SEMI-WEEKLY EDITION. One Year, in advance, \$1 00 Six Months, 50 THE LARGEST CIRCULATION of any Cass County Paper.

FRIDAY, SEPTEMBER 21, 1900.

REPUBLICAN TICKET.

- National. For President WILLIAM MCKINLEY. For Vice President THEODORE ROOSEVELT. For Presidential Electors J. T. NESBIT of Bart. R. B. WINDHAM of Cass. ED. ROYCE of Cass.

- State. For Governor C. H. DIETRICH of Adams. For Lieutenant Governor F. P. SAVAGE of Cass. For Secretary of State G. W. MARSH of Richardson.

- County. For County Attorney, JESSE L. ROOT, of Plattsmouth. For Commissioner, LLOYD D. BENNETT, of Plattsmouth. For Auditor, CHARLES WESTON of Sheridan. For Commissioner, GEORGE D. FOLLMER of Nuckolls. For Attorney General, F. N. PROUT of Gage. For State Superintendent, W. K. FOWLER of Washington.

WAHOO has organized an Ida McKinley republican club. NEBRASKA CITY raised \$265 to assist the distressed in Galveston.

COLONEL BRYAN has accepted, with thanks, the nomination for president by the populists.

LOUISVILLE has ordered fifty uniforms for their Roosevelt club. They will be on hand October 2.

THE question of taking care of the people that will attend the Roosevelt meeting is not a simple one.

"THE producers of wheat and cotton have a special grievance; as silver goes down the prices fall."—Bryan's Book, page 98.

THERE seems to be quite a desire in Plattsmouth to hear Mary Ellen Lense talk politics. She is being well received over the state.

THE special train over the Missouri Pacific, from Eagle to Plattsmouth for the Roosevelt meeting October, 2 will leave that place at 2 p. m.

SEVERAL organizations might do well to be prepared to serve supper or lunch October 2. One or two of the special trains will arrive about 5 o'clock.

THE fifty-two rough rider uniforms ordered last week have arrived and are going like hot cakes. Another order will have to be sent in at once to supply the demand.

THE best campaign thunder for the republicans this year are extracts from Mr. Bryan's speeches of 1896. "The First Battle" is today a compilation of false predictions.

"UNTIL the money question is fully and finally settled the people will not consent to the consideration of any other important question."—Bryan's Letter of Acceptance, 1896.

MR. WEBSTER preserved his reputation in this community last evening as an eloquent and logical speaker. He is one of the ablest men in the state, and it is always a pleasure to hear him.

THE individual who thought Governor Roosevelt would lose his head on the stump is doomed to disappointment. He is a man of common sense and brains and is making a glorious campaign.

GREENWOOD has a uniformed rough rider club of fifty or seventy-five members and a ladies' club with a membership of fifty or sixty, also uniformed. There is nothing slow about the republicans in that section of the county.

C. H. DIETRICH surprised his many friends Monday both by his presence and by making a rousing speech. Mr. Dietrich makes no pretensions as a public speaker, hence the surprise. He made a most favorable impression upon his hearers.

"MARK my words. If the gold standard goes on, the gold standard advocates, instead of trying to improve the condition of the people will be recommending that you close your schools so that the people will not realize how much they are suffering."—Bryan's First Battle, page 72.

A POLITICAL LIE NAILED.

ASHBURY PARK, N. J., Sept. 13.—My Dear Mr. Whedon, Lincoln, Neb.—I have received a democratic paper published in Nebraska—The Falls City News—which in opposing the election of Congressman Burkett prints an editorial from which I copy this regarding Mr. Burkett: "But he did vote against a pension. The widow of the brave and honored Stotsenburg made application for a pension, believing that the government owed this much to her in return for the life of her husband, who was killed while battling in the Philippines. It is charged that Mr. Burkett voted against the bill upon the ground that Colonel Stotsenburg was a democrat."

I really cannot understand how any person can make or publish such a false statement.

Last autumn when I was visiting at your house Mr. and Mrs. Burkett called on me and the former then volunteered to do everything in his power to secure for me an increase of pension.

After congress met he introduced my bill and had charge of it until it became a law. No one could have been more earnest or active in my behalf than was Mr. Burkett.

After the committee reported in favor of giving me \$40 per month, he succeeded in getting the amount raised to \$50 per month in the house.

The statement that he voted against my bill is utterly untrue. Both myself and my little girls are greatly indebted to Mr. Burkett for his effective

but he changed his mind, as great men sometimes do.

THE demand for city and state warrants is one of the best signs of the times. When 4 per cent state warrants bring a premium, and when 7 per cent city warrants that run but a short time bring 2 per cent premium, thinking people conclude that money is more plentiful and that times are not to be compared to the gloomy period from which the country emerged shortly after the election of 1896.

