Plattsmouth No. 43 Nebraska No. 85

THE democrats have a most voracious appetite for pie.

THE suspicion grows daily that Taft is "playing up" those Southerners for the benefit of 1912.

BREK POSSUM bids fair to be to the Taft administration what the Teddy bear was to the Roosevelt regime.

Now that the citizens are demanding things by petition, it is probable that the council will sit up and take notice.

AN EXCHANGE remarks that the steel makers look as angrily at Andrew Carnegie as if he had turned state's evidence.

It is hard to keep one's attention fixed on tariff revision when so many more entertaining things are happening at Washington.

WHO knew anything about Indiana being a brewery state? The claim is being made that the brewers defeated John W. Kern for the senate.

HON. JOHN W. KERN, the Big Four railroad's candidate for the Uptied State senator in Indiana, was defeated by B. F. Shively, the brewers' candidate. Kern is sore.

PURE air for the street cars seems to be the crying need at Chicago. According to the Havelock Times the Lincoln Traction company is strictly up to date in this respect.

THE Eagle Beacon remarks that not since Lot hiked out of Sodom has there been such a disparity between the wicked and the righteous as that alleged to exist among Pittsburg councilmen.

FOR the year ending October 31, the number of aliens leaving this country was 701,839, while the immigration to the country was only 655,263 persons. A very large percent of the aliens, who left the country, was Greek and Italian laborers.

IN ORDER to pay the faithful the democratic legislature has found it necessary to "create" a few more places on the pay roll. And they have squandered several hundred dollars of the people's money by dating back to the opening of the session the time of the employment of the new employes. "The people must rule."

"COL." BATES used to complain a great deal about republicans, when elected to office, securing positions for members of their own families; but now it is "Hon." M. A. Bates, long coat, silk hat, and gold headed cane, etc., he looks out for his daughter, Lucile, and many other worthy democratic girls are left at home, with absolutely no help whatever from the "Honorable."

LAST Friday J. B. F. Rinehart, former cashier and vice president of the Farmers' and Drivers' National bank of Waynesburg, Pa., which institution failed over two years ago for \$2,000,000, was found guilty at noon today of wrecking the bank and was immediately sentenced to serve fifteen years in the penitentiary by United States Judge James S. Young. He was immediately taken to penitentiary.

DO NOT overlook the fact that Plattsmouth must have an adequate system of street lighting. The cost should be a secondary consideration. Fifteen hundred, or nineteen hundred, or even twenty-five hundred dollars is a small sum when compared with what the city has been losing annually by the dark town policy which has obtained for so long. Give us the lights and we will attend to the rates later.

JEFFERSON VS. BRYAN.

Thomas Jefferson, in his first annual message to congress delivered December 8, 1801, on the question of government ownership, said, "Agriculture, manufactures, commerce, and navigation, the four pillars of our prosperity, are then most thriving when left most free to individual enterprise."

Senator Albert J. Beveridge in an address at Chicago, September 22, 1906, on this question, said, "The people's government should do no business that the people can do better themselves; the people's government should own no business that the people can better own themselves."

William J. Bryan, the quadrennial candidate for president, in an address at New York, August 30, 1906, on this question said, "I have already reached the conclusion that railroads partake so much of the nature of a monopoly that they must ultimately become public property and be managed by public officials."

To the unprejudiced mind which really sounds the more Jeffersonian, the speech of Beveridge or Bryan.

SHALLENBERGER NAMES SUPREME JUDGES.

Saturday afternoon Gov. Shallenberger named Judge J. J. Sullivan, and Judge Jesse L. Root, for three years each; and Judge Jacob Fawcett and Judge Silas A. Holcomb, for one year each. Judges Root and Fawcett were appointed by Governor Sheldon. A suit in quo warrant will be commenced in the name of Judge Silas A. Holcomb, and the supreme court composed of the three judges regularly elected will be asked to determine whether the Sheldon or Shallenberger appointees will be permitted to draw the salaries. If the act of the legislature authorizing the State canvassing board to canvass the votes on the Constitutional Amendments is valid, then Governor Shallenberger's proclamations, on the Ransom canvass, and his appointments will stand in history a political buncombe.

