

## REAL ESTATE IN DISPUTE

### "Crum" Stewart Is Having All Kinds of Trouble.

Alleges That His Property Near Rock Bluffs Has Been Colawfully Confiscated and As a Just Justice Be Meted Out to the Transgressors—Case Set For Tomorrow.

"Crum" Stewart is having all kinds of trouble with his real estate down on the big island, near Rock Bluffs. The waters of the old Missouri are not only playing considerable havoc with the property, which is located near the river, but "Crum" is also confronted with the fact that a man named McCanness, with his family, has taken possession thereof and a great deal of patient arguing has failed to induce them to vacate the premises.

It appears that while "Crum" was serving a short jail sentence in Omaha, charged with passing counterfeit money, a friend named Gochenauer decided, without any good reason, that he was the rightful owner of Stewart's property, both real and personal. He removed the personal property to his own premises and installed the McCanness family as tenants.

The case wherein Stewart asks the court for an order compelling the occupants to "clear out," will be tried—perhaps before a jury—in Justice Archer's court tomorrow morning. In the complaint Stewart asks to have Mr. McCanness and wife prosecuted for unlawfully taking possession of the following described premises: Forty-four and nine-tenths acres in lot sixteen, section four, township eleven, range fourteen, east of the sixth principal meridian, and twenty-eight and five-hundredths acres, all in lot one, section nine, township eleven, range four, in Cass county, Nebraska.

It is alleged that the McCanness family took possession on or about February 27, 1900, contrary to the law and the rights of the plaintiff.

### JEWELRY THIEF NABBED.

Another of the Wahoo Robbers Lodged Behind the Bars.

Readers of THE NEWS will remember that early last week a couple of young fellows were arrested on suspicion of having broken into some jewelry store. There were three of them, but one managed to elude the officers. It afterwards developed that they were wanted at Wahoo for robbery, but this fact was not learned until after one of them had been released. Hamilton, the fellow who was held, is now safely landed behind the bars of the Saunders county jail. The following dispatch from Wahoo printed in yesterday's state papers, would indicate that the officers of that place have finally nabbed one of the men who managed to get away from the local officers:

"WAHOO, Neb., May 7.—Sheriff Harris has managed to cage one more alleged robber. He caught him in Valley street. He gives the name of W. H. Harris and is one of the men arrested in Mead the other day after the robbery in this city, but set at liberty for want of evidence and was later in Plattsmouth."

### Another Crowded House.

The second rendition of "Her Majesty's Guardsmen" by home talent was witnessed by a large audience last evening. The work of all the players was good and showed a marked improvement over the first night. Mr. Willard is to be congratulated upon his ability to get together such a strong cast of clever players.

At the conclusion of the second act, the announcement was made that on next Wednesday and Thursday evenings, May 16 and 17, another home talent performance entitled "A Gay Deceiver," would be presented under the auspices of the Knights of Pythias and under the direction of Mr. Willard.

### Work in the Big Cut.

Walter White and his grading force have completed their work in the big cut near the Missouri river bridge. The material for the new side track was unloaded this morning, and the work of laying the rails is already well under way.

The new track will be about the length of thirty cars, and will be completed in a day or two. A large steam shovel is to be used to load the dirt onto the cars, and it is hoped that the work of making the fill under the east end of the bridge will then go on uninterrupted until completed.

### High School Boys Challenged.

The base ball team of Union, composed of the boys, has challenged the high school team of this city to play them at Union next Saturday. The boys will doubtless accept the challenge. The Union team offers to give the local boys their dinner and feed for two teams and if they win pay their expenses. If the Plattsmouth boys go down in defeat they will also have to go down into their pockets for livery, etc.

### An Epidemic of Whooping Cough.

Last winter during an epidemic of whooping cough my children contracted the disease having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for croup and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, proprietor Norwood House, Norwood, N. Y. This remedy is for sale by all druggists.

### A Fast Bicycle Rider.

Will often receive painful cuts, sprains or bruises from accidents. Bucklen's Arnica Salve will kill the pain and heal the injury. It's the cyclist's friend. Cures chafing, chapped hands, sore lips, burns, ulcers and piles; cure guaranteed. Only 25c; try it. Sold by F. G. Fricke & Co., druggists.