The organization of new savings banks and the seeking of small investments by wage earners indicate that the money power has for the time being relaxed its hold on the country's financial throat and that it is possible to live and enjoy plenty while the country is administered by a wise and capable government.—Lincoln Journal.

THERE is one Nebraska farmer who has discovered a logical reason for voting the democratic ticket. He had a big crop this year and had to harvest it without help, for the simple reason that he could hire no one to help him.

He complains that while he was working like a nailer getting in his crop large crowds of able-bodied men with plenty of money jingling in their pockets were attending ball games in town.—Sioux City Journal.

"THE gold standard makes dear money and dear money makes cheap products and cheap men. Prosperity must begin with the workingman and

SIX THOUSAND ADDED

To the Number of Those Who Are Striking in the Anthracite Region.

SOME MINES ARE STILL AT WORK, While Turbulence Begins to Show Itself—Prospect of Serious Trouble in One District.

Philadelphia, Sept. 19.—The leader of the strike said at the end of the second day that 118,000 of the 141,000 mine workers in the anthracite coal fields were idle. No representative of the mine operators made a statement for their side of the matter, but individual mine owners disputed the strikers' figures, saying that there are more men at work than the union leaders will admit.

The first advance in the price of coal as a result of the strike was made by the Philadelphia and Reading Co. yesterday, 25 cents per ton being added. This advance was promptly met by the local dealers, who increased the price to consumers 50 cents a ton.

True to its declaration made before the strike was ordered, the Philadelphia and Reading Co. yesterday brought its mines to the surface in two places where shafts that had been closed by the strike, and announced that they were permanently abandoned.

Turbulence Prompts on Hand. A dispatch from Harrisburg says: "Trouble is brewing in the Lykens valley region between the Union and non-union anthracite miners over the refusal of the men at Williamstown to join the strike. The mine employes in the neighboring towns of Lykens and Wiconisco are on strike, and threaten to compel the Williamstown men to quit work."

A meeting of the Williamstown men was held last night at which it was decided to stand firm against any attempt on the part of the strikers to force them to join the strike. Sheriff Reiff has sworn in 150 deputies, who will act in conjunction with a double force of watchmen on duty at Williamstown colliery.

Some of the strikers at Lykens and Wiconisco threaten to drive out the men at Williamstown before Saturday, and serious trouble may be expected at any time.

Concession to 5,000 Coal Diggers. The 5,000 employees of the Lehigh Coal and Navigation company, in the region west of Mauch Chunk, who will hereafter work ten hours a day with consequent increase in earnings. These men were unorganized, and had not presented any grievances. It is stated that there is not a discontented miner in that locality.

The mine workers are organized and "Mother Jones and two other labor agitators went there last night to hold a miners' meeting. Their reception was so indifferent, however, that they cancelled their engagement of the hall and left town.

Will Not Negotiate with Mitchell. The operators said they had nothing to give out last night beyond the fact that they can see no settlement in view as long as President Mitchell, of the United Mine Workers, is in charge of the miners. One operator said: "I know it to be a fact that the operators to a man will never consent to treat with Mitchell either through arbitration or any other means."

POINTS WHERE THERE IS FRICTION How the Hands at a Washery Were Persuaded to Quit—Mocanqua. Scranton, Pa., Sept. 19.—Conditions in the Lackawanna district yesterday were practically the same as Monday by the miners' strike. The Columbus washery which supplies fuel for the electric light, city steam and trolley plants, and which shut down Monday, resumed yesterday by permission of the strike leaders, who did not desire to cripple public utilities, but the strikers evened things up by inducing the twenty men at the adjacent coal company and Mine Workers, is in charge of the washery. One operator said: "I know it to be a fact that the operators to a man will never consent to treat with Mitchell either through arbitration or any other means."

At 9 a. m. yesterday a crowd of more than 100 men and women assembled near the washery, and by jeers and threats induced the whole force to quit work and go home. The strikers persuaded a Delaware, Lackawanna and Western crew to go back to the yard without the train load of coal which they were sent to take out of the washery.

One of the three Delaware, Lackawanna and Western places which are keeping at work. Later the engine and crew returned carrying a squad of detectives and a case of rifles. The strikers had gone away in the interim, and the coal train was taken out without incident.

A dispatch from Wilkesbarre says, referring to the almost complete shutdown in a large meeting of union and non-union men at Sugar Notch. Before the meeting the union and non-union men started to quarrel. The non-union men accused the union men of selling them out.

There were several knockdowns before the fighters could be separated. As a result of an appeal from Nichols, all present joined in a union. The stoppage of shipments of coal has thrown nearly 1,500 railroad men, mostly brakemen, out of work. The following roads are affected: Central Railroad of New Jersey, Lehigh Valley, Ontario and Western, Delaware, Lackawanna and Western, Delaware and Hudson, and Pennsylvania.

