Pennsylvania. In addition to the troops the transports carried a large quantity of supplies for the army in the Philippines.

HUNTING SQUAW WIVES.

Hundreds of White Men Have Pitched Tents Along Choctaw Country.

INDEPENDENCE, Kan., Nov. 2.—During the last six weeks the matrimonial business in the Choctaw Nation, Indian Territory, has been at its highest. All along the borders of that country there have been hundreds of tents pitched and occupied by white men hunting squaw wives.

For many years a white man marrying a Choctaw squaw immediately came into possession of fifty-five acres of choice land in that nation and was allotted so much money yearly by the government for each member of his family. Consequently the more children in the family the larger the amount of money received. This rule and the fact that the Choctaw girls are very attractive have made them much sought after by the white men.

A few weeks ago the Dawes commission issued an order providing that after November 1, 1899, a man who was not of Choctaw blood marrying an Indian woman should not be allowed to share in the lands and moneys of the tribe. This ruling caused the men who were anxious to share the fortunes of squaws to marry much earlier than they had intended.

Consequently the Choctaw nation has been filled with white men hunting wives and since this order was made more than 600 white men have married squaw wives. The great majority of the Choctaw girls are pure white and have beautiful complexions. Most of them have black hair and eyes, although a few of them are perfect blondes. As a rule they are

highly educated and if they have any white blood in them at all they will not marry Indians and the white men have heretofore been somewhat in demand. The girls marry at the age of seventeen.

Accept Only Yankee Money.

HAVANA, Nov. 2.—Victor H. Olmsted, assistant director of census, has returned to Havana, after inspecting all of the provinces of the island, in accordance with instructions from Washington. He immediately visited General Ludlow and informed him that he had instituted an investigation into all the cases of enumerators mentioned in General Ludlow's letter to Governor General Brooke as being unfit and that most of these persons had been discharged.

The Havana newspapers generally complain regarding the different kinds of coinage used in the island. The local hotels and business houses now refuse to accept any currency except American.

ENGLISH EXILES.

Transgressors of the Law Who Are Living in Paris.

Letter in Washington Post: England's colony of exiles on the banks of the Seine is likewise a very large one, and comprises Lord Arthur Somerset, brother of the present duke of Beaufort, and former equerry to the prince of Wales, who fled England some ten years ago to escape arrest in connection with the Cleveland street scandal. Lady Mordaunt, the respondent in the divorce case in which the Prince of Wales was cited as co-respondent, occupied a handsome residence in the neighborhood of the Champs Elysee until placed under restraint as a morphomaniac. George Russell, once private secretary of the prince of Wales and son-in-law of the duke of Roxburghe, and Lord St. John's brother, Walter Harbord, formerly of the Seventh Hussars and son-in-law of the duke of Grafton, are habitués of the boulevard, which they find more congenial than Pall Mall, owing to the fact that they were expelled from all the English clubs in consequence of their being caught in the very act of cheating at cards. Lord Alfred Douglas, his associate, the unmentionable Oscar Wilde, the equally unsavory Broadley, who was turned out of the Indian civil service in disgrace, and many more, go to swell the numbers of the Parisian colony of English exiles, which comprises nearly every woman of title who has either graduated from the divorce court or perpetrated the now so common crime of forgery at the expense of infatuated admirers, and every Englishman who has cheated at cards or defaulted payment of his debts of honor—in one word, every Briton, male or female, who has made his native land either socially or legally too hot to hold him or her.

The Production of Gold for 1899.

The world's production of gold for 1899, if Australia and South Africa maintain the rate with which they began the year, will probably reach \$340,000,000, or about \$50,000,000 more than in 1898. At the end of the current year the three principal countries will rank in the following order in the list of gold-producing districts:

South Africa.....\$106,000,000
Australia.....78,000,000
United States.....74,000,000
The state of Washington, it is thought, will far exceed its usual production; and the Klondike, which in 1897 and 1898 produced respectively 6,027,000 and 12,700,000 dollars' worth of gold, it is estimated will yield in 1899 at least \$20,000,000 in yellow metal.

