

RIGHT MAN CAPTURED.

Had Recently Broken Into a Jewelry Store at Wahoo.

Saunder's County Sheriff Identifies a Suspect in the County Jail and Has Taken Him to Wahoo, Where the Prisoner Will Be Held Upon to Answer to the Charge of Burglary.

From Wednesday's Daily.

The sheriff of Saunders county came in from Wahoo this morning after Hamilton, the young man who was mentioned yesterday as being guilty of breaking into some jewelry store. Later in the afternoon the local authorities learned by telephone that he was wanted at Wahoo.

When the Saunders county official was shown the jewelry taken from the prisoner he was quickly convinced that the right man had been captured. He left with young Hamilton on Burlington No. 3 this afternoon for Wahoo.

The robbery was committed on April 23, and the owner of the store which was broken into estimated his loss at \$200. Hamilton came to this city with two pals, and it is quite certain that one of them was implicated in the crime with him.

The Omaha authorities also arrested a man on suspicion of being the one wanted at Wahoo, but they have been notified to turn him loose.

PAINTERS GO FISHING.

Charles Forbes, Val Burkell, Tom Tidd, Rosta Boeth, Ed Postal, Robert Bennett, Clarence Forbes, Robert Bell, Charles Currier, Joe Harduba, Dick Cline, Martin Kennedy, O. Andrews, Wesley Bookmeyer and several others composed a party of painters from the B. & M. shops who went to La Platte this morning to spend the day fishing—this being their annual holiday. The boys took with them enough fishing tackle, grub and refreshments to last a week, and even if they do not capture all the fish in that region, there is no doubt but what they will have a very enjoyable time.

Two more suits of the United Mutual Hail Insurance company were to have been tried today before Judge Douglass in county court, but one of them has been postponed and the other satisfactorily settled out of court. The former was instituted against J. M. Craig to recover \$60, alleged to be due as assessments, but upon affidavit of defendant a continuance of thirty days was taken, while the latter was brought against Thomas A. Sullivan—the company asking for a judgment in the sum of \$48.

A KEEN KID BRAIN.

Your best feelings, your social position or business success depend largely on the perfect action of your stomach and liver. Dr. King's New Life Pills give increased strength, a keen, clear brain, high ambition. A 25 cent box will make you feel like a new being. Sold by F. G. Fricke & Co. Druggist.

AN IMPROPER MATTER.

County Attorney W. W. Wilson is up a stump, as it were, as to what to do with children who are brought into the county court and sentenced to the reform school, as the state funds for the transporting of the children, sentenced to that school, has been exhausted and the officers do not care to put up their money and run the risk of getting the same back from the state when the legislature makes another appropriation. Unless the county commissioners make some provisions to care for these expenses no one convicted and sentenced to the reform school can be taken there, but will have to be held in the county jail or released on bonds until some funds are available for this purpose. The county attorney will be both to file or allow to be filed any complaints of this nature in the future unless the complainant or some one assures the court that the expenses will be forthcoming as soon as the conviction is secured.—Nebraska City News.

ARGUE STANDARD OIL CASE.

Constitutionality of the State Law Submitted to the Court.

The following in regard to the case of the State of Nebraska vs. the Standard Oil company, which was taken up in supreme court yesterday, is clipped from the Lincoln Journal:

"The constitutionality of the anti-trust law of Nebraska was argued yesterday in the supreme court in the case of the state against the Standard Oil company. The case came up on a demurrer of the state to that part of the answer of the company that questions the constitutionality of the state law under which Attorney General Smyth seeks to prevent the company from doing business on the ground that the company is a 'trust.' One hour for argument was given each side. Attorney General Smyth appeared for the state. Senator John M. Thurston, one of the company's attorneys, did not appear before the court and it was said by his co-laborers that he was no longer in the case. However, there are no papers on file showing that he has withdrawn as attorney in the case. It is the court decides the demurrer of the state in favor of the Standard Oil company the suit will end with the fall of the state trust law. If the decision is in favor of the state the court will proceed to take evidence on the allegations in the state's petition. The motion of the state was submitted at the close of the argument in the afternoon."

TORTURED A WITNESS.

Intense suffering was endured by witness T. L. Martin, of Dixie, Ky., before he gave this evidence: "I coughed every night until my throat was nearly raw; then I tried Dr. King's New Discovery, which gave instant relief. I have used it in my family for nearly four years and recommend it as the greatest remedy for coughs, colds and throat, chest and lung troubles. It will stop the worst cough, and not only prevents, but absolutely cures consumption. Price, 50c and \$1. Every bottle guaranteed. Trial bottles free at F. G. Fricke & Co's drug store. For sale by all druggists."

John M. Leyda is still making farm loans at the low rate of 5 per cent interest. If in need of a loan it will pay you to see him before making contracts elsewhere. Office in Waterman block, Plattsmouth.

