THE LARGEST CIRCULATION

OF ANY CASS COUNTY PAPER.

TUESDAY, JUNE 19, 1900.

EAGLE, Wabash and Weeping Water will celebrate the Fourth of July.

TODAY the republicans will put a ticket in the field that will be a winner.

IT LOOKS as though Congressman Dolliver would be nominated if New York doesn't agree on a candidate.

IT IS STATED that democratic committees are not sending out 16 to 1 literature this year—there seems to be no demand for it.

THE democrats of Kentucky have about come to the conclusion that the Goebel law isn't what it should be and they may advocate its repeal.

THE railroads will make a rate of one fare for the round trip to the convention of the state republican league, to be held in Lincoln the 28th.

IF YOU want to see how the B. & M. handles dirt take an hour off and walk down to the cut, just this side of the bridge. It would not be time lost.

ADMIRAL DEWEY is no longer a candidate for president, and he states that he would not accept the nomination for vice president with Mr. Bryan.

SATURDAY'S rainstorm is the chief topic of conversation. The loss to several business men and to the Burlington railway will amount to a considerable sum.

KANSAS farmers want 1000 men to take care of their immense wheat crop, and are offering \$2 a day and board.

IT LOOKS as though it were going to be a bad year for those who like to cry calamity.

IF MARK HANNA has a choice for vice president he isn't telling who it is. Scores of politicians have been trying for several days to find out what he thinks about the matter, but their efforts have been in vain.

THE latest news from Philadelphia is to the effect that Lieutenant Governor Woodruff, Secretary John D. Long and Congressman Dolliver are the men who stand the best chance to be McKimley's running mate.

HIGH priced corn, cattle and hogs speak more loudly than anything else for the present administration. The fine-spun theories of government and the parable of the wheat and silver are of little avail under existing conditions.

THE Falls City Journal asks a question: "What is to hinder Bryan from going up among the red skins and posing as a Messiah and convert them to fusion? There are a good many adults among them and he might swell his vote considerably in the Dakota's and other silver producing localities."

IT IS THE opinion of Admiral Dewey that the situation in China is most serious, and that this country is very fortunate in having so large an army in the orient. In the event of trouble he says the United States can send within a few days more soldiers into China than any other nation.

WHEN it comes to the matter of looking after our state institutions, W. A. Poynter is a record breaker. The next governor of Nebraska, whatever his politics may be, will doubtless use other means of removing officials than that of drowning them out with whitewash. Hammer and tongs would be more efficient.

THE fusionists of Nebraska are at a loss to know what to do with W. A. Poynter. They feel that they cannot re-elect him, and to turn him down at the end of his first term might not be better things very much. It would seem as though he might be induced to gracefully withdraw for the good of the cause of reform and for "Bryan's sake."

THE county press recognizes the fact that Miss Kattie Worley of Elmwood is a better newspaper man than is Sandy Morrison. She has had charge of the Eagle Beacon since he began taking the census, and there has been a marked improvement in the same. Sandy will have to work a little harder when he takes up the work again if he is going to keep up the pace set by Miss Worley.

J. STERLING MORTON, in discussing the responsibility for the ratification of the treaty with Spain giving us the Philippines, says in part: "With uniform livery of modesty even Colonel Bryan himself admitted that he had accomplished ratification." He then asks: "By what right can Bryan and his disciples criticize the results in the Philippines? Did not the Bryans, Baileys, 'Chump' Clark and other chumps brag that they had forced the administration? Are such statesmen stopped or not stopped from criticism?"

C. A. Marshall, Dentist.

DOLLIVER'S PERORATION.

From the Philadelphia Post.

Jonathan P. Dolliver of Iowa of the ways and means committee in the house of representatives is a son-in-law of D. K. Pearson, the millionaire philanthropist of Chicago, and, in spite of his wealth, he has won an enviable place in congress solely on his merits during his twelve years of service. Mr. Dolliver is an eloquent speaker, and when he is set down for a speech the visitors' gallery is sure to be filled. He is particularly apt at a repartee and most members fight shy of a running debate with him. Mr. Dolliver is perhaps the best known by his peroration on the question of admitting American pork into European markets.

"I hope the time will come," he said, "when the American hog with a curl of contentment in his tale and a smile of pleasure on his face may travel untrammelled through the market of the world." But that time has not yet arrived, in spite of Mr. Dolliver's eloquence.

NEBRASKA LIVE STOCK VALUES.

Nebraska's live stock records an interesting object lesson to the farmers of this state. Compare the values:

Table with columns for Year (1895, 1896, 1897, 1898, 1899) and rows for Horses, Mules, Cows, Other cattle, Sheep, and Total.