## WEEKLY WEATHER REPORT

At Present Conditions Are Excellent for Farm Interests.

The weather during the past week has been of decided advantage to the farmers, but, according to the statement issued this morning by the Nebraska section of the weather bureau, it has not been so good for the hired men. The report says:

"The past week has been warm, with little rain during the working days, but with heavy showers Saturday night and Sunday. The daily mean temperature averaged 2 degrees above normal in the eastern and five in the western counties. The rainfall of the week was above normal in the eastern portion of the state and below in the western. It all fell in heavy showers during the last two days of the week, and exceeded an inch in most southern counties and in a few instances exceeded three inches.

"The past week has been an excellent one for the advancement of farm work. Plowing for corn has made rapid progress, and the bulk of the corn ground is now ready to plant. In most parts of the state little corn has been planted. In a few instances the earliest planted corn is coming up. Grass, wheat and oats have grown rapidly, and continue in excellent condition. Fruit trees are full of blossoms, and very little damage was done by the frosts of the week."

### RAILROAD NOTES AND PERSONALS

The Burlington pay car made its regular monthly visit to this city today, and as a consequence the shop boys were feeling unusually good.

The spring exodus of Russians to the sugar beet fields has nearly ended, says the State Journal. Two train loads carrying 450 people have left Lincoln within two days. Two hundred of them were taken to Ordway, Colo., and 250 to Illinois towns. The first train load was taken out on the Missouri Pacific Tuesday evening and the train load of beet field laborers for Illinois left Lincoln yesterday over the Union Pacific. Yesterday's shipment carried laborers and members of their families to the number of 240 and the train comprised five coaches and three car loads of baggage. The laborers are to go to Pekin, Delevan and Green Valley, Ill. Tuesday the Missouri Pacific also carried 200 Russians from Hastings to Ordway, Colo., on a special train.

The funeral of Paul Kobalter, the man who was struck by lightning in the Burlington yards at Lincoln Sunday night while working on the top of a freight car and whose body was found at Pacific Junction the next morning, was held from the German Lutheran church at Lincoln this afternoon.

Robert Bennett, an employee at the Burlington paint shop, had the misfortune to get some foreign substance in one of his eyes yesterday. He has suffered a great deal of pain as a result of the accident, and is taking an enforced lay off today.

A special dispatch from Wymore to the State Journal says: "Not for a long time has the Burlington been so busy at this season of the year, their business being more than double what it was three or four years ago. Tonight there are six sections of No. 64, the fast stock train, besides extras both north and west, and this is an everyday occurrence."

J. Saxton, mayor of Alliance and master mechanic of the Burlington shops at that place, was in town today shaking hands with his old time Plattsmouth friends. Mr. Saxton was on his way home from Chicago, where he went to attend a meeting of the advisory committee of the Burlington's Voluntary Relief department.

Swish engine No. 22, which was transferred to the Lincoln yards several years ago, is again doing duty in the local yards. It is temporarily taking the place of No. 184, which is undergoing some necessary repairs.

Port Laramie, Wyo., once the most important army post in the west, has again been brought into communication with the outside world—not by government pack train, but by the steam horse of the Burlington railroad. The Guernsey extension of the Burlington has reached Port Laramie, and a bustling new town has already sprung into existence on the old historic ground. The Burlington expects to run cars into Guernsey by May 15.

### YOUNG COUPLE MARRIED

Rev. Dungan Unites in Marriage Two Well Known Plattsmouth People.

From Wednesday's Daily. A very pretty wedding occurred at the home of Allen Stultz at 8 o'clock last evening, when his son, Alonzo, was united in marriage to Miss Myria Shaw. Rev. Dungan of the Christian church performed the ceremony. The happy event was witnessed by relatives and a number of intimate friends. After the ceremony the guests were seated to a sumptuous wedding feast, to which all did justice.

The newly-married couple will reside in the Second ward, where the groom has furnished a neat little home. The news hopes that Mr. and Mrs. Stultz's married life will be crowned with blessings and that no shadow of adversity will mar their happiness.