CROP PROSPECTS ARE GOOD.

All the Counties of the State Send in Favorable Reports.

United States Department of Agriculture, climate and crop service of the Nebraska section, issued from the central office at the University of Nebraska for the week ending May 1, 1900:

The past week has been warm and wet, with more than the normal amount of cloudiness. The daily mean temperature for the week averaged 10 degrees above normal in the eastern and 7 degrees in the western counties.

The rainfall has been above normal in all parts of the state. In the central and eastern counties it exceeded two inches.

In a large portion of the state rain fell on every day of the week, keeping the ground wet and preventing any substantial progress in plowing for corn, and practically no corn was planted. The continued warm weather has been exceedingly favorable for the growth of wheat, oats and grass. All small grain is in fine condition. Grass has grown sufficiently to furnish good pasture for cattle, sheep, apple and cherry trees are full of blossoms.

Southeastern Section.

Butler—Wheat and small grain doing well; farm work retarded by rain; cherry, apple and small trees in blossom.

Cass—Work badly delayed by rain; grass growing finely; rather wet for small grain in some places; early potatoes up.

Clay—Too wet to plow; grass and small grain look fine; fruit trees of all kinds blossoming finely.

Fillmore—Wheat and oats growing well; plowing too wet to work well; little plowing done this week.

Gage—Warm, growing week, but too wet to work in the field and but little corn planted; wheat and oats making rank growth.

Hamilton—Wheat, oats and all kinds of small grain look fine; grass well started; plowing for corn backward.

Jefferson—Wheat, oats and grass making very rapid growth; farm work delayed by heavy rain; good prospect for fruit.

Johnson—Wheat and oats doing well, too much rain for plowing, cherry and plum trees in full bloom.

Lancaster—Grain and grasses growing very fast; too wet for field work, cherry trees in full bloom and every tree loaded.

Nemaha—Ground very wet; fall wheat looking exceptionally good; tame grass growing fast; fruit trees in blossom.

Nuckolls—Too wet for corn planting; small grain, and grass look fine.

Otoe—Grass and grain doing well; too wet for field work; but has advanced vegetation very rapidly; fruit trees in bloom.

Polk—Wet, growing week, but farm work delayed.

Richardson—Very little work done in fields; almost daily rains.

Saline—Small grain and grass have done finely; but little farm work done; cherry and apple trees blooming very full.

Saunder's—Small grain and grass growing fast; rain every day; farm work retarded; plum trees in full bloom.

Seward—Wet all the week; plowing somewhat retarded; vegetation of all kinds making rapid growth.

Thayer—Wheat, oats and grass growing uncommonly fast; heavy rains hindered farm work; fruit setting abundantly.

York—Too wet for plowing; small grain and grass doing finely; fruit of all kinds promising large yield.

DEAD MEN BY SCORES.

A Coal Mine Is Full of Them at Colton, Utah.

MUCH BLASTING POWDER BLOWS UP.

Ninety Bodies Recovered and 250 Lives Said to Be Lost.

Scene at the Fated Pit Beggers Description—Work of Rescue of the Living and Recovery of the Dead Quickly Begun, and Everything Possible Done to Make It Efficient.

Chicago, May 2.—The following is received here from Salt Lake, Utah, dated May 1:

"The mining camp at Scofield, on the line of the Rio Grande Western road near Colton, Utah, is the scene of great excitement on account of a terrific explosion which occurred yesterday in the winter quarters of the coal mine owned by the Pleasant Valley Coal company. The cause of the explosion is attributed to the blowing up of a number of kegs of blasting powder. The scene at the mine beggars description. The work of rescue is being done and everything possible is being done to relieve the suffering and ascertain the number of dead. Superintendent Sharp, of the coal company, and Superintendent Welby, of the railroad company, have gone to the scene on a special train.

Ninety Bodies Recovered.

"It is reported that ninety bodies have already been recovered and that there are more in the mine. Among the dead already identified are the following: Roger Davis, Jack Wilson, R. T. Evans, Pete Crockett, — Anderson, — Haddock and son.

"Severely injured: John Kerton, Thomas Tirsey and son, William Bewette, Thomas Sellers, Thomas Brown."

Death of 250 Miners.

"A special to The Tribune from Scofield says: 'There have been eighty-five dead bodies taken out of No. 4 mine of the Pleasant Valley Coal company at the winter quarters camp, two miles above there. There were 250 men at work in the mine, and 140 are dead. The balance of the miners are dead. The explosion is supposed to have occurred in No. 4 and extended by a connection to No. 1. The men in No. 1 are choked. Those in No. 4 are burned and charred.'

BOY KILLS HIS FATHER.

Who Had Been Threatening the Life of His Mother.

