THE LARGEST CIRCULATION

of any Cass County Paper.

TUESDAY, MAY 1, 1900.

IT LOOKS like R. B. Schneider for national republican committeeman.

UNCLE SAM (to the voters): "These legislatures have been making some mighty poor catches lately. I think I'll let you try your hand in catching my senators."

GOVERNOR ROOSEVELT has again stated that he will not take the nomination for vice president. He thinks he can serve his state and party better as governor of New York.

The Marquette club of Chicago, at its banquet, endorsed Colonel Roosevelt for president in 1904. The colonel was present and, of course, appreciated the high honor.

SENATOR WOLCOTT of Colorado is to be temporary chairman of the republican national convention and Senator Lodge of Massachusetts permanent chairman. They are able speakers as well as good presiding officers.

MOSES P. KINKEAD was nominated Thursday for congressman from the Sixth district. The convention was enthusiastic and harmonious. Senator Thurston, John L. Webster and Editor Rosewater were present.

It is understood that H. B. Groves will now devote his entire time to newspaper work. He can find plenty to do without the telephone business. There is no limit to the amount of time one can put in on a newspaper.

GENERAL WHEELER is likely to be the next hero to get married. It is rumored that he is engaged to Mrs. George W. Childs. Politicians will doubtless want interviews with her to ascertain her ambitions for her husband-to-be.

COLONEL GILBERT M. HITCHCOCK, editor of the World-Herald, and of "sting-of-ingratitude" fame, was mixing medicine with the leaders of the fusion forces of this city today. No doubt matters political were satisfactorily arranged.

SENATOR PENROSE talks of resigning his seat in the United States senate in order that Governor Stone may appoint M. S. Quay. Mr. Penrose thinks he might possibly be again elected to the position, but realizes his friend's chances are not at all flattering.

It is thought that from the goodness of their hearts, for the good of the cause and for the sake of harmony, both Senator Thurston and Editor Rosewater might be induced to withdraw from the race for delegate to the national convention. Such action on their part would place the republicans of Nebraska under everlasting obligations to them.

CONGRESSMAN MERCER arrived in Omaha this morning. He says this is the first time in seven years that he has left Washington while congress was in session. He thinks McKinley will be elected with less trouble than in 1896. Mr. Mercer has proven a faithful and efficient servant to his district and to the state, and is to be again returned to Washington.

The anti-cigarette movement is gaining strength rapidly. The ordinance passed by the Chicago city council has been sustained by the supreme court and there is talk of passing a similar ordinance in Omaha. Mayor Moores has expressed a willingness to sign the same if passed. Many business men of Chicago and other cities refuse to employ anyone who smokes cigarettes. It might be well for Plattsmouth to do something in this line to help her young people.

SO FAR from being disturbed by the candidacy of Mr. Lambertson for governor, C. H. Dietrich of Hastings is more strongly determined than before to secure the nomination. He has now for the first time declared himself a candidate, and says he is confident of having 600 votes on the first ballot. There is no reason for Dietrich or his supporters to take any other position. He has been in the field long enough to have made positive strength, and he would make a strong candidate and a splendid governor.—Seward Reporter.

AN EXCHANGE states that the latest proposition is a farmers' trust. The plan is to interest the farmers of the whole world in a scheme to restrict the production of wheat and raise the price to one dollar a bushel. The attempt is to be made at the international agricultural conference, to be held at Paris in July. J. C. Hanley of Minnesota and Professor Rubland of Switzerland are the promoters of the plan. Their idea is to reduce the acreage of wheat 20 per cent, which, they claim, will easily accomplish the desired end. The proposition is a gigantic one, and it is feared its promoters will hardly be able to make it win. It is also thought that farmers are too much opposed to trusts to care to enter into the deal.

GOLD IN CIRCULATION.

On the first day of April, 1900, there was sixty per cent more gold coin in circulation among the American people than there ever was before that date, says the Conservative. The presidential candidate of the vagabonds in 1896 predicted that prosperity would perish from the land, gold disappear and general grief and apathy envelop the republic if 16 to 1 were defeated. The "money trust" would gobble up the globe by a foreclosure of its mortgages. The "plain people" would be all afield, like Nebuchadnezzar, eating grass and dismally browsing on shucks and stubble.