Here is an increase of 257 per cent in the brief space of five years. Farmers need not be told this rise in value has taken place. Every one who has sold a horse or pig or steer or sheep knows he got double the price he did in 1895.

Surely this experience should not be valueless to the farmer in directing him how to vote to protect and further his own interests.—Fremont Tribune.

AN IMPORTANT DECISION.

United States District Judge William K. Townsend has handed down an opinion in the test case on Porto Rico. It is to the effect that the Paris treaty is valid and that the status of the people of the island is that of inhabitants of a foreign country as regards the constitution of the United States, and within the meaning of the tariff acts; that Porto Rico is a part of the United States so far as other countries are concerned, but so far as the constitution of this country is concerned is a foreign country, and that the United States can govern it without subjecting it to the burden of national taxation and that the status of the inhabitants will remain unchanged until congress shall determine it.

CHARLES E. WINLER, president of the Nebraska Republican league, has called a state convention of that organization to meet in Lincoln June 28 at 2 o'clock p. m. for the purpose of electing officers and selecting delegates to the national republican league, which meets in St. Paul July 17-18.

The convention will convene in session by holding a grand ratification meeting in the evening. This will be a mass meeting of huge proportions. The state candidates and returned delegates from Philadelphia will be there. A speaker of national reputation has been invited and is expected to be present and deliver the speech of the evening.

TAMMANY is conceded to be the ruling power in the democratic party, and since it is head over heels in the gigantic ice trust in New York city all the political buncombe has been knocked out of the trust question. The burden of proof seems to be on the democrats now to show to the people that their political leaders are the worst in the whole country. New York's mayor is a fine exponent of reform.

INFORMATION AND OPINION.

The Chicago chief of police says that the practice of hiring out as domestic servants only to remain a few days for purposes of theft has become notably prevalent in that city. Fifty complaints of pilfering and robbery by newly employed servants have come to the police from householders in only one part of the city within a week.

In response to requests from wives of officers serving in the Philippines to join their husbands, the secretary of war has decided that the wives of regular officers and those of volunteer staff officers can go on transport when there is room for them by getting permission from the quartermaster general of the army, but that owing to the fact that the officers of the volunteer regiments will soon be returned to this country by expiration of service the wives of these officers will not be permitted to go to the Philippines on the government transports.

A decision of importance was handed down yesterday at St. Louis by the circuit court, Judge Thayer, in the case of the American school of magnetic healing, S. A. Weltmer and J. H. Kelley, complainants, vs. J. M. McAnulty, postmaster at Nevada, Mo. The opinion holds that the direction given by the postmaster general to withhold mail sent to complainants and return it to the senders marked "fraudulent" is legal. An injunction restraining McAnulty from obeying the order was denied.

The highest ambition of the average man is to own a savage dog. The average man always believes that somebody wants to steal something from him; he misses something that he has carelessly mislaid, and he is dead sure that Jinks or Nimpson or somebody else has stolen it. He reads the riot act to the police, asking the officers why they don't do their duty;

MATE FOR THE MAJOR.

Problem That Republicans Are Now Worrying Over.

ROOM FOR A MAN FROM THE COAST.

Allison Absolutely Out of It, But Dolliver Is Running—Hotel Tariff at Kansas City.

Philadelphia, Pa., June 15.—Speculation, gossip and informal conferences yesterday among national committee men and other leading Republicans who are here failed to indicate a crystallization of sentiment around any individual for vice president. Neither Hanna nor those who are close to him gave any hint of who may be the man to get the second place to be given out at the convention hall next week. Delegate Payne, of the Iowa

Swedish Lutheran Synod.

Burlington, Ia., June 16.—The Swedish Lutheran general synod assembled here with delegates present from all parts of the country. The forenoon session was occupied with devotional services and the business of the synod was taken up in the afternoon. The election of president for Augustana college at Rock Island, Ill., will be the chief feature of the assembly.

Inter Ocean Allowed to Intervene.

Springfield, Ill., June 16.—In the supreme court the motion of the Chicago Inter Ocean Publishing company to be made party-defendant in the mandamus proceedings of the Denver Post against the Associated Press, was allowed. The motion of the New York Evening Journal for leave to file a petition for mandamus was also allowed.

Gave His Heart Too Much to Do.

Auburn, Ind., June 16.—Mr. Kepler, one of the wealthiest farmers of this county, is alarmingly ill with heart disease, contracted from running after sheep, which had broken loose. Physicians from Fort Wayne and Butler have been holding consultations over him, and his chances for recovery are doubtful.

