

HEAVY FIRING HEARD

Believed Boers Are Contesting Buller's Passage.

Brisk Exchange of Shells at Modder River Tuesday Morning—Tucker Will Probably Succeed the Man Responsible for Magerfontein Defeat—Demonstration by Gatacre's Troops.

LONDON, Jan. 17.—A dispatch to the Daily Mail from Pietermaritzburg, dated Tuesday, says:

"There was very heavy firing to the north yesterday. I believe the Boers are contesting General Buller's passage of the Tugela. Howitzers were evidently busy, as the firing is described as the heaviest yet heard in Natal."

The Exchange and Telegraph company has received the following dispatch, dated Tuesday, January 16, from Pietermaritzburg:

"There is no news from the front, but heavy firing was heard today in the direction of Frere. It is probable that General Buller is engaging the enemy. A rumor is current here that a portion of the British force is near Ladysmith."

The Times publishes the following from Pietermaritzburg, dated Tuesday: "Very heavy artillery firing was heard yesterday in the direction of Springfield."

Boers Return British Fire.

MODDER RIVER, Tuesday, Jan. 16.—There was brisk exchange of shells this morning, the Boers returning our fire for the first time in several days.

The British entrenchments are being continually strengthened and extended. The permanent railway bridge is almost completed.

Heavy rains have fallen in the hills recently and the beds of the river are all impassable. It is reported that it will be necessary to relay the rails over almost the entire distance from Modder river to Kimberley, the Boers having used the rails and sleepers in building their fortifications. Stories still reach camp that the Free States desire to end the war. The latest report is that a council was held recently at Bloemfontein, at which President Steyn and General Cronje were present. It was then stated that unless the British began the attack by January 17 the Free States would return home. The enormous difficulty of the Boers' position is shown in provisioning their Spuytfontein army, which is far from the railway head, is very evident.

Troops Lose Confidence in Methuen.

LONDON, Jan. 16.—Evidence accumulates that General Methuen's blunder at Magerfontein has lost him the confidence of his entire force to such an extent that, it is declared, it is doubtful if the troops would follow him in another attack on the Boers.

The war office is understood to be in possession of a letter written by General Wauchope the night before the battle, saying that he would write, as he had been asked to perform an impossible task, and he had either to obey or surrender his sword.

An immediate change in the command of the force may therefore be expected. It is anticipated in some quarters that Lieutenant General Tuckey will succeed General Methuen.

The complete absence of news from Natal proves that the censorship will allow nothing to pass until General Buller's plans are executed or have failed. Even General Roberts, in his report of yesterday evening, refrained from mentioning a word about Natal or General Buller.

From the other columns there is little news of moment. Modder river advices of yesterday's date only report daily long range shelling, from which the Boers are supposed to have suffered severely.

A dispatch from Sterkstroom, dated Monday, January 15, reports that General Gatacre's troops had made a demonstration beyond Molteno, in the direction of Stormberg, in the belief that the Boers intended to seize Molteno. The burghers were not sighted and the British remained at Molteno. Arrivals from Stormberg estimate that there are 4,000 Boers at that place, mostly revolted colonists and Free Staters. President Steyn's brother is the inddroost.

General French continues to shell the Boer positions, but nothing decisive has taken place.

HAVING A GREAT RUN OF CHAMBERLAIN'S COUGH REMEDY.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction.

In these days of a grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet. For sale by all druggists.

RAILROAD NOTES AND PERSONALS

From Wednesday's Daily

A special from Deadwood says: "The Burlington Railway company has announced that it will put on a through train from Omaha to the Pacific coast, by way of Edgemont, Billings and Seattle, in the spring. Stopping privileges will be given at Edgemont and the company proposes to push tourist traffic to the Hills during the season."

Yardmaster Chet Manchester of the Burlington went to Lincoln this afternoon.

Burlington trains are now running across the bridge to Bridgeport, the first station on the North Platte river, south of Alliance. Bridgeport will undoubtedly be the county seat when Cheyenne county is divided. At present the county is in size about as large as three counties in Eastern Nebraska, and Bridgeport is nearly in the center of the northern half.

The transaction of business in the Burlington yards in Lincoln is facilitated by the use of three circuits of private telephone lines, on which nearly twenty telephones are placed. The company buys the 'phones outright, puts them in and uses them as its own. They save a great deal that would otherwise be spent for messenger service, and allow the men to transact their business more rapidly.

Within the last few days quite a number of additional men have been put on at the shops.

At Minot, N. D., a strike of serious proportions is threatened by freight train operators of the Great Northern railway. A meeting of trainmen has been held, and it was decided to go out unless a modification of the rule lately introduced compelling freight crews to do switching at terminal points was granted. In case the men go out the entire system will be affected.

A boycott has been declared by the order of railway telegraphers against the Colorado & Southern road on account of the refusal of the management to accede to the demands of the operators regarding wages and working hours.

