

Indigestion Ends Soon

Misery From Your Disordered Stomach Goes in 5 Minutes.

You can eat anything your stomach craves without fear of a case of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach if you will occasionally take a little Diapiesin after eating.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach), Bloating, Heartburn, Water brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapiesin really does all the work of a healthy stomach. It digests your meals when your stomach can't. Each triangle will digest all the food you can eat and leave nothing to ferment or sour.

Get a large 50-cent case of Pape's Diapiesin from your druggist and start taking today and by tomorrow you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Old Reliable Quaker Oats

It is interesting to note, therefore, that the old reliable Quaker Oats is one of the few breakfast foods that has retained its popularity since its introduction years ago. The NEWS-HERALD has just closed a contract for the advertising of this article which may be found in another place in this paper.

Anton Bajcek came in the latter part of the week from Denver and will make an extended visit with home folks in this vicinity.

F. G. Fricke who met with an accident by falling through an open radiator in the floor is getting along as well as could be expected and it is thought that he will soon be able to be around again.