BAMBOO FOR PAPER MAKING.

The work of the United States Government toward determining the amount of paper materials used and the source of future supply is being followed by the Japanese, according to an advice from U. S. Consul John H. Snodgrass at Kobe. The imminence of the danger is apparent from the fact that the Japanese authorities have requested the paper mills department of the Mitsu Bishi Kaisha to take over some 7,500 acres of the bamboo forests of Formosa.

It is known that the bamboo tree has been the raw material from which the Japanese have recently made the larger portion of their paper products; so it is thought that by introducing the improved methods of forest cultivation and harvesting, this tract of woods will furnish yearly 10,000,000 bamboos,

adapted for conversion into paper pulp.

No matter whether the paper company will establish its mills in Formosa or ship the bamboo to Japan in a partly finished state, the development of this new source of raw material will be of high importance and may overcome the necessity of the Island Empire looking to foreign countries for the future supply of paper pulp.

What Others Say

CONGRESSMAN POLLARD'S FORESTRY BILL IN FAVOR.

Congressman Pollard has received endorsements for his forestry bill from the officers of the American forestry association and other organizations aiming to promote forest preservation and restoration. The bill was introduced last session, and Mr. Pollard, with the agricultural appropriations bill practically off his hands, is now turning his attention to the effort to get it reported, for which he believes he has a good chance. The bill applies to the forestry problem on the same principle as the meat inspection and pure food law. It proposes to exclude from transportation, in interstate commerce logs and lumber obtained from privately-owned lands, unless the owners of the lands agree to manage them under direction and in conformity to rules fixed by the forest service. That is, the forest service should designate what lands are to constitute reserves and be handled in this way. After that the cutting, replanting and general conduct of the lands should be under direction of the service, with the penalty of exclusion from the privileges of the interstate shipping if the regulations be violated. To meet the necessities of certain regions in the White mountains Mr. Pollard has amended the measure so that in case the regulations should practically deprive the land of all producing value during the lifetime of the present owner then the government should take it over at an appraised valuation.—Nebraska State Journal.

The Best Family Newspaper.

An ideal newspaper for the American home must be habitually clean and highminded, it must offer something of interest to every member of the family and it must present daily the news of the whole world in authentic and readable form. A large contract, you will say. Well, the newspaper that comes nearest to filling it in the west is The Chicago Record-Herald. Its moral tone is always high, its news service is unsurpassed, and probably no other paper in the United States has so brilliant an array of special features suited to the tastes and needs of every member of the family.

Business and professional men have long regarded The Record-Herald as the best paper for their own reading because of its unequalled faculty for getting all the news of the world and putting it into the briefest form for the busy man. They also esteem it for the reliability of its financial, agriculture and market reports. Young men perhaps find its greatest attraction in the excellent sporting department, which fills four entire pages on Sunday and a page or more on other days. Wives and mothers emphatically prefer The Record Herald on account of its well-conducted feminine departments—its daily receipts and menus, its daily fashion news and hints for the home dressmaker, Mme. Qui Vive's pungent and sensible beauty talks, Marion Harland's famous page and the rest of the good things that make up the handsome Woman's Section in the Sunday paper. Children enjoy the Little Nemo and other Comic Section pictures, with the bright stories for boys and girls every Sunday. And all the family together can enjoy the interesting travels and special articles of William E. Curtis, Mr. Kiser's humor and verse, the serial stories and many similar features outside the news columns.

The Chicago Record-Herald has every right to call itself the best all-round family newspaper in the west.

Be sure to see the premium display in the west window of the NEWS-HERALD office.

A leading educator, who recently visited the home offices of the schools, said: "I was surprised at their magnitude and system. I found that they were correcting the students work more carefully, and giving more attention to students individually than any college or resident school could possibly give." Going to school by mail has proven a great success.

A representative of the schools will be in constant attendance to give inquirers information concerning our SALARY RAISING EDUCATION. Remember the dates and be sure to come and see it.
