THE LARGEST CIRCULATION Of any Cass County Paper.

THE NEWS-HERALD could take some wood on subscription.

EX-PRESIDENT KRUGER received a royal welcome at the Hague.

MR. DIETRICH doesn't seem to be in any particular hurry in making his appointments.

ALVO is going to keep pace with other cities and towns by building a good hall for public meetings.

THE Eagle Beacon comes out strongly in favor of Thompson and Rosewater for United States senators.

THE official returns indicate that McKinley's majority is larger by about 246,000 than in 1896, which makes it nearly 848,000.

THE merchants are glad to see it get colder. The pleasant weather has interfered quite materially with the sale of winter goods.

FOR three papers—a democratic, a republican and an independent—to emanate from one office will be something both new and novel for Plattsmouth. Who says fusion is dead?

MR. BRYAN says he has heard nothing of the Indiana movement to form a new party. Possibly the promoters are keeping the affair quiet for fear the Nebraska man will want to join it.—Omaha Bee.

THE Pirates of Penzance will be the first pirates many people, young and old, will have ever seen. Not many of us have been on the high seas and but few of those who have, ever got a glimpse of a real pirate.

FOR the first time in two or three years THE NEWS is the only daily paper in Plattsmouth, but it seems it is to have the field for but one day only, as the Journal expects to start a "non-partisan" morning paper at once.

"MANHOOD and citizenship" will be subject of Governor Roosevelt's address to the Y. M. C. A. of the country Dec. 30, at Carnegie hall, New York. A copy of the address is to be sent to every Y. M. C. association of this country and Canada.

It has been suggested that the best and quickest way for the Morning Journal to work up a large subscription list would be to have a voting contest and give the most popular, lady or perhaps the prettiest babe, in the city a fine Christmas present.

MAYOR HARRISON has closed several of the basement dives in Chicago, but the action was not taken because he thought the move a wise one, but, as he himself puts it, "I have bowed to the will of the people." The pressure was greater than he cared to bear.

THE ratification at Washington on the part of the republicans from this state seems to have been quite an event. Mark Hanna was conspicuous among the national republican leaders. It takes some time for the fellows to get through rejoicing over their victory in Nebraska. Senator Thurston presided over the meeting.

THE governors of New Mexico and Arizona are in Washington to ask congress to admit these territories into statehood. Their reports indicate that in population, area and wealth these territories compare favorably with the conditions of many of the states at the time of their admission—which they believe justifies this claim.

THE army reorganization bill passed the house yesterday by a vote of 166 to 133. It was made a party measure, as but three democrats supported it, while but one republican voted against it. The amendment providing for the abolition of the army canteen system was carried by an overwhelming majority, the vote being 159 to 51. The temperance people will greatly rejoice over this.

THE reduction in war taxes, if the recommendations of the republican members of the ways and means committee are carried out, will amount to a little over \$40,000,000. The people will appreciate the removal of some of the taxes, more because they have been a source of annoyance than anything else. Except in certain instances it can hardly be said that they have been burdensome.

THE opportunity to hear the world's most famous singers in grand opera in Lincoln next Wednesday will no doubt be taken advantage of by quite a number of our people. This company includes such singers as Melba, Nordica, Suzanne Adams, Schumann-Heink, Gadeki, Oltzka, Homer, Fritz, Scheff, De Roszke, Plancon, Andreas, Dippel, Soles, Companari, Cremonini, DeLatour, Scotti, Journets, Manchenelli and Damrosche. All the railroads will give rates of one and one-third fares, which will be quite an advantage to the music lovers who are determined to enjoy this rare treat.

BOER RESOLUTIONS IN CONGRESS.

(Chicago Times-Herald.)

The resolutions of sympathy for Mr. Kruger, which have been introduced in the house of representatives, would not help the Boers if they were passed, and if they had any influence at all it would be mischievous. We do not refer to the possible irritation which they might cause among the English, but rather to the effect of the false hopes which they might arouse among the unfortunate and misguided men who are keeping up a disastrous struggle against the inevitable.

No sane person who is not in the thick of the struggle and possessed by its passions can believe for a moment that there is the remotest chance of Boer success. It is barred by the terrible logic of numbers and immensely superior resources of every sort. The emperors of Germany and Austria recognize this fact and act accordingly. As they are not willing to offer the substantial succor of a military alliance and so prove their sympathy by their deeds, they disdain the cheap substitute of valueless and delusive words and meaningless ceremonial forms. Hard as their repulse of the ex-president may seem, it is at this juncture the best kindness they could show him people.

Congress and congressmen might profit by their example, for it is certain that the American government is as firmly resolved as they are never to participate in the South African contest. If went so far as to make an offer of mediation, which was rejected, and that was the end. The resolutions coming afterward would seem almost farcical, except to people clutching at straws.

