## WELCOME THE SOLDIERS

### MacArthur's Men Find Natives Glad to Greet Them.

People of Northern Luzon Towns Are Tired Of the Insurrection And Want to Return to Their Agricultural Pursuits—Fleeing Rebels Have Little Time to Destroy Railroads.

MANILA, Nov. 20.—10 a. m.—The American occupation of the country between Manila and Dagupan is proceeding with a rush. General MacArthur is within five miles of Dagupan, which place General Wheaton or General Lawton will probably occupy. The railroad is practically intact beyond Bamban, except for a destruction of five miles. Rails for that portion have been discovered. Large quantities of rolling stock have, however, been destroyed.

General MacArthur is moving his troops by squads and the roads within General Lawton's territory are becoming passable.

Captain Leonhauser accomplished one of the best coups of the war. Reaching O'Donnell by a night march from Capas on November 18, he surprised the insurgent force, numbering 200, and captured all of them, with their arms, 10,000 rounds of ammunition and four tons of subsistence.

Oac Filipino was killed, but there were no American casualties.

#### Welcome the Americans.

MANILA, Nov. 19.—1 a. m.—These dispatches have been received from correspondents of the Associated Press accompanying the Americans advance northward.

GERONA, Nov. 18.—General MacArthur entered Gerona as already cabled this afternoon. The insurgents had fled last Monday, after burning the depot. Nothing else was destroyed by them. Gerona is the first town along the Manila-Dagupan railway line where the natives did not run at the approach of the Americans. The padres offered quarters in the church and convent. The town has one good house. Gerona is the seat of heavy English sugar interests.

The trip here was a hard one and occupied six hours in covering seven miles and a half, most of the time being spent in fording a quarter of a mile running out of the Tarlac. We have no wagons, and pack mules and native bearers carry all our supplies.

The natives here say that Bayombong was occupied last Sunday by mounted troops, probably General Young's brigade of General Lawton's division. The people here are of a better class than we have usually found, and they welcomed the Americans, as they evidently realize that their agricultural interests will revive.

General MacArthur said this afternoon: "We seem to be entering a different political atmosphere. The people here seem to be less attached to Aguinaldo's cause than those in many towns we have entered on the railroad line."

The command will move northward at daybreak tomorrow, toward Bayombong. Gerona will be garrisoned with two companies of the Thirty-sixth.

#### Many Refugees Flee to Panique.

PANIQUE, Nov. 18.—General MacArthur's troops arrived from Gerona in the course of the morning. The railroad beyond this point has not been destroyed. The captured railway stock is being repaired to handle supplies. The expedition will go north toward Bayombong probably today. The signal corps is constructing lines with great rapidity.

A native courier from Bayombong reports that the American troops left the town soon after they entered, and that many natives remain, though no insurgents.

General MacArthur discovered here Major Joneson, formerly chief surgeon on the staff of the Filipino commander, General Mascado. He resides at Bacolor, and is about to return there to resume his practice. Major Joneson says that all respectable Filipinos are disgusted with the behavior of the insurgents and are very glad that the Americans have the upper hand.

A continuous procession of refugees is entering Panique from the north, indicating the proximity of other American troops, probably of the railroad line. These refugees say that the insurgents have not known which way to turn, with the Americans occupying so many places in the north.

Panique is a rich sugar town. Most of the wealthy Chinese and the poorer natives fled at the first approach of our troops, but they are now confidently returning. The rain has now ceased, the weather is fine and the country drying rapidly.

MONACADA, 12:30 a. m.—Advancing through the enemy's country by train from Panique, a distance of five miles, the Americans reached Moncada, where natives have displayed a friendly disposition. The train is stalled by the wreck of two locomotives and fifty-four cars, evidently intentional, on the main track. The freight house and depot had been burned. No attempt will be made to save the wrecked rolling stock, but the track will be cleared, and as soon as two small breaks have been repaired the expedition will continue northward. Thus far the advance has been a complete success.

Captain Carr of the signal corps has laid a wire from Panique.

### ROBBED IN DAYLIGHT.

Insurance Office Looted at Marshalltown, Ia.

Thief Makes Way With \$6,500 in Cash and Various Securities—Perpetrator of the Deed Makes Good His Escape With the Booty and Leaves No Clue to His Identity.

MARSHALLTOWN, Ia., Nov. 20.—At the noon hour today the office of the Southwestern Mutual Life association was entered, the safe blown open and cash, drafts and certificates of deposits to the amount of about \$6,500 abstracted therefrom.

The robbery was the boldest in the history of the city. The office of the association is situated in the basement of the court house, one floor below the sheriff's office and but a short distance removed from the court chamber in which the session of the district court was being held at the time. It is surrounded by offices which were more or less occupied by employes at the time and the corridors of the court house were thronged with residents of the city and county, called there by the court. And yet no one has yet been found who heard the explosion or saw the departure of the robbers.

It took something less than fifteen minutes for the robber to open the office door, by means of a pair of nippers, blow open the safe with giant powder, tear the money box from its place, wrap it in a woman's mackintosh hanging near, and make his escape.

President H. S. Halbert of the association was in the office until 12:30, when he went to dinner and at precisely 12:45 F. B. Cooper, another official, entered the office. During the interval the robbery was committed.

