

## DISCUSS BOND MATTER

Spitzer & Co. Offers to Refund City's Outstanding Bonds.

Council Decides to Take the Company's Proposition Under Adversement for Thirty Days—Question of Opening West Elm Street Again Brought Up and City Attorney's Opinion Heard.

At the regular meeting of the city fathers last night Mayor Parmele was the only absentee. President Lutz mounted the chair and called the meeting to order.

The minutes of the last meeting were read and approved.

A communication from Messrs. H. R. Gering and W. W. Coates, asking permission to extend the show windows of their building—the old Methodist church building—eighteen inches into the street, was read by Clerk Fox. On motion of Herold the request was granted.

Another petition, signed by a number of property owners of South Tenth street, was also read. They asked that the alley in block 3, Donnelly's addition, be opened. On motion of Hayes the matter was referred to the streets, alleys and bridges committee.

The manager of the Hartford Steam Boiler and Inspection company, who has recently sent a man here to inspect the boilers at the light station, had a report as to the condition of the same. He found the boilers and engine in fairly good condition, but recommended several slight improvements. On motion of Herold the report was referred to the light committee.

Reports of the police judge and city marshal were referred to the police committee.

The report of Clerk Fox for the month of August was referred to the finance committee, as was also City Treasurer Cook's report.

The finance committee recommended the payment of the bills against the city, and, on motion of Whelan, the mayor and clerk were instructed to draw warrants for the same.

The matter of compelling the Missouri Pacific to open West Elm street was again brought up. City Attorney Beeson reported that he had looked over the records on file and found an ordinance, passed at the time the road was built, which practically gave the company the right to close and utilize the street for their right of way. He thought in case of absolute necessity the city could have the street opened, but it must be at its own expense. The street in question is located about two blocks south of the depot.

On motion of Buttery some grading was ordered done on Fourteenth and Main, Tenth and Walnut, Fifteenth and Main and Thirteenth and Main.

Other repairs ordered made are on Diamond street, east of First; on Granite and Seventh, and on Rock, between Eleventh and Twelfth.

A communication from Spitzer & Co., the New York bond dealers, was read. It made the city a proposition to refund the \$72,000 outstanding bonds at 5 per cent—being practically the same kind of proposition accepted by the city about two years ago. Patterson of the finance committee stated that he had examined the matter carefully and recommended that the proposition be accepted, but Fitzgerald thought this was acting with too much haste and suggested that the council take the matter under advisement at least until the next meeting to enable the clerk and city attorney to ascertain whether or not the bonds can be refunded at a better figure than the Spitzer company offers. Mr. Barnett, a representative of the Spitzer company, was present, and expressed his unwillingness to have the matter delayed as it had been before, and went on to compare the financial condition of Plattsmouth with other towns. He also assured the council that if Mr. Fitzgerald's suggestion was carried out he would withdraw the proposition and in case he was called back to the city he would not make so good a rate. The matter was discussed at considerable length and it was finally decided that the council as a whole would take the proposition under advisement for thirty days. Mr. Barnett accordingly withdrew his proposition, but it is not thought that he will carry out his plans in this respect.

A motion to adjourn then prevailed.

**Surprised Mrs. Howland.**

Mrs. Marvella Howland, who expects to leave in a short time to resume her studies in the Art Institute at Chicago, was very agreeably surprised last evening by a number of the members of the Epworth League, who took advantage of the pleasant weather to walk out to her home. The affair was in the nature of an informal farewell party. A very delightful time is reported.

The party consisted of Misses Gene Marshall, Edna Eaton, Gertrude Fletcher, Margaret and Eunice Davis, Elizabeth Keeler and Messrs. C. S. Folk and wife, Cliff and Hill Wescott, Merritt Kerr, Will Hamilton and Dr. Pimpton.

Alena Layton has filed a petition in district court asking for a legal separation from her husband, Leo R. Layton, on the ground of desertion. The plaintiff alleges that her husband has been a non-resident of the state for two years past, and during that time has not contributed to the support of herself and two children. They were married in Plattsmouth on June 25, 1891.

Mayor Tom Parmele and Byron Clark returned this morning from their trip to Broken Bow. They brought some fine prairie chickens.

## MRS. HUCKINS ANSWERS

Claims Her Husband Has No Right to Secure a Divorce.

