

ROWITZER VS. WHEELER

Title of the Case Being Tried in District Court.

Controversy is the Outgrowth of the Tourtelott Bankruptcy Case, and is Being Vigorously Contested by Both Sides—Witnesses Summoned From Four Different States.

From Wednesday's Daily.
A jury was selected in district court yesterday afternoon for the case of L. M. Rowitzer against W. D. Wheeler and others. The case is still in progress and is being warmly contested, Matthew Gering conducting the case for the plaintiff and Attorneys Clark and Rawls of this city, Montgomery of Omaha and Solomon of Kansas City for the defense. Witnesses have been summoned from different points in Nebraska, Missouri, Kansas and Wyoming.

This controversy has its direct outcome from the Tourtelott case. It appears that in 1898 George Tourtelott sold the stock of goods in the old department store to W. W. Coates of this city, and a few days later Mrs. L. M. Rowitzer of Omaha, through her husband, purchased the stock from Mr. Coates. The goods had only been in their possession a few hours when Sheriff Wheeler attached them at the instance of the Western and Southern Mercantile company and Barton Bros. of Kansas City. The Rowitzers accordingly brought suit against the sheriff and his bondsmen for the value of the stock and damages for being deprived of the same. The defense claims that the stock was purchased for fraudulent purposes, in order to defraud Tourtelott's creditors.

The jury in the case is composed of J. C. Hayes, William Neville, J. J. Swoboda, S. A. Morrison, R. O. Follows, John Adams, A. C. Beach, C. A. Gauer, S. M. Stradley, Wash Bullis, Henry Behrens, sr. and B. K. Kerr.

Trainmen Will Celebrate.

Speaking of the trainmen's annual ball, to be held in Lincoln on New Year's eve, the Omaha Bee says: "The last day of the year promises to be a memorable one for trainmen employed by the Burlington system. They propose at that time to gather in Lincoln in numbers limited only by the requirement of trains that must be operated and give up the day to the seeking and giving of pleasure. In the afternoon the big auditorium will be converted into a great concert hall and a joint musical program will be rendered by the Burlington bands of Plattsmouth and McCook. This event will be for the benefit of the poor people of Lincoln.

"In the evening the trainmen will give an entertainment unique in railroad circles in that they propose to extend a banquet to their officials. Tickets of invitation will be issued to all of the men having authority in the operating and transportation departments and a great feast is contemplated. Following this grand affair there will be a great ball. Preparations for the affair are progressing satisfactorily."

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and had with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac.

The Woman's Club.

The Art department of the Woman's club will meet Friday evening at 7:30 at the home of Mrs. Byron Clark, in charge of Mrs. S. A. Davis. This will be a "China painting" meeting and there will be upon exhibition and for sale many beautiful pieces of china, decorated by local artists. A number of water color pictures will also be exhibited. Miss Butterfield of Omaha will be present and give a talk upon the ceramic art. An excellent musical and library program has been prepared. Visitors, 10 cents. All are welcome. Mrs. H. J. Straight, hostess.

Just Saved His Life.

It was a thrilling escape that Charles Davis of Bowerston, O., lately had from a frightful death. For two years a severe lung trouble constantly grew worse until it seemed he must die of consumption. Then began to use Dr. King's New Discovery and lately wrote: "It gave instant relief and effected a permanent cure." Such wonderful cures have for 25 years, proven it's power to cure all throat, chest and lung troubles. Price 50c and \$1.00. Every bottle guaranteed. Trial bottles free at F. G. Fricke & Co.'s drug store.

Entertained a Few Friends.

Miss Mae Patterson entertained last evening, somewhat informally, a few friends in honor of her friend, Miss Aimee Burgert, of Nebraska City, who has been visiting her for several days. The evening was very pleasantly spent in music and games, after which delicious refreshments were served.

Those present were Mrs. F. A. Murphy; Misses Mary Martin, Margaret Farley; Messrs. F. A. Murphy, E. H. Westcott, H. E. Weidman, George L. Partridge and H. L. Snyder.

Paradoxical though it may seem, the gas is always shut in when it is turned out.

FINISH NEW MAIL CARS

Employees of the Burlington Coach Shop Do Some Fine Work.

About a month ago an order was received at the Burlington coach shop in this city for the construction of two sixty-foot mail cars. Work was begun at once and about ten days ago was completed, and the other was turned out of the shops today. These cars are to be used on the Billings line, and are equipped with all the modern improvements, having the Harrison mail racks and each is supplied with seven Bipsitch gas lamps.