Starvation never yet cured dyspepsia. Persons with indigestion are already half starved. They need plenty of wholesome food. Kodol Dyspepsia cure digests what you eat so the body can be nourished while the worn out organs are being reconstructed. It is the only preparation known that will instantly relieve and completely cure all stomach troubles. Try it if you are suffering from indigestion. It will certainly do you good. F. G. Fricke & Co.

Sale of a Telephone Company.

Minneapolis, June 18.—A syndicate of local capitalists has bought the Mississippi Valley Telephone company from J. L. Hubinger, who has in the last three years invested \$600,000 in the fight and in St. Paul against the Northwestern Telephone Exchange company. As much more will now be put in and the fight continued.

A Life and Death Fight.

Mr. W. A. Hines of Manchester, Ia., writing of his almost-miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery which wholly cured me. Hundreds have used it on my advice and all say it never fails to cure throat, chest and lung troubles." Hines also says he had a trial bottle free at Fricke & Co's drug store.

Fire Three Harmless Bullets.

Terre Haute, Ind., June 18.—In a fight over a woman at the Big Four station Saturday morning Charles Davis of this city, shot three times at W. G. Elliott, of Mattson, Ill., without effect. One of the bullets, however, passed through a straw hat worn by Harry Lahey, a newsboy, and knocked it from his head.

Aside from the serious inconvenience and pain caused by piles, there is a tendency to fistula and to cancer in the rectal regions. Piles should not be allowed to run on unchecked. Tabler's Buckeye Pile Ointment is an infallible remedy. Price, 50 cents a bottle, tubes 75 cts. F. G. Fricke & Co.

Accident to Mrs. Fremont.

Los Angeles, Cal., June 16.—Mrs. Jennie Benton Fremont, widow of General John C. Fremont has met with a severe accident. In leaving the dinner table she slipped and fell, fracturing her hip. Mrs. Fremont is 79 years old and her recovery will consequently be slow.

Dynamite Suspect Arrested.

Chippewa Falls, Wis., June 16.—John Ole was arrested yesterday on a warrant charging him with placing dynamite under and blowing up the house occupied by a family named Peterson last Saturday. Ole's friends claim he is innocent.

All who suffer from piles will be glad to learn that DeWitt's Witch Hazel Salve will give them instant and permanent relief. It will cure eczema and all skin diseases. Beware of counterfeits. F. G. Fricke & Co.

It is said that a Pennsylvania woman has left \$10,000 for the benefit of a horse and dog. The best thing about leaving money in this way is that the beneficiaries are not likely to quarrel over its division.

If your sight is blurred with specks and spots floating before your eyes, or you have pains on the right side under the ribs, then your liver is deranged, and you need a few doses of Horbine to regulate it. Price 50 cts. F. G. Fricke & Co.

The Chinese ask "how is your liver?" instead of "how do you do?" for when the liver is active the health is good. DeWitt's Little Early Risers are famous little pills for the liver and bowels. F. G. Fricke & Co.

Some one, who is evidently preparing to celebrate the Fourth of July in an up-to-date manner, broke into a car in the Burlington yards last evening and stole a large box of cannon crackers. The authorities have thus far been unable to secure a clue as to the guilty party.

Unless food is digested quickly it will ferment and irritate the stomach. After each meal take a teaspoonful of Kodol Dyspepsia cure. It digests what you eat and will allow you to eat all you need of what you like. It never fails to cure the worst cases of dyspepsia. It is pleasant to take. F. G. Fricke & Co.

RATIGAN IS MUCH WANTED.

Two States That Need Him in Their Bureaus, as at War.

Springfield, Ill., June 16.—Edward Ratigan, who escaped from Waupun prison some months ago, has been captured and is being held here. He was arrested on a charge of robbing a post-office and is on trial in the United States district court here. Warden C. C. McLaughrey, of the Wisconsin state penitentiary, arrived in Springfield Thursday, and is waiting to take possession of Ratigan in case he is acquitted. Ratigan is held here under the name of John Evans.

Ratigan was sent to Waupun for robbing the Amherst bank. The postal authorities claim that he has robbed several postoffices in this state and elsewhere. After serving some time in prison he managed to make his escape and was at large until his arrest by a postoffice inspector in this city. There is a very strong case against him here and it is probable that he will be convicted, in which case Warden McLaughrey will not get his man.

A Monster Devil Fish.

Destroying its victim, is a type of constipation. The power of this malady is felt on organs, nerves, muscles and brain. But Dr. King's New Life Pills are a safe and certain cure. Best in the world for stomach, liver, kidneys and bowels. Only 25c at Fricke & Co's drug store.

