Bryan Responsible For Death
Of Filipinos.

The attitude of Mr. Bryan and others of his kind has resulted in killing more Filipinos and sacrifice of more American lives than would have been necessary had they put their shoulders to the wheel and helped the administration bring order and peace.

BUFFALO BILL says the ticket which Governor Roosevelt represents is elected already.

AT CHADRON Governor Roosevelt will be presented a pair of gold spurs by the cowboys and ranchmen of the west.

IT IS rumored that the mine operators have agreed to make the mine workers an offer of 10 per cent increase in wages.

"TEDDY" ROOSEVELT has a staunch supporter in Ted(dy) Leonard. He has gone to a considerable trouble and expense in getting a banner for his namesake.

IF THE sentiment in Nebraska for McKinley and Roosevelt continues to grow in October as it has done in September, there will be no doubt but that the state will go republican.

EX-CONGRESSMAN HOWARD of Alabama (populist) says that in his opinion Governor Poynter is no longer in the race; that his record is such that the farmers will vote against him regardless of how they may vote on the presidential ticket.

IT SEEMS Senator J. K. Jones, chairman of the democratic national committee, is a defendant in a proceeding brought under the anti trust law of Texas. He can rest assured Croker, et al., will sympathize with him.

THE miners in Pennsylvania will in all probability carry the day. Their demands in the main seem to be reasonable and just, and the mine owners and operators will have to recognize the union whether they would or not.

THE Beatrice Express says: Mr. Bryan's desire to give the Filipinos an independent government and then protect them from outside interference without expense and without an army looks a great deal like faith cure applied to diplomacy.

COMMITTEEMAN A. B. DICKSON of Stove Creek press of announcements that General O. O. Howard of Washington, D. C., is to speak at Elmwood next Monday evening. He will be a great drawing card and will be greeted by a large audience.

UP TO date Grover Cleveland has declined to lend any aid or comfort to the men who denounced him as a traitor to his own party because he, more than any other member of that party, insisted on being true to its essential principles and doctrines.—Davenport Democrat.

THE fact that Plattsmouth has made more substantial improvements in the past two years than in the eight or ten previous ones will count for something on election day. The voter will cast theories to the winds and support the wise, business-like administration of President McKinley.

WHEN the democrats begin popping rocks at the candidates of the opposition it must be interpreted that they are either desperately in earnest or have taken a drink too much. Their leaders should counsel moderation in the application of physical force and more energy in the diffusion of hot air.—Bixby.

IT is of vast importance to every man, laborer and employer alike, that no change be made this year in national policies. It would be the supremest folly to vote for a change from the best conditions the country has ever seen to an uncertain condition that no man can accurately predict. Let well enough alone.—Fremont Tribune.

MARK HANNA seems to be taking a hand in the miners' strike. If he succeeds in rendering material assistance in putting a stop to the strike and in securing a 10 per cent advance in wages it might be a shrewd political move for Mr. Bryan to go down and insist upon an advance of another 10 per cent. He is a great friend of labor, and the boys wouldn't care much if it were done for effect. They are after results, and in all probability will not be very particular as to who renders the necessary assistance.

THE WEST'S GREETING TO TEDDY.

(Referred to in the Times-Herald dispatches of September 17.)
Hello, Teddy! All the west is watchin' you. Hello, Teddy! An' it's wishin' for you, too. We like you western manner and we like your western style.

An' that's why we watch for you. An' we wishin' for you, too. Hurrah, Teddy! Or for better or for worse. Where'er y' be or what y' be, you're Teddy, sir, to us. You were Teddy when the bugle called t' every creed an' clan.

SIGNIFICANT MAJORITIES.

A poll of the wholesale department store of Marshall Field & Company regarding presidential preferences shows the following figures: For McKinley, 501; For Bryan, 119.

A poll of the occupants of the Monadnock office building makes the following showing: For McKinley, 921; For Bryan, 144; Noncommittal, 115.

