For State Superintendent

W. K. FOWLER of Washington.

DR. LANG still holds the fort.

THE dust is laid for the log rolling.

IF ANYBODY votes for W. A. Poynter

this fall it will be under protest.

MARION BUTLER will vote for Bryan,

but says he cannot support Stevenson.

He might support Teddy.

IT LOOKS as though Governor Shaw

were going to appoint J. P. Dolliver to

the senate to succeed the late Senator

Gear.

SEVERAL Plattsmouth people expect

to attend the G. A. R. encampment,

which opens in Chicago August 27.

THE Log-Rolling will be "paramount"

next Saturday. Plattsmouth

hopes to entertain all of Cass and many

from other counties.

Bixby says: For a great many reasons

the American people ought to

love Mr. Bryan, and for many more

reasons it should be their pleasure to

vote for William McKinley.

GOVERNOR POYNTER'S veto of the

bill providing for the appointment of

a supreme court commission ought to

lose him several thousand votes. Litigants

do not like to wait from four to

ten years to have their matters settled.

MR. BRYAN has not yet formulated

an answer to the question: "What

about the consent of the governed in

Alabama, North Carolina, Virginia

and Mississippi?" The question is

quite as troublesome as the Tammany

ice trust.

IN reply to the query of the Ne-

braska City News, we would say that

the "Brown" in Otoe county to which

THE NEWS referred as being a candi-

date for float representative is David

Brown. It seems there are "seven

dozen "Browns" down there.

DR. LANG'S name sounds familiar.

He will soon be well enough known

over the state to be available as a

candidate for the United States senate.

He and Bryan wouldn't get along very

well, however, for they both like to be

the whole show.

THE republicans of Weeping Water

have announced that they will organ-

ize a McKinley and Roosevelt club

Saturday evening, August 25. This is

the day of the county convention and

the boys will have the opportunity of

ratifying the action of the convention.

They are planning to have a big meet-

ing.

Secretary Porter showed rare tact

in refusing to hear testimony to the

effect that members of the straight

populist convention journeyed to

Grand Island on railroad passes. If

that offense were considered enough

to keep the nominees of the conven-

tion off the ticket, the entire fusion

aggregation would have to be thrown

over the transom for the same reason.

RICHARD WILKINSON of Tipton pre-

dict and Peter Cleveland of Elmwood

precinct will enter the contest for the

nomination for the house. Mr. Wilkin-

son stated a few days ago that he would

not be a candidate, but it is thought

that perhaps he has changed his mind.

THE NEWS has not been able to find

out just what the situation is.

THE Fremont Tribune says the only

thing the democratic party is good for

is to watch the republican party; that

it requires a critic to make it do its

best work and the democratic party

really serves it well in dogging its

footsteps and holding it in to a severe

### TO DISCREDIT MARTINDALE.

(Late Journal.)

Ever since the last meeting of the state board of education there has been a strained feeling among the friends of the ex-president of the board, D. D. Martindale of Knox county, and the fusion leaders. This results from the summary appointment of a successor to Mr. Martindale by Governor Poynter, when it has been the custom to allow members of the board to remain in office till they no longer desire the honor.

At the time of the meeting of the board and the selection of a principal of the state normal school, three members, Messrs. Jackson, West and Martindale, took a course that was against bringing politics into the management of the school. These three gentlemen recorded their votes for a principal who was not a favorite of any political faction, but who had many recommendations from school men of the state, but who was defeated. Just after the session was over President Martindale's term of office expired. It is not the custom to appoint a successor to a member of the board without consultation with the member who retires, as it is a sort of unwritten rule that membership in this board may be had during good behavior, as it were. Mr. Martindale was very much surprised one morning to learn that he had been deposed and that Mr. Tawney of Pierce had been appointed in his stead by Governor Poynter. His friends were just as much surprised and they sought some explanation for the act, and at first heard of none except that Mr. Martindale learned too much on the side of non-partisanship. His summary dismissal has caused a stir in Knox county, where he is a fusion leader and very popular.

Mr. Martindale was a candidate for superintendent of public instruction, and the dismissal from Governor Poynter came just before the state fusion convention, and was calculated to discredit him in the eyes of the fusionists. He made a hard fight for the place, but the ring was against him, and after the informal ballot in the interim before the formal ballot, the deal was fixed up against him. Mr. Martindale himself was rather inclined to bow before the rule of the powers, but his friends are hopping mad. When it appeared that the deal was to discredit Mr. Martindale before the convention, his friends came out openly and informed the fusion powers what they thought and what they might do.

### MAKING THE ENEMY.

(Omaha Bee.)

