THE LARGEST CIRCULATION OF ANY CASE COUNTY PAPER. FRIDAY, JUNE 22, 1900.

We're all for "Billy" and "Teddy."

The whole country seems elated over the republican national ticket.

JOHN A. GUTCHE is being mentioned by the democrats for state senator.

MARK HANNA is to be chairman for another four years. He is just the man for the place.

THE BOE says that the republican is yet to be found who objects to the presidential ticket.

ASSIST in organizing a McKinley and Roosevelt club at Judge Archer's office this evening at 8 o'clock.

ANY young man can take pride in casting his first vote for William McKinley and "Teddy" Roosevelt.

EDWARD ROSEWATER and R. B. Schneider have gone to New York for a few days before returning to Nebraska.

COLONEL ROOSEVELT will serve out his term as governor of New York, which is just what the people want him to do.

THE ladies' edition of the Union Ledger is bright, new and well edited, and, indeed, a credit to those who had the work in charge.

NO ONE can say that President McKinley tried to dictate the nomination for vice president. He trusts the rank and file of the party.

TO TAMMANY the unpardonable sin on the part of its members is to "get caught." Van Wyck, Carroll et al seem to be guilty of the great crime.

SOME of the republican leaders in New York say Odell will be nominated to succeed Roosevelt, and predict that he will carry the state by 95,000.

DAVID B. HILL of New York is being prominently mentioned in connection with the nomination for vice president on the democratic ticket.

MCKINLEY and Roosevelt is a combination that meets the hearty approval and inspire the highest confidence and respect of a great people.

MCKINLEY, Roosevelt, Dietrich and Burkett are a quart of winners. Cass county republicans are enthusiastic for every one of them and they will all get support from the fusionists.

"TEDDY" doesn't do a great deal of talking, but he acts with undaunted courage and vigor. He challenges the love and admiration of a great American people.

THE democrats are not quite sure whether the republicans were wise in placing "Teddy" on the national ticket. But the dispatches indicate that republicans in every state and territory are jubilant.

FOR the benefit of those who have been wondering who the one delegate was that did not vote for Theodore Roosevelt in the national convention, THE NEWS will state that it was the rough rider himself. He was a delegate-at-large from his state.

THEODORE ROOSEVELT asks: "Is America a weakling that she should shrink from the work of a great world power? The giant of the west, like the gladiator of old, looks into the future with hope, with expectancy, with the love of all institutions have made dear to us."

WEEK Senator Quay withdrew the amendment proposing a change in rules one and 12, referring to the representation in national conventions, the southern delegates arose en masse and cheered wildly. Its adoption would have greatly reduced their representation.

TEXAS democrats are divided on the question of expansion. One hundred and six delegates in their state convention voted for the minority report of the committee on resolutions favoring expansion. Inasmuch as that is to be the leading issue of the national campaign it is significant that the followers of Mr. Bryan are so hopelessly divided on that question. They are with their leader, however, when it comes to the question of adopting the Chicago platform.

THE opening words of Governor Roosevelt speak volumes for President McKinley and his administration and are worth repeating: "Mr. Chairman, I rise to second the nomination of William McKinley, the president who has had to meet and solve problems more numerous and more important than any other president since the days of the mighty Abraham Lincoln; the president under whose administration this country has attained a higher degree of prosperity at home and honor abroad than ever before in its history."

TOLESTOI'S WIDE RANGE OF READING. Dr. Harper's comment on his two evenings with Tolstoi may puzzle people who have been prejudiced against the Russian author by his eccentricities, says the Chicago Times-Herald. It will seem strange to them that a man who is certainly a religious crank if there ever was one should be called "broad-minded," that with all his appalling intensity he should yet be marvelously alert to everything that is going on in the world and in the world's literature.

But it was really characteristic that the famous writer should have turned interviewer and overwhelmed his visitor with his inquiries about and distinctions on America. Not only has he the gift of tongues in an extraordinary degree, but his range of reading in foreign languages seems almost incredible. We have referred in these columns to his discovery that Garrison was a pioneer in the preaching of nonresistance by force, but although the fact is not commonly familiar to Americans, who know Garrison only as anti-slavery leader, it might be learned in a study of American history. It was simply a good illustration of the industry with which Tolstoi seeks support for his doctrines.

