## Barber Your Lawn

A good, close clip will add greatly to its personal appearance, as well as prevent "dandruff" and "falling out." In other words, your lawn will do better if kept in shape by regular trimming with a good mower. We have them in several styles and prices from \$2.25 to \$15.

It is surprising to find how few parents know the great strength giving qualities of good oatmeal. Most of them think of it as a food for the sturdy Scotch or the brawny Englishman, and overlook its value as a food for children. Every now and then a mother will take to feeding her children on Quaker Oats and will be astonished at their improvement in strength and vigor. Of course, she tells her friends, and they prove it for themselves, but every mother in the country should see that her children are strong and vigorous. Plenty of Quaker Oats, eaten often, will do it.  
Put up in two sizes, the regular package and the large family size which is more convenient for those who do not live in town.  
Don't miss a day; eat Quaker Oats every morning for breakfast.

Though the writer had but a glimpse of the outfit it was enough to assure him that when all is in place this new drug firm will have one of the neatest and most handsomely appointed stores in the west. The different parts of the fixtures such as counters, shelving, prescription case, etc., are all made to match in golden oak and the boys are to be congratulated on the good taste they used in selecting the same.  
Messrs. Weyrich and Hadraba show genuine enterprise in this undertaking and as they have each shown splendid capacity for thorough business, we predict for them success in the fullest measure in their chosen line.