It is said the Burlington officials are well pleased with the speed and workmanship done on the Plattsmouth cars. Three of these cars have also been built in the Pullman, Ills. shops.

Within the past few months the local shops have built five new cars, in addition to the two mail cars, and have repainted and otherwise overhauled an average of fifteen cars per month.

Convincing Arguments.

The publisher of a newspaper has one thing to sell and one thing to rent, remarks an exchange. He has copies of his paper to sell and space in its columns to rent. Can anyone inform us why he should be expected to give away either the one or the other? He can, if he so chooses, and he does, as a matter of fact, furnish a great deal of space rent free. But it does not follow that he ought to be expected to do so. It ought to be recognized as a contribution, exactly as would be the giving away of sugar or coffee by a grocer. But, strange to say, it is not looked upon in that light at all; and yet everybody knows that the existence of a newspaper depends upon the rent of its space and the sale of the paper, just as a merchant's success depends upon selling goods, instead of giving them away.

Smallpox in a Chair Car.

Another smallpox patient arrived in Omaha from the west and was sent to the emergency hospital, says the Bee. His name is Martin Olson and he came from Denver to Omaha in a chair car. When he left Denver he was feeling well, but before he arrived in Omaha he was taken with fever. Immediately upon his arrival in Omaha he consulted a physician, who discovered that the man was suffering with smallpox and sent him to the health commissioner. Dr. Coffman ordered the man taken to the emergency hospital at once. Olson is a young man about thirty years of age. For several weeks he has been traveling through Colorado. Although he did not know that he was exposed to the disease, it is known to exist in several towns he visited. Olson offered no objection to being removed to the hospital.

Brave Men Fall.

victim to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents at F. G. Fricke & Co.'s drug store. Every bottle guaranteed.

A Pleasant Gathering.

Mrs. James Newell entertained a number of ladies at an afternoon Kensington yesterday in honor of Messdames Rose Myers-Williams and Mabel Urub-Butler. This assembly was especially interesting, it being a reunion of old schoolmates, and they enjoyed a general review of reminiscences.

Those present were Mrs. Jessie Snyder, Misses Louise White, Matilda Valley, Claire Green, Florence White, Minna White and the guests of honor.

Married in Chicago.

Speaking of the marriage of George E. Hager, formerly of this city, the Lincoln Journal says: "G. E. Hager, a young attorney of this city, was quietly married last week in Chicago to Miss Jennie Harris of Pueblo, Col. They took a short trip before returning to Lincoln, where they will reside. Mr. Hager is a graduate of the state university in the academic class of '98 and the law class of '99. He is now junior member of the firm of Kirkpatrick & Hager."

WILL LOOK OUT FOR HIM

Man Who Stole a Pair of Mule Colts Wanted at Lincoln.

Sheriff Wheeler Notified of the Theft, as There is a Probability That He is Headed in This Direction—Small Fire at the Rear of the Wetenkamp Building—Other Local News.

From Thursday's Daily.
Sheriff Wheeler received a message from the sheriff of Lancaster county this morning, stating that a couple of mule colts were stolen near Lincoln last night, and requesting him to be ready to nab the thief in case he should come this way. It is said that the man who stole the animals is about forty years old, of dark complexion and that he is traveling over the country in a covered wagon. The owner of the mules is also an emigrant.

A number of thefts of this kind have been reported to the Cass county authorities within the past several weeks, but the thieves seem to take particular pains to steer clear of this section of the country.

A Small Blaze.

The NEWS force and several other citizens made quite a record as firefighters shortly before dinner today. Hall & Son were engaged in putting a coat of tar on the roof of the Wetenkamp block and had placed a large iron vat at the rear of the NEWS office, in which the tar was heated. While one of the assistants was engaged in bailing out the fluid, he allowed some of it to spill on the fire below, and in a moment the vat was completely surrounded by flames. The prompt application of water, however, prevented any serious damages, but for a few minutes the small outbuildings near by were in great danger.

Was Delightfully Surprised.

The members of "Bud of Promise," D. of R., lodge No. 40, I. O. O. F., planned a very pleasant surprise on Mrs. S. H. Fisher at her home in the Second ward Tuesday evening, December 4. The crowd met at the residence of Mr. and Mrs. George Kroehler and went in a body to the home of Mrs. Fisher, where they found that lady perusing the columns of THE EVENING NEWS. As she was expecting a lady friend to spend the evening, she was not frightened when she heard an alarm at the door, which she proceeded to open, when, lo! and behold: not one alone, but several dozen, and all representatives of the lodge of which she has long been an honored member. Mrs. Fisher was indeed surprised and for a moment stood speechless. Wonder, surprise and amazement were depicted on her countenance as she looked over that crowd. However, taking in the situation and realizing that her friends had come to spend the evening, she soon recovered her composure and made everyone feel at home.

