

IMPROVEMENTS MADE IN PLATTSMOUTH

List of New Buildings Already Fin- ished and Those in Course of Construction.

THOUSANDS OF DOLLARS REPRESENT THE COST

Present Year Has Been One of Great Activity in the Building Line—City Can Now Boast of an Opera House Equal to Any in the State of Nebraska—Work on New Methodist Church and Public Library Building Being Rapidly Advanced

As the year 1900 fades into the past, and 1901 peeps over the horizon, the people of Plattsburgh can look back with feelings of mingled pride and self-congratulation upon a record of building and other improvements that has had no equal in any period of twelve months for the past ten years.

It is probably no exaggeration to say that not one-third of the citizens of Plattsburgh have any realization of the vast sum that has been expended in building and improvements during the year just closing, and will be most agreeably surprised when they learn that it will aggregate fully \$125,000.

The buildings have not been built systematically, as in the "boom" days—buildings meant only to last temporarily—but in each instance they have been modern, substantial and elegant, and will in after years serve as monuments to the enterprise of the men who so freely expended their money in their construction.

No city of near the population of Plattsburgh in the entire state can make as creditable a showing, a fact which goes to prove that the citizens of this city, who are familiar with its possibilities, not only have undoubted faith in its future, but that they are an enterprising and public-spirited class of people.

Of course, everybody realizes that the new Parmele theatre involved the greatest expenditure of capital, and is probably the most important of the improvements made during the year. Its construction involved an outlay of approximately \$30,000.

The handsome new public library building is also a welcome and important addition to the evidences of this city's progress and enterprise, as is also the new Methodist church, upon which work is being rapidly pushed.

A representative of THE NEWS has taken the trouble to thoroughly investigate the improvements made during the year, and those contemplated for the immediate future, and below will be found a comprehensive review of the same, so far as could be learned. A perusal of the same will be of unbounded benefit to anyone interested in the material welfare of the city.

"The Parmele" Theatre.

Eighteen years ago, the 28th of November, the Waterman opera house was opened to the public, and for a few years the people of Plattsburgh enjoyed some of the best theatrical performances on the road. But on July 31, 1891, the handsome playhouse was destroyed by fire. Several attempts were made to organize a stock company and rebuild the structure, but the plans never materialized. For a period of nine years Plattsburgh theatre-goers have had no opportunity of witnessing first-class attractions, without going to Omaha or some other city, and this fact has been a source of keen disappointment to the citizens.

Early last spring, however, the Messrs. Charles C. and Thomas E. Parmele, two of the city's leading capitalists, conceived the idea of building a new theatre, and, unlike other plans, apparently founded only upon wind, these gentlemen at once proceeded to put into execution what others had dreamed of doing.

Considerable trouble was at first experienced in securing a suitable location for the proposed edifice, the owners of the property placing an unreasonable value thereon. Finally this difficulty was overcome, arrangements made, contracts let and active work on "The Parmele" was commenced on May 7.

The work of construction has been closely watched by the people of this city, and as the building neared completion, they realized, with satisfaction, that Plattsburgh could once more point with pride to a theatre second to none in the state. The finishing touches are now being added, and on next Monday night this elegant and modern theatre will be formally opened.

One cannot thoroughly appreciate the beauty of the interior furnishings of "The Parmele" without visiting the place, but a brief description will perhaps not be amiss. The walls and ceilings are of terra cotta color, handsomely decorated and frescoed, while the balcony and boxes—there being four of the latter—are trimmed with white-stall work of elegant design. The total seating capacity of the house is entirely adequate for the requirements of a town of this size, and so conveniently arranged are the seats that a splendid view of the stage can be obtained from any point in the theatre.

The stage is the largest in the state, being 45x90x16 feet, and the equipment is one of the very latest pattern. Instead of the old-fashioned slide scenes, drop scenery exclusively will be used, of which there are some eighty pieces. Probably the most notable feature of "The Parmele" is the superior lighting facilities, there being 820 electric lights in the building. Every other light is on a separate circuit, so that in an instant the lights can be reduced one-half. In addition to this there are five "dimmers," by means of which the lights can be turned down to the desired shade in any or all parts of the house. There are seventy-five foot lights, of red, white and blue color, and border lights of the same color, completely surround the front of the stage, all so arranged that any desired effect can be produced without the aid of chemicals. This will be especially adapt-

the handsomest business blocks in the city. Over a ton of plate glass was used in making an attractive front, and the building has been thoroughly remodeled and refitted. The improvements will cost over \$2,000.

Plattsburgh Telephone Company.