Advices from Manila report increased activity among the insurgents and the explanation of this is found in the following: "Newspapers containing the national democratic platform have arrived. The reference therein to Philippine independence and to a protectorate tends to strengthen the extreme anti-American element in its increasing attitude of delay and obstruction. It is believed that radical steps for a settlement here will be impossible before the election."

This undoubtedly states the simple truth. The Philippine plank of the Kansas City platform offers encouragement to the Filipino insurgents to continue hostilities. It tells them in effect to hold on, to keep up the contest, and if the democratic party is successful next November they will be given their independence. Hence the greater activity of the Filipino insurgents, which will doubtless be still further stimulated when they get Mr. Bryan's notification address and learn what he proposes to do for them. Is it possible for a patriotic man not to hold in reprobation a political party capable of taking such a position?

### WHO TELLS THE TRUTH?

"The republican. In regard to the party today is re-Philippines, many sponsors for every poor boy with a drop of blood drawn on his shoulder from an American soldier owes his death to the clamoring politicians at home. If they can soldier there would only close never was any occasion their mouths for a lion for war in the little while w Philippine islands, would soon put a There never would be quietus to this have been war in the Philippine army the Philippine islands. It is too bad and if the republic that we are made can party had dealt with the Filipino hands of our own according to American principles, the states," Lieutenant Oliver P. Robinson, Fortieth at Indianapolis, United States Volunteers, a democrat, to a relative in Carbondale, Ill.

THE Weeping Water academy is sending out its fifteenth annual catalog. The school opened in 1885 with about twelve or fifteen students. The enrollment last year was eighty-six in literary work and sixty-two in music. Twelve were enrolled in both departments, leaving a net total enrollment of one hundred and thirty-six. The prospects for the coming year are excellent. The school has proven a great benefit to Weeping Water and a credit to the county and state.

Isn't it funny to see how the democrats speak of republicans of the older days as grand statesmen, worthy signs of degenerate sons, and to remember how they abused those same statesmen when they were alive. In another twenty years they will be speaking of Mr. Hanna in the same way. Already they are praising Mr. Reed, for whom they had nothing too bad to say six years ago, simply because he has made a few sarcastic jokes about expansion. —Elk Creek Herald.

IN SPEAKING of the Gorman vote the Weeping Water Republican says the most ardent and enthusiastic McKinley men who call at that office are the solid level-headed German voters.

They are against free silver and are aware that political leaders are crying "imperialism" and "militarism" in the hope of securing somebody. No republican, democrat or populist favors either one.

EX-SENATOR PEPPER of Kansas, one of the founders and leaders of the populist party, is out for McKinley. He declares that in the government of the Philippines the president has followed the law and the precedents, treating the situation as Washington did the Northwest Territory, as Jefferson did the Louisiana purchase, as Monroe did in Florida, as Jackson did the Seminole country, and as Polk did in Mexico, New Mexico and California. The policy of the administration, says Mr. Pepper, has been "at all times American."

MARK HANNA has formally appointed Edward Rosewater a member of the advisory committee.

### INFORMATION AND OPINION.

There will be a great sensation at a not far distant day. Be a startling innovation that will take our breath away! All the ladies will be speechless from the shock of the surprise. And the sockets be incapable of 'prisoning their eyes!' It is coming, it is coming, and we cannot bluff it back. Coming too, in every color from the softest cream to black! They will paralyze us humans and will frighten all the 'bastes!' When the chaplains burst upon us in their men's shirt waists! —Denver Post.

The strong wind of Tuesday blew down over three hundred tents at the G. A. R. reunion grounds at Lincoln. The storm, occurring at 2 o'clock in the morning, a large number of the occupants are short on wearing apparel today.

General Miles braved the heat of New York recently to pay a visit to his daughter, whose husband is quartermaster at Governor's island, and to see the arrival of several batches of immigrants. On such occasions he always dresses in citizen's clothes, with a straw hat, dark suit and flowing tie.

Here is what the Chicago Inter Ocean says of Roosevelt's slouch hat: "It is emblematic of Americanism. It typifies the best thoughts and highest aspirations of Americans. There is no reason why it should not be worn by every man who believes that no mission or destiny can be too broad or high or noble for the American republic."

Ex-Senator John J. Ingalls is said to be dying. He is in Las Vegas, N. M., where he went several months ago for his health.