Ballard's Snow Liniment cures Rheumatism, Neuralgia, "Headache, Sick Headache, Sore Throat, Cuts, Sprains, Bruises, Old Sores, Corns and all pain and inflammation. The most penetrating liniment in the world. Price, 25 and 50 cts. F. G. Fricke & Co.

## AN IRRESISTIBLE SHELL

Invented By One of Our Soldiers Is a Success.

### GOES THROUGH ARMOR WITH EASE

Nothing Withstands Its Impact, It Is Said—Cabinet Talks Over the Newly Alleged Shortage.

Washington, May 9.—Some facts almost startling in their importance were laid before the senate yesterday in secret legislative session at the conclusion of the regular open session. They related, it is understood, to the invention of a shell by a prominent officer of the United States navy, a shell superior in every essential quality to any now in use either by this or by any other government. The quality of penetration possessed by the shell is said to be so great that no armor now manufactured in the United States or abroad has sufficient resistance to withstand it. The facts, which were in possession of only a few senators, were deemed so important that the senate decided to consider them in secret session.

### Tillman Got No Information.

Yesterday after the naval bill had been laid aside for the day Tillman asked for a secret session in order that he might explain to the senate why he desired the armor plate matter to be discussed in secret. When the doors were closed he explained that several days ago he had offered a resolution calling upon the secretary of the navy to send to the senate for its information the details of tests made by the department's officials of armor plate at Indian Head. No answer to that inquiry has been received, and in all human probability none will be received.

### Reason Why It Was Refused.

Tillman called at the navy department and was informed that it would be unwise at this time to make public the details of the test he had asked for, as it would place in the hands not only of the senate but of representatives of foreign governments information that properly belonged exclusively to the United States. He was informed that Admiral O'Neill, chief of the bureau of ordnance, had been conferring for several days with the high-priced armorers at Indian Head, the results of which were very remarkable. A prominent official of the navy department said it is understood that the tests of armor plate made by the navy at Indian Head, had been made with a view of ascertaining their effectiveness against a new shell that had been invented by an officer of the navy.

### No Armor Could Stand It.

No piece of armor submitted to the test, it is understood, was able to withstand the test. The shell, fired from high-power guns, penetrated the armor almost as bullets fired from a Krupp's rifle. The difference being that the armor plates split from the point of impact. It is said this was true of the Krupp armor as well as of the other armor tested. The argument of Tillman is that with such a projectile in the possession of the government it would not be the part of wisdom for the congress to enter into contracts to purchase armor from private concerns. It could be so improved as to resist projectiles of the kind used at Indian Head.

### CASE OF NEELY'S SHORTAGE.

Cabinet Says Uncle Sam Is Responsible—Accused To Be Extradited.

Washington, May 9.—The only matter of interest which came before yesterday's cabinet meeting was the alleged heavy shortage in the accounts of Charles E. Neely, formerly treasurer of the postoffice department of Cuba. Neely has been arrested in Rochester, N. Y., and the question arose as to whether the United States or Cuba was responsible for the amount of defalcation. It is understood that the opinion of all the members present that as Neely was appointed by the United States and that in administering the affairs of the island this government is acting, as it is true, and is therefore, responsible for the shortage, and can proceed against Neely's bondsman for the amount involved. It was practically settled, too, that Neely would be taken to Havana, where the postoffice department has a report from Agents Seybolt and Neal as to the amount of postal revenues in the hands of Charles E. Neely, chief of the bureau of finance of the postal department in Cuba, April 23. At that time, according to these reports, he apparently accounted for all sums due the government, and it is said by postoffice department officials that if Neely embezzled postal funds he must have juggled the figures and made false entries or else taken the money immediately after the balance was struck. He is now charged with being \$38,000 short.

First Assistant Postmaster General Heath denies emphatically that he is interested directly or indirectly with Neely in his present business. He says: "Mr. Neely was an appointee of Director of Posts Rathbone, and Rathbone is an appointee of the postmaster general and the president. He comes from Ohio, as I am informed, is a friend of the president. If Neely has done work for the government and has been overpaid for it, or if he is wrong in his accounts, it is the duty of the postmaster general and the auditors of the war department. He might have stolen the whole island and we know nothing of it here. It is true that Mr. Neely was an old friend of mine. We came from the same town and had known each other for a long time. But it was not my appointment which put him in the Cuban service. He was taken down there by Mr. Rathbone along with a number of clerks from the department."