The outside door of the safe had been left unlocked, but the inner door was secured with a double lock. The thief filled the keyhole with some high explosive, blew the door to pieces, wrapped the money drawer in the mackintosh and stole away unobserved, leaving no clue to his identity. About \$50 in cash, drafts and checks aggregating \$4,000, and five certificates of deposit of \$500 each were taken, besides valuable papers. The certificates were issued by the Marshalltown State bank in the name of H. S. Halbert and by him indorsed in blank.

The county treasurer's office is immediately above the office which was robbed and this office is connected by an inside door with the auditor's office. Shortly before the robbery an attempt was made to unlock the door of the auditor's office, but the man was frightened away by Auditor Hargrave, who chanced to be in the office at the time. From this it is believed the robber had designs upon the county treasury.

### Three Killed By Pursued.

KANSAS CITY, Nov. 20.—A Star special from Antlers, I. T., says: Near Doakesville, thirty miles east of Antlers, Deputy United States Marshals James Eanis and Doog Everidge and John Kelly, a Goodland merchant, were killed by two men named Bishop and Frey, whom the officers were trying to arrest for removing mortgaged property. Bishop some time since was sent to an insane asylum and while confined there his wife mortgaged their cattle and others belonging to Kelly, she leaving for Arkansas. When Bishop was released recently he claimed he had been drugged and put in the asylum and declared he did not intend to be robbed of his property.

### HAYWARD GETTING WORSE

Condition of the Patient Not So Favorable as For Two or Three Days Past.

NEBRASKA CITY, Neb., Nov. 20.—Senator Hayward's condition today is not as favorable as it has been for two or three days past. He passed a restless night, but rested more easily today and partook of some nourishment. His right arm and leg seem almost free from the paralytic effects, but his mind is not as clear today as it was on Saturday. His pulse and temperature tonight are slightly above normal. Dr. Whitten states that the fever and restlessness of last night were the natural result of certain treatment which he has given the patient during the past few days and that there is nothing alarming in these symptoms. The case is progressing as favorably as can be expected under the circumstances.

### For Education of Negroes.

NEW YORK, Nov. 20.—A public meeting is to be held in Madison Square garden concert hall, Monday evening, December 4, in the interest of the Tuskegee Normal Institute for the education of negroes at Tuskegee, Ala. Former President Grover Cleveland will preside. Mr. Cleveland has for some time taken a deep interest in the school at Tuskegee and the work of its principal, Booker T. Washington. The main object is to create a public interest in the education of negroes that will raise an endowment fund of \$500,000 for the Tuskegee school.

Dried Flowers. A German chemist has found a way of preserving the colors of dried flowers, even of delicate poppies. Flowers lose their tints in drying through ammonia in the air. The inventor presses his specimens between sheets of paper which have previously been saturated with a solution of one per cent of oxalic acid in water.

### HOBART PASSES AWAY.

Dies at 8:31 This Morning—The End Is a Peaceful One.

PATERSON, N. J., Nov. 21.—Garret Hobart is dead. He passed away at 8:31 this morning.

The end was peaceful. The patient died apparently without pain, falling into a sleep from which he never awoke.

Mrs. Hobart and other members of the family are grief-stricken. It was thought some days ago that the vice-president could not recover, but during the last few days he rallied so well that some hope was entertained.

Even his physicians who had already given him up for lost, said yesterday morning that there was some hope.

The vice president, for the first time since his illness became serious, had been able to sit up in a chair and had partaken of some nourishment. He had spoken enthusiastically of his future plans and seemed to feel that he would recover. It was the first time also that he had been able to partake of some nourishment other than the lightest diet.

Until late at night it was not known that the end was near. Mr. Hobart retained his faculties almost to the last hour. Apparently he knew that the end had come. Toward morning he fell into a heavy sleep, which prolonged death, and at 8:31 he passed away.

Members of the family were at his bedside when the vice president passed away.

### Carnegie Buys Cuban Mines.

SANTIAGO, Cuba, Nov. 20.—The rumors current for several weeks resulted today in the final admission by officers of the Satalillo & Moro railroad and the Punopo mines that both properties had been sold to the Carnegie company. The Punopo is considered one of the richest in the world. It has a practically unlimited deposit of ore assaying 65 per cent. The railroad, which holds a Spanish construction concession to Manzanillo and Guantanamo, is now a paying property fifty miles into the interior.

Mr. Carnegie's representatives have been active in the district for a month and have secured options on many valuable iron and manganese ore deposits along the route of the proposed railroad extension.

### WILL LEAD THE MINORITY.

Sulzer of New York Announces His Candidacy For Leadership.

CHICAGO, Nov. 19.—Representative William Sulzer of New York, who is in Chicago in connection with the meeting of the executive committee of the national democratic committee tomorrow, said tonight:

"Yes, I am a candidate for the democratic leadership of the next house, and my friends think my chance of securing the honor is very good. I would not be a candidate if they did not believe my selection would strengthen our party in the east, and help us to carry the doubtful states of New York and New Jersey in the next presidential contest."

"I will have the votes of the solid delegations from New York and New Jersey, and have received assurances of substantial support from other states."

"At this critical time in the affairs of the democratic party, it seems the wishes of the leaders of the east should be consulted; and they favor my selection, not on account of myself or my personality, but because they believe it will be good party policy and will strengthen our forces in the pivotal states of New York and New Jersey in the great contest next year."

"I yield to no one in my allegiance to the democratic party, and have no apologies to make for my support of William J. Bryan and my loyalty to the principles enunciated in the Chicago platform."