David Beswick, formerly of Philadelphia, has just returned from Tien Tsin where he went some time ago to set a woolen mill at the invitation of a Chinese mandarin. "I greatly regret the troubles that have arisen," he says, "for I saw a bright future there for American capital and skilled labor, especially mechanical and civil engineers. Tien Tsin with mills, would become a great manufacturing town because from there are shipped vast quantities of wool, much of it to this city, for making carpets. At present it is one of the main shipping ports of China, some of its products besides wool being hides, peanuts, bristles, and furs of all kinds. I found the natives to be a very intelligent people and splendid imitators. The climate is cold and healthy, well suited to Americans. Living is very cheap. Duck, wild boars, deer, pheasants—in fact, all game—is the cheapest kind of food while mutton beef and canned goods bring high prices. There are no factories north of Shanghai except the one I run. I do not yet know whether to go back. The causes of the uprising are so complicated that no one can define the real origin of the trouble."

Collis P. Huntington, millionaire and president of the Southern Pacific railroad, died very suddenly Tuesday of heart disease. He was in his camp at Pine Knot Lodge, in the Blue mountain region. His fortune is variously estimated at from \$10,000,000 to \$50,000,000.

The question has arisen as to whether a man who wears a shirt waist is eligible to membership in the Woman's club.

Since the death of Senator Gear of Iowa there are but ten senators who have been governors of their respective states. They are Messrs. Proctor of Vermont, Berry of Arkansas, Hawley of Connecticut, Culom of Illinois, Bate of Tennessee, Perkins of California, Shoup of Idaho, Tillman of South Carolina, Foraker of Ohio and Culberson of Texas. Of these six are republicans and four democrats.

The twelfth annual meeting of the Old Settlers' Reunion at Union will be held September 7 and 8. The committee has arranged a good program and made all the necessary arrangements for a pleasant time.

There has been considered in Chicago a proposition for marching clubs, organized according to nationality. It is proposed to form a legion of Germans, regiments of Poles, detachments of Swedes and battalions of Italians and have them parade during the campaign, there being one of each party, and the cosmopolitan character of Chicago's population making such a project easy of fulfillment. The "marching clubs" of Chicago are unexcelled.

### CALL FOR COUNTY CONVENTION.

The republican electors of Cass county are hereby called to meet in convention at Weeping Water, Neb., on Saturday, August 26, 1900, at 10:30 o'clock a. m. for the purpose of placing in nomination candidates for the following offices, viz:

County attorney, one senator, two members for the legislature, one member of board of county commissioners from first district, and for the transaction of such other business as may properly come before the convention.

The committee recommends that there be no proxies allowed but that the delegates present from each precinct or ward cast the full vote.

GEORGE L. FARLEY, Chairman.

GEORGE A. HAY, Secretary.

### RAIN CAME JUST IN TIME.

Showers of Saturday and Sunday Prove Very Beneficial.

UNIVERSITY OF NEBRASKA, LINCOLN, Aug. 4.—The first five days of the past week were hot and dry, with much high south wind. Showers and slightly lower temperature followed during the next two days. The daily mean temperature has averaged about 5 degrees above the normal. The daily maximum temperatures have been 90 degrees or above on most days of the week.

Most of the rain fell on Saturday and Sunday. The amount of rainfall equaled or exceeded the normal in a large portion of the state. It exceeded 1 inch in many places and ranged from 2 to 4 inches in quite an area in the southeastern portion of the state.

The past week has been favorable for stacking, threshing and haying. Threshing from shock and stacking are nearly completed. Haying is well advanced. The high temperature, with strong south wind, has been rather unfavorable for corn, and the crop has deteriorated slightly in condition in most parts of the state. The rain of the last days of the week were very beneficial. Fall plowing has been retarded by the dry weather.

Southeastern Section.

Butler—Corn damaged somewhat by drought, but recent rains have improved condition and crop will be a good one.

Cass—Corn shows effect of drought and is somewhat damaged; pastures drying up; too dry for plowing.

Clay—Corn growing well; ground in fine condition for plowing; large acreage of wheat will be sown.

Fillmore—Corn will be a good fair crop; pastures continue good; ground in excellent condition for plowing.

Gage—Early corn good; late corn damaged somewhat by drought; too dry for fall plowing.

Hamilton—Corn very uneven; some pieces good and others poor; heavy rains last of week, very beneficial.

Jefferson—Threshing well advanced; corn much benefited by rain; considerable plowing done; large acreage of wheat will be sown.

Johnson—Much fall plowing done; threshing from shock nearly finished; corn promises an average yield.

Lincoln—Pastures getting dry; corn doing nicely; gardens poor; hay fair crop; shock threshing about done; plowing retarded by drought.

Nemaha—Peaches a good crop; rains good for plowing.

Nuckolls—Late corn earing well; shocked wheat nearly all threshed; pastures getting short; acreage of winter wheat will be large.

Otoe—Corn will make good average crop; oats poor yield; good week for threshing; fall plowing delayed by dry weather.
