

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me, I grew stronger, and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will return your letters strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

When your Watch Stops
You cannot make it go by shaking it. When the hands are stopped you can disturb them with cathartics but, like the watch, they will not be able to do their allotted work until they are put into proper condition to do it.

One cannot mend a delicate piece of mechanism by violent methods, and no machine made by man is as fine as the human body.

The use of pills, salts, castor-oil and strong cathartic medicines is the violent method. The use of the herb tonic laxative, **Lane's Family Medicine** is the method adopted by intelligent people.

Headache, backache, indigestion, constipation, skin diseases—all are benefited immediately by the use of this medicine.

Druggists sell it at 25c. and 50c.

Western Canada the Pennant Winner

"The Last Best West"

The government of Canada now gives to every actual settler 160 acres of wheat-growing land free and an additional 160 acres at \$3.00 an acre. The 300,000 contented American settlers making their homes in Western Canada is the best evidence of the superiority of that country. They are becoming rich, growing from 25 to 50 bushels wheat to the acre; 60 to 110 bushels oats and 45 to 60 bushels barley, besides having splendid herds of cattle raised on the prairie grass. Dairying is an important industry.

The crop of 1908 will keep Western Canada in the lead. The world will soon look to it as its food-producer.

"The thing which most impressed me was the magnitude of the country that is available for agricultural purposes."—National Industrial Correspondence, U.S.

Low railway rates, good schools and churches, markets convenient, prices the highest, climate perfect.

Land is for sale by Railway and Land Companies. Descriptive pamphlets and maps sent free. For railway rates and other information apply to Superintendent of Immigration, Ottawa, Canada, or the authorized Canadian Government Agent.

W. V. BENNETT,
801 New York Life Building, Omaha, Nebraska.

SEED BARLEY 60c. a bu.

Largest growers of seed barley, oats, wheat, speltz, corn, potatoes, grasses, clovers and farm seeds in the world. Big catalog free. Seed 100 in stamps and receive quantity of barley yielding 173 bushels per acre. Billion Dollar Grass, Oats, Speltz, etc., etc., easily worth \$10.00 to get a start with. Or send 40c and we will send a sample farm seed mixture never seen by you before.

THE NEWS IN BRIEF.

Fire destroyed most of the small towns of Portal and Keomuk, N. D., August Belmont, the New York financier, was operated on for appendicitis.

Benoit-Constant Cognelin, the famous French actor, died at Pont-Aux-Dames.

Malcolm R. Patterson was inaugurated for his second term as governor of Tennessee.

Five persons lost their lives in a fire that destroyed the Southern hotel, Fort Worth, Tex.

The Right Hon. John Sinclair, who has been secretary for Scotland since 1905, has been raised to the peerage.

Mrs. Zack Odum, white, was found murdered in Sioux City, Ia., and the police are looking for her colored husband.

George Fitzmaurice shot and instantly killed his sweetheart, Miss Gusta Nelson, and then killed himself at Mohall, N. D.

Peter Wambold shot himself dead in a telephone booth in a Brooklyn drug store after calling up his wife and instructing her to listen for the shot.

George Frankhauser was found guilty at Helena, Mont., of robbing a Great Northern train, extracting \$10,000 from the registered mails and placing the lives of the custodians in jeopardy.

T. J. Drummond, retiring president of the Montreal Board of Trade, in his annual address declared that Canada had nothing to gain and everything to lose by a reciprocity agreement with the United States.

George Codman, a lawyer of Philadelphia, was indicted by the grand jury on a charge of criminal libel on John B. Parsons, president of the Philadelphia Rapid Transit Company; Peter A. B. Widener and George L. Widener.

The New York senate adopted a resolution expressing admiration for the heroic services rendered by the Marconi operator on board the steamship Republic during the collision with the Florida, and by the officers and crews of the colliding steamships, the steamer Baltic, the revenue cutter Gresham and the derelict destroyer Seneca.

RUDDOWITZ SAVED BY ROOT.

Russia's Request for His Extradition Is Refused.

Washington, Jan. 26.—Christian Rudowitz, whose extradition on charges of murder, arson and other crimes was demanded by the Russian government, and involving counter-contents that the offenses were in furtherance of a political movement, will not be extradited. This decision was announced yesterday by Secretary of State Root.

In effect the extradition of Rudowitz was refused because the offense charged comes under the general prohibition against extradition in the treaty with Russia, which declares that if it be made to appear that extradition is sought with the view to try or punish for an offense of a political character, surrender shall not take place.

WEDS A RUSSIAN PRINCE.

Wisconsin Girl Becomes Princess Gargarin in Canton, China.

Washington, Jan. 28.—Word has been received at the consular bureau of the state department from the American consul in Canton, China, that Miss Georgia L. Jeffrey, originally of Juneau, Wis., who recently left this city, where she was a clerk in the treasury department, to accept a government position in the Philippines, was married in Canton several weeks ago to Prince Alfred Ahrenheim Gargarin of Russia, whom she met while en route from San Francisco. She has a married sister in this city.