Mrs. Mattie Huckins has prepared an answer to the application for divorce filed by her husband in district court, says the State Journal. In the document she declares that all charges of extreme cruelty made by Mr. Huckins were double discounted by his own acts towards her, and she asks for the divorce and alimony.

She alleges that the plaintiff is a man subject to uncontrollable fits of anger and that in paroxysms of rage he has been accustomed to address her in very improper language, often humiliating her extremely in the presence of friends by his violent speech. Further she states that when she was married in Sidney, Ia., she was operating a restaurant and was worth \$500. Of this she alleges her husband soon became possessed and she says he soon dissipated it with his manner of living till she has now left not over thirty dollars worth of cheap furniture. In July of the present year, Mrs. Huckins relates that her husband took her furniture out of her house surreptitiously and stored it in a warehouse where she could not get it till she had worked for a month at dressmaking to earn the money with which to get it back. She claims that she asked her husband to live with him in peace, but he assaulted her and caused a peace warrant to be sworn out against her in police court. She says she was acquitted of this charge after standing trial.

Going into the matter further, Mrs. Huckins relates an occurrence at the Hotel Walton, where her husband was prevented from doing her personal injury by the interference of bystanders and that he was then ejected from the hotel by the proprietor, C. W. Kaley. She says he urged his sixteen-year-old son to attack her with a case knife on this occasion.

The defendant asks for an allowance of \$50 with which to procure depositions from friends at Memphis, Mo., and she asserts that she should have \$15 a month for her support. She alleges that her husband spends in intoxicating liquors more all the time than would comfortably support her.

Officials along the line have been notified.

"The robber boarded the train at Benkelman, where a stop was made to cool off a hot box and take on water. After the train left Benkelman he made his way from the rear car to the Chicago sleeper and there covered Porter Bell with a revolver and compelled him to start through the car, drawing the curtains from berths. W. S. Tomlinson, the brakeman, was covered and compelled to pull back the curtains and wake the passengers. The robber confined his operations to the men and his orders were sharp and to the point."

The large plate glass window in Sherwood's store which was recently broken was replaced by a new one this morning. While Henry Gering was assisting in the work of removing the packing which enclosed the new glass, Doug's Shinn came along and expressed his great surprise to find Mr. Gering in the act of working. The latter failed to see any cause for surprise in this respect and ventured to wager a dollar that he could beat Doug's in a foot race at any distance. The bet was quickly covered and they agreed to run from the front of Sherwood's store to the Burlington depot. From the start it was apparent that Shinn was not "in it," and when he reached the Perkins house he was unable to run any further, his opponent being fully twenty feet in the lead. The race was heartily enjoyed by the crowd of spectators who witnessed it.

The Modern Woodmen of America has no camps in Galveston, but have several members residing in the city whose membership is held in other towns.

Among the labor unions the typographical and the carpenters are probably affected more than others. The former has about seventy-five members and the latter about twice as many. Death benefits and appeals will take several thousand dollars from the treasuries of the international organizations and appeals for aid will come lavishly.

## WAS A DARING HOLDUP

Lone Robber Gets in His Work On the Burlington.

Secures About \$400 in Cash and Valuables, Which Will Net Him Fully Twice That Amount—Big Reward Offered for His Capture—An Amusing Foot Race.

From Thursday's Daily.

Burlington westbound passenger train No. 3, due in Plattsmouth at 3:31 p. m., was held up five miles west of Haigler, Neb., at 1:40 Wednesday morning by a lone robber, who secured about \$400 in money, two diamond rings, one diamond stud, three gold watches and other articles of minor value, all the property of passengers.

A dispatch to the Omaha Bee from Denver gives the following account of the robbery:

"The robber, flourishing a revolver, made his way through the car and forced his victims to hand over their property, threatening to shoot if they did not comply.

"A good description of the road agent was secured and Burlington officials at once offered a reward of \$1,000 for his capture and conviction. The robber is about five feet eight inches tall, weight 160 pounds, dressed in blue overalls, linen hat and striped overjacket; about thirty-five years old; brown hair.

"Officials along the line have been notified.

"The robber boarded the train at Benkelman, where a stop was made to cool off a hot box and take on water. After the train left Benkelman he made his way from the rear car to the Chicago sleeper and there covered Porter Bell with a revolver and compelled him to start through the car, drawing the curtains from berths. W. S. Tomlinson, the brakeman, was covered and compelled to pull back the curtains and wake the passengers. The robber confined his operations to the men and his orders were sharp and to the point."
