Dependent on Financial Question. Fundamentally and primarily the present contest is a contest for the continuance of the conditions which have told in favor of our material welfare and of our civil and political integrity. If this nation is to retain either its well-being or its self-respect it cannot afford to plunge into financial and economic chaos: it cannot afford to indorse governmental theories which would unsettle the standard of national honesty and destroy the integrity of our system of justice.

Jefferson Forced Consent.

An armed force of United States soldiers had to be hastily sent into the territory to prevent insurrection. President Jefferson sending these troops to Louisiana for exactly the same reasons and with exactly the same purpose that President McKinley has sent troops to the Philippines.

Jefferson distinctly stated that the Louisianians were "not fit or ready for self-government," and years elapsed before they were given self-government, Jefferson appointing the governor and other officials without any consultation with the inhabitants of the newly acquired territory. In a debate in Congress on Feb. 2,

Of course the presence of troops in the Philippines during the Tagal insurrection has no more to do with militarism or imperialism than had their presence in the Dakotas, Minnesota and Wyoming during the many years which elapsed before zon until order is restored than there was imperialism in sending soldiers to South Dakota in 1890, during the Ogallalla outbreak. The reasoning which justifies our having made war against Sitting Bull also justifies our having checked the outbreaks of Aguinaldo and his followers, directed, as they were, against Filipino and American alike.

#### No Abandonment.

The only certain way of rendering it necessary for our republic to enter on a career of "militarism" would be to abaudon the Philippines to their own tribes, and at the same time either to guarantee a stable government among these tribes or to guarantee them against outside interference. A far larger army would be required to carry out any such policy than will be required to secure order under the American flag; while the presence of this flag on the islands is really the only possible security against outside

aggression The whole argument against President McKinfey's policy in the Philippines becomes absurd when it is conceded that we should, to quote the language of the Kansas City platform, "give to the Philippines first a stable form of government." If they are now entitled to independence, they are also entitled to decide for themselves whether their government shall be stable or unstable, civilized or savage, or whether they shall have any government at all; while it is, of course, equally evino right whatever to guarantee them the case of the Boxers (who are merely the Chinese analogues of Aguinaldo's fol-

If we have a right to establish a stable government in the islands it necessarily follows that it is not only our right but our duty to support that government until the natives gradually grow fit to sustain it themselves. How else will it be stable? The minute we leave it, it ceases

Now | Question of Contraction. Properly speaking, the question is now Properly speaking, the question is now now whether we shall expand—for we have already exp inded—but whether we shall contract. The Philippines are now part of American territory. To surrender the would be to surrender American territory. The court, of course, be governed primarils a the interests of their own citizens. It is very important that in our own home administration the merely ministerial and administrative offices, where the duties are entirely non-political, shall be filled absolutely without reference to partisan amiliations; but this is many times more important in the newly acquired islands. The merit system is in its essence as democratic as our common school system, for it simply means equal chances and fair play for all.

moment prefer, to grant self-government to Luzon under Aguinaldo would be like granting self-government to an Apache reservation under some local chief; and this is no more altered by the fact that it would be by the fact that Apaches have long been trained and employed in the United States army and have rendered signal service therein; just as the Pawnees did under the administration of President Grant: just as the Stockbridge Indians did in the days of Gen. Washington, and the friendly tribes of the six nations in the days of President Madison. There are now in the United States communities of Indians which have advanced so far that it has been possible to embody them as, a whole in our political system, all the members of the tribe becoming United States citizens. There are other communities where the bulk of the tribe are still too wild for it to be possible to take such a step. There are individuals among the Apaches, Pawnees, Iroquois. Sioux and other tribes who are now United States citizens and who are entitled to stand, and do stand, on an absolute equality with all our citizens of pure white blood. Men of Indian blood are now serving in the army and navy and in Congress and occupy high position both in the business and the po-

### Filipinos' Hope of Liberty.

There is every reason why as rapidly as an Indian, or any body of Indians, becomes fit for self-government, he or it should be granted the fullest equality with the whites; but there would be no justification whatever in treating this fact as a reason for abandoning the wild tribes to work out their own destruction. Exactly the same reasoning applies in the case of the Philippines. To turn over the islands to Aguinaldo and his followers would not be to give self-government would the majority thus gain self-government. They would simply be put at the mercy of a syndicate of Chinese halfbreeds, under whom corruption would flourish far more freely than ever it flourished under Tweed, while tyrannical oppression would obtain to a degree only

# RETREAT, BOYS: CHARGE!"

Mckinley Forty Years Ago and To-Day Has the Same Principles.