We can give another illustration, however, to show that he finds time for anything and everything. Some years ago a slashing sort of book was published in this city to prove that might was right. It came under a name that was too obviously assumed, and being of cheap appearance and doubtful pretensions it was ignored by the critics. But Tolstoi gives a sharp review of it in his "What is Art?" along with his epigrams of countless other authors. So he makes excursions into all literatures, reading, one would say, with such a fierce avidity, such a mastery of the instruments of speech, such a retentive memory as to force his own readers into a state of wonder and humiliation.

How can he get the time? Is the first question that arises to one's lips, and then one realizes that the most liberal allowance of time would not explain such acquisitions as his. However industriously he may employ himself, he owes most of all to those original endowments of nature which conferred upon him the exceptional mind. Many another man might live four times four score years without treasuring up a tittle of the information which Tolstoi has at his tongue's end.

ANOTHER PROPHECY. (Conservative). In his speech at Hornellsville, N. Y., August 25, 1896, Mr. Bryan thus declared against the gold standard: "They know the gold standard encourages the hoarding of money, instead of expending it in the development of the resources of the country. And now this policy of hoarding is driving thousands and tens of thousands of workingmen out in the streets, where they beg for the privilege of working for their daily bread."

It was not the gold standard that created the conditions to which he referred, but the fear of repudiation and depreciation drove capital from the usual channels of investment. If there was any doubt about this at the time it has been removed by later events. The defeat of Mr. Bryan, the consequent restoration of public confidence in our financial integrity brought the gold from hiding and employed it "in developing the resources of the country" and thus gave employment to labor.

THE democrats and populists of Gage county held their conventions in Beatrice yesterday and the populists had everything their own way. They insisted on dictating to their co-workers to such an extent that Chairman G. P. Marvin of the democratic convention moved that a vote of thanks be tendered the populists for allowing them to hold their convention in the same hall.

FRIDAY'S Chicago Times-Herald contained interviews with republican leaders from every state and territory in the union, and every person interviewed is enthusiastic over the national ticket and sanguine that McKinley and Roosevelt will receive a larger vote than did McKinley and Hobart in 1896.

A PROMINENT Filipino of the island of Cebu says: "The island of Cebu can yield greatly more than it has. The people are disturbed by what they have been through and what they fear. Very few are capable of self-government now." Are the Filipinos capable of self-government?

GOVERNOR ROOSEVELT'S message to McKinley: NEW YORK, June 21.—Hon William McKinley, Washington, D. C.: "I appreciate deeply your congratulations, and am proud to be associated with you on the ticket."

THEODORE ROOSEVELT. "BOSS" CROKER has returned from Europe and says he's going to "look into that ice business." Being a stockholder, he ought to have little difficulty in getting at the facts in the case.

WHEN you have a minute to spare sit down and compare the war record of the democratic leader to that of William McKinley or Theodore Roosevelt.

THE rough riders will have a great time at their reunion in Oklahoma July 3 and 4. "Teddy" will be in clover.

MARK HANNA is claiming Kentucky, and says: "We will try hard to keep Bryan's state in the right column, too."

WE HEAR the name of Matthew Gering mentioned in connection with nomination for float representative.

EVEN MR. BRYAN PROSPERS. That prosperity has struck Mr. Bryan is evident from the assessment returns as given in Sunday's State Journal. It will be observed that the past four years have been very prosperous ones—the past year the most of all. His personal property for the past eight years is listed as follows: Year. Value. Year. Value. 1896. \$200. 1897. \$1,485. 1898. 300. 1899. 2,990. 1899. 340. 1899. 2,990. 1899. 250. 1899. 4,050. The four years of democratic administration do not compare very favorably with that of William McKinley's.

SINCE the nomination of McKinley and Roosevelt the leading poperators in the state house have admitted their disappointment. They honestly believe that fusion in Nebraska is likely to be defeated this fall, and they acknowledge that a defeat means permanent disruption of fusion and the consequent triumph of the republican party. Once defeated fusion is certain to fall to pieces. At no time has there been any real friendly feeling between the populists and democrats of the state. They simply recognized the absolute necessity of working in unity to secure the least show of victory. Disorganization has already set in, and the leaders look with gloom upon the coming election with McKinley and Roosevelt at the head of the national ticket, and Mr. Dietrich leading the state ticket.—State Journal.