The traveling passenger agent of the Illinois Central railroad has made arrangements to celebrate that road's through Chicago service by bringing to Omaha an excursion of newspaper men from all the towns between Duquesne and Omaha. It is said there will be about fifty newspaper men in the party.

D. C. Woodring, superintendent of bridges for the B. & M., was in town today on company business.

Master Mechanic H. J. Helps went to Omaha this afternoon.

The Burlington has issued a watch inspection order which will effect the conductors and engineers of that road. After February 1 each watch must be taken to a designated inspector at the nearest division point and gone over once each quarter during the first week in February, May, August and November. If found up to the required standard a card certifying to this fact and thoroughly identifying the watch will be given the owner.

This card must constantly be carried with the watch. This new rule is made with the idea of decreasing the number of accidents caused by miscalculations of time and defective watches.

Superintendent of Motive Power D. Hawksworth left on the early train this morning for a trip through the western part of the state.

General baggage agents now are voting upon the proposition recently made at a meeting of the executive officers of roads in the western passenger association to cease the checking of unlocked articles as baggage. The general impression is that the western roads will adopt the proposition. A great many persons would complain against a rule disqualifying telescopes and other lockless things from the list of legitimate baggage. It is claimed that the roads should agree not to check unlocked articles in justice to themselves. If telescopes were thrown out of the list there would be fewer claims for the value of articles presumably lost in transit.

Hereafter trunks weighing over 250 pounds will not be checked as baggage, but must be shipped by express or freight.

His Life Was Saved.
Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for throat and lung trouble. Regular sizes 50 cents and \$1.00. Trial bottles free at F. G. Fricke & Co.'s drug store every bottle guaranteed.

WANTED—Several persons for district office managers in this state to represent me in their own and surrounding counties. Willing to pay yearly \$600, payable weekly. Desirable employment with unusual opportunities. References exchanged. Enclose self-addressed stamped envelope. S. A. Park, 320 Caxton Building, Chicago.

AFTER CHIEF SLATER.

Professor Blair's Father Resents His Son's Arrest.

It is Claimed the Arrest Was Made Without a Warrant—Pleasant Surprise Party—Extension of the Postal Telegraph Company's Lines—Other News of Local Interest.

It will be remembered that several weeks ago Marshal Slater received a telegram from the sheriff at Kohoko, Mo., asking him to arrest and hold Prof. Blair, the magnetic healer. The marshal followed instructions, and in due time the Missouri officer arrived and took the gentleman to Kohoko. It now develops that Hon. J. G. Blair, father of the professor and ex-congressman of the First Missouri district, is in the city and is looking up the facts relative to the recent arrest of his son.

It is alleged that the arrest was made without a warrant by Chief Slater, and, it is said, a suit will be brought by Mr. Blair against the chief and his bondsmen in the United States court at Omaha for false imprisonment.

A New Telegraph Line.
The Omaha correspondent in today's Lincoln Journal has the following to say in regard to the extension of the Postal Telegraph company's lines to Plattsmouth and Nebraska City:

"The Postal Telegraph company has just completed a new line to Plattsmouth and Nebraska City and within the next week or two will open offices in both cities. The location in Nebraska City has been chosen and the work of preparing it for occupancy is going on."

"The new line will terminate, temporarily, at Nebraska City, although it is believed to be the ultimate intention to extend it as far as Kansas City by way of Atchison, taking in a number of lively little Nebraska and Kansas towns on the way. This, when completed, will make the second line of this company between Kansas City and Omaha. A recent purchase of 6,000 miles of copper wire is believed to be significant of the commencement of heavy construction work in the near future, but the head office has so far given no intimation as to what new field is to be invaded."

Lewis Dennis, Salem, Ind., says, "Kodol Dyspepsia Cure did me more good than anything I ever took." It digests what you eat and cannot help but cure dyspepsia and stomach troubles. F. G. Fricke & Co.

An Unfortunate Lad.
The twelve-year-old son of Ad Boedecker of Maple Grove was taken to Omaha Tuesday to have his leg amputated. The boy and one of his friends attended the fire tournament at the metropolis last fall and were quite impressed with the rapidly with which the firemen hatched and unhitched their horses, so thought when they got home they would attempt similar feats. Coming in with a load of hay one evening they scrambled down as quickly as possible, just as they would were there a fire to put out, and in their haste the Boedecker boy hit his knee on the single-tree, inflicting a wound which has finally made it necessary for him to have the limb amputated.

L. T. Travis, agent Southern R. R., Selma, Ga., writes, "I cannot say too much in praise of One Minute Cough Cure. In my case it worked like a charm." The only harmless remedy that gives immediate results. Cures coughs, colds, croup, bronchitis, and all throat and lung troubles.

A Surprise Party.
The home of E. B. Perry was the scene of a very pleasant little surprise party last evening. A number of friends of the family planned the affair, and when the party called at the Perry home and announced their intentions, it proved to be a complete surprise. During the evening a fine supper was served, and all report a good time.

