

CALAMITY THAT DWARFS ALL.

Troubles of the Crown-Ups But Bubbles Beside Tragedy That Harrowed Boy's Soul.

People talk of calamities—the drop of a few points in some stock, the crash of a runaway horse, the bursting of a water pipe, the cook leaving just as the company arrives, a fellow getting mad and trading at another store, an editor writing the word "damn," the loving helpmeet running into a dash of rain while out in her richest plumage, the lawyer losing a plain case which he took on a contingent fee—we say people talk of calamities like these, and they fall back into unspeakable anguish, but they are all the mere foibles of disappointment compared with what we saw the other day, which was this: A small boy built a kite out of sticks and tissue paper, and it had a long graceful calliope tail, and he brought it forth to sail in a sunny breeze. What a realization of great hope was there when he held up that thing of beauty to catch the first palpitating beams of the morning? How his heart thumped with delight! Away goes the kite, borne on the sweet breath of the morning—up, up it goes, and now it sails and soars, as if it transfigured some happy dream—but look, lo, there is a flurry and a dart and down it dashes on a malignant tangle of telephone wires, and a boy's soul is harrowed with despair. That's what we call real calamity. All the others are bogus.—Ohio State Journal.

HIS LUCK.

"Why didn't you come around earlier? The snow is all melted away."
"Dat's just my luck, lady. Every time I feels like workin' de sun comes out and does me out of a job!"

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

The City of a Thousand Tongues.
"Why do you devote so much time to the study of the languages? Are you going to study abroad?"
"No, I want to be equipped to carry on an intelligent conversation with any one I may happen to meet in New York."—Washington Star.

THE NEWS IN BRIEF.

Assemblyman Ferdinand Wittig of the First district of Brown county died at his farm in New Denmark, Wis., from a stroke of apoplexy.

A thorough official investigation will be made of the reported lynching of William Wright, a negro and an American citizen, at Livingston, Guatemala, on December 15 last.

Col. John Hicks, American minister to Chile, has forwarded his resignation to the state department at Washington. It is understood that the resignation will be accepted.

Joseph Hynes, employed in a cheese factory near Cooperstown, Wis., met his death when he fell into a large tank filled with boiling water, the lid being sealed to death.

One hundred and eighty-four people were killed and 2,924 injured in train accidents during the three months ending December 31 last, according to an interstate commerce commission report.

Miss Aimee Tourgee, lecturer and author, daughter of the late Albion W. Tourgee, a well-known author, died in Pittsburg in a hospital where she had been ill for five weeks. She was 39 years old.

The business section of Cordell, Okla., was destroyed by fire. Mrs. James Caston, wife of a restaurant proprietor, was fatally injured by jumping from a second-story window. Loss, \$60,000.

Jules Cambon, the French ambassador to Germany, has been decorated by the emperor with the grand cross or the Order of the Red Eagle in connection with the conclusion of the Moroccan agreement.

Action to prevent the collection of taxes upon Creek Indian lands was instituted at Wewoka, Okla., by the Creek national attorney, M. L. Mott, and the result may affect Creek landholders to the extent of \$7,000,000.

At the western intercollegiate athletic meet in Lincoln, Neb., Chicago university was first with 1,263 points; Minnesota second, 1,088; Wisconsin third, 1,063; Nebraska fourth, 640, and Washington of St. Louis fifth, 282.

The steamer Guadeloupe arrived at Port Limon, Costa Rica, with Senora Castro, wife of the former president of Venezuela, on board. She did not land, but expressed her intention of proceeding to St. Nazaire to meet her husband.

The battleship Mississippi was finally accepted by the government. On her way up the Mississippi river to Natchez to receive the silver service presented by the state of that name the vessel will stop at various cities along the route.

Under the will of the late Charles E. Ellis, the millionaire street railway magnate of Philadelphia, who killed himself accidentally with a revolver on April 6, more than \$2,500,000 is given for the establishment of a home for fatherless girls.

The senate confirmed the nominations of Charles D. Hilles to be assistant secretary of the treasury; Aloysius I. McCormick to be United States attorney for the southern district of California, and Ira A. Abbott to be assistant justice of the supreme court of New Mexico.

The validity of Oklahoma's "Jim Crow" railroad regulations is left to the United States circuit of appeals by a petition filed in St. Louis by negro residents of Oklahoma. They appeared from the United States circuit court of Oklahoma, where the railroads' demurrer was sustained.

