

BOOM OF NAVAL GUNS

Warren's Mounted Troops Advance at Daybreak

Advance of Lyttleton's Brigade is Not Checked By Boers—Artillery Bombardment Continues All Day. Though it is Impossible to Learn Its Effects—Boers Avoid Engagement.

SPEARMAN'S CAMP, Jan. 19.—Yesterday evening Lyttleton's brigade, after a heavy bombardment since dawn by naval guns and howitzers, advanced in extended order toward the Boer positions facing Potgietersdrift, but, failing to draw the enemy's fire, returned.

A balloon has also been searching the positions. Warren's mounted troops have also engaged the enemy, as officially announced. Warren is again advancing this morning early. Naval guns are also bombarding.

Expert Opinion.

LONDON, Jan. 19.—The Leader expert says: "There is every indication that a big fight for the western roads will take place today, though it may have commenced yesterday. All the artillery of Warren and Hildyard was not across the deserts yesterday morning and the ammunition train and most of the heavier guns were probably then still south of the Tugela. These indications, as well as Warren's longer march, point to the serious effort being made today."

The Post expert says: "Probably the whole British force was yesterday on the move and perhaps fighting. Fighting when it comes will be heavy and the losses severe."

Warren Close to Acton Homes. London, Jan. 19.—The Daily News dispatch from Potgietersdrift, dated January 19, says: Warren's force is moving round to the west on a line taken up by Dundonald. Warren is now close to Acton Homes.

Telegram of same date says Dundonald and Warren have command of an easy road into Ladysmith and have cut off the Boer communication with the Free State.

Buller Has Large Army. LONDON, Jan. 20.—4:30 a. m.—Every hour that General Buller delays his combined attack makes his position stronger. Transports continue to arrive at Durban and fresh troops are being sent up the line to reinforce those in front of Colenso. It appears that General Buller's troops north of the Tugela number at least 22,000 and possibly 25,000, with fifty guns. His total forces, forming a great outer curve south and west of Ladysmith probably number 40,000.

While General Buller's forward operations, which began January 10, develop rather leisurely, the Boers appear to be fully aware that they must meet a strenuous assault. Balloon observers have roughly estimated that 10,000 Boers are using spade and pick in artificially strengthening positions which nature has rendered easy of defense.

Military critics in touch with the war office think that general fighting has or may begin soon. It is not thought that one day's fighting will settle the fate of Ladysmith, but rather that there will be two or three days of continuous fighting.

A Durban special dated Thursday night says: "It is reported here that Lord Dundonald has smashed a Boer column. General Buller is said to be within twelve miles of Ladysmith and General Warren to be about six miles to the rear."

The Times has the following dispatch dated Thursday from Pietermaritzburg: "General Buller's wagon train is nineteen miles in length, and embraces 400 wagons and 5,000 animals. As some of the trails are narrow and muddy, only one wagon is able to cross at a time. The officers are betting 2 to 1 that Ladysmith will be relieved tomorrow (Friday)."

Dies for Another Man's Crime. ST. PAUL, Minn., Jan. 19.—A report has just reached here from relatives of the deceased that old man Slower recently died in California and that he made a deathbed confession to the effect that he killed Moses Lufkins in Gales township, this county, some twelve years ago, instead of William Rose, who was afterward hanged for the crime. There was only circumstantial evidence against Rose, whose attentions to Grace Lufkins had been forbidden by her father. On the first trial the jury disagreed, but the second trial resulted in conviction. In a speech from the gallows Rose affirmed his innocence and charged Slower with the crime.

LINCOLN MAN AS A TARGET

Ernest C. Ames Is Shot Twice Near a Wyoming Mine.

CHEYENNE, Jan. 19.—Ernest C. Ames, a Lincoln, Neb., lawyer and mining expert, was shot today at Silver Crown, twenty miles north of here, by Horace Adams.

Ames, accompanied by George C. Clason, a mining man who owns some properties in the Silver Crown district, went to the camp today to make an examination of the Copper King mine, which had been relocated by Clason. They were met at the mine by Adams, a resident of Silver Crown, who disputed their right to make the examination, claiming that his father owned the property, having located it many years ago.

Ames and Clason maintained their rights, when Adams, it is alleged, rushed at them with a pick. Before reaching them he dropped the pick and drew a pistol.

Several shots were fired. The first struck a button on Ames' coat and was thrown to one side, inflicting a flesh wound in the stomach. The last shot struck Ames in the right leg and he fell to the ground, whereupon Adams fled.