Each member of the party brought a parcel, which proved to contain something good to eat. The evening was spent in social chat, music, songs, recitations and games. Refreshments were served, to which all did ample justice, and it was near the "wee sma' hours" when all departed for their homes.

Mrs. Fisher is soon to leave for the south, where she goes to visit a sister. She has been an indefatigable worker in the Rebekah lodge and the members took this method of showing their esteem and appreciation. Mrs. Fisher has a host of friends in this city who join in wishing her a pleasant journey and a safe return to Plattsmouth.

Those present were Messrs. and Mesdames M. Fanger, D. B. Obersole, J. M. Leek, John Corey, A. Hunger, J. M. Bates, W. J. McLannan; Mesdames L. Golding, J. C. Peterson, I. Pearlman, A. Stultz, George Kroehler; Misses Lizzie Kroehler, Lulu Leek, Edna and May Peterson, Frances, Florence and Bessie Corey, Lizzie Stultz, Ida Pearlman; Messrs. A. H. Hager and — Strøer, of Kearney, and Masters Jake Hønger and David Obersole.

An Attraction Worth Seeing.

The "Cobb" company was greeted by a fair-sized crowd at the Parmelee last evening. The many comical situations in the play kept the audience in the best of humor from beginning to end, while the specialties introduced were excellent. John J. Swartwood, as "Leander Cobb" and Will Madden, who played the part of his son, showed that they were first-class actors. Oscar Lewis, as the Swede who was always "much obliged" and Sam Green as the Irishman, were characters which give the play an irresistible charm. The remainder of the company are all fine artists, but lack of space forbids mentioning them.

The company left this morning to fill an engagement in Omaha.

Coger Heard From.

The report comes from Nebraska City that John Coger, the contractor of that place who disappeared three weeks ago, while fishing in the Missouri river, has been heard from. A letter, which has been identified as Coger's handwriting, was received from Falls City yesterday. While he says he will return home soon, he offers no excuse for his strange disappearance.

MUST PRODUCE THE BOOKS

Supreme Court Makes Such Ruling in the Standard Oil Trust Case.

The latest ruling of the supreme court in regard to the Standard Oil trust case is that the company must come to the terms of Attorney General Swayne and submit its books and papers to him for inspection. In a written opinion, by Judge Sullivan, the court assumes jurisdiction in the suit of the state to oust the company for violating the anti-trust laws of the state and sustains the motion of the attorney general to require the company to submit its books to investigation.

Twice the attorney general made fatal errors in his motion to require the production of the books and twice it was overruled by the supreme court because of the errors, but the third time was the charm. In the meantime, the time set for the referees to report to the court was repeatedly extended. Further delay will now be necessary for the referees to inspect the books and the case will have to be taken charge of by Attorney General-elect F. N. Prout after the first of the year.

The court did not make an order setting a time or place for the inspection of the books and, as the motion does not cover that point, a definite order from the court may be necessary before the work will be started. The original motion asked that the books be produced in Nebraska, but the attorney general afterward struck out that clause. The company is incorporated in Indiana.

A United States patent for a piece of land issued to Barnabas Norton during the administration of Martin Van Buren, April 15, 1837, has been filed in Flint, Mich. The patent is written on sheepskin and bears the signature of President Van Buren. The remarkable contrast between that far distant date and the present time is shown in the fact that the autographs alone would probably command as much today as 120 acres of land was worth when the patent was issued. An old resident of the county said that the land covered by the patent was worth in those days about \$150. The document had never before been filed for record.

FROM A LIVING TOMBO

Thirty-Two Miners Emerge Alive and Unhurt, After Two Hours of Peril.

CAVE-IN SHUTS THEM IN THE PIT

But Led by Their Brave and Cool Foreman They Dig Their Way to Life.

Scranton, Pa., Dec. 6.—Thirty-two men employed at the Nayagully colliery were entombed by a cave-in yesterday morning, but thanks to a fortunate circumstance a terrible disaster was avoided. The men were at work about 1,000 feet from the bottom of the slope and 400 feet below the surface, when two acres of the roof between them and the slope came down with a terrific crash, crushing the pillars and causing a rush of air that almost blew the men from their feet and hurled the roof off the fan house. Their lamps were extinguished but finding that the air was still pure, they re-lighted them and began to cast about for a way to escape.