GAS BLAST KILLS MINERS.

Explosion at Warnock, O., Works Havoc Among Underground Tailers.

Wheeling, W. Va., Apr. 20.—Seven men were killed by a gas explosion in a coal mine in Warnock, O., 12 miles from here, yesterday. The mine had not been worked since Saturday, and the gas, which had accumulated in one of the rooms, ignited just as the men were starting to work. Nearly all were foreigners.

MADE CONSUL AT SINGAPORE.

J. T. DuBois of State Department is Promoted to Post at Straits Settlements.

Washington.—A change of particular interest to the residents of Washington will shortly be made at the department of state. It involves the transfer of James T. DuBois, the efficient law clerk of the department, to Singapore, Straits Settlements, as United States consul general and the appointment as law clerk of Charles F. Wilson, now clerk to the senate committee on rules. Mr. Wilson has been closely associated with Secretary Knox for several years.

Mr. DuBois' transfer is regarded by his friends as a well-merited promotion.

James T. DuBois.

The salary of law clerk of the state department is \$2,500 a year, while the salary of the consul general at Singapore is \$4,500.

Mr. DuBois has made a fine record in the government service. He was appointed United States commercial agent at Aix la Chapelle November 2, 1877, and three years later was promoted to the grade of United States consul and assigned to duty at Callao, Peru, but declined that position.

In November, 1882, he was appointed United States consul at Leipzig and served creditably at that post for three years, when he resigned to resume journalistic work in this country. In November, 1897, he returned to the consular service as United States consul general at St. Gall, Switzerland, where he remained until July, 1901, when he was summoned to Washington to assume the duties of law clerk of the state department.

Mr. DuBois was born in Hallstead, Pa., in 1850, and was educated at Ithaca academy and Cornell university. He has always been more or less identified with newspapers and magazines and is regarded as a writer of great ability. For five years he was editor of the old National Republican in this city.

CLOCK REVOLVES LIKE EARTH.

Wonderful Geographical Contrivance Gives Mean Time in Any Part of the World.

New York.—The Empire clock, which J. Hadden Overton of Woodstock has shown to King Edward, is an ingenious contrivance for giving practical instruction in geography and enabling the

Clock Which Tells Time in All Parts of the World.

student to ascertain at a glance the mean time in any part of the world.

At first glance this wonderful clock might be mistaken for one of the ordinary globes used in schools. Its principal novelty is an invisible clock, which performs with absolute accuracy and precision the duties ordinarily performed by the teacher in giving lessons on the earth's diurnal motion, latitude and longitude and geography generally.

Some of the points claimed for the Empire clock are that it gives the correct time all the world over; that it demonstrates the actual rotation of the earth on its axis in 24 hours, and shows at a glance the difference in time between all places on the earth's surface and the correct mean time at any town or place in either hemisphere. The motive power is a clock in the base of the stand upon which the globe is mounted, and the apparatus requires winding once a week.

GOING THE PACE.

Tortoise—What, have you started a motor car?
Snail—Yes, one must move with the times, you know.

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

Not Our Discovery.

The Greek, Eratosthenes, 250 B. C., taught the doctrine of the roundness of the earth, and the ideas of the sphere, its poles, axis, the equator, arctic and antarctic circles, equinoctial points and the solstices were quite generally entertained by the wise men of that time. There were plenty of men in Rome, therefore, who were prepared to talk about the earth as a sphere and to make globes illustrating their ideas.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CLEMENT & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

One Thing She Was Sure Of.

Grace—Really, mother, you seem cross this morning.
Mother (sternly)—How often have I told you not to let that young man kiss you?
Grace—I don't know, mother, but certainly not as often as he has kissed me.

Unlikely.

Whale—What are you going to tell your wife when you get home?
Jonah—I don't know; I don't suppose she will believe me if I should tell her that I had been to a fish dinner.—The Bohemian.

Asthmatics, Read This.

If you are afflicted with Asthma write me at once and learn of something for which you will be grateful the rest of your life. J. G. McBride, Stella, Neb.

The habit of viewing things cheerfully, and of thinking about life hopefully, may be made to grow up in us like any other habit.—Smiles.

Lewis' Single Binder straight 5c. Many smokers prefer them to the cigars. Your dealer or Lewis' Factory, Peoria, Ill.

It doesn't take much to satisfy most people who are self-satisfied.