What a prophet Colonel Bryan is demonstrated to be! But what profiteth it a man to prophesy if he lose the presidency?

The annual state encampment of the G. A. R. and W. R. C. will convene at Beatrice on May 8 for a four days' session. Several delegates expect to go from this city. There is some talk of getting the next encampment for Plattsmouth, and as the affair is a big one, the project should be encouraged in every possible way. At the time of year which the encampment is usually held Plattsmouth could entertain and take care of almost any number of guests. Stand up for Plattsmouth!

The natives of Porto Rico were astonished at the simplicity of the costume of their first civil governor, Charles Herbert Allen. When he was pointed out as their executive one would have believed them to be Missourians rather than Porto Ricans. They had expected to see him in gorgeous uniform covered with gold lace and similar trappings.

The democratic county convention of White county, Tenn., held last Saturday passed strong resolutions declaring for the retention of the Philippine islands. While they endorsed W. J. Bryan for president they were not at all backward in letting him know that they are for expansion.

THEODORE ROOSEVELT has been elected commander of the Naval and Military order of the Spanish-American war. The election of officers took place in New York city last Saturday.

THIS IS to be a memorable week to Admiral Dewey and wife as well as for Chicago. Extensive preparations have been made for receiving them.

The former president of the so-called Filipino cabinet, Sanor Paterno, was captured in the mountains near Trinidad April 25.

INFORMATION AND OPINION.
A physician in Scott County, Kan., recently moved to another part of the state because he could not make both ends meet in his practice, but his services were so badly needed in the old field that the citizens circulated a petition asking the county commissioners to appropriate a bonus of \$500 annually to the doctor that he should return. The commissioners made the appropriation and the doctor has gone back to his former home.

Recent tests which have been made by the United States and France with types of submarine ships of war have caused considerable comment among military and naval experts of Europe. The problem of the submarine torpedo boat seemed so far solved that attention is being directed to the means of meeting their attacks. Our government has decided to purchase for \$150,000 the Holland, with the understanding that the Holland company deposit in some national bank the sum of \$60,000 as a surety that it will complete the construction of the submarine boat Plunger, already contracted for by the government. Few officers of the navy have, until recently, realized just what the Holland and the ships of like construction are capable of performing. The tests made this spring in the Potomac river, have been witnessed by naval experts of this as well as other governments, congressmen and representatives of the press. After seeing the little craft dive all have been greatly impressed with the invention.

Dr. Disbrow of Plattsmouth has discovered a remedy for the cure of the liquor habit, which, if reports are true, leads the famous Keeley cure by several points. Some of the drinkers of Plattsmouth have tried the doctor's treatment and say that they had no desire for further indulgence after taking one dose of his medicine. A stock company is to be formed at Plattsmouth to handle the remedy.—Weeping Water Republican.

This is the season when the patent medicine men are all run down, that your blood is out of order, that your head aches, and so on; all of which is untrue. You feel better in the spring than you do at any other time; of course you are a trifle lazier then, and you try to convince yourself that there must be something wrong with your liver because you are lazy; but is part of the divine scheme of nature that man should be lazy in the spring; it is a notification to him that he should quit working and go fishing. Yet men are such chumps that instead of obeying the definite instructions of nature they hope themselves with medicine, and toll away as though it were their duty to do so. Never work in the spring; never work at any time, if you can help it.—Walt Mason.

J. L. Carson, Prothonotary, Washington, Pa., says: "I have found Kodol Dyspepsia cure an excellent remedy in case of stomach trouble, and have derived great benefit from its use." It digests what you eat and cannot fail to cure. F. G. Fricke & Co.

Does Coffee Agree With You?
If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15c and 25c.

SCHOOL NOTES.

If everything is in readiness Friday of next week will probably be devoted to moving the high school books, apparatus, etc., to the new building. It is desired to have the dedication upon Saturday, May 5, and to have work begin the Monday following.