Beginning operations in this city last year, the Plattsburgh Telephone company has made wonderful progress, until now about 350 of their 'phones are in use here, and their lines extend into every town in Cass county, with exchanges at several places. Within the past year this company has put up 150 miles of copper metallic circuit, and are now putting in at all toll stations a specially constructed long-distance telephone, designed by T. H. Ewing, and manufactured by an eastern firm, which will very materially improve the service. The company has expended some \$50,000 since its organization.

Water Company Improvements.

Ten thousand dollars will represent the amount of money expended by the Plattsburgh Water company, when the improvements now in course of construction are completed. In order to furnish pure, clear water to its patrons, the company has found it necessary to no longer depend upon the Platte river for its supply of water. It was decided to sink four wells to a depth of three or four hundred feet, and put in an air compression system to force the water into the settling basins. Accordingly, a few days ago, W. A. Dowd of Salem, O., commenced the work of boring the wells, and in a short time Superintendent Pollock will go to Cleveland, O., to purchase the air compression system. The company also proposes to thoroughly overhaul the pump house and machinery, and the grounds will be improved and beautified.

Will Build a Fine Block.

In a few days ground will be broken for the foundation of the new business block, to be erected at the corner of Main and Fourth streets, by the John Gund Brewing company of La Crosse, Wis. The new structure will be one of the handsomest in the city, and will be built of either white or red pressed brick. It will be 124 feet long and two stories high, equipped in the most modern style, with steam heat, electric lights, tiled floors, etc. The lower room will be fitted for commercial purposes and the upstairs for offices. The building will cost between \$12,000 and \$15,000.

New Residences and Improvements.

Charles C. Parmele's new brick barn cost something like \$1,800. Fred G. Egenberger expended about \$1,000 on his residence property. Dave Babington has expended \$500 in enlarging his residence in the north part of town.

The Livingston Loan & Building association paid out for improvements to its property \$400. Mrs. Lillian K. Hase has added \$400 worth of improvements to her residence property.

Fred Stadelman has built a neat cottage on North Fifth street, at a cost of about \$1,800. Nearly \$400 has been expended in improving the interior of the Presbyterian church during 1900.

Fred W. Lehnhoff has remodeled his house, on North Eighth street, and made improvements that cost \$1,200.

I. Pearlman has improved his business and residence property in town during the past year to the extent of \$4,000.

F. P. Brown has completed a neat two-room cottage at the corner of Pearl and Eleventh streets, which he will occupy. The cost was about \$1,500. The John Gund Brewing company this year completed the erection of a large three-story frame ice house, having a capacity of 150 tons of ice and three carloads of beer. The building cost \$1,500.

C. E. Wescott has expended about \$2,000 in extending and remodeling his residence on West Main street. The house has been raised to a story and a half, extending on the north and west sides, library and bath room added and a circular porch, with handsome double pillars, built around the north and east sides.

Next Year's Prospects.

Next year promises to be another record-breaker for building improvements in Plattsburgh.

Dr. E. W. Cook will build a residence, the same style as Mr. Morgan's, on his property on the corner of Vine and Fourth streets.

Frank J. Morgan has completed arrangements for the erection of a modern ten-room cottage on North Sixth street, to cost between \$3,500 and \$4,000.

Fred G. Egenberger will improve and enlarge his residence on Vine street, between Seventh and Eighth, next spring. The estimated cost will be \$800.

Two Housing Meetings.

Judge Spaullock returned from South Bond this morning, where he spoke last night to a full house. He reports the republicans wide awake in that precinct. It is reported that the fusion state committee sent a speaker there a short time ago and by actual count but a x came out to hear the gentleman.

The meeting addressed by Mr. Spaullock at Greenwood Thursday night was also largely attended, the house being filled to the halls and doorway.

Bismarck's Iron Nerve.

Was the result of his splendid health. Indomitable will and tremendous energy are not found where stomach, liver, kidneys and bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at F. G. Frick & Co.'s drug store.

HIS SKULL FRACTURED

James Hickson, Sr. Meets With a Serious Accident.

While Assisting in Boring a Well the Derrick Breaks and Strikes the Unfortunate Man Squarely on the Head—Physicians Entertain Slight Hopes for His Recovery.

From Monday's Daily.

James Hickson, sr., met with an accident about 11:30 this morning which may have fatal results. He and three other men were engaged boring a well near the pump house. They were working with a large steam drill, operated by a traction engine. In some manner the drill got caught, and while they were trying to pull it out Mr. Hickson noticed that the steam was going down. He proceeded to shovel some coal into the furnace, and while doing so the derrick broke—a portion of it striking Mr. Hickson squarely on the head and knocking him senseless. His son, James, who was standing near by, was also knocked down, but not injured.

