THE LARGEST CIRCULATION OF ANY CASS COUNTY PAPER.

FRIDAY, DECEMBER 15, 1899.

THE breach in the "allied forces," caused by the senatorial contest, will be a long time in closing.

THE currency debate in the house is getting quite spirited. It will result in downing the white metal.

AND how do you like the result of the municipal election in Boston? A republican majority of 2,000 is not so bad.

GOEBEL dies hard. He is not willing to abide by his own rules and is now talking of contesting Taylor's election.

OMAHA will probably be the scene of a hanging here early in the year 1900. Our neighbor up the river is a lively burg.

SENATOR THURSTON Monday introduced a number of petitions asking for an anti-polygamy amendment to the constitution.

AN advance of 50 per cent was made on all classes of furniture yesterday. This is discouraging to young people contemplating matrimony.

AS A result of the pressmen's strike in St. Louis, there were no daylight papers issued in that city yesterday—the first publication they have ever missed.

GOVERNOR POYNTER is now beginning to realize the importance of his office. There is a little more importance connected with it than he likes just now.

THE president has assigned Major General Wood as military commander of Cuba, relieving Major General John R. Brooke, who has orders to report in Washington.

IT is not presumed that Hon. Orlando Telft expected that the governor would appoint a republican in Hayward's place, but there was no harm in asking.

THERE is one saloonkeeper in Manila who has a standing order for eight cases of beer a week from this country. But then, the rainy season in the Philippines is over.

WITH an opera house and a public bath for next season Plattsmouth will be in the swim. These additions are almost sure to get—unless too many people hold back and try to down them.

THE bitter fight over the appointment of a man to fill the vacancy in the senate is going to leave a great many sore spots and will not have the effect of doing the fusion cause in Nebraska any good.

THE Omaha Daily News was yesterday incorporated with the secretary of state, the paid up capital being \$50,000. The News is fast growing in favor in Omaha. It is a lively paper and is deserving of success.

THE Nebraska State Press association will hold its annual meeting in Lincoln on January 23 and 24. These meetings are looked forward to with no small amount of pleasure by the newspaper boys. They are a source of much information, as well as pleasure.

THE consensus of opinion in Washington and elsewhere is that Colonel Henderson will make the best speaker who has ever had the honor of filling that important position. One thing is sure—he will not cause so much dissatisfaction in the ranks of his own party.

THE citizens of Austin, Tex., have offered W. J. Bryan one of the finest residences in the city if he will locate there. The colonel is too busy hunting ducks to render a decision in the matter just now, but it is not likely he will accept the offer until after the presidential campaign.

IN AN interview published in a Springfield, Mo., paper a few days prior to the death of Senator Hayward, W. J. Bryan is quoted as favoring Allen for the vacancy in case of the Senator's death. Mr. Bryan is very careful about not getting any nearer home than Missouri with his interviews. He doesn't want to get mixed up in the muddle.

THERE is one pop editor in Nebraska who is on the square. He is at the helm of the Ulysses Dispatch and in his last issue urged Governor Poynter to call together the legislature and permit the election of a republican to fill the vacancy created by the death of Senator Hayward. This shows a sentiment that is not often seen in the ranks of his party.

CHARLES H. HARRIS, editor of the News, at Bolden, this state, last Saturday shot and killed a stockman by the name of J. H. Henshroon. The verdict of the coroner's jury was that

ZUCKWEILER & LUTZ, CORNER SIXTH AND PEARL STREETS

the shooting was done in self defense. It is stated that the article over which the trouble arose contained only facts and the editor would not make a retraction. It is getting to be too common a thing for people to demand retractions of articles that are distasteful. If only facts are given, no retraction is due.

The money in circulation in the United States has increased 33 per cent since Mr. Bryan and his deluded followers at Chicago and all over the country in 1896 announced that our money could never increase without the free and unlimited coinage of silver. On July 1, 1896, and on December 1, 1899, it was \$1,985,390,930, 964, with the prospect of crossing the \$2,000,000 mark by the end of the present month, while the gold coin and certificates increased from \$498,449,242 on July 1, 1896, to \$778,388,303 December 1, 1899, a gain of 31 1/2 per cent in total currency and 56 per cent in gold and gold certificates.

The appointment of ex-Senator W. V. Allen by Governor Poynter to fill the vacancy in the United States senate caused by the death of Senator Hayward was no surprise to the people generally, but it was a great disappointment to G. M. Hitchcock and his friends, and from the present outlook the end is not yet.

It takes but a minute to overcome tickling in the throat and to stop a cough by the use of One Minute Cough Cure. This remedy quickly cures all forms of throat and lung troubles. Harmless and pleasant to take. It prevents consumption. A famous specific for grip and its after-effects.

A gigantic flower. The largest flower in the world is the Rafflesia Arnoldia, of Sumatra. Its size is fully three feet in diameter—about the size of a carriage wheel. The five petals of this immense flower are oval and creamy white, growing round a center filled with countless long, violet lined stamens. The flower weighs about fifteen pounds and is capable of containing nearly two gallons of water. The buds are like gigantic brown cabbage heads.

One Minute Cough Cure is the best remedy I ever used for coughs and colds. It is unequalled for whooping cough. Children all like it.

A fire extinguisher which may easily be made and kept stored in bottles ready for use consists of three pounds of salt and one and a half pounds of sal-ammoniac, dissolved in a gallon of water.

Temperance has been promoted in the French army by controlling the canteen and substituting coffee, tea and cocoa for intoxicating drinks.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fissula, he would die unless a costly operation was performed; but he cured himself with five bottles of Bucklen's Arnica Salve, the surest Pile cure on earth, and the best Salve in the world. 25 cents a box. Sold by F. G. Fricke & Co., druggists.

Applications for half fare permits for the year 1900 will be renewed, and clergymen are urged to make their applications at once. W. L. PICKETT, Agent.

For broken limbs, chills, burns, scalds, bruised shins, sore throats, and sores of every kind, apply Ballard's Snow Lintment. It will give immediate relief and heal any wound. Price 25c and 50c. F. G. Fricke & Co.

A new assortment of pipes just received at H. Spies'. Call and examine the stock.

Another great discovery has been made, and that too, by a lady in this country. "Disense fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night, and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hannick & Co., of Shelby N. C. Trial bottles free at F. G. Fricke & Co.'s drug store. Regular size 50c and \$1.00. Every bottle guaranteed.

The largest tree recorded in the history of the world was found in California, near the Tule river, in 1874. When discovered the top had been broken off and the standing trunk which remained was 240 feet high, while the diameter at the place of the breaking off was twelve feet. The age of this tree was estimated to be 4,840 years. At its base, within the hollow of its trunk, 150 persons gathered.

Some children in the infancy of that tree might have chopped it down for a barbecue festival and we then should never have known its majesty and worth. How many possible giants among the trees growing in the young forests of the United States are to be destroyed this year for Christmas celebration? The conservative objects that some other method of observing that anniversary than the one which requires the destruction of millions of beautiful and useful trees should be adopted by all sensible and prudent people.

Stand up for the High School and attend Prof. E. H. Barbour's lecture at the Presbyterian church Tuesday evening Dec 19. Admission 25 cents.

Mrs. R. Churchill, Berlin, Vt., says: "Our baby was covered with running sores. DeWitt's Witch Hazel Salve cured her." A specific for piles and skin diseases. Beware of worthless counterfeits. F. G. Fricke & Co.
