Prince Tuan Orders a General Massa-

cre of All Foreigners.

Latest Word from Our People Is That They Were Fighting for Life in the British Legation with Tragedy Impending.

London, July 4.—The couriers who are arriving at the seats of governmentof the southern viceroys in China from theiragents in Peking give vivid but fragmentary pictures of what is bein genacted at the capital. These couriers seemingly left Peking a day or two later that the messenger of Sir Robert Hart, the inspector general of customs, who started on the night of June 24. They report that he heads of some of the captured legation guards were being borne through the streets at th etop of spears, followed by zealots chanting "Tapi yang kueg tse; tapi, tapl," (Kill the foreign devils; kill, kill.") The city's millions have been roused to patriotic ferver, breaking out into the wildest excesses, while over half the city could be heard fighting killed several strikers, have been inaround the legations.

Foreigners Making a Brave Fight. Sir Robert Hart's runner, who was interviewed by the correspondent of The Express at Shanghai, supplemented the tragic sentences of the dispatch he bore by a narrative of some things he saw. He says the foreigners were making a last stand in the extensive builldngs and enclosures of the British legation. They had many dead and wounded. Among them were some women and children. All were short of food, even of the commonest necessaries. The women were starving, as they gave a part of their small allowance to the children. The foreigners, nevertheless, were holding out under a terrible fire, upheld by the hourly expectation of relief.

Hoping for Relief in Vain. They knew they would out be abandoned, and that th earmies of their governments were advancin. Sometimes they thought hey could hear artillery in action beyond the wall. They were unable to return the fire of the Chinese, exceet at moments when an assault seemed imminent. Then the machine guns and repeating rifles tore the storming parties to pieces. The messenger expressed the belief that it would be impossible for the toreigners to resist muchlonger, as the Chinese were preparing to batter down the walls of the courtyard and the ammunition of the defenders was runing

Tunn Gives Orders for Massacres. Orders were given by Prince Tuan, the messenger says, that since some had been killed not one other foreigner should be alive. The Chinese soldlers were exhorted to sacrifice their lives without hesitation if by so doing they could help exterminate the wang kuel tse.' Extreme precautions had been taken to prevent the foreigners from communicating with any one outside the city, and a number of runners who had been sent out were killed by the Chinese. This messenger succeeded in getting through by smearing his face and clothes with blood and joining in the outerles against the

Seymour's Dead Cut to Pieces. He passed the remains of foreign ers of Admiral Seymour's force who had been killed between Lang Fang and Lo Fu. Their bodies had been cut to pieces, and their heads were carried at the ends of bamboos. A large army of Manchu Chinese imperial troops, with twenty guns, is reported to be advancing in the direction of Tien-Tsin. Reliance is placed in Shanghal on most of the statements made by the messenger, as he is known to be faithful to the foreigners.

Sixteen to One Is to Go into the Platform of the National Democracy.

All Participants Agree on the Forego ing-No Settlement of the Vice Presidential Question.

Kansas City, July 4 .- A conference of three political parties was held at the Kansas City club yesterday. From Kelly, Salt Lake, head cut and ribs the Democratic party there were Jones of Arkansas, Tillman of South Carolina, Croker of New York, Johnson of Kansas; from the Populists there were Edminston of Nebraska, Weaver Allen of Nebraska, and Heitfeld of business. Robert E. Stone, Butte, head and chest | Idaho, and of the Silver Republicans there were Teller of Colorado, Dubois The train left Butte at 8:50 Monday | of Idaho, Newlands of Nevada, There were other representatives of the difhad made the climb up the Continental | ferent parties present. The object of an agreement between the three alcandidate, and as to the platform declaration on silver. No Hedging on the White Metal.

The conference settled as definitely as it is possible for a few representative men to settle anything in advance that the platform should contain a positive and specific declaration for free coinage at 16-to-1, but there was no equally positive development in the settlement of the vice presidential situntion. The meeting lasted from 11 a. m, until 1:45 p. m. and was marked by great earnestness. The entire exchange of views was upon the two questions of the financial plank of the platform and the selection of a man or second place on the ticket. Croker said his delegation was willing that schooner and a heavy iron davit fell the silver declaration should be made from the top of the cabin, striking and specific. He expressed the opinion that the New York Democrats would vote for Bryan regardless of the plat form declaration.

Spirited Talk on Running Mate. There was a very spirited talk over he vice presidency in which all par treipated more or less. Clayton of Ala ama held out strenuously for a Democrat, "a man who had the Demoeratic brand upon him." He said that Bryan himself represented sufficiently he Populistic or northwestern idea. and he thought no concession should made in the vice presidential nomination. He added that he meant no reflection upon Bryan, but only intended to say that the ticket did not require to be strengthened in that direction. Pettigrew and others of the non-Democratic conferrees replied tartly to this speech. It was generally agreed that the trend of opinion among Democrats as developed in the conference was antagonistic to Towne, but sentiment was developed in favor of any individual Democrat for the place. Another conference was agreed abou for tomorrow morning.

BRYAN TO BE NOMINATED TODAY. That Is the Scheme Proposed-Candidate

To Be on Hand. Kansas City, Mo., July 4.-Unless plans perfected last night are upset Bryan will attend the Democratic national convention after his nomination if he is put in the field early enough to render it practicable for him to do so. A formal invitation has been ex-

tended to him, and he has said that he would accept. This fact was brought out yesterday afternoon at the neeting of the national Democratic ommittee, as was also the intention of the national committee to have the nomination for the presidency made tween Omaha and Cheyenne. today if possible. The desire on the part of the mem-

ers to accomblish this end was developed at the close of the session and was brought to the surface by an nvitation to the committee from the itizens of Kansas City to take a taly-ho ride this evening. This invitaon was extended by ex-Governor Stone, of Missouri. When it was preented Clayton took the floor in opposition to its acceptance, saying that there was a well defined and very general wish that Bryan should be placed in nomination on the Fourth of July, making a fitting Democratic celeration of the national anniversary. Senator Kenney spoke in the same train, and Senator Jones descended rom the platform to add his voice in upport of the proposition. All agreed hat such a nomination would add spirto the occasion and give the ticket send-off such as it would not othervise receive. The members of the committee generally supported the roposition, and as a consequence the avitation of the Kansas City people vas declined.

The discussion developed some oints of the programme of the compittee. It is its purpose to have the sual committees appointed as propmty as possible after the convening of he convention, and to them have them get together immediately, act as soon as they can, and if possible report and have the convention act upon the eports before adjourning in the afteron. Failing to secure action in the afternoon they hope to get the committee reports disposed of early in the evening and still accomplish Bryan's nomination before the adjournment of

he night session. Cox's Resignation Accepted. Cincinnati, July 4.-George B. Cox.

Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes sour and acid.

This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to referment in the blood and cause a fresh attack. Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a cen-

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Breva. d. N. C. It may be a question whether the editor of a paper has the right to publicly recommend medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy.