Foreman Gibbons Goes to Explore.

Some counselled remaining where they were until help should reach them from the outside, but the cracking of the pillars in their vicinity told them that the cave-in was extending towards them and that they must soon find a way out. The caught and killed like rats in a trap. Foreman John Gibbons, who chanced to be with the men at the time, bade them keep cool and quiet and he would try to find a way out. Crawling on his hands and knees over the fall roof, and sometimes squirming through crevices that barely admitted his body, he made his way to within fifteen feet of the air-way which led to the second opening, which it was presumed was not affected by the fall, as it is a narrow passage out through solid rock.

Proceed to Dig Their Way Out.

Returning for the men he had them take their tools and follow him. After a difficult and dangerous journey they reached the point where the fall blocked their way. This was attacked with bars, picks and shovels and after an hour's work a passage was cleared to the second opening, which as they had counted upon—was open. As fast as they could they made their way to the second opening and thence to the surface, where they were met by wild hurrahs from the thousands who had gathered expecting to see them brought out crushed and mangled corpses. If they were brought out at all.

Intense Excitement Outside.

During the two hours and fifteen minutes intervening between the time of the cave-in and the time the men emerged from the second opening the most intense excitement prevailed. W. J. Gentlemen, a wealthy stockman, caused the crowd that gathered on the slope and in the face of the fact that the roof was continually working and that tons of rock were liable to drop at any moment they proceeded to attack the fall and dig a passageway through it.

GENTLEMAN NOT GENTLEMANLY

Handles His Gun Too Carelessly as Regard Human Life.

Platte Center, Neb., Dec. 6.—Only the prompt arrival of Sheriff Byrnes and four deputies, summoned from Columbus, prevented additional bloodshed as a culminating feature to a series of shooting affrays which occurred here yesterday. The town is W. J. Gentlemen, a wealthy stockman, caused the trouble. He held the entire village at bay and shot four men. The injured are: Henry Tanger, shot near the spine, may die; Pat Hayes, city marshal, shot in the back; Robert Wilson, seriously wounded at side; S. Olson, right arm shattered, thumb shot off.

W. J. Gentlemen, inspired by a grudge over a cattle suit several weeks ago, attacked Martin Burns, a farmer, on the street. Inflamed, after the fight Gentlemen secured a shotgun and went in a search of his enemies. He entered the blacksmith shop of S. Olson and shot the owner. Marshal Hayes tried to arrest him and was shot in the back. Finally, overpowered, the man was taken to jail, and there drew a revolver, shooting into the crowd that had gathered, when Tanger and Wilson were badly wounded. The sheriff and four deputies arrived from Columbus, and the prisoner was spirited away in a carriage.

Two Hours' Fight with Tagals.

Michigan, Dec. 6.—A dispatch has been received from General Funston giving an account of a two hours' fight in the woods between an American force and 200 Tagals commanded by Salico. An American force, consisting of thirty native scouts, commanded by Lieutenant Jernigan, attacked the rebels, who retreated, leaving on the field sixteen men killed. Not one of Jernigan's men was wounded.

New Trick of the Natural Explosives.

Washington, Pa., Dec. 5.—Engineer David Phillips and Fireman Cobough, of the morning Baltimore and Ohio express, were suddenly enveloped with flames on their engine near Elm Grove yesterday and so badly burned that they could not continue their run. A gas pipe line passes under the tracks at that point and the line had sprung a leak during the night. The escaping gas ignited from the fire-box of the engine.

One End of It Is "On."

Milwaukee, Wis., Dec. 5.—As far as Milwaukee and other western cities are concerned, the matter of establishing a new base ball league to be known as the National association is off. Failure of certain eastern men to cooperate in the plan of formation is given as the cause for abandoning of the project.

Tired of a Tight Town.

Kokomo, Ind., Dec. 5.—The council meeting Monday the police board, which undertook to enforce the Sunday closing laws strictly, was abolished and the mayor and marshal hereafter will direct police affairs. There will be no more tight Sundays.

Wisconsin Merchants in Convention.

Milwaukee, Wis., Dec. 5.—The first annual convention of Wisconsin Retail Grocers and General Merchants is in session at Lincoln hall with many delegates in attendance. The object of the meeting is to form a state organization for protection of the trade.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion

when such remedies are relied on.

Mr. H. T. Shobe, 274 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result until we decided to try S. S. S. and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."