The botany classes are beginning to collect the thirty-five specimens of flowers which they are required to mount for their herbarium. About two half-days will be granted them, together with the zoology class, to do field work between now and June 1.

The board of education recently appropriated a portion of the tuition money towards the purchase of a piano for the new high school building and appointed Mr. Windham to secure the same. He has secured a very excellent instrument, slightly used, at a low price, and it is expected to be in place Monday or Tuesday of next week.

The chemistry class is busy putting the laboratory of the new high school building in order. The laboratory will be completely and efficiently fitted up, though not with great expense. A laboratory fee of \$1 will probably be charged each member of the chemistry class in the future in order to cover the expense for chemicals, breakage of glass, etc.

Miss Harriet Packard, who was elected to fill the vacancy in the high school, caused by the resignation of Miss Eikenberry, will arrive in the city Sunday morning and will enter upon her duties Monday morning. She will take the zoology, general history and rhetoric classes for the remainder of the year. She will have charge of the science department next year. Miss Eikenberry closed her term of service this week.

The Plattsmouth high school is more fortunate than those of most of the cities in the state this spring, as most of the other cities relying upon the constitutionality of the new high school tuition law have not collected any tuition from the non-resident pupils, expecting to collect from the county and will now probably be unable to collect anything, either from the pupils or county, since the law was declared unconstitutional. Upon the recommendation of Superintendent McHugh the board of education here has been collecting \$2 a month since January 1, with the understanding that it would be returned if the county would pay.

Woman's Club Meeting.
The Woman's club met last evening at the usual place. An entertaining program was furnished by the Parliametary Law and American Literature departments. A mock session of the City Improvement society was held and various improvements were suggested and carried out—in their minds—by various committees, among which was mentioned a war of extermination on the weeds that choke up the highways during the summer and the care and improvement of the parks. A protest against the disseminating of news through the medium of papers thrown in the street crossings and sidewalks also received attention, and what should be done was gravely discussed, and what would be done if the Women's club held the reins of government.

American Literature department occupied the latter portion of the evening and an analysis of the characters in Evangelism was given by Mrs. Steath, Mrs. Herold, Mrs. Urub and Mrs. Wise. These papers were all good—especially that of Mrs. Urub—the beautiful character of Evangelism being treated in a scholarly and exhaustive manner.

The annual election of officers will take place next Friday evening, the meeting to be held at Mrs. Elson's.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on F. G. Fricke & Co. druggists, and get a free trial bottle. Regular size 50c and \$1. Every bottle guaranteed.

Spreads Like Wildfire.
When things are "the best" they become "the best selling" of Abraham Hare, a leading druggist of Belleville, O., writes: "Electric Bitters are the best selling bitter I have handled in 20 years. You know why? Most diseases begin in disorders of the stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, purifies the blood, strengthens the nerves, hence cures many maladies. It builds up the entire system, puts new life and vigor into any weak, sickly, run-down man or woman. Price 50c. Sold by F. G. Fricke & Co., druggist.

For coughs and colds there is no medicine so effective as Ballard's Homebound Syrup. It is the ideal remedy. Price, 25 cents and 50 cents. F. G. Fricke & Co.

That Throbbing Headache
Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by F. G. Fricke & Co.

THE ULTIMATUM IS ISSUED

Democrats Must Abandon the Silver Plank and Its Discredited Leader.

Those who opposed 16 to 1 in 1896 oppose it today, says J. Sterling Morton of the Conservative. Experience has verified their opinions and made them more intense in their convictions. On the other hand, individual instances are known in every community of the evolution of a Bryanist into a gold standard democrat. The extent of a change in political opinion, however, can be estimated more accurately by a citation of an organized body of men than by a reference to individuals. The organization is national and speaks for the many, while the individuals are but local and speak for themselves.

The bolters of the regular republican convention in 1896 organized the silver republican party, as distinctly typifying their opposition to the gold standard and their loyalty to the free coinage of silver at 16 to 1. The leaders of this party have decided on a change of name, dropping the word silver, thereby causing their party to lose its original significance as a party organization and recognizing the fact that the issue that gave it birth no longer lives.