St. Louis City, Ia., May 2.—At the farm of A. J. Wilcox, two miles from Lake City, Calhoun county, Ia., William, the 17-year-old son of Wilcox, shot and instantly killed his father. He then drove to Lake City and gave himself up to the authorities.

It appears that the father had been threatening the life of the mother. The son had threatened to shoot his mother if she would carry out his threats against the mother he fired a shotgun with which he had armed himself point blank into his father's breast.

Many Men Go on Strike.

Port Huron, Mich., May 2.—Three hundred men went on strike at the Jenks Shipbuilding company's yards and shops yesterday. The laboring men struck for 15 cents per hour. They have been receiving \$1.25 per day.

Detroit, Mich., May 2.—One hundred and fifty union carpenters employed by the Pere Marquette railroad here have gone on strike, for an increase of wages.

Ludington, Mich., May 2.—Two hundred freight handlers employed by the Pere Marquette railroad here have gone on strike, for an increase of wages.

Decided Against the Ritualists.

London, May 2.—The archbishops of Canterbury and York have rendered judgment on the subject of the reservation of the sacrament. They said they were obliged to decide that the Church of England did not allow reservation in any form. The term "reservation of the sacrament" means the preservation of some of the eucharistic elements, especially the bread, for adoration and for use with the sick or with prisoners.

Farmer Wanted Information.

Farina, Ills., May 2.—South-bound local freight No. 91, Illinois Central, Jerry Cavanaugh conductor, was flagged four miles south of here by a 50-year-old but innocent farmer, E. Boomgarder. He explained his action by telling the conductor he expected several packages by freight and if the train had brought the same he would hitch up his mule team and drive to Farina and get his property.

Will Carry Gold to France.

New York, May 2.—The steamship La Bretagne, sailing for France tomorrow, will carry \$500,000 gold shipped by the National City bank. There is talk of \$2,500,000 more being shipped by Thursday's steamer.

Some Sort of Poison in the Greens.

Tipton, Ind., May 2.—Reuben Patterson and wife, with three children, of Jefferson township, ate freely of greens Sunday, and soon after were alarmingly prostrated; some poisonous weed having been included in the mess. The parents and one child were unconscious for several hours, and at last accounts the danger point had not been passed.

Renominated for Congress.

Grand Rapids, Mich., May 2.—Congressman William Alden Smith was unanimously renominated by the Fifth district Republican congressional convention. The resolutions adopted approve of all legislation by congress with reference to the insular possessions.

Signed by the President.

Washington, May 2.—The joint resolution continuing the present administrative officials in Porto Rico in office until the appointments are made under the civil government law has been signed by the president.

CITY AND COUNTY.

WEDNESDAY.

J. A. Walker was in town today for a few hours today.

J. D. Pittman was up from Union for a few hours today.

Miss Elizabeth Eikenbary returned this morning from Omaha.

Frank J. Morgan made a business trip to Omaha this morning.

Miss Nina Tucker was a passenger for Omaha on the early train.

John Kuhnney made a trip to Omaha this afternoon on the last mail.

Constable Jack Denson was a business visitor in Glenwood yesterday.

Gottlieb Spricke and wife were in town today from South Bend precinct.

James Throberry of Eight Mile Grove was a Plattsmouth visitor today.

Rush Fellows of the Post was mingling with the republicans at Lincoln today.

Thomas Janda, the furniture dealer, was a business visitor in the metropolis today.

George L. Farley of THE NEWS was in Lincoln today attending the state convention.

L. C. Pollard of Nehawka was in town today looking after some business matters.

Ed Tighe, a wealthy farmer from Center precinct, was in town today on legal business.

Miss Tillie Likewise of Omaha is in the city for a week's visit with relatives and friends.

William F. Ingwerson, Hiram Peck and F. W. Miller of Weeping Water were in town today on business.

Postmaster Smith, George Hay, E. R. Todd and W. H. Newell attended the republican convention at Lincoln today.

Misses Gretta and Florence Waugh went from Washington, D. C. to Williamsburg, Va., where they will remain until June 1.

John Becker, a delegate from Eight Mile Grove precinct to the republican state convention, came in last night and left for Lincoln this morning.

The young ladies of the T. B. society of the Methodist church very pleasantly entertained their friends at the home of Mrs. J. D. McBride last evening.

The general teachers' meeting, which was to have been held Friday afternoon to make arrangements for the closing exercises of school, has been postponed until May 18.

H. N. Dovey, G. M. Spurlock, Steve Buzzell, H. C. McMaken and John A. Davies were passengers this morning for Lincoln, where they went to attend the republican state convention.

The building committee of the board of education has decided to postpone the dedication of the new school building for another week in order that it may be complete and thoroughly examined by the architect.

THURSDAY.

L. C. Murray, one of Plattsmouth precinct's prominent farmers, was in town today doing some shopping.

Street Commissioner Hansen had a force of men working with the big road grader on the avenues today.