The unfortunate man was quickly picked up and taken into the pump house and Drs. Livingston and Cook summoned. It was found that his skull was fractured and that the flesh and skin from his eyes to the back of his head was badly bruised. Soon after the accident Mr. Hickson was taken to his home, where the physicians removed a portion of the skull and as THE NEWS goes to press he was resting as easy as could be expected.

Mr. Hickson suffered a fracture of the skull several years ago and this may have a tendency to lessen his chances for recovery.

It was indeed a fortunate thing that the other men escaped, as they were all standing near the falling timbers.

Nails a False Statement.

CHICAGO, Oct. 19.—Editor EVENING NEWS: My attention has been directed to a statement published in democratic newspapers of Nebraska that I had during my recent visit to that state expressed a preference for the election of United States senators in Nebraska. This statement is entirely false and without the slightest foundation. My only desire is for the success of the whole republican ticket in Nebraska.

M. A. HANNA,
Chairman R-republican National Committee.

FROM AN EX-CONFEDERATE

Spea a Well of Matthew Goring's Masterly Oration at Havlock.

Matthew Goring received this morning a letter from a democratic ex-confederate soldier of Nebraska, who had, during all of his life, supported the democratic ticket, and in which he says:

"Never since that time have I received such encouragement and inspiration as that received from your masterly oration delivered at Havlock last night and printed in the Sunday State Journal. I wish every true American could read it and receive such an uplift in patriotism that he would be constrained to stand by the flag until every vestige of anarchy was swept from the land. In reading your speech, I was led to believe that in your early life you had lived in Virginia. Am I correct? A part of my limited education was received under the holy shadows of consecrated Monticello. As a boy of seventeen, I served a part of '64 in the confederate army, yet in point of patriotism and love of country, I yield first place to none."

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c. guaranteed, at F. G. Frick & Co.'s drug store.

A Soldier Boy's Views.

Charles Scario, who, it will be remembered, was a member of the gallant First Nebraska regiment, yesterday received the following letter from an old comrade:

STELLA, Neb., Oct. 27.—Dear Comrade: Will drop you a few lines. How do you stand on imperialism? Will tell you what I think in a few words—IT IS A FARCE! Write and tell me what you think of this campaign. Hurrah for McKinley, Roosevelt and Burkett! Yours truly,
SCRIP STRINGFIELD.

Changes on the Burlington.

The new time card which went into effect on the Burlington yesterday calls for a number of changes. No. 12, which has heretofore arrived at 8:13, will now be run via Council Bluffs, and the time of No. 8 has been changed to 7:45. No. 92 will hereafter arrive at 12:26 p. m. instead of 11:27 a. m. No. 2, which has heretofore been run via Council Bluffs, will now come down on this side of the river, arriving here at 4:35. The Omaha K-neas City trains will not be taken off until next week.

WANTS ONE MORE CHANCE.

Missouri Pacific Road Asks for a Rehearing in Fox Case.
From Saturday's Daily.
Three times has the suit of the Missouri Pacific railroad company against William K. Fox, administrator of the estate of Anna Thompson, deceased, been reviewed in one phase or another by the supreme court, says the Lincoln News. The last decision was in favor of Mr. Fox, and today the road demands the right to a rehearing. A brief in support of such motion has been filed.

DESERVE THE FUSION RANKS

Bryan-Stevenson Club of Omaha Will Support Republicans.

The following dispatch from Omaha to the State Journal will certainly be of interest to every republican in the state:
"This evening there was witnessed the spectacle of a Bryan and Stevenson club going in a body to attend a republican ward meeting, there to declare fealty to leading republican candidates. It happened in the Fifth ward. The democratic club numbers 117, and a delegation of seventeen, headed by the chief officers, waited upon the Fifth ward republican club and openly declared that every member of the visiting club intended to support David Mercer, republican nominee for congress against Howard, and also to support the candidacy of Edward Rosewater for the United States senate and that of Howard Baldrige for the state senate against Frank Ransom on the fusion legislative ticket. The delegation stayed the meeting through and were the recipients of distinguished consideration at the hands of the enthusiastic republicans."

ECZEMA'S ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had Tetters on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort. Four doctors said the Tetters had progressed too far to be cured, and they could do nothing for me. It took only three bottles of S. S. S. and I was cured. This was fifteen years ago, and I have never since seen any sign of my old trouble."—Mrs. L. B. JACKSON, 1414 McGee St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear. It cures Tetters, Erysipelas, Psoriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strictest confidence.

LEGAL ADVERTISEMENTS

Special Election to Fill Bonds of Plattsburgh Precinct.