### American Coal for Germany.

New York, May 9.—Carl Meckens sailed for Germany on the Kaiser Wilhelm der Grosse yesterday after having made arrangements to buy, it is said, 60,000 tons of coal a month in this country for use in Germany. Although bought ostensibly for a factory, it is believed to be intended to be for the use of the government.

### Fishing Tugs Have an Enemy.

Port Washington, Wis., May 9.—The fishing tug Reckenger, owned by H. Van Ellis, was discovered yesterday morning almost filled with water, some one having entered during the night and opened the seacock. This is the third boat this spring that has been tampered with in the same way.

In Constipation Herbine affords a natural, healthful remedy, acting promptly. A few small doses will usually be found to so regulate the excretory functions that they are able to operate without any aid whatever. Price 50 cts. F. G. Fricke & Co.

## CITY AND COUNTY.

WEDNESDAY.

C. D. Connally and son, Quince, were in town today from Murray.

County Clerk James Robertson and wife were passengers for Lincoln this morning.

Dave McCall, the well known populist war horse from Elmwood, was in town today.

S. H. Shumaker was in Council Bluffs today looking after some business interests.

Mrs. Fred Jordan and sister, Mrs. Martha Steppat, left this afternoon for a visit in Denver.

H. W. Stoutenborough came down from Omaha last evening for a short visit with his parents.

Mrs. Baker of Council Bluffs, mother of Miss Byrd Baker, the school teacher, is in the city for a visit.

Orlando Tefft of Avoca, chairman of the republican state central committee, was a Plattsmouth visitor today.

Frank Wiles returned this morning from Louisville, where he went in the interests of the Mockenhaupt-Rochford litigation.

Attorney Byron Clark and Electrician T. H. Ewing were in Lincoln today in the interests of the Plattsmouth Telephone company.

Miss Dora Christian, who has been visiting in the city for the past two weeks, the guest of Miss Olga Hajek, returned to her home near Ashland this afternoon.

O. M. Streight received two more Shetland ponies from Red Oak this morning. J. L. Unruh has purchased one of them and Deputy Sheriff McBride is thinking of buying the other.

Martin Fladenberg and family returned to their home at Havelock this afternoon. They have been visiting for several days at the home of Mr. and Mrs. E. S. Perry—the latter being a sister of Mrs. Fladenberg.

The water in the Platte river is overflowing the banks, and continues to rise at a rapid rate, while the old Missouri also appears to be an old-fashioned boom. The water is gradually covering the long bars west of main channel.

Uncle Ned Baker, the veteran fruit dealer, has decided that there is not enough money in that business and will hereafter run a one-horse dray wagon. He is prepared to haul anything from a small trunk to a safe. He requests his friends to remember him when they have anything to do in this line.

Ed Murphy came in last evening from Southeastern Arizona for a short visit with his mother and other relatives. Ed is the junior member of the contracting firm of Cunningham & Murphy, and the firm has a large grading contract for a mining company near Clifton, Ari. He says they have a smallpox epidemic down in that region and he will be vaccinated before he returns.

The Upsala club gave Mr. and Mrs. E. G. Fricke a little farewell party last evening at the home of Mr. and Mrs. C. F. Stoutenborough. The organization is made up of a few families which, at the time of its origin, lived on Vine street, between Fifth and Sixth, as follows: C. F. Stoutenborough, W. L. Pickett, A. E. Gess, F. G. Fricke, Mrs. Kessler and Rev. Freund. They really have "more fun than anybody."

Frank Benfer and Hutch Gilam have been farming on a big island about a mile and a half north of town. In order to reach their farm they are compelled to ford a small stream. When they drove up the water was low, but when Frank had occasion to return to town he found the depth of the stream had increased considerably. All went well, however, until the middle of the stream was reached, when both horses and vehicle went down into a hole and were completely submerged. Frank says it required some lively scrambling to get out of the difficulty. He drove back this afternoon.

