#### REPUBLICANS NAME THEIR MAN.

#### Ex-Gov. Bradley's Bitter Criticism of Uncle Sam as He Sees Him-Roosevelt at St Paul.

Louisville, Ky., July 18 .- The Republican state convention yesterday nominated for governor Hon. John W. Yerkes, of Danville, adopted a platform declaring the issue of the election to be the Goebel election law, and adjourned within three hours. There were some anti-Goebel Democrats in inches. In the western counties the the convention, but as to how many figures differ. In the Shelby county delegation there were, according to a statement made from the platform. nineteen Democrats. A feature of the speeches made was that they all ing and threshing, but exceedingly unpaid tributes to what the Democratic favorable for corn. In the northern Party has done in the past, though they unsparingly denounced the pres ent Democratic state administration and the Democratic legislature, thus much real damage to corn, but in most indicating a purpose to welcome into the Republican Party all Democrats who are opposed to the Goebel election law.

Mrs. Taylor Given Three Cheers. There was no nomination to be made by this convention except for governor, as this year's election in made by the death of William Goebel. The present governor, Beckham, will hold this office only until his successor is elected and qualifies, unless he should himself be elected governor. The convention was held in the Audi-The boxes were nearly all torium. filled with ladies, and in one were Mrs. W. S. Taylor, wife of the former Republican governor, and four of her daughters. The convention gave her three cheers when she entered the box. In a speech ex-Governor Bradley said that with the Republicans of Kentucky it was not a question of whether the constitution follows the flag, but whether the constitution was worth anything under the flag.

Bitter Words of Governor Bradley. "We have been told," he said, "that wherever the flag went there freedom followed. It is not so in Kentucky. We found that our country could levy a tax on our property and take the last dollar we had and order us into service and force us to give the last drop of blood in our veins to sustain this nation, and yet this nation is under no obligations to sustain the citizen whose property and whose blood It can take. We have found that we had the power to go to a foreign land, and there rout an implacable foe in order to give freedom to a people who were not bound to us by ties of any description, and yet we have not the power to give freedom to the people of Kentucky. We have been told that they can send us abroad 8,000 weather.

From Wednesday's Daily. Anna Frish, the girl who was lodged n jail vesterday on a charge of petit arceny, preferred by Mrs. Grace Cateyson, had a trial before Judge Archer last evening and was found guilty. She was fined \$10 and costs, Anna's inancial condition could not satisfy this demand and she was taken back o jail and, in all probability, will be a

guest of Jailor McBride for the next ew days. Her habit of taking articles which do not belong to her is certainly a bad one and a jail sentence ought to be very beneficial in her case.

# Called the Officers.

The officers received a telephone call from the Missouri Pacific depot about S o'clock last evening. Marshal Slater, Officer Fitzpatrick and Deputy Sheriff McBride immediately responded to the call. They found six burly hobos lounging about the depot, some of them acting in a rather suspicious manner, but they had done

nothing which would warrant their arrest. However, in order to guard against a repetition of the robbery which occurred out there last week, the officers showed them the shortest

way out of town.

The majority of persons upon reaching middle age and past find their blood becomes weak and thin, and diseases that were easily controlled in earlier life begin to affect the constitution. Those predisposed to Scrofula, Cancer, Rheumatism, Gout and other hereditary troubles may escape till then, but as they age the blood, so long tainted and weakened by accumplated waste matters, is no longer able to properly nourish the body, and it becomes an easy mark for disease. At this critical period of hife the blood must be re-enforced before it can perform its legitimate functions and rid the system of these poisons, and nothing so surely and effectually does this as S. S. S.

S. S. S. strengthens and enriches the blood, improves the appetite, and builds up the general constitu-tion. It is not only the best blood purifier, but the best tonic for old people. It warms the blood, tones up the nerves, removes all taint from the blood, and prevents the development of disease. S. S. S. is the only purely vegetable blood medicine known. Not one particle of mercury, potash or other mineral poison can be found in it, and it may be taken for any length of time without harm.

S. S. S. is the only remedy that reaches deep-seated blood troubles like Scrofula, Cancer, Rheumatism, Eczema, Tetter, etc. It purifies and restores the blood to a healthy, normal condition, and makes it impossible for any poisonous waste materials to accumulate.

if you have an old running sore or an obstinate ulcer that refuses to heal, or are troubled with boils and carbuncles, try S. S. S. It never fails to make a quick and permanent cure of these pests. If your system is run down and you feel the need of a tonic, S. S. S. will strengthen and help you as it has many others to a happy, healthy old age.

S. S. S. cured Mr. H. Borden of Saumsville, Va., of a case of Rezema of thirty-five years' standing, after the best physicians in the surrounding country had failed. This was seven years ago, and there has been no return of the disease. If you are in doubt about wourd discovery to the disease and in the surrounding country had failed. This was seven years ago, and there has been no return of the disease.