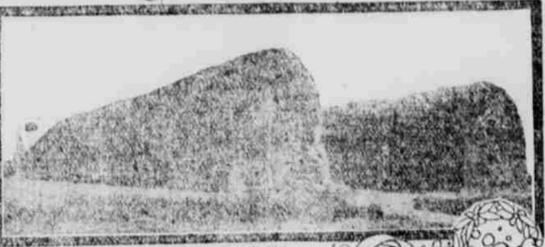

Train Kills Two Little Girls.

Memphis, Mo., Jan. 28.—A freight train struck and killed the two little daughters of David Flick at Arthella, Mo., in this county yesterday.

KING OF FORAGE CROPS

STACKING ALFALFA IN THE WEST

BALING ALFALFA IN THE WEST

MAP SHOWING THE DISTRIBUTION OF ALFALFA IN 1899. NUMERALS INDICATE ACREAGE IN EACH STATE

Alfalfa has probably more than doubled since the last census was taken. Its rapid extension in parts of the west is indicated by the fact that in Kansas the assessors' reports in 1891, when alfalfa was first listed separately, showed 34,384 acres, while in 1897 743,050 acres were reported. In the arid sections on the areas which have been brought under cultivation in the past ten years alfalfa has been extensively planted.

One of the most important characteristics of alfalfa is its long taproot, often extending 15 or more feet into the soil. This enables the plant to reach stores of plant food in the soil which cannot be secured by the ordinary shallow-rooted field crops. This long taproot is also of great importance in sections of limited rainfall, as by this means the plant is enabled to withstand extremes of drought which would otherwise be fatal.

The wide distribution of alfalfa throughout the world indicates a remarkable adaptability to various climates and conditions. So far as climate is concerned alfalfa can be grown in every state in the union. It is, however, very exacting in the humid sections as to soil and treatment. It is grown below the sea level in southern California and at altitudes exceeding 8,000 feet in Colorado. Under proper irrigation it yields abundant crops in the deserts of Arizona, which are among the hottest in the world. The hardy strains are able to withstand the severe winters of the north central states. It is raised without irrigation in semi-arid sections where the rainfall is only 14 inches a year, and also in the gulf states where the annual rainfall may amount to 65 inches. A rainfall of 36 inches a year is ample for this crop, and an amount in excess of this is usually a detriment. In moist climates the soil is frequently sour, and the clay soils especially are apt to be too poorly drained. In such a climate weeds and fungous diseases prove much more injurious than under less humid conditions. Although the adaptability of alfalfa is great, yet in the areas not perfectly suited to its successful production care is necessary to provide the very favorable conditions required by the young plants in order to overcome the natural drawbacks.

Old Roman Oil Jar.
An interesting discovery has been made near La Patie Montalieu, the ancient Mons Seleucus. It is a Roman oil jar measuring just 13 feet in circumference, and hooped with iron. Nearby were found some stelae, and Abbe Guillaume, the department archivist, is engaged in deciphering the Latin inscriptions. The jar has been placed in the museum at Gap to enrich the fine collection of Roman antiquities housed there.

Great Men Unhappy.
Sheridan, idol of his day, had for his last words: "I am absolutely undone." "Take me back to my room," sighed Sir Walter Scott; "there is no rest for me but the grave." Charles Lamb said: "I walk up and down thinking I am happy, but feeling I am not." Edmund Burke said he would not give a peck of refuse wheat for all the fame in the world.

Ancient Steel Superior.
Sheffield turns out the finest, hardest and most perfect steel the world produces; but even Sheffield can not turn out a sword blade to compare with those the Saracens made and used hundreds of years ago, despite the fact that the Saracens never possessed such machinery as ours nor had the advantage of modern knowledge of the metals.

Women Educators Honored.
One of the three memorial windows unveiled the other day at Plymouth church, Brooklyn, showed a group of four distinguished American women, Mrs. Harriet Beecher Stowe, Mary Lyon, Emma Willard and Catherine Esther Beecher, described as the four great educators of American womanhood.

EVERYTHING WAS FAVORABLE

SORRY HE DIDN'T MOVE TO WESTERN CANADA BEFORE.

Mr. Austin was a man who had never had any previous experience in farming, but Western Canada had allurements, and he profited. He got a low-rate certificate from a Canadian Government agent, and then moved. What he says is interesting:

"Ranfurly, Alberta, May 10th.
"J. N. Grieve, Esq., Spokane, Washington.—Dear Sir: After a dozen or more years of unsuccessful effort in the mercantile business in Western Washington, in August, 1903, decided to come to Alberta with a gentleman who was shipping two cars live stock to Edmonton. I assisted this man with the stock over one hundred miles out in the Birch Lake Country, East of Edmonton. Indeed, how surprised, how favorably everything compared with my dream of what I wanted to see in a new country.

"Had never had any experience in farming, but I was immediately converted into a farmer. And from that moment I have prospered. Selecting a homestead near Birch Lake, I returned for wife and three small children and freighted out from Edmonton in March following year we shoveled a spot clear of snow and pitched our tent and commenced operations, at that time we had no neighbors. Four years have passed, the locality is well settled, two miles from railway station, with churches and schools, telephone and good road accommodations.

