## ECZEMA = SATANIC

This most aggravating and tormenting of all skin diseases is caused by an acid condition of the blood, and unless relieved through certain instrumentalities too much of this acid poison reaches the skin and it becomes red and inflamed. The itching and burning are almost unbearable, especially when overheated from any cause. The skin seems on fire, sleep or rest is impossible, the desperate sufferer, regardless of consequences, scratches until strength is exhausted. This burning, itching humor appears sometimes in little pustules, discharging a sticky fluid, which forms crusts and scales. Again the skin is dry, hard and fissured, itches intensely, bleeds and scales over.

This is a painful and stubborn form of the disease. While Eczema, Tetter, Erysipelas, Salt Rheum and many like troubles are spoken of as diseases of the skin, they are really blood diseases, because

## THERE CAN BE NO EXTERNAL IRRITATION WITHOUT AN INTERNAL CAUSE.

If the blood is in a pure, healthy condition, no poisonous elements can reach the skin. External applications of washes, lotions and salves sometimes mitigate the itching and soothe the inflammation, but cannot reach the disease. Only S. S. S., the real blood medicine, can do this. S. S. S., the only purely vegetable remedy known, is a safe and permanent cure for Eczema and all deep-seated blood and skin troubles. It goes direct to the seat of the disease, neutralizes the acids and cleanses the blood, re-inforces and invigorates all the organs, and thus clears the system of all impurities through the natural channels; the skin relieved, all inflammation

Mrs. Lefa M. Hoffmin, of Cardington, Ohio, says she was afflicted with Scrofulous sores and Eczema from birth. Her face at times became so badly swollen that she was not recognizable, and her limbs and hands were very sore. She was treated by all the doctors in town without being benefitted, and in her researches for relief, was told by an old physician to take S. S. She followed his advice and was promptly cured, and has never had a return of the disease. This was seventeen years ago. She sincerely believes she would have been in her grave years ago but for S.