Whereas the electors of Plattsburgh precinct in the county of Cass and state of Nebraska, at the 18th day of March, A. D. 1890, at a special election called pursuant to law for the purpose of voting upon propositions to authorize the issuance and sale of precinct bonds in the sum of \$10,000 to the Omaha Southern Railway company to aid the construction of a railroad by said company in said county and through said precinct, and to levy a tax annually to pay principal and interest on said bonds, did authorize the commissioners of said county to issue, negotiate and sell ten bonds of said precinct, each of the denomination of one thousand dollars, to be dated January 1, 1890, to be payable twenty years after their date, but redeemable at the option of said precinct ten years after their date, each bond to bear interest at the rate of six per cent per annum payable semi-annually; such interest to be evidenced by forty coupons attached to each bond, principle and interest of a said bond to be payable at Nebraska State Fiscal Agency City of New York in the state of New York, and authorizing the levy of a tax annually to pay said interest and accumulate a sinking fund for the redemption of said bonds.

And whereas the said commissioners acting for and on behalf of said precinct and county and by virtue of the powers vested in them by said election and the law, did issue said Plattsburgh Precinct Railroad Bonds in all particulars in strict conformity with the law and did cause said bonds to be registered in the office of the auditor of public accounts for the state of Nebraska, at Lincoln, Nebraska.

And whereas the said ten bonds with coupons attached as aforesaid so issued and registered were by said commissioners delivered to said Omaha Southern Railway company and by said company sold.

And whereas there has been redeemed bonds numbered 1, 2 and 3 of said series, leaving due and owing on said bonds the sum of seven thousand dollars, and being represented by bonds of said issue numbered from 4 to 10 inclusive.

And whereas the rate for the use of money has declined since the issuance of said bonds, and the said seven thousand dollars in bonds remaining unpaid can be taken up, paid off and redeemed by the issuance and sale of Plattsburgh Precinct Refunding Bonds in said sum of seven thousand dollars, at an interest payable semi-annually at not to exceed the rate of five per cent per annum, which said bonds may be sold or exchanged at par for said original bonds, the hands of the holders thereof.

Therefore, be it resolved, That there be submitted to the electors of Plattsburgh precinct to be voted upon at their polling place at Taylor's school house in Plattsburgh, Nebraska, at a special general election the propositions: Shall the county commissioners of Cass county be authorized to issue and sell refunding bonds to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each, and interest to be evidenced by forty coupons attached to each of said bonds; bonds to be payable to bearer, and shall the county commissioners be authorized to annually levy and collect a tax against all the taxable property in said precinct for the purpose of paying said interest on said refunding bonds, and to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each, and interest to be evidenced by forty coupons attached to each of said bonds; bonds to be payable to bearer, and shall the county commissioners be authorized to annually levy and collect a tax against all the taxable property in said precinct for the purpose of paying said interest on said refunding bonds, and to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each, and interest to be evidenced by forty coupons attached to each of said bonds; bonds to be payable to bearer, and shall the county commissioners be authorized to annually levy and collect a tax against all the taxable property in said precinct for the purpose of paying said interest on said refunding bonds, and to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each, and interest to be evidenced by forty coupons attached to each of said bonds; bonds to be payable to bearer, and shall the county commissioners be authorized to annually levy and collect a tax against all the taxable property in said precinct for the purpose of paying said interest on said refunding bonds, and to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each, and interest to be evidenced by forty coupons attached to each of said bonds; bonds to be payable to bearer, and shall the county commissioners be authorized to annually levy and collect a tax against all the taxable property in said precinct for the purpose of paying said interest on said refunding bonds, and to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each, and interest to be evidenced by forty coupons attached to each of said bonds; bonds to be payable to bearer, and shall the county commissioners be authorized to annually levy and collect a tax against all the taxable property in said precinct for the purpose of paying said interest on said refunding bonds, and to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each, and interest to be evidenced by forty coupons attached to each of said bonds; bonds to be payable to bearer, and shall the county commissioners be authorized to annually levy and collect a tax against all the taxable property in said precinct for the purpose of paying said interest on said refunding bonds, and to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each, and interest to be evidenced by forty coupons attached to each of said bonds; bonds to be payable to bearer, and shall the county commissioners be authorized to annually levy and collect a tax against all the taxable property in said precinct for the purpose of paying said interest on said refunding bonds, and to pay off and redeem the principal of said bonds, and to pay thereon at not to exceed five per cent per annum, payable annually, bonds payable ten years from date thereof, but with right to redeem at any time or all said bonds on any interest pay date; said bonds to be of the denomination of one thousand dollars each