Colonel Theodore Roosevelt on finance and Expansion.

(Extracts from His Letter of Acceptance.) To put into practice the principles embodied in the Kansas City platform would mean grave disaster to the nation, for that platform stands for reaction and disorder; for an upsetting of our financial system, which would mean not only great suffering, but the abandonment of the nation's good faith, and for a policy abroad which would imply the dishonor of the flag and an unworthy surrender of our national rights.

The policy of the free coinage of silver at a ratio of 16 to 1 is a policy fraught with destruction to every home in the land. It means untold misery to the head of every household, and above all to the women and children of every home.

If we are to prosper, the currency of this country must be based upon the gold dollar worth 100 cents. The parallel between what Jefferson did with Louisiana and what is now being done in the Philippines is exact.

The simple truth is that there is nothing even remotely resembling "imperialism" or "militarism" involved in the present development of that policy of expansion which has been part of the history of America from the day when she became a nation.

The only certain way of rendering it necessary for our republic to enter on a career of "militarism" would be to abandon the Philippines to their own tribes, and at the same time either to guarantee a stable government among these tribes or to guarantee them against outside interference.

Properly speaking, the question is now not whether we shall expand—for we have already expanded—but whether we shall contract

assistance and I very much regret that he should be so maliciously maligned. Very truly yours, MARY L. STOTSBERG. P. S.—I should like to write further on this subject because I feel that it is an unjust aspersion on Mr. Burkett's conduct of my pension case but I feel very much exhausted this evening, having just returned from New York, where I went to consult a specialist in regard to my health. Trusting that you will correct this false statement, I am very sincerely MARY L. STOTSBERG.

PRESIDENT MCKINLEY'S POLICY. (Extracts from Speeches.) The best policy in this world for man or nation is duty. Cultivate good homes, make them pure and sweet, elevate them, and other good things will follow.

The genius of the nation, its freedom, its wisdom, its humanity, its courage, its justice, favored by divine providence, will make it equal to every task and the master of every emergency.

Patriotism must be faithful as well as fervent; statesmanship must be wise as well as fearless—not the statesmanship which will command the applause of the hour, but the judgment of posterity.

Can we leave these people, who, by the fortunes of war and our own acts, are helpless and without government, to chaos and anarchy, after we have destroyed the only government they have had? Having destroyed their government, it is the duty of the American people to provide for them a better one.

"IF MCKINLEY and the republican party are successful and put in power for the next four years wages will be decreased, hard times will come upon us, and over the land the price of wheat will go down and the price of gold will go up; mortgages on our homes will be foreclosed by the money lenders; shops and factories will close. We will export no goods and we will import from foreign lands all the goods we use; thus will ruin, want and misery be with us."—Bryan in 1896.

MR. BRYAN insists that he would, under no circumstance, accept a second term. If he were president now and doing as well for the nation as President McKinley, the people would certainly insist on his re-considering the matter and again accept the honor. It will be remembered he said he would stay on his front porch this fall,

the farmer and work upward. The free coinage of silver will do this, hence, when we open the mint we will start the fact; there is no other way."—Bryan.

"I HAVE no light or knowledge not common to my countrymen. I do not prophesy. The present is all-absorbing to me. But I cannot bound my vision by the blood-stained trenches around Manila, where every red top, whether from the veins of an American soldier or a misguided Filipino, is anguish to my heart,—but by the broad range of future years, when that group of islands, under the impulse of the year just past, shall have become the gems and glories of those tropical seas—a land of plenty and of increasing possibilities; a people redeemed from indolence and habits, devoted to the arts of peace, in touch with the commerce and trade of all nations, enjoying the blessing of freedom, of civil and religious liberty, of education and of homes, and whose children and children's children shall for ages hence bless the American republic because it emancipated and redeemed their fatherland, and set them in the pathway of the world's best civilization."—McKinley.

THE attendance in our High school has increased from seventy in 1893 to 204 in 1900. This not only speaks well for the school itself, but it shows that the children of the masses are now taking advantage of the opportunity to get a High school education. A few years ago the sentiment prevailed that it was nonsense for a boy or girl who did not expect to teach or enter some profession to secure a High school education; today the people generally feel that every boy and girl, who can possibly do so, should complete the course of study arranged by the board of education.

THE people of Plattsmouth take pleasure in looking through the new opera house as it nears completion. It is to be a model play-house, in beauty, convenience and general arrangement—a building in which the city can take pride.

COLUMBUS feels very much puffed up. Senator Beveridge of Indiana makes but one speech in Nebraska and that is to be delivered at Columbus. That town is certainly to be congratulated for Beveridge is a host in himself.
