Talk Over Future Plans For Carrying On Work in Cuba.

Reduced, When General Wood Will Be Placed at Head of Affairs-Brooke Will Probably Return Home,

WASHINGTON, Dcc. 7 -General Leonard Wood had a conference with the secretacy of war today respecting his future. While neither of the principuls had anything to say for publication as to the conclusions reached it is gathered that General Wood is to be the next governor of tub, succeeding General Brooks, who will return to the United States.

It is expected that the military force in Cuba can be greatly reduced in the near future, so that while General Wood, by commanding the troops remaining, will be a military governor, there will be so little left of the military establishmen that his office will be much more civil than military in fact. The reduction in force will enable the war department to withdraw some or perhaps all of the general officers in Cuba.

Names the Rules Committee.

WASHINGTON, Dec. 7.—The session of the house lasted only half an hour today. Overstreet of Indiana, in charge of the finance bill, attempted to reach an agreement for its consideration next week, but Richardson, on behalf of the minority, rejected all proposals on the ground that a bill so important as this should go through the regular channels.

The speaker thereupon appointed the committee on rules, which is to include himself, Daizell of Pennsylvania, Grosvenor of Ohio, Richardson of Ten, nessee and Bailey of Texas. They will hold a meeting tomorrow and decide upon a rule for the ismits of the debate, which undoubtedly will consume the whole of next week.

Roberts, the Mormon representative, despite the adoption of the Taylar resolution, which in terms deprive him of his seat during the pendency of his case in committee, was in the hall throughout the session and occupied the seat he selected on Monday. AGUINALDO GOES TO CAVITE

Insurgent Leader Successfully Evade the Americans.

particulars have yet been received.

The expectation of catchiag Aguin aldo in the north has been practically abandoned and the probability now is that he will turn southward, if he is not already there, with his destination Cavite province, his hope, where the insurrection began and where it still has its greatest strength.

The Filipino soldlers in that province have recently been showing in creased enthusiasm and boldness and captured insurgents say that Aguinaldo is coming to join them with a large army. The same belief prevails among the natives at Maniia and elsewhere that Aguinaldo intends to make his headquarters in Cavite province.

There are 3,000 insurgents before Imus and Bacoor, keeping the Americans sleeping on their arms and nightly awiting attack. The Filipines have several cannon. The first mayor of Imus, under the American regime, who ultimately deserted, is their leader in the assaults and is ambitious to take the town. Three soldiers of the Fourth infantry have deserted and are now with the enemy.

The American forces in the north have separaled into many small commands and are pursuing bands of Filipinos. General MacArthur is engaged in clearing the mountain country west of the Manila-Dagupan railroad. General Grant is moving from Angeles toward Subig with 400 men. Colonel Bell is sweeping south from Mangalaran. Thus far the American commanders have been unable to locate large bodies of insurgents, although there were about 500 in San Clementine, nine miles south of Mangatarem, early in the week. Colonel Heod with the Sixteenth regiment and cavalry and General Lawton with a force from San Isidro are operating against General Pilar's army in the San Mateo valley.

Major Matchelor with a battalion of the Twenty-fourth infantry is making a daring expedition. In pursuance of this resolution Overstreet of Indiana, who introduced and who is in general charge of it, tomorrow will submit a resolution asking that a special rule be made for the consideration of this measure.