The Pond-Bleim company completed a three nights engagement in this city last evening, and left this morning for Glenwood.

James Ferguson came in from Shenandoah, Ia., this morning for a visit with his son. He was accompanied by his daughter.

Frank Wheeler, the harness maker, came down from Omaha last evening for a short visit with relatives. He left for Louisville this afternoon.

Henry Weidman returned this morning from his ten day's visit with relatives and friends at Galesburg and Chicago. He reports a very pleasant trip.

J. L. Graves and wife, who were called to Michigan some three weeks ago by the announcement of the serious illness of the former's father, returned home today.

W. F. Heisel, representative for a wholesale salt fish company of St. Louis, was in town today interviewing some of the merchants. He is a nephew of Coon Heisel.

There was quite a heavy frost last night, and many who have vegetables growing in the low land report some damage. Fruit trees, however, suffered very little from the frost.

Charles Connally, accompanied by his wife and baby, came up from Murray this morning. Mrs. Connally and child left this afternoon for Ravenna, where they will visit with relatives.

George and Loretta Clark invited the members of the senior class of the High school, together with the teachers, to their home last evening and entertained them very pleasantly. The happy crowd indulged in social conversation, games and other amusements. The guests were also treated to a fine luncheon and refreshments, and all report having had an enjoyable time.

A. M. Campbell, a poultry dealer of Fort Crook, came to town yesterday and proceeded to celebrate by getting drunk. Officer Fitzpatrick found him in a deplorable condition about 12 o'clock last night, and escorted him over to jail. He was taken before Judge Archer this morning and was fined \$1 and costs for his fun—amounting in all to \$5.30—which sum the prisoner paid and left the court room evidently with the firm conviction that a "jag" is a very expensive thing.

An old veteran soldier was found lying in the cut near the High school this morning who was in a decidedly

CATARRH. THE FORE-RUNNER OF CONSUMPTION.

Few realize what a deep-seated, obstinate disease Catarrh is, regarding it as a simple inflammation of the nose and throat, little or no attention is given it. But, however insignificant it may seem at first, it frequently happens that the secretions entering the circulation poison the entire system. The stomach, kidneys—in fact all the organs—feel the effect of this catarrhal poison, and when the lungs are reached its progress is rapid and destructive, and finally ends in consumption.

CATARRH IS A CONSTITUTIONAL OR BLOOD DISEASE,

and far beyond the reach of mere local remedies. Those who rely upon them for a cure lose valuable time, meet with disappointment and allow the disease to take firmer hold. Only a real blood remedy can reach this troublesome and dangerous disease. S. S. S. cures Catarrh because it first cleanses and builds up the blood, purifies it, makes it rich and healthy, stimulates and puts new life into the sluggish worn-out organs, and thus relieves the system of all poisonous accumulations.

It frequently happens that the secretions entering the circulation poison the entire system. The stomach, kidneys—in fact all the organs—feel the effect of this catarrhal poison, and when the lungs are reached its progress is rapid and destructive, and finally ends in consumption.

RAILROAD NOTES AND PERSONALS.

Ray Thompson, who for several months past has been acting as messenger boy at the Burlington depot, has been transferred to Germantown, where he will be installed as baggage master. He left for that place on the early train this morning. Bert Crisman is now the local messenger.

A force of men were put to work this morning widening the cut just west of the Missouri river bridge. It is understood that the dirt will be used in completing the fill on the east end of the bridge.

The mechanical department of the Union Pacific has issued orders to the effect that all passenger coaches of the road must be equipped with steel platforms. Already many have been equipped and as fast as the coaches can be spared from the daily service, they are run into the shops and the old platforms taken off and replaced with new steel ones.

I consider it not only a pleasure but duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Cough, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. Lynch Dorr, W. Va. This remedy is sold by all druggists.

Smallpox Patient Corralled.

The following dispatch from Des Moines appeared in this morning's Bee:

"John Wight, a typical Oklahoma man, arrived in Des Moines today from Omaha in a box car. Having noticed some strange eruption on his face, hands and body, he started up town to see a doctor. While walking up the main business street Dr. Schlitz, a prominent physician, noticed the man and saw at a glance that he had smallpox. He grabbed the unfortunate man, hustled him to a place where he could do the public no harm and called the smallpox ambulance. A half hour later Wight was located in the smallpox camp of detention in the suburbs, where some twenty-five other afflicted persons are located. Wight says he spent a week loafing around Omaha before he started for Des Moines."

An Epidemic of Whooping Cough.

Last winter during an epidemic of whooping cough my children contracted the disease having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for cough and naturally turned to it at that time and found it relieved the cough and effected a complete cure.

John E. Clifford, proprietor Norwood House, Norwood, N. Y. This remedy is for sale by all druggists.

Home-seekers' Excursions.