The figures indicate that 85 per cent of the employees in the wholesale house of Marshall Field & Co. and 78 per cent of the occupants of the Monadnock Building will vote for the republican candidate this fall.

The proof that at least 85 per cent of the business interests of the country will vote against Bryanism this fall is conclusive and incontrovertible.—Times-Herald.

KILLING THE TRUSTS.

Governor Tanner, in his speech Saturday night, admitted that the election of a democratic president might injure the trusts, as it would injure every other form of business activity, but he insisted that the remedy would be no wiser than that of the man who became incensed at his dog for keeping him awake for barking on a cold night in January.

THE operators are evidently not taking "me into consideration," he said, "but they will regard the dog." Discussing the question of a compromise, the national president said it could depend upon circumstances whether a compromise would be considered. When asked if the amount of the increase would be one of the circumstances, he said it would be a consideration.

THINKS WELL OF BURKETT.

Hon. G. M. Lambertson has just returned from the east and on his return in passing through Iowa he met and had a long talk with Senator Dolliver. Mr. Lambertson says: "Senator Dolliver spoke in the highest terms of Congressman Burkett. He says Mr. Burkett is one of our best representatives. He has heard Mr. Burkett make one or two speeches and considers him an able speaker. He spoke in high terms of his speech on a prominent election case. He believed that Mr. Burkett, when the opportunity came, would not only challenge the attention of the house, but of the whole country."

INFORMATION AND OPINION.

A new record for the passage from the Mediterranean to Hong Kong has been made by the British cruisers Isis and Dido. The Isis reached Hong Kong in twenty-two days and seven hours from Malta and the Dido arrived not six hours later. The sea speed of the Isis for the 7,500 miles was 16.3 knots an hour. Both ships were detained in the Suez canal, taking twenty hours to pass through, and they were delayed twice for twenty-four hours while coaling at Aden and Colombo. They had to coal at Singapore besides. They are sister ships of 5,600 tons.

Kaiser Wilhelm has made since 1889 more than 700 speeches, which have been printed in the Reichsanzeiger. He speaks at the rate of 275 and sometimes 300 syllables a minute, the German mode of reckoning as the possible length of German words stands in the way of their being a standard. The statistics are furnished by Herr Edward Engel, the official stenographer of the reichstag one of whose duties it is to take down the words that drop from the kaiser's lips.

ONE of the arguments used by Bourke Cockran against the retention of the Philippines is that we haven't men whom we can trust to properly administer the affairs of government as they should be; that our civil service rules must be more perfect before undertaking such a task, etc. It is true we have men who have betrayed public trust in positions in either city, county, state and nation, but a change of form or manner of government would not do away with dishonest men.

FLANKING OPERATIONS.

Reading Coal and Iron Company Try Them on the Striking Mine Workers.

OFFER A TEN PER CENT. INCREASE.

Strike Leaders Take Defensive Measures, and Mitchell Intimates He Must be Considered.

Seranton, Pa., Oct. 1.—At every colliery in the anthracite region a notice will be posted tomorrow morning announcing a 10 per cent. increase in wages based on the present scale, effective Oct. 1, and that the operators will arbitrate any grievances their employees may present. There is no condition to be attached as to the men returning to work before the arbitration shall begin, so it is to be inferred that the men are privileged to meet in convention and adopt a plan of action they may deem advisable before entering upon arbitration.

Philadelphia, Oct. 1.—The following notice bearing date of Oct. 1, was posted yesterday in the vicinity of all the collieries of the Philadelphia and Reading Coal and Iron company in the anthracite region, dated Oct. 1, 1900.

"This company will pay an advance of 10 per cent on the wages of all men and boys employed at its collieries. This advance takes effect today.

[Signed] "R. C. LUTHER, "General Superintendent." "Fellow Mine Workers—United Mine Workers of America: Do not pay any attention to this notice posted by Mr. Luther, of the Philadelphia and Reading Coal and Iron company, but wait until you hear from the district office of the United Mine Workers of America, or until you have decided by your own locals what is right for you to do.

