The rain put a damper on the carnival all through the week, but the help it will be for all plowing and in living up the pastures will be of more assistance and value than the continued dry spell and a successful carnival would have been.

Mr. Inhelder is getting pretty well along in years but he takes a keen interest in everything pertaining to the welfare of Cass county, and he enjoyed the "pioneer day" immensely.

This is Sure And Certain

The Proof That Plattsmouth People Cannot Deny

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills cure permanently.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

J. B. Patridge, 8th st., Plattsmouth, Nebr., says: "I suffered almost constantly from pains across my loins and kidneys and at times I was in a bad way. On several occasions I was so badly crippled that I could only get about with the aid of two canes. The first box of Doan's Kidney Pills, procured from Gering & Co's. drug store, helped me so greatly that I continued taking the remedy and it brought me entire relief. It would be impossible for me to speak too highly of Doan's Kidney Pills."

The above statement was given in June 1906 and on Dec. 29, 1908, Mr. Patridge said: "I still endorse Doan's Kidney Pills highly. I willingly renew the statement I gave over two years ago in their favor."

For sale by all dealers. Price 50 cents. Foster-Liburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. 35-4

The New Millinery Store

Kroehner Bros., the hardware men, created somewhat of a sensation the latter part of last week when they came out in the announcement that they were putting in a line of millinery. The west window of the store was curtained for a few days in order to give their "hat man" an opportunity to get his display in shape, and when the carnival opened up the "display" was uncovered to the gaze of the multitude. Their line of "millinery" consists of a fine of kitchen utensils such as pans, plates, kettles, etc., inverted and draped with other kitchen articles, and the result is bizarre to say the least, and attracted much attention on the part of the carnival visitors.

Attends Funeral.

Hon. M. A. Bates went to Grand City, Mo., last Friday to be in attendance at the funeral services of his nephew, Robert Kirk Bates which occurred yesterday. This was a most estimable young man and the sorrowing relatives have the sympathy of the community in their bereavement.

Later advices are to the effect that his death was caused from typhoid fever, though he did not give up his work in Grand Island and go to his home in Lexington until Saturday night preceding his death on Wednesday.

Cost of Primary \$940.00.

S. L. Furlong of Rock Bluffs made his customary visit to the city Saturday and made this office a pleasant call. Mr. Furlong was one of the earliest settlers of Cass county, and he has a rich fund of anecdote in connection with his residence in "the far west" to which it is a pleasure to listen. According to his computation the recent primary election cost Cass county the sum of \$940.99.

Recovery is Satisfactory.

C. L. Graves of Union was taking in the carnival sights last week. His many friends will be glad to note that his broken ankle is rapidly healing and that it will now be but a short time until he will be able to get about with his usual agility.

Simplicity In Every Detail

You will find in CASE machinery that simplicity, efficiency and durability have been the guiding stars in their construction. By rejecting always the complicated for the simple has resulted in the building of an engine that is remarkable for its extreme simplicity and correct scientific construction—its ease of operation—its low fuel consumption and its adaptability to all uses.

You will also find that in the CASE steel separator you have a separator that threshes all the grain—leaves it in perfect condition—thoroughly cleaned and ready for the market, giving the grain grower a positive knowledge that when his grain has been threshed by a CASE separator he has received his entire crop unbroken, and in the best possible condition. And this is a good business, it offers great opportunities, needs but a comparatively small capital, is easily conducted and pays a handsome percentage on the investment. See or write me for particulars.
