## Makes a Firm Road

A dirt grade can be built with plow and road drag, but it takes time. This plan works well here in Iowa: Take a plow and turn a shallow furrow on each side of the wheel track. When you drag the road this dirt is moved to the center of the road. The next time plow a furrow on each side of the first furrows made, thus gradually widening the road. Don't try to move too much dirt at once. A drag does not do good work where there is a great deal of loose dirt.

Plow each time you drag until you have the road the width you want, then use the drag after every rain. Each time you drag go over the road several times and you will move lots of dirt to the center of the road. Persistent dragging will result in a good solid grade that will shed water and stand heavy hauling. I have in mind several that were almost impassable in wet weather which have been transformed by the drag into solid smooth roads.—Ward L. L. Martin, in Farmers' Mail and Breeze.

## Needful Knowledge

Plattsmouth People Should learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy Bright's Disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Plattsmouth proof:

Mrs. Claude Butler, 613 S. Tenth st. Plattsmouth, Neb., says: "Doan's Kidney Pills, procured from Gering & Co.'s drug store, have been used in my family and I can heartily endorse them as a splendid remedy for kidney disorders, especially in children's cases. I publicly recommended Doan's Kidney Pills in 1906 and as I still think highly of them, I have no hesitation in confirming that statement."

### Discharged from Custody.

Dean Kamm, who had his preliminary hearing before County Judge Beeson Tuesday was discharged from custody. A large number of witnesses were present to testify and the evidence was almost wholly circumstantial and not strong enough to hold the prisoner. One witness swore he had seen Kamm handling the pocket book which had held the money but that being the nearest to direct testimony Judge Beeson did not feel warranted in holding the young man for trial. Attorney T. J. Doyle of Lincoln, who had charge of the defendant's interests was well pleased at the outcome of the matter, while County Atty. Wm. A. Ramsey stated that the Kamms and others told different stories while he was investigating the matter at Alvo thus making it difficult to find just cause for conviction.

Sayles, Walter Hassenflow and Earl Kline. The crowd was further increased at Cullom by the following passengers, W. H. Seybert, Mrs. Andy Seybert, Chas. Reichart and Miss Olga Keil. The ladies of the Cedar Creek D. of H. lodge and many of their friends were entertained with genuine country hospitality by Mrs. Will Seybert at her farm home near Cullom today. The guests began to arrive early, some driving, while those from Cedar Creek and Plattsmouth went by rail, and the merry making was in full swing when the hostess uncovered a neat surprise consisting of a large amount of gooseberries which were doled out to the company for stemming. All worked with a will and were progressing with great fun in the gooseberry game when the hostess informed them they were entitled to some lunch on account of their industriousness and were invited to the dining room where the large table was loaded down with the choicest foods and delicacies of the season. ## By This Sign Ye Shall Know Them

All progressive threshermen know what this sign stands for. It stands for the best there is in threshing machinery. CASE threshing machinery has stood the test of years, it is the result of the best scientific skill obtainable. No improvement is added to a CASE machine but what has been thoroughly tried at the factory. We do not experiment at the expense of our customers, hence the testing at the factory. The CASE steel separators are weather-proof, water-proof fire-proof. They are money makers. A 54-inch Steel Separator and 15 h. p. engine would cost about \$2,000. See me about catalogues.