Story of the Austrian Emperor.

Paris, June 18.—A story is going the rounds of the clubs to the effect that the emperor of Austria has contracted a morganatic marriage with the actress Katti Schratz. His name has been associated with hers for some time.

Talking of Craig for Governor.

Champaign, Ill., June 18.—Democrats here are talking of ex-Justice A. M. Craig as a Democratic candidate for governor.

A sallow, jaundiced skin is a symptom of disordered liver, as it springs from biliary poisons retained in the blood, which destroy energy, cheerfulness, strength, vigor, happiness and life. Herbine will restore the natural functions of the liver. Price 50 cts. F. G. Fricke & Co.

Senator William B. Allison.

contingent, arrived yesterday, having come via Washington. He brought renewed assurances from Senator Allison that he could not and would not be a candidate for vice president. Payne stated that Allison had told him he not only would not be a candidate, but that if nominated he would decline. "If they should place me in nomination," the Iowa senator is represented as having said, "I will decline and I will find means of letting the delegates know my position before they leave the hall."

Roberts in Charge of Dolliver's Boom.

George E. Roberts, director of the vice presidential boom of Representative Dolliver, he said yesterday, "Iowa is for Dolliver. We have no claim as a doubtful state, but we believe he has qualifications that are more valuable to a candidate than any advantage that can come from mere locality. He has had a successful career of twelve years in the lower house of congress, and his strength among his constituents is testified to by six renominations by acclamation. His strength in congress is proven by the fact that his fellow members in the house are responsible for the movement to place his name before this convention."

Cost States Have a Man.

Senator Fitzhugh Lippman, was another arrival yesterday, and was besieged by those who were anxious to know if he was a candidate for vice president. The position of Fairbanks, however, is well known. He does not believe in the vice president. The fact that the name of Bartlett Tripp will be presented to the convention for vice president is not allowed to be hidden from the people of the Pacific coast who are in charge of his interests. Just now they consist of National Committee-men Ashton, of Washington, and Steel, of Oregon. Ashton bears the name of Tripp, which is held by many other western states, besides Oregon and Washington.

Delegation Contests Decided.

The national committee put in the day and part of last night deciding contests in delegations, the two most important of which were those from Tennessee and Delaware. In the Tennessee case the principals in the fight were Pension Commissioner Evans and State Chairman Brownlow, there having been two state conventions and the voters being Evans men. Brownlow got the decision. The Delaware case was the subject of an earnest speech by Chairman Hann, in which he made an impassioned appeal for the burial of the hatchet between the Adickes and the Dupont-Hilgins factions. His speech was an appeal for the unity of the party, and he said that no effort should be spared to accomplish this end. "I bear witness," he said, "that I reflect the sentiment of the president in my appeal to secure a settlement of this case. \* \* \* I feel an intense interest in this case because of its possible bearing upon national politics, and I appeal to you—indeed, I supplicate the Delaware Republicans of both parties—to forget that there has ever been a factional fight in the party in your state and to unite in the interest of the common cause."

KANSAS CITY HOTEL CHARGES.

Chairman Jones Makes a Statement Regarding the Matter. Kansas City, June 18.—After a conference with the leading hotel men and with the general convention committees of Kansas City, Chairman Jones handed the Associated Press the following signed statement: "The three or four leading hotels have already contracted practically for their full complement of delegates. On account of expense in preparing for the convention the managers of the larger hotels felt themselves compelled to require contract for a minimum time of four days, the time to begin at the option of the delegation making the contract, but they did not increase their regular rate."

"In the other hotels, nearly forty in number, and the rent of ten thousand outside rooms listed by the local committee on public comfort, a commodious can be had at reasonable rates, and payment is only required for the length of time the rooms are occupied."

The local committee on public comfort has so systematized its work that it appears to me that it is possible for any man to be taken care of better and at more reasonable rates than has been the case at any former convention.

"The general work of the bureau of information and committee on public comfort is in charge of A. D. L. Hamilton, New York Life building, Kansas City, Mo., who will give all information desired, reserve rooms and make contracts for all persons wishing to attend the convention. It is desirable that the rooms may be secured by correspondence with him. Branch headquarters of this bureau will be established at all railroad stations in the city, and members of the committee will meet all incoming trains and will also be stationed at all hotels to assist visitors in securing the kind of quarters desired."

Interior Plunge Bath, Hot Springs, South Dakota.

An All Year Resort

CLIMATE, WATERS, HOTELS, BATHHOUSES, SCENERY

All combine to make this resort the best health and pleasure resort in America.