"We are enjoying the privileges granted to any rural district in Washington. The Birch Lake Country is no exception, this great transformation is rapidly going on in every district in Western Canada.

"I estimate that every quarter section in every direction is capable of producing a comfortable living for a family of ten forever. After paying for two horses and a cow, had just \$10.00 to go on. Did my first ploughing in my life. I was very awkward in my work, but nature was glad and I was abundantly paid for my efforts. Our cattle has increased to about fifty head, which was very profitable on account of the abundance of forage. To farm was compelled to buy about four hundred dollars' worth of farm machinery on time, and the payments fell due last fall, and you may wonder how I expected to pay for them when we had such a bad year. 'Twas a little bad for Western Canada or for a Missourian. But is not 35 or 40 bushels oats a pretty good yield per acre in many States? Then the price of grain went out of sight, so when I had sold my crop I found I was able to make my payments nicely, besides we had lots of feed. No one has any business raising cattle without growing grain, or vice versa. As to the winters, did not feed my cattle, excepting the calves, a fork of hay until in March. Have found the winters much more pleasant than we did in Western Washington. This is strange and hard to explain, but 'tis true, nevertheless, at 40 degrees below zero we have more comfort than you would at 20 degrees above, so still and dry—with bright, sunny days. My wife says that the only regret she has is that we did not come here ten years ago, as we would now certainly have been in a position to retire from hard work. Most women soon become satisfied as neighbors begin to come round them. Have 98 acres in crop this year, besides two acres potatoes, which have always brought me a fair price. We find a ready market for everything we produce. To the Poor Man—Here is a chance to establish yourself. To the Rich Man—Here is a chance to buy land for \$10.00 to \$15.00 per acre which will produce more crops than a half dozen acres of your \$50.00 to \$75.00 per acre land. And if not very much mistaken, this year will prove an eye opener to those who are a little sceptical. The trouble with me is that I have so much to say so favorable to Alberta 'tis hard to be brief. Respectfully,

(Signed) "P. S. AUSTIN."

Anger Shrinks Vitality.
Dr. Maurice de Fleury, a distinguished Frenchman, advances the theory that every time one becomes angry his vitality shrinks. After even the most artfully suppressed signs of bad temper the vitality becomes smaller and smaller, until finally nothing is left. Anger is a certain kind of cerebral excitement, explains Dr. de Fleury. The hypersthenic subject is always on its verge, while the neurasthenic becomes infuriated only by a sudden bound of reaction excited from without. But at that moment when they are let loose the two are alike, brute, while the weak man is somewhat of an actor and seems to aim at effect.

For the Public Taste.
The following makes a very popular dish, the usual name given it being "funny paper." Take three mothers-in-law, two Irishmen, one German one or two tough kids and a coon; mix and stir well. A jag is considered to add flavor. Sprinkle in a little spice and ginger, and garnish with drawings. The addition of a pinch of hardnose is advisable, though not essential. Chestnuts are used for stuffing, though poaching is not uncommon.—The Bellman.

Where There's a Will—
Helen's mother passed her the cake, and when the little one went to reach across the plate for the largest piece her mother said: "Always take the piece nearest to you, dear."

"Well, then, turn the plate around," was the answer.—Delineator.

Syrup of Figs and Elixir of Senna

acts gently yet promptly on the bowels; cleanses the system effectually; assists one in overcoming habitual constipation permanently.

To get its beneficial effects always buy the genuine.

A new Halloween game, in which a peach is used instead of an apple.

Delicate Scientific Instruments.
The human heat sense can not realize a difference of temperature beyond one-fifth of a degree; but the thermometer, an instrument 200,000 times as sensitive as the skin, notes a difference of a millionth of a degree. A galvanometer flexes its finger at a current generated by simply deforming a drop of mercury so as to press it out of a spherical shape into that of an egg.

SPOON'S DISTEMPER CURE will cure any possible case of DISTEMPER, PINK EYE, and the like among horses of all ages, and prevents all others in the same stable from having the disease. Also cures chicken cholera, and dog distemper. Any good druggist can supply you, or send to Messrs. Dr. Williams' Pink Pills for Pale People, 200 N. 3rd St., Philadelphia, Pa. Agents wanted. Free book, Spain Medical Co., Spec. Contagious Diseases, Goshen, Ind.

Wouldn't Take Him Seriously.
He—But I need you in order to be happy.
She—I couldn't think of marrying a needy person.

ONLY ONE "BROMO QUININE"
That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. Sold.

A woman no sooner forgives an injury than she proceeds to forget about having forgiven it.

Lewis' Single Binder—the famous straight leg cigar, always best quality. Your dealer or Lewis' Factory, Peoria, Ill.

And the pretty girl usually has plain sailing.

"A LITTLE Cold is a Dangerous Thing"
and often leads to hasty disease and death when neglected. There are many ways to treat a cold, but there is only one right way—use the right remedy.