Among those present were: Messrs. Archer, C. S. Twiss, George Hawkins; Mrs. B. C. Kerr, Mrs. Worden, Mrs. Stultz, Mrs. L. G. Larson and Miss Myrtle Worden.

Judge Fawcett Will Preside.
Judge Jensen made an arrangement with Judge Fawcett of Omaha to come to Nebraska City and preside over the next term of the district court, which convenes next Monday. This is done in order that Judge Jensen can dispose of the cases in which he is interested as an attorney.—Nebraska City Press.

HE ONLY REPEATS WHAT HAS BEEN SAID AROUND THE WORLD.
It has been demonstrated repeatedly in every state in the union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy that is that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by all druggists.

The second scientific lecture by Professor Pratt at White's opera house last night drew another large crowd. Several of the citizens in the audience permitted the professor to take scientific examinations and calculations of their heads, and learned many things in regard to their future destiny.

The chicken pie supper given by the Auxiliary Aid society of the Presbyterian church last evening was a genuine success, from both a social and financial point. A large crowd was in attendance, the supper was delicious and well served and the ladies scored another success in their ever-popular suppers—clearing about \$85.

Main, was being removed this afternoon with a large scraper.

R. H. Patton, of the firm of Patton & Bulger, has just completed a fine job of painting on the interior of THE NEWS office. He has treated the walls to a coat of beautiful pink tint, while the office fixtures which he painted and varnished have the appearance of being new. In fact, in can be truthfully said that THE NEWS office is the best equipped and neatest appearing of any of its size in the state. Now is the time to stand up for Plattsmouth and home enterprise by sending in your subscription for THE NEWS.

The Plattsmouth Telephone company yesterday completed its copper metallic circuit line to Union, and the linemen were at work today putting up the line between that place and Nehawka. When this is completed the company will be able to make connections with Nebraska City, Falls City and many Missouri points.

Manager Pollock informed a NEWS reporter yesterday that it was the intention to serenade the Nebraska City people some time next week by furnishing some fine music at the local central office and transmitting it over the new line.

On Chicago avenue, between Ninth and Tenth streets, there is a plank sidewalk that is badly in need of repairs. The walk has been doing service so long that in places the boards have rotted away, leaving openings which are liable to cause a serious accident one of these days. Last evening a citizen who lives out of that way caught his foot in one of these openings, and the force with which he struck the sidewalk was enough to knock the breath out of any one. He finally succeeded in extricating the limb, and limped away, murmuring something about always having paid his taxes.

Grain-Of-Grain-Of.
Remember that name when you want a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it. Grain-Of is made of pure grain, it aids digestion and strengthens the nerves. It is not a stimulant but a health builder and the children as well as the adults can drink it with great benefit. Costs about one-fourth as much as coffee. 1 lb. and 25c per package. Ask your grocer for Grain-Of.

SCHOOL NOTES.
The brick work (vaneering) on the new high school building began this morning. Several gentlemen were down from Omaha yesterday looking over the steam plant and making calculations relative to connecting it with the building.

No high school in the state has a more gentlemanly and ladylike collection of pupils than the Plattsmouth high school, and notwithstanding the crowded and uncomfortable conditions, they have, as a whole, done the most excellent work during the entire term, and have put up with the conditions without complaint, although they are put to considerable inconvenience. It will be a source of immense relief when the climbing up and down stairs, to reach the top floor, and also between classes, can be avoided, and the pupils can have a room capable of seating them all. Then they will not have to be seated in recitation rooms as at present, and thus be disturbed every period by having to give up their seats to classes reciting.

Gift of a Lincoln Woman.
A Nebraska City special says: The ladies of St. Mary's Episcopal church for some time past have been creating a fund to purchase a pipe organ and have about \$500 on hand. They have been most agreeably surprised by Mrs. A. J. Sawyer of Lincoln, who has sent them a fine reed organ of the best make, which will be placed in position and used for the first time on the 28th inst. The gift is highly appreciated by the members of the church.

F. G. Thirkield, health inspector of Chicago, says, "Kodol Dyspepsia Cure cannot be recommended too highly. It cured me of severe dyspepsia." It digests what you eat and cures indigestion, heartburn and all forms of dyspepsia.

A Weeping Water special to the State Journal says: This morning at 10 o'clock Walter C. Smith and Miss Mary Francis Goodale were married at the residence of the bride's father in this city, in the presence of about fifty invited guests, most of whom reside outside of the city. The ceremony was performed by Rev. Philip Smith of Sutton, Nebraska, brother of the groom. Miss Goodale is one of the most prominent and most highly respected young ladies of this city, and will be greatly missed in social and church circles. Mr. Smith is superintendent of public instruction of this county, being elected last fall. He was principal of the High school here for two years.