There is not even the excuse now of working up public sentiment, since that effort has just failed in the presidential campaign, and it is well known that the opinion of the people is past influencing. It is both divided and fixed as to the character of the original dispute, but if it were all pro-Boer its formal expression would be of no assistance at this time unless it went to the extreme of a demand for intervention. From whatever point of view we may look at the matter it is plain, as we have said, that the resolutions could do no more than encourage the wildest dreams which are impossible of fulfillment and only prolong a death agony.

Humanity protests against such a course, and true sympathy will counsel the Boers to surrender. Every life that is lost, every hearth that is destroyed henceforward, is a pitiful, unavailing sacrifice.

A DISPATCH from Appleton, Wis., says that during the initiation exercises of the Philatheaean society, at Lawrence university, Frank Melby and Theodore Albert, two of the students, were severely injured. Melby was testing a jump into a blanket, which had been prepared for the victims, and missed the blanket, striking on the floor twenty feet below on his head. He was picked up unconscious and did not recover consciousness for several hours. Albert, during his initiation, was stripped, blindfolded and plunged into a tank of ice water charged with electricity. The shock made him unconscious and it was only by the most energetic work on the part of his tormentors that he was revived. This is carrying things entirely too far, and the faculty should make the punishment to the perpetrators sufficiently severe to put a stop to this dangerous sport.

THE ratification at Washington on the part of the republicans from this state seems to have been quite an event. Mark Hanna was conspicuous among the national republican leaders. It takes some time for the fellows to get through rejoicing over their victory in Nebraska. Senator Thurston presided over the meeting.

IMPORTANT RECOMMENDATIONS.

Following are a few of the important recommendations made by President McKinley in his recent message to congress:

1. Ratification of the Hay-Pauncefote treaty and construction of the Nicaragua canal. A special message on this subject, with the report of the canal commission, will be sent to congress tomorrow.
2. Final adjustment of the Alaska boundary dispute.
3. Legislation designed to build up American shipping.
4. A reduction of \$30,000,000 in the war revenue taxes.
5. Army reorganization on the basis proposed by Secretary Root, calling for an army of about 60,000 men, with power in the hands of the president to increase this force to about 100,000.
6. Reapportionment for congressional purposes "at the present session."
7. Ratification of the various reciprocity treaties now pending.
8. Anti-lynching legislation.
9. Federal jurisdiction over crimes in which the international relations of the government are involved.
10. Economical appropriations by congress.

EDITOR HITCOCK and Senator Allen will probably receive the complimentary vote of the fusion members of the legislature for U. S. senators. It will not be like being elected, but they will no doubt appreciate the honor. No better opportunity will be given the democrats and populists to show their gratitude to Mr. Hitchcock for services rendered the party, or, in other words, apply a poultice to the "sting of ingratitude" given some time ago.

DR. H. H. ONEAL of Shelbyville, Ill., will lecture in this city Friday evening, Dec. 21, under the auspices of the Woman's club. Those who were so fortunate as to hear Dr. Oneal's lecture on "The French Revolution," given in this city some two or three years ago, will be glad of the opportunity to hear him again. His subject this time will be "Napoleon." Reserve the 21st for this lecture.

A MAN who is always just and resolute, cannot be diverted from a fixed purpose, either by the misdirected criticisms of his fellow citizens or by their threats of exile from popular favor. Moral courage—the power and ability to follow one's own conclusions and to fight for them against out-numbering adversaries—is much demanded and little supplied in American politics.—The Conservative.

Under the catchy title of "Heart and Sword," a new romantic comedy will be produced at the Parmelee Theatre on December 15, with Mr. Whiteside as Prince Victor and Miss Wolstein as Princess Sylvia. Judging from reports, Mr. Whiteside has struck a paying lead in digging into the silk clothes and rapiers and puppet drama. In reality, "Heart and Sword" is said to be a combination of both melodrama and comedy, telling a fascinating story of love, playing at cross purposes in the romantic old days of principalities in Germany, and, of course, a little war is thrown in to supply atmosphere and cause "thrills."

Mr. Whiteside plays the part of a free and easy prince, a petty potentate, who loves comfort and the inditing of romantic verses to imaginary characters better than the business of state.

This indolence well-nigh precipitates him into a "sea of trouble," but the other side of his nature—the manly and courageous—asserts itself, resulting in winning back for him his principality and a princess bride in addition. Miss Wolstein is said to make a charming Princess Sylvia, portraying the lights and shades of a capricious lady with rare art and grace.

Among the members of the large company supporting Mr. Whiteside are the following well-known players: David R. Hanchett, Frederic L. Power, William B. Mack, Harry Salter, Miss Gertrude O'Malley, Miss Julia Ralph and Miss Helen Mar Wilcox.