JUDGE WILLIAM K. TOWNSEND of the United States district court has given an opinion in which he declares the Porto Rican tariff to be valid. He holds that "boundaries of the country cannot be enlarged or diminished by the varying incidents of war." Judge Townsend, in this decision, simply affirms previous decisions handed down by United States courts relative to the government of new territory acquired by this country from the acquisition of the Louisiana territory down to the present time.

IT HAS been suggested that sympathy is democracy's long suit. The people are beginning to wonder what Mr. Bryan is going to be able to do for China. He will doubtless wait until the present administration states its position then he can simply make use of the prefix "anti."

STEPS are being taken to organize a rough rider flambé club. Two or three hundred men in rough rider uniforms would be an inspiration and make people want to get in line for McKinley.

INFORMATION AND OPINION. Judge Sullivan of Plattsmouth was in the city today between trains. The judge has some queer notions about politics and his friends fear that he has been leaning toward populism too much since he has been visiting this city so regularly and they have been talking him to task about it.

When a knight of old entered a company of ladies he removed his helmet to indicate that he considered himself among friends, and that there was no need to protect himself. This practice has survived in the custom of raising the hat when saluting a lady.—June Ladies' Home Journal.

weekly in the pines in the early sixties. It was an unimportant sheet save for one column of jokes which Peck wrote each week. This department caught the eye of "Brick" Pomeroy, who was then printing his Democrat in La Crosse, Wis., and one day he wrote to Peck, asking him whether he would be willing to go down to La Crosse and work for the Democrat at twenty-five dollars a week. Three days later Mr. Pomeroy got this telegram: "I accept your offer quicker than instantly. For heaven's sake don't withdraw it!"

"Hike," the term used by soldiers to describe their runs after the insurgents in Luzon, is the Kansas equivalent for "hustle." It was originally invented by the Kansas farmers when they desired to instruct their employes by giving the command, "hike yourself," with the intention of saying "get a gait on." Funston brought it to Manila and it became so popular in the army that instead of saying "double time" or "hurry up," or anything else of that character, when an extra effort is asked of the men, they are simply told to "hike," and the cry, "hike! hike!" is as common in the Philippines now as "forward" is in the drill books.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedial. Deafness is caused by an inflamed condition of the mucous surface. When this inflamed surface has a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this surface restored to its normal condition, hearing will be destroyed forever; none cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by druggists.

Funeral Monopoly. All the funerals in Paris are conducted by a single syndicate, which has a licensed monopoly of the business. There is a regular traffic of rates, a first-class funeral costing \$2,000, and a cheap or ninth-class \$5.

SOME Fat Steers. A. S. Wills, the Eight Mile Grove stock feeder, shipped 101 head of steers to Chicago over the Burlington today. These animals averaged 1500 pounds each, and were undoubtedly the finest lot of steers which have ever been shipped from Cass county. They occupied six cars. Mr. Wills expects to make another large shipment tomorrow.

Raising the Hat an Ancient Salutation. FIRE LOSS OF \$250,000.

Hot Blaze at Pittsburg and a Run for Fifty Lives. Pittsburg, June 23.—Fire in one of the principal down-town business blocks yesterday caused a loss of \$250,000, involving eight buildings containing many office tenants. The aggregate insurance will more than cover this amount. The fire was first discovered in the rear of the Eichbaum company printing establishment, supposedly caused by spontaneous combustion. In an incredibly short time the entire building was a mass of flames. The greatest excitement prevailed in the rooms of Duff's Business college, where fifty or more students were at work. The extension of the flames was so rapid that those people had to run for their lives, not having time even to gather their belongings together. Reports were rife that several students had perished, but it is known that all escaped unhurt.

The principal losses are the Eichbaum building, \$75,000; the Hussey building, \$30,000; Kurtz, Langbeil & Swartz, artists' supply company, \$8,000; Duff's college, \$15,000; Pittsburg Printing company, \$7,500; Platt's saloon, \$5,000; Paulson Bros., hatters, \$5,000; American Express company, \$5,000; and Holmes Electric company, \$3,000. The other losses are distributed among the office tenants, none of whom suffered to the extent of more than \$2,000.