"There is no such word as retreat,

to-day as of the soldier of 1862. Thomas O'Callahan, with one eye blinded and one ear closed to sound forever by a bullet wound received under the national colors at Gettysburg, is now a resident of Fort Collins. He served through the war with distinguished brav-

ery.
"I served under President McKinley in 1863 and have met him frequently since. Every meeting brings back to me one of the most patriotic expressions that ever passed the lips of a soldier. A party of forty men under the then Maj. McKinley went on scouting duty. They were perilous times then.

"All went well until we reached the top of a hill and unexpectedly ran into a body of 'Johnnies' numbering between 300 and 400. They were in ambush, drawn up in firing line and awaiting our approach. Our first knowledge of their presence in the ambush was a volley which brought down our three front fours of horses and men

"Retreat!" our captain shouted.

"There is no such word as retreat, boys; charge!' came a second order, this time from Maj. McKinley, who, drawing his sword, dashed ahead, followed by exery one of our men except these who had given their lives to the cause. The cuemy were completely astounded and at our charge retreated in confusion.

"Before we started on this sconting expedition we were ordered to take three days' provisions. I had a sack of pounded oats on the pommel of my saddle. After the roll of the chemy I turned the oats out to feed my horse, and found fifteen buliets in the sack. Mr. horse was wounded, as was Maj. McK niey's, and his sword hilt was cut to pieces by bullets. Maj. McKinley hughingly called attention to the sack. attention to it, and at the same time complimenting his men on their bravery,

"'You have done me a great favor, boys, and if it ever lies in my power, I'll reciprocate.'"

#### "DEAR BOY" LETTERS-NO. 7

My Dear Boy:

You inform me that John Dones. Bently and old Harry Welcon say that I they are going to Jote II McKimity and Roosevelt, but that they will vote against our Congressman, now a candidate for re-election

Well, the Republican party is very much like Bro. Robinson's church. Bro. Brown and Bro. Robinson, two clerical friends of mine, were talking about the the present generation. They must be churches under their care. Hro. Brown

"My church members are The last one of them is active. who won't do anything else will kick." The Republican party is a very active organization. There is nothing dead about it. The last one of its mighty

membership is doing something, and it is not surprising that some of this activity should display itself in kicking. Jones, Bently and Weldon have lined up with the kickers. Now, I am sorry. I will tell you why

I am sorry. In my judgment, the leaders of the Democratic party have very little hope of electing Mr. Bryan, but they do hope to elect a Democratic House of Representatives. They do expect to paralyze legislation, tie McKinley's hands, block the wheels of the nation's progress, and cripple the ship of state right in the midst of the breakers that surround it. And their hope lies in the kicking of such men as Jones, Bently and

I happen to know just what is the matter with those three men. Jones failed to be appointed postmaster et Squedunk Station. Bently didn't get to take the census in Pawpaw township, and Weldon thinks he ought to have his pension increased to twenty-four dollars a month, and the department decided that fourteen dollars was enough. Each of them thinks that his representative in Congress is to blame for his failure to get what he wanted. Hence the kick-

Now, I do not attempt to solve the personal equation in either of these three cases. Perhaps Jones would be a very good postmaster at Squedunk. It may be that Bently was the most competent person to take the census in Pawpaw township. For aught I know Weldon ought to have a pension of twenty-four dollars a month, although I doubt whether he is more disabled than myself and I get only eight dollars and am not kicking about it. I could use more to very good advantage, but am thankful for what I have.

Why, my boy, we are entering upon wonderful times. The ancient civilization of the Orient is crumbling. The islands of the sea are being transformed. The Christian nations are coming together. America, with her inexhaustible resources, her intelligence and freedom of thought, her energy and inventive genius, is becoming the foremost factor in the coming regeneration of the world. And at the head of this great nation stands William McKinley, enduring the most tremendous strain which has come upon any President since Lincoln's day. His wise, dignified faithfulness commands the respect and confidence of the world. He should be re-elected and should have a Congress upon whom he can depend.

In view of these great things, how small the postmaster's place at Squedunk and such trifling personal matters ap-

Once there was a man who traded a good farm for a drink of whisky and a plug of tobacco. The Bible tells us of Esau who sold his birthright for a mess of pottage. Tradition Informs us of a man who cut off his nose to spite his face. And of such are Jones, Bently and Weldon and others who let little things blind them to great things.