Ames was brought to Cheyenne and given medical attention. Adams came in later and gave himself up. Ames' wounds will lay him up for a short time only, unless blood poisoning should set in. Adams says he was attacked by the two men and shot in self-defense.

Attempt on Life of Otis. CHICAGO, Jan. 19.—A special to the Chicago Record from Victoria, B. C., says: J. P. Molera, who arrived from Manila, tells of an attempt on the life of General Otis. In conversation in reference to the situation there he said that General Otis once appeared on the firing line, when a shot from the rifle of one of the soldiers whizzed uncomfortably close to his head. As to who fired the shot no clue was discovered.

WOMAN'S CLUB MEETING

Their Session Last Evening Was Largely Attended.

Several interesting subjects discussed by the members—Committee appointed to inquire as to the laws regulating sale of cigarettes and tobacco did not report.

The meeting of the Woman's club Friday evening was well attended and those present entered with active interest in evening's program. As only one member of the committee appointed by the president to inquire into the laws regulating the sale of cigarettes and tobacco to minors was present, action was deferred until the next regular meeting.

Mrs. Steeth led the parliamentary drill in a very entertaining manner the subject "Amendments" arousing much interest under her skillful direction. Miss Gass, as leader of Literature had for her subject, "English and American Humorists Compared," and illustrated the lesson by well selected readings from both American and English writers of that class. This part of the program was most entertaining and the hour for adjournment came much too soon. Judge Sullivan will lecture before the club next Friday evening.

RAILROAD NOTES AND PERSONALS From Saturday's Daily.

It is said that the Burlington will build a new shop plant at Alliance in the spring.

The question of ice supply is one that is now worrying the railroad managers. Many of the ice houses are running short of congealed moisture, and the present state of the weather gives little promise of an early supply. Arrangements have been made at Lincoln to take advantage of the first cold snap that freezes ice to the required thickness.

Charley How, the Burlington supply agent at Hannibal, Mo., came in this morning for a visit over Sunday.

The deliberations of the Brotherhood of Locomotive Firemen and Engineers, which has been in session in Omaha for the past several weeks, are drawing to a close. Several propositions have been made to the Union Pacific, regarding new rules, but none of them have so far been acted upon.

The dispatches from Chicago yesterday stating that all eastern roads have decided to pool their interests and thus make a general reduction in the working forces, is causing much comment in railroad circles. One prominent official said: "If the eastern roads carry out their proposition, it will probably follow that roads west of the Mississippi river will sooner or later take the same stand, I believe the practice now in vogue, on many lines, of giving favored ones positions they are not fitted to fill, or which they cannot fill with profit to the roads they represent, is largely responsible for the proposed change."

Work on the eight new passenger locomotives now under construction at Havelock is progressing satisfactorily. One of the big machines is now nearly ready for testing, and is expected to be ready for service about the first of February. The other engines will follow as rapidly as they can be completed.

A Sad Death. The home of C. E. Joyce, a prominent citizen of Weeping Water, was totally consumed by fire Saturday noon about the time the fire was discovered Mrs. Joyce ran out of the house screaming and her clothes afire. The husband was in the barn at the time, and hearing some one scream, he ran toward the house, meeting his wife in the yard. He finally succeeded in smothering the flames that enveloped her, but not before she had been dangerously burned, from the effects of which she died about 10 o'clock last evening. It is not definitely known how the fire started.

Mrs. Joyce was a daughter of James Clisbee, deceased; was born and raised at Weeping Water and was about thirty-three years old. She leaves a husband, one son, her mother, one brother and three sisters, who feel their affliction as doubly severe, from the circumstances attending it.

The loss of property is about \$1,000, with \$500 insurance.

The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the alarming number of deaths which result from it. The disease is in the blood, and hence can not be cut out. Nine times out of ten the surgeon's knife only hastens death.

My son had a most malignant cancer, for which the doctors said an operation was the only hope. The operation was a severe one, as it was necessary to cut out the cancerous growth. Before the cancer returned, and he grew rapidly, we gave him many remedies without relief, and finally, upon the advice of a friend, decided to try S. S. Swift's Specific, and with the second bottle he began to improve. After twenty bottles had been taken, the cancer disappeared entirely, and he was cured. The cure was a permanent one, for he is now severer than ever, and has never had a sign of the dreadful disease to return. 279 Snodgrass St., Dallas, Texas.

Absolutely the only hope for Cancer is Swift's Specific.

S.S.S. For the Blood as it is the only remedy which goes to the very bottom of the blood and forces out every trace of the disease. S. S. S. is guaranteed purely vegetable, and contains no potash, mercury, or other mineral.