There Is a Class of People

Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called Grain-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over one fourth as much. Children may drink it with great benefit. 15c and 25c per package. Try it. Ask for Grain-O.

The Sponge Animal.

If the sponge as brought up fresh from the sea-bottom were a familiar object, says Doctor Lydecker, few would be in doubt as to its being an animal. When fresh, it is a fleshy-looking substance covered with a firm skin, and if cut it presents somewhat the appearance of raw meat. Its cavities are filled with a gelatinous substance called "milk." American sponges and those of all other parts of the world are inferior to the sponges of the eastern shores of the Mediterranean. The finest of all sponges is the Turkey toilet sponge, which is cup-shaped. The American sponge most nearly approaching it in quality is the West Indian glove sponge.

He Fooled the Surgeons.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Prolapsus, he would die unless a costly operation was performed; but he cured himself with five bottles of Bucklen's Arnica Salve, the surest Pile cure on earth, and the best Salve in the world. 25 cents a box. PEACEFUL ON NEGROS.

Planters Pursuing Their Business Undisturbed.

General Lawton's Advance Proves a Success—Allaga and Talavera Are Now Occupied By the Americans, the Enemy Having Been Driven North and Westward.

MANILA, Nov. 1.—General Hughes, commanding in the Nisayan district, has sent in an encouraging report. He says the island of Negros is now more peaceful and orderly than for twenty years. The planters are pursuing their business undisturbed by the bands of brigands which had long levied tribute on them. The Americans have scattered the brigands and propose to pursue them until they are effectually suppressed. General Young's column entered Cabanatuan, north of San Isidro, yesterday morning.

Colonel Parker, with two troops of the Fourth cavalry, took possession of the deserted town of Allaga. Captain Batson captured a telegraph operator and his escort, finding a telegram to Aguinaldo from an insurgent colonel reporting that General Lawton was killed in a recent fight and that his body had been sent to Manila. The operator added that 600 insurgents were approaching Allaga from Tarlac. Batson placed his scouts in ambush awaiting them. Colonel Hays, with four troops of the Fourth cavalry, charged the towns of Talavera and Cobat, dispersing 150 insurgents and pursuing them for three miles without any loss. They captured two brass cannon and a quantity of ammunition, including many Hotchkiss shells. Captain Batson took a storehouse and quantities of rice, sugar, corn and forty bull cars.

The British steamer Lebuon of Hong Kong, 500 tons, with a prize crew from the United States gunboat Castine on board, has arrived here. It was captured while running the blockade off Zamboanga and had unloaded its cargo of merchandise.

All signs show that General Young's rapid advance is demoralizing the insurgents northward. Prisoners report them to be fleeing to the hills. There are many deserters and sick men, and the former are taking their arms to the Americans. The cavalry's rapid movements are a puzzle to the insurgents, who think that the Americans, in striking so many places, must have overwhelming forces.

Aguinaldo is personally conducting the campaign. He is asking the people for rice and is trying to replenish the army with recruits, but without success.

Lawton's Advance Is a Success.

WASHINGTON, Nov. 1.—General Otis cables the war department as follows:

"MANILA, Nov. 1.—Lawton's advance on Allaga and Talavera from Cabanatuan, which places are now occupied, is successful, the enemy having been driven north and westward. Two small cannon were captured with considerable ammunition and large quantities of corn, rice, river and land transportation, as well as telegraph operator with his entire equipment and important insurgent dispatches. There were no casualties. Insurgents are advancing from Tarlac to meet Lawton's troops.

"Hughes reports Negros in better state of lawful submission than for twenty years; planters no longer in danger; quiet election; over 5,000 votes cast, no fraud attempted; inauguration of military and civil government 6th instant. Hughes commences active operations against Tagalos in Panay as soon as condition of roads and trails permit."

Telegrams by Post Card.

London Standard: The Vienna chamber of commerce has petitioned for the introduction of telegram post cards and telegram letter cards, the invention, like the ordinary post card of Prof. Dr. Hermann. They would be posted in the usual way, and the messages written on them would at once be telegraphed or telephoned from the postoffice to the receiving office, and there transferred to other cards, which would be delivered with the ordinary letters.
