

## A Potent Power in Industrial World

bring the business men of the city into closer relations in a social way as well as otherwise.

Another important matter was the appointment of a committee consisting of Bert Pollock, Phil Thierolf and R. B. Windham to take up with the county commissioners and the city council the matter of putting in good repair what is known as the ferry road. It was pointed out that the commissioners now have on hand what is known as the "commissioners' district fund" a sum of between \$600 and \$700 which is available for use by the city or by the county, and it is believed that the two bodies may be brought together and the amount or a portion of it used for this purpose, greatly to the benefit of the city.

Addresses were made by a number of the members touching some of the proposed work of the organization, the general tone of all indicating a determination to go after all in sight in the way of new and improved industries for Plattsmouth. At the close of the session Secretary Wescott introduced Mr. P. A. Barrows, the new editor and manager of the Daily News, who in a few well chosen words expressed his pleasure in identifying himself with an organization of this character and congratulated the club upon the business already accomplished. The next regular meeting will occur on November 16.

Miss Foster was in town hot foot Tuesday. She heard that principal Collins had said that she was an infidel, but he denied the charge, and said he did not know such to be a fact. So another campaign yarn is nailed and peace reigns between the principal of the Nehawka schools and the county superintendent.

Copies of the Maldins Register have been received here. It is O'Days new venture out in Washington. It reads just like Jeff and there is no getting away from the personality behind it. The advertising patronage is good, and we are hoping our old friend has struck it lucky. He says he "will fight anything that is not right whether it is democrat, republican, or Methodist."
