In this action the plaintiffs ask for a judgment \$28.80, as assessments on certain crops, together with 8 per cent interest from October, 1899, and costs of suit. Now comes the defendant with a counter claim, and alleges that the said crops were damaged by hail, while insured in that company, to the extent of about \$200. He accordingly asks that the company be asked to pay this amount.

The controversy tids fair to develop many interesting features.

Dies In California

One of Cass County's Pioneer Citizens

A letter from Fernando, Calif., brings news of the death of Stephen B. Hobson of that place on April 2. Very many Plattsmouth people and all of the old settlers of this county will remember that Mr. Hobson was one of the Tomas, pioneers of Nebraska, having settled on a farm near Nehawka in August, 1856, and resided there until about daughter, Mrs J. H. Bates, who preceded them to the golden state som

held under a large oak tree rear his farm. And as long as he remained here he devoted much time and money to the support of the Sabbath school and church. He also did much work in the temperance cause, being a menber of the Good Templars.

Mr. Hobson was a firm believer in Nebraska as a fruit growing country and devoted much money to bring this abolt, and was successful to a great degree. He was one of the first members of the Nebraska Horticultural society and was sent to the Centennial exposition at Philadelphia in 1876, as a representative of that body, and his display of Nebraska fruits at that place attracted great attention and some prizes were brought home, as a result.

Deceased was seventy-eight years of age and leaves a widow and three children-Mrs J. H. Bates of Fernando, who will look after the bereaved of the surrounding vicinity. The sta- Bloemfontein, April 11.—Remounts

BOILS & CARBUNCLES

These unwelcome visitors usually appear in the spring or summer, when the blood is making an extra effort to free itself from the many impurities that have accumulated during the winter months. Carbuncles, which are more painful and dangerous, come most frequently on the back of the neck, eating great holes in the flesh, exhaust the strength and often prove fatal. Boils are regarded by some

people as blessings, and they patiently and uncomplainingly endure the pain and inconvenience under the mistaken idea that their health is being benefitted, that their blood is too thick anyway, and this is

Nature's plan of thinning it. The blood is not too rich or too thick, but is diseased—is full of poison—and

unless relieved the entire system will suffer. The boil or carbuncle gives warning of serious internal troubles, which are only waiting for a favorable opportunity to develop. Many an old sore, running ulcer, even cancer, is the result of a neglected boil Keep the blood pure, and it will keep the Baneful skin clear of all the irritating impurities that cause these painful, disfiguring diseases. Boils S. S. S. cures boils and carbuncles easily

Mr. R. M. Pratt, Cave, S. C., writes:
"For twenty years I was sorely afflicted with boils and carbuncles caused by impure blood. It is impossible to describe my suffering; part of the time being unable to work or sleep. Several doctors treated me, and I tried all the so-called blood remedies, but nothing seemed to do me any good. During the summer of 1888 I was persuaded to try S.