Charles A. Towne, the well known ex-congressman from Minnesota and chairman of the national committee of the silver republican party, in a recent interview said that a part of the Chicago platform did not apply to present conditions, that it was framed to remedy falling prices, while today we have a raise in prices.

With this evident feeling of renunciation on the part of those who were the most prominently identified with silver in 1896, why should the democrats be less rational? Why should they reaffirm the Chicago platform and by so doing make the ridiculous assertion that prices are falling, when, as everybody knows, they are rising? Why resolve a lie in regard to a well known fact of trade? What would people think of a scientist who would stake his reputation upon asserting, as a fact, the opposite of a recognized scientific truth. What should be our verdict upon a political party that would base its political philosophy upon a self-evident untruth? If the silver republicans, who owe their political birth to the sweet delusions of 16 to 1, are now willing to forsake it, ought not the democrats, who were only beguiled into accepting the vagary, be willing to abandon it?

There is absolutely no reason for the democrats to commit such an act of folly as to again become sponsor for 16 to 1. The only object in doing so is to give a semblance of consistency to the candidacy of the man who is now most prominently mentioned for the nomination. Sixteen to one and Bryan are inseparable. It was as the leader of this mistaken theory of finance that he became known to the American people. As a political leader he stands for this and nothing else. Sixteen to one means Bryan, and Bryan means 16 to 1. To drop 16 to 1 would destroy the logic and consistency of his candidacy. For him to abandon the cheap money fallacy and go before the people as the exponent of an opposing idea would condemn him as a feeble adventurer. It would brand him as a more soldier of fortune, who would impulsively espouse anything he believed for the moment to be popular and give promise of big dividends on election day. The democrats must either endorse 16 to 1 for the childish purpose of enabling one man to say "I told you so," thus placing individual pride above national good, or they must drop the sacred ratio and the man who is typical of it.

INTERESTING COUNTY CULLINGS.

Cullings From County Exchanges Dished up for "News" Readers.

From the Union Ledger.

William Lindsey was a passenger to Plattsmouth Thursday.

Commissioner Cox was in town Tuesday morning, returning home from Plattsmouth.

Charles Brandt, one of Nehawka's merchants, was in town Tuesday on his way to Plattsmouth.

Mrs. J. A. Donelan of Weeping Water changed cars here Thursday evening, returning home from Plattsmouth.

Judge Sullivan was down from Plattsmouth last Friday on legal business, and favored us with a social call.

W. M. Talkington arrived on Tuesday from Iowa, where he spent three months among relatives and friends.

Commissioner Zink was a pleasant caller at this office Tuesday morning, while on his way home from Plattsmouth.

Will Albis, who has been living in Plattsmouth, was in town Thursday and stated that he had located in Nehawka.

Colonel Daniel Burris came in Tuesday evening for a visit with his son, George, and other friends and relatives in this neighborhood.

Bad Harless called Thursday and reported a wolf catch that was made near G. W. Schrader's farm in Rock Bluffs precinct Wednesday. Fred Bell, Rob Fitch and James Fitch found the den and captured eight of the animals without losing a man. They will place the scalps on file with County Clerk Robertson.

That Throbbing Headache
Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by F. G. Fricke & Co.

BAND GIVES A CONCERT.

People Who Thronged Garfield Park Hear Some Fine Music.

The B. & M. band gave the first open air concert of the season at Garfield park Sunday afternoon. The park was thronged with interested listeners and each number was followed with merited applause. An especial feature of the program was two fine solos with band accompaniment, Honey-suckle Polka played by C. L. Currier being an example of almost faultless execution. A trombone solo by W. B. Richardson was in every sense an artistic effort and was heartily endorsed. Both of these gentlemen are recent acquisitions to the B. & M. band, and are deservedly popular. The concerted numbers were well given and Mr. Schulhof, as director, must feel a pardonable pride in the excellent work done under his leadership. A number of musicians from Glenwood took part in the concert, arriving in time for the last two numbers.