### THURSDAY.

James Manahan of Lincoln was in town today.

Attorney C. E. Tefft of Weeping Water was a visitor at the court house today.

Editor L. J. Mayfield of the Louisville Courier was in town today on business.

Mr. Allen Telfer and Mrs. Charles Sheppard were passengers on the early train for Omaha.

Many people from this city attended the funeral of George Meisinger at Cedar Creek today.

William Gilmour went to Omaha this morning, where he will serve on the federal grand jury.

Cigar makers' union No. 276, will give a dance at the Sokol hall on the evening of May 12.

Allen Stultz, the painter, made a business trip to Omaha on the early train to purchase some material.

William E. Gar of Weeping Water was a county seat visitor today, having some business to look after at the court house.

H. D. Robinson, representing the clothing firm of B. Kuppenheimer & Co., of Chicago, was in town today, taking orders for goods.

Messrs. C. C. Parmelo, C. A. Riels, T. H. Pollock and T. H. Ewing were in Lincoln today in the interests of the Plattsmouth Telephone company.

El Murphy left this morning for Omaha, from which place he leaves tonight for Greenvier, Wis., where he will remain a few days before returning to Arizona.

## SCROFULA

The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike; they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in Scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores; the eyes are inflamed and weak; there is an almost constant discharge from the ears, the limbs swell, bones ache, and white swelling is frequently a result, causing the diseased bones to work out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

Save the Children. Your medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. The roots and herbs from which it is made contain wonderful blood purifying properties, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the appetite, aids the digestion and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or the best blood purifier and blood builder known, as it contains no poisonous minerals. S. S. S. is a pre-eminent remedy for children.

When my daughter was an infant she had a severe case of Scrofula, for which she was under the constant care of physicians for more than two years. She was worse at the end of that time, however, and almost despair of her life. A few bottles of Swift's Specific cured her completely, as it seemed to go direct to the cause of the trouble. I do not believe it has an equal for stubborn cases of blood diseases which are beyond the power of other so-called blood remedies.

Our medical department is in charge of experienced physicians who have made Scrofula and other blood diseases a life study. Write them about your case, or any one you are interested in. Your letter will receive prompt and careful attention. We make no charge whatever for this.

Address, THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

tism services being conducted by Rev. Sleeth.

Mrs. J. G. Blair of Kahoka, Mo., arrived in the city last evening to spend the summer with her son, Prof. Blair, the magnetic healer.

William Reed Duncay of the Journal, who went to Wahoo yesterday afternoon to identify one of the jewelry thieves held at that place, returned this morning.

Ex-County Superintendent G. W. Noble was in the city for a few hours on his way to Omaha from Nebraska City. He always finds a hearty welcome in Plattsmouth.

Dr. R. P. Plimpton has recently joined Dr. W. A. Humphrey in business. Dr. Plimpton is a brother to Dr. W. M. Plimpton of Glenwood, Ia., and a graduate from Chicago.

Mr. and Mrs. C. L. Currier leave this evening for Poughkeepsie, N. Y., where Mr. Currier has a position in the insane hospital. It is with regret that the members see him sever his connection with the B & M band. A few of them assembled last evening at the home of Mr. and Mrs. Wise to bid him good bye.

The forcible entry case of "Crum" Stewart et al. vs. McCanness and wife was the leading attraction in Justice Archer's court today. H. D. Travis appeared for the plaintiffs and Matt Gering for the defense. The court, after hearing both sides of the controversy, decided that the plaintiffs were the lawful owners of the real estate in question and disposed of the case accordingly. It is thought the case will be appealed to the district court.

### How's This.

We offer One Hundred Dollars Reward for a case of Catarrh that cannot be cured by Hall's Catarrh Cure. We have known E. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. West & Tuttle, Wholesale Druggists, Toledo, O. VALDINO, KISSAN & MANNIS, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system. Price 75c per bottle. Sold by all Druggists. Testimonials free. Hall's Family Pills are the best.