[Signed] "C. B. POTTER." Potter is an officer in the district branch of United Mine Workers of America.

Offer Is a 10 Per Cent. Raise. The regular Reading company advance for the last half of September and the first half of October had previously been fixed at 6 per cent, above the \$2.50 basis. The scale for the preceding thirty days was at the \$2.50 basis. The advance of 10 per cent, offered in the posted notice by the Reading company is separate and distinct from the natural scale increase and hence the total increase to the miners would be 16 per cent.

Sliding Scale Must Go, He Says. Shenandoah, Pa., Oct. 1.—Officers of the Philadelphia and Reading Coal Iron company offering miners an increase of 10 per cent. in wages were posted in this town, at Mahanoy City and other places yesterday. Upon reading the notice Organizer George Harris, whose headquarters are at Mahanoy City, issued instructions to the presidents of local branches of the United Mine Workers' to warn the strikers against returning to work until so ordered by the officials of the union. Harris said the Reading company's proposition was not acceptable because the men insist on the abolition of the "sliding scale" of the \$2.50 basis. They also demand a guarantee that the increase in wages shall be permanent.

MITCHELL'S REPLY TO THE OFFER.

Hasleton, Pa., Oct. 1.—The action of the Reading company in directly notifying its men through posters indicates that the operators will not recede from their position of refusal to recognize the union. What President Mitchell's first move will be in view of this new phase of the situation is not known. "The operators are evidently not taking me into consideration," he said, "but they will regard the dog." Discussing the question of a compromise, the national president said it could depend upon circumstances whether a compromise would be considered. When asked if the amount of the increase would be one of the circumstances, he said it would be a consideration.

Metcalf, prohibition candidates for president and vice president, spoke to a crowd of several thousand people at the exposition hall here last night. Both speakers were well received. The itinerary printed in these dispatches yesterday was followed during the day.

DEATH OF S. F. CAREY.

Prominent in Temperance, Labor and Greenback Circles. Cincinnati, Oct. 1.—Samuel Fenton Carey died here Saturday night, aged 87 years. He was graduated at Miami university in 1835 and was the last survivor of that class. He abandoned the law to devote himself to lecturing on temperance. In 1876 the labor element elected him to congress over Rich-

GENERAL SAMUEL F. CAREY, of Smith, of the Cincinnati Gazette, the Republican nominee.

He had been a delegate to the national convention that nominated Lincoln for the second term, but in congress acted independently, and afterward became a Democrat. He advocated greenback money and silver currency. He was nominated in 1876 for the vice presidency with Peter Cooper, the greenback candidate for president. In 1875 he ran for lieutenant governor with William Allen, Democratic candidate for governor.

MURDER ON A TRAIN.

It Was a Political Special and the Murderer Is So Far Unknown. Carbonate, Ill., Oct. 1.—The special train which conveyed Samuel A. Alschuler, the Democratic candidate for governor, from Herrin to this city was the scene of a fight, in which James Jordan, night marshal of Marion, was instantly killed by a shot from a person at the present time known only to the officers, who refuse to divulge his name.

The Democrats of Williamson county had chartered a special train to convey Alschuler and all who desired to go from Marion to Herrin. At Carterville a large contingent was taken on. About four miles from this city, at Reed's, the occupants of the car next to the gubernatorial candidate became involved in a fight which resulted in one shot being fired, killing Jordan instantly.

HOWARD SENTENCED TO HANG

Motion for a New Trial Overruled and an Appeal to the Supreme Court Denied. Frankfort, Ky., Oct. 1.—The motion for a new trial in the case of James Howard was overruled Saturday and Howard was sentenced to hang Dec. 7. It was agreed that the attorneys should be allowed to file their bill of exceptions in the appeal to the court of appeals any time between now and the first week in October. Howard did not weaken or appear agitated when the solemn sentence of the court consigning him to the gallows was pronounced upon him, but in answer to the usual question of the court he coolly showed why sentence should not be pronounced, he said in a firm, clear voice: "I am innocent."
