THE LARGEST CIRCULATION OF ANY CASS COUNTY PAPER.

WE await the verdict. THE civilized world is watching and waiting to hear from Nebraska.

OHIO is another state toward which the eyes of the world are turned. While the fusionists entertain slight hopes of victory, the republicans claim the state by at least 45,000.

THE Week's Review says, in part: "If every voter of the state of Nebraska votes his convictions on the 7th day of November, the returns will stand as follows:

CONGRESSMAN - ELECT AMOS T. ALLEN will be known all over this country on account of his being Thomas B. Reed's successor.

WHEN an individual or party gets out circulars or dodgers purporting to be what some one has said or done, or to inform the "dear people" of some great truth or falsehood just discovered, you may know the "jig is about up" with that particular individual or party.

WITHOUT question this has been the clearest campaign ever waged in Cass county. The new law prohibiting trading and the wholesale expenditure of money has had a wonderfully salutary influence, and the candidates on both tickets were, as a whole, men of character and ability.

Trades unions at Montgomery, Ala., refuse to participate in an industrial parade because the committee in charge refused to give the negro unions a place in the line.

Melbourne, Australia, recently experienced the first fall of snow in its history. It came late in the Australian winter and was heavy enough for the children to make snowballs.

Admiral Dewey has recalled his acceptance of the invitation to visit Philadelphia as the guest of the municipality, his physician having advised him to cancel all such engagements.

Seattle Has a Totem Pole. Seattle's public square is to be the abiding place of a veritable Alaskan "totem pole"—one of those strangely carved symbols of barbarism and superstition which generally grace the front of Indian habitations in southern Alaska.

CAMPAIGN IN EARNEST.

Movement Began on Aguinaldo's Stronghold. Philippines Must Find a New Capital, as Present Headquarters Will Soon Be Untenable—General Wheaton Leaves on Most Important Expedition of the Fall Campaign.

MANILA, Nov. 5.—9 p. m.—This evening a fleet of transports and gunboats left Manila for the most important expedition of the autumn campaign. Its destination is supposed to be Dagupan or some other northern port.

THE landing will be made under cover of the guns of the fleet. It is assumed here that the purpose of the expedition is to move down the Dagupan-Manila railroad toward Tarlac or to prevent Aguinaldo's forces making another base farther north.

Since the beginning of the hostilities it has been the unanimous opinion of military experts here that Dagupan should be made a base of operations, but sufficient troops have heretofore been lacking. With Generals Wheaton, MacArthur and Lawton moving upon Tarlac from the three directions, and the mountains heming in the other side, the insurgent capital will soon become untenable.

AGUINALDO may attempt to shift his headquarters to the rich tobacco country at the northern end of the island. Probably he may slide around General Lawton's front to the southern provinces, but as MacArthur's and Lawton's troops are spread across the country from Angeles to Cabanatuan it will be difficult for the insurgents to escape. Should the concerted operations succeed, organized insurrection, on a large scale, should be at an end early next spring, although guerrilla warfare is likely to continue for a long time.

WHEN an individual or party gets out circulars or dodgers purporting to be what some one has said or done, or to inform the "dear people" of some great truth or falsehood just discovered, you may know the "jig is about up" with that particular individual or party.

THE events of the past fortnight in South Africa have spoiled the criticisms of the democratic faultfinders in regard to the conduct of the war by the McKinley administration. British losses in Africa in this fortnight have been as great as the American losses in Cuba and the Philippines in an entire year of fighting, and utterly destroy the opportunity for complaint which democratic scolds were utilizing for temporary political effect.

SOLDIERS SEE FOR BOUNTY.

CHICAGO, Nov. 5.—More than 300 former members of the Second and Third Mississippi volunteers, who enlisted in Chicago, held a meeting today in the Unity building.

THE November Century is full of good things. Perhaps the beginning of John Morley's "Life of Oliver Cromwell," one of the features promised for the coming season, will prove the attraction of this number.

THE article appeared in the December number for that one would contain the year's list of contributors, my name would be in it, and I should be famous and could give the banquet I was meditating.

WHILE the town of Nassa, in Sweden, the firemen happen to be women, however paradoxical that sounds, the place is only a little village and the enormous tubs constitute the "water works." One hundred and fifty women make up the fire department and one of their duties consists in always filling the tubs filled with water.

ROBBED THE GRAVE. A startling incident, of which Mr. John Oliver of Philadelphia, was the subject is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts., guaranteed, at F. G. Fricke & Co.'s drug store.

WOMEN ARE FIREMEN. In the little town of Nassa, in Sweden, the firemen happen to be women, however paradoxical that sounds, the place is only a little village and the enormous tubs constitute the "water works." PECULIAR METHOD OF SUICIDE. A peculiar way of committing suicide is said to be practiced by the African tribes who dwell near Lake Nyassa. By a dependent tribesman tires of life he wades into the lake and patiently waits until an alligator approaches and kills him.

AN interesting discovery has just been made at Penn. in Buckinghamshire. A faculty applied for by the vicar and church-wardens of the parish for the removal of a dilapidated, high-backed pew in the historic church has been granted, and the pew has just been taken down. The floor upon which it stood was found to be a false one, resting on the original floor, which had perished to such an extent as to be a source of danger. The decayed material having been cleared away, the coffin of William Penn, who was buried here in 1688, was discovered lying within four inches of the surface. It was of oak, black with age and perfectly sound. The coffin was carefully covered and sealed, and the floor was relaid and cemented round.

Oh, the Pain of Rheumatism! Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are to-day worse off than ever. Rheumatism is a blood disease, and Dr. Williams' Pink Pills for Pale People is the only remedy which can reach such deep-seated diseases. A few years ago I was taken with inflammatory rheumatism, which became so intense that I was for weeks unable to walk. I tried several prominent physicians and took their treatment faithfully, but was unable to get the slightest relief. In fact, my condition seemed to grow worse, the disease spread over my entire body, and from November to March I suffered agony. I tried many patent medicines, but all in vain. Upon the advice of a friend, I bought a bottle of Dr. Williams' Pink Pills, and after allowing me to take it, how my condition improved. My physician, who was a chemist, analyzed the remedy, and pronounced it a mineral. I felt so much better after the first two bottles, that I continued the treatment until two months I was cured completely. The only permanent relief I have ever since had is a result of the treatment. (This is not a puff, but a true statement.) 251 Powell Avenue, Philadelphia.
