DOWAGER PROBABLY "GOT AWAY"

Uncle Sam Refuses to Deal with Li Hung on Peace-Conger's Condemning Message-Story of the Capture of the City.

London, Aug. 22 .- In the news that reaches London this morning direct from China there is nothing to confirm the report that the empress dowager has been run to earth. The foreign envoys, according to the Shanghai correspondent of The Dally Express, are proceeding to Tien-Tsin. The same correspondent avers that the sacred city was entered Aug. 15, two days earlier than Rear Admiral Bruce reported. "The flags of the allies," says the Shanghai correspondent of The Daily Mail, wiring yesterday, "are now | floating over the imperial palace. Street fighting, however, continues. Considerable assistance in the capture of Pekin was rendered by 4,000 armed native Christians. The legations were enabled to hold out by purchasing ammunition from the Chinese.

United States' Action Approved. American action in refusing to deal with Li Hung Chang in the peace proposal meets with unanimous approval at the hands of the morning papers. The Standard says: "We imagine that other powers will take the same course, at any rate until Earl Li produces satisfactory evidence of his authority to negotlate." The Daily Chronicle says: "Mr. Conger has at last opened the eyes of the state department to the real character of Orientals."

Uncle Sam Rejects the Appeal. Washington, Aug. 22 .- The cabinet session yesterday practically opened the consideration of the momentous questions growing out of the capture of Peking and the war in China. Several questions were awaiting attention. First of these was the application of Li Hung Chang for the appointment of Minister Conger or some other commissioner to negotiate for the cessation of hostilities. The decision arrived at was to reject the appeal, and a reply of this character will be sent to Minister Wu to be forwarded to Li Hung Chang. The moving cause for this action is that this government is at present very much in the dark as to whether there is any existing government in China.

Minister Conger's Message.

The cabinet had before it a message from Minister Conger received Monday night. After the meeting the state department made public portions of the dispatch. It is dated Chefoo, Aug. 20, but has no Peking date. It says; "Sayed, Relief arrived today, Entered city with little trouble. Do not know where imperial family is Except deaths already reported

THE WEEKLY CROP REPORT

Greater Portion of the State is Nov in Fine Condition.

UNIVERSITY OF NEBRASKA, LIN-COLN, Aug. 21 .- The past week has been very hot, with heavy thunder showers in the eastern portion of the state, accompanied by destructive hail storms, which, however, covered only small areas. The daily mean tempersture has averaged about 5 degrees

above the normal, with nearly continuous south winds. The daily maximum temperatures have generally been 90 degrees or above in the southern part of the state, and about 5 degrees lower in the northern part. ienced in that section.

Little or no rain fell in the western counties during the week. In the eastern counties the rainfall ranged from one-half inch to more than four inches. Most of the rain fell in the heavy

thunder storms of the 14th and 15th. In the district of heavy rainfall crop conditions have improved, except in small areas, where damage was done by hail. Corn is doing well in most eastern counties. In most south-central and western counties the dry, hot weather of the week has caused a further deterioration of the corn crop, and in many places the corn is being cut for fodder. Having has made good progress, and while the quality is good the yield is, with but few exceptions, light. Plowing has made good progress in eastern counties, and has been retarded by the dry weather in west-

ern counties.

STORY OF PEKING'S CAPTURE.

Our Flag One or the First Planted on the Walls-Brief Fight Story.

Peking, Aug. 14, via Chefoo, Aug. 21.--|Copyright, 1900, by the Associated Press.]-The American and Russian flags were planted on the east wall of Peking at 11 o'clock this morning. The Indian troops entered the British legation at 1, and the Americans at 3. There was a joyful reception from the wall. The emaciated aged in strip four miles wide by ten tenants could have lasted but little miles long. longer. They had only three days' rations. The Chinese had been attacking furiously for two days. Four thousand shells fell in the legation during the siege. Sixty-five persons were killed and 160 wounded.

The Japanese began the battle be fore daylight and they are still fighting about the north wall, where a part of the Chinese are defending the im perial city. The Japanese casualties have not yet been ascertained. The Russians had five killed and twelve wounded. The Americans and British had a few wounded. The plan was to mak ea general attack tomorrow, and the troops were arriving at camp, five miles east, all night. They were completely exhausted and slept in the corn fields in the rain.

The generals, however, alarmed at the sounds of a heavy attack on the legations, pushed forward independently, the British, American and French on the left of the river, and the Russians and Japanese on the right. Beginning at 2 o'clock this morning th eJapanese diverted the brunt of the resistance to the northern city, their artillery engaging the Chinese heavily there. The Americans and British met with but little resistance until they entered the city, where there was street fighting. Reilly's battery attempted to breach the inner wall. The troops finally entered the foreign settlement crough the canal. Company E, Fourteenth United States infantry, planted its flag on the outer wall, Musician Titus scaling the wall wit ha rope, by means of which the others climbed to the top. The Chinese had continually violated the armistice. The food supplies sent to the legations by the empress dowager were sufficient for one day.