The concert given yesterday was a prelude of a series of twenty concerts which they intend to give during the summer if they can secure a reasonable sun in compensation for their efforts. They will alternate the Sunday concerts in park and the Thursday evening concerts on the street. They desire also to have lights placed in the band stand in the park, so they can hold evening concerts there.

Mr. Schulhof will call on the business men soon to ascertain whether they will assure them the means to push the work of the band. The boys are well equipped and capable to give first class music and should have the co-operation and support of every citizen.

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by all druggists.

REPUBLICAN STATE CONVENTION.

The republican electors of the several counties of the state of Nebraska are hereby called to meet in convention at Lincoln, Neb., May 2, 1900, at 2 o'clock p. m., for the purpose of selecting four delegates and four alternate delegates to the National republican convention, which convenes in Philadelphia June 19, 1900; also to place in nomination candidates for the following offices:

- Eight presidential electors, Governor,
- Lieutenant governor,
- Secretary of state,
- Treasurer,
- Auditor of public accounts,
- Attorney general,
- Commissioner of public lands and buildings,
- Superintendent of public instruction.

The basis of representation is one delegate at large and one delegate for each 100 votes and major fraction thereof cast for Hon. M. B. Reese for judge of the supreme court at the election held in 1899. The several counties are entitled to delegates as follows:

Counties.	Del.	Counties.	Del.																																												
Adams	1	Johnson	13																																												
Antelope	1	Kearney	13																																												
Banner	1	Keith	3																																												
Bowling Green	1	Keya Paha	2

Hooker	1	York	21																																												
Howard	1	Total	1633																																												

It is recommended that no proxies be allowed, but that the delegates present cast the full vote of the delegation. The county conventions in the several counties held for the purpose of selecting delegates to this convention shall select the county committee and officers thereof. At the state convention the state central committee from the odd numbered senatorial districts will be selected for the ensuing two years, and the new state committee will hold its meeting at the close of the state convention.

ORLANDO TAFT, Chairman.
J. H. MALLALUE,
Secretary Pro Tem.

Those horrid fits of depression, melancholy, low spirits, and sudden irritability, that sometimes afflict even good-tempered people, is due to the blood being permeated with black bile. Herbine will purify the blood, restore health and cheerfulness. Price 50 cents. F. G. Fricke & Co.

A Follower of Measles.—In many instances a persistent cough follows an attack of measles. In speaking of this Mr. Walter B. Beel, editor of the Elkin (N. C.) Times says: "Three weeks ago I had an attack of measles which left me with a bad cough. I took several doses of Chamberlain's Cough Remedy and the cough has entirely disappeared. I consider Chamberlain's medicines the best on the market." For sale by all druggists.

UNION BLOCK SIXTH ST. MISS TUCKER.

A Good Time Coming.

Seldom has there been so much interest aroused concerning the presentation of a home talent play as the coming production of the successful comedy, "Her Majesty's Guardsmen," for the public library.

Mr. Willard, under whose direction the play is being given, has succeeded in getting together perhaps the best talent ever brought out in Plattsmouth. Their names alone are always a guarantee for a full house and an artistic performance. Mr. Willard has been with some of the best companies in the east. Less than five years ago he started as super in Richard Manfield company, and today he is recognized as a clever leading man. He has assumed fully one hundred roles during his dramatic career, and has worked his way by sheer merit to that enviable position where the manager seeks the actor, and not the actor the manager. He has been under such able stage managers as Henry Witter, McKee Ranken, John Jack, J. C. Hoffman and George O'bourne.

Of course much will be expected both from him and the company. But if one can judge from the manner in which the first two acts were rehearsed Saturday night, as witnessed by a News reporter, it is safe to state there will be lots of fun and no one disappointed. The play is a most laughable one, and first produced in this country by the late Augustin Daly.

The following are the stars in support of Asa Lee Willard, who will twinkle on next Monday and Tuesday evenings, May 7 and 8: Messrs. A. W. Magowan, Will Coolidge, Lee Atwood, Denny Hiatt and Misses Ethel Dovy, Ella Clark, Nellie Hopping, Lillian Kauble.

How's This?