### HAS TIRED OF BRYANISM

Judge M. B. Nicholson, Long a Fusion Leader, Will Vote for McKinley.

The following special from Topeka to the Kansas City Journal indicates the way the political tide is drifting in the Sunflower state:

TOPEKA, May 4.—Judge M. B. Nicholson of Council Grove, for many years one of the fusion leaders of the state, and who has frequently been mentioned by the fusionists as a candidate for associate justice, has tired of Bryanism and "the haul down the flag" policy of the fusion party in the state and nation. He proposes to vote for McKinley this year. His declarations regarding the matter will no doubt cause much commotion among the fusionists on account of the prominence he occupied in their party.

"I propose to vote for McKinley this fall, if I live so long as that," said the judge. "I have grown weary of the course that is being pursued by the opponents of McKinley, in fact, I have been getting more and more weary ever since the Spanish-American war broke out. I wasn't much in favor of getting into that war. I thought it might have been avoided, but we got into it and from that time there was no course for a loyal man to pursue except to sustain his country. My boy enlisted and while I hated to see him go, I did not try to dissuade him. Before the war commenced, the opposition, that is our party, were doing their best to drive McKinley into it, ready or not ready. McKinley was doing his best to prevent a war, and I honor him for it. It was the right thing, the patriotic, the humane, this statesmanlike course to take. As soon as war was declared the very people who had been howling at McKinley for not commencing sooner began to abuse the administration because there was some sickness and lack of equipment among the troops. They never missed an opportunity to abuse McKinley, and his administration, although there never has been an army of 250,000 men got together and equipped under the same circumstances in the same length of time. It was simply wonderful that the government of the United States was able to do it. Since the war commenced everything else has followed as a matter of logic and sequence, but the democratic managers have done nothing but kick, kick, kick. There has never been a time since Dewey sailed into Manila bay that our government could have let go of the Philippines without having let go of the Philippines with consistency or honor. We destroyed the only government in duty bound to supply a government

## SCROFULA

The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike; they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in Scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores; the eyes are inflamed and weak; there is an almost constant discharge from the ears, the limbs swell, bones ache, and white swelling is frequently a result, causing the diseased bones to work out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

Save the Children. Your medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. The roots and herbs from which it is made contain wonderful blood purifying properties, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the appetite, aids the digestion and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or the best blood purifier and blood builder known, as it contains no poisonous minerals. S. S. S. is a pre-eminent remedy for children.

Partitions are all right

Board of Education Arrives at This Conclusion After a Thorough Test.

The board of education, with Superintendent McHugh, tested the new rolling partitions this morning to ascertain whether or not sounds would pass through them. They had the entire high school in the new building at one period and were happily disappointed. It is possible they will be compelled to place double curtains between the recitation rooms, otherwise everything is satisfactory.

The dedicatory exercises will be held Saturday evening. No children, aside from those who may be in the high school will be admitted under any circumstances. The program will appear tomorrow. Members of the high school will move their books into the new building tomorrow morning, after which they will be dismissed for the day in order that the seats may be transferred from the old building.

A Follower of Measles.—In many instances a persistent cough follows an attack of measles. In speaking of this Mr. Walter B. Beel, editor of the Elkin (N. C.) Times says: "Three weeks ago I had an attack of measles which left me with a bad cough. I took several doses of Chamberlain's Cough Remedy and the cough has entirely disappeared. I consider Chamberlain's medicines the best on the market." For sale by all druggists.

### List of Letters.

Remaining uncalled for at the postoffice at Plattsmouth, Neb., May 8, 1900:

Abel, Nelson Bookner, J. K.  
Connelly & Shaw Ferguson, J. K.  
Gay, Frank Miller, Mrs. Charles  
Rush & Murray Osborn, Mrs. Lulu  
Potter, H. B. Post, Ed.  
Wright, E. K. Warren, John

When calling for any of the above letters please say "advertised."

C. H. SMITH, Postmaster.

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the affliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by all druggists.

### LEGAL ADVERTISEMENTS

#### Legal Notice.

In the district court of Cass county, Nebraska. William Caldwell vs. The unknown heirs of Samuel Taggart, deceased.