ROBERTS SPREADS A NET. Hopes to Catch 6,000 to 8,000 Boer Therein—Krugger's Sons Are Peaco.

London, June 23.—General Steyn's forces in the Orange river colony are for the time drawing most of the attention of Lord Roberts, rather to the neglect of Commandant General Louis Botha and President Kruger. The severance between the Transvaal and the Orange river colony was completed yesterday by the arrival of General Dundonald, at Standerton. The wide net around the 6,000 or 8,000 men under General Steyn will now contract. Adroit manoeuvring and brisk fighting are likely to take place, because until all resistance south of the Vaal is at an end the British line of communications will not be safe.

President Kruger's sons, who surrendered to General Baden-Powell, are back on their farms and working peacefully. General Baden-Powell rode with only 300 men from Mafeking, and he made the last section of his ride to Pretoria with only thirty-five. General De Wet's farm houses have been burned by the British.

Lourenzo Marques, June 22.—President Kruger's principal condition for immediate peace is that he be allowed to stay in the country.

WISCONSIN G. A. R. PARADE. Unformed Men and Hundreds of Children in the Procession.

West Superior, Wis., June 23.—The state encampment of the Grand Army of the Republic closed with a grand ball, just preceding which there was a banquet and parade, the latter being one of the most brilliant of its kind the state Grand Army of the Republic has ever had. Hundreds of uniformed men and school children were in line, besides many elaborate floats. D. G. James of Richland Center was chosen commander and James H. Agen of this city senior vice commander. The woman's relief corps elected Mrs. Myra Grinnell of Beloit its department president. The day was made a holiday here and everybody in town helped celebrate.

Music Teacher's Adjourn. Des Moines, Iowa, June 23.—The Music Teachers' National association convention closed yesterday afternoon with a symphony concert by the Cincinnati orchestra and a piano recital by Richard Burmeister of New York. Richmond, Va., is the only candidate for next year's convention, but cannot assure a guarantee, so the place is left undecided. Among the officers are the following: President, A. L. Manchester, Camden, N. J.; secretary, Thomas A. Beckett, Philadelphia.

Cable to Mackinac Island. St. Ignace, Mich., June 23.—A cable was successfully laid between this point and Mackinac island by the Michigan Telephone company, and speaking communication established with the island for the first time. Various cities east and west were spoken with. Several of the company's officials are here, and celebrated the day's event with a dinner at the Grand hotel.

World's W. C. T. U. Edinburgh, June 23.—The World's Women's Christian Temperance union opened its annual meeting here under the presidency of Mrs. L. N. Stewart of Maine. Lady Henry Somerset presided at the afternoon session. Among the spectators were Mesdames Bailey of Rhode Island and Stevenson of Massachusetts and the Rev. C. M. Sheldon of Topeka, Kan.

Progress of the Colombian Revolution. Caracas, Venezuela, June 23.—The Colombian revolutionists have occupied Bucaramanga, on the Venezuelan frontier. Cumaná, a town in the department of Santander, also on the Venezuelan frontier, continues in possession of the revolutionists.

State Convention Deadlocked. Jacksonville, Fla., June 23.—The state Democratic convention is practically dead-locked on the nomination for governor. Up to 6 p. m. yesterday thirty-seven ballots had been taken with no choice.

Printing Pressmen Adjourn. Milwaukee, June 23.—The International Printing Pressmen and Assistants' union adjourned sine die yesterday after transacting a little routine business of an unimportant character.

Secretary Gage Nearly Well. Washington, June 23.—Secretary Gage has nearly recovered from his recent indisposition, but he has decided to go to Atlantic City for a few days before returning to duty.

Noted Western Man Dies. Helena, Mont., June 23.—Daniel P. McKilloan, a mining man of note in the west, died here. He built the first quartz mill near Helena, at Unionville. In the early sixties and put up a number of quartz and other mills in different parts of the state. He was a pioneer of Colorado, having squatted on property now the heart of Denver in 1850.
