

Down Go Prices

December 15 We Close Our Store and The Goods Must Go

Commencing today and continuing until December 15th, there will be something doing all the time in the hardware business in Plattsmouth. It is our intention to discontinue business at this place and remove to Dakota, and it is not our desire to take a dollar's worth of our big stock with us. In order to close it out completely we have slashed prices right and left as you will readily see by looking over a few of the quotations we present below. Remember that

This Sale Will Continue Only 30 Days.

Then all goods remaining unsold will be packed up and shipped. Run your eye over these prices and then get busy. It is your time to buy what you want at prices never before offered:

Paint, was \$1.65, now per gallon	\$1.35
Paint, was \$1.60, now per gallon	1.25
Paint brushes, were \$1.40, now	90

This is a Cash Sale.

Owing to the fact that we are going out of business, we cannot give credit. We want our friends to take advantage of the big bargains offered. We have quoted but a few articles. We would suggest that you call at our store and select what you want and we will give you prices that will astonish you for their cheapness. Every article in the big stock has been marked down to prices that should peal to you.

Do You Want a Furnace?

We have four of the very best made which will be sold almost at your own price. The furnaces are absolutely guaranteed and are fuel savers.

Farmers, a Chance For You.

to buy wire fencing and anything else you may need on the farm. Come in and look us over and you will find that the trip has made you big money.

Closing Out Sale a Huge Proposition

M. Fanger, the Department Store Man is Up
Against the Real thing.

STOCK IS OFFERED AT
RIDICULOUSLY LOW PRICES

A Daily News Representative is Called in to
Give an Unbiased Report of What is
Being Offered the Public.

Staturday morning Mr. M. Fanger called into his store a Daily News representative and told him that he wanted him to go through his big Department store, look the goods all over thoroughly, compare the prices now being offered at this great closing out sale and tell the public just what he found. "Make an honest investigation and then go and tell the public what you have discovered," said Mr. Fanger. "I want the public to get a correct idea of what I am offering, from a man unbiased in his judgment. Now go ahead and pay no attention to anyone."

Following out the instructions of Mr. Fanger the News man submits his report:

He found first a stock of merchandise large in quantity, choice in selection and remarkable for its variety and completeness. He found goods that are usually found only in the large mercantile emporiums of the big cities. He found goods placed on sale and marked down to prices that could not be duplicated by the largest stores in Chicago and these goods are not the cheap, shoddy stuff usually found at sales, but goods with values plainly apparent to a novice. He found clothing of the very latest styles that were marked to prices, we honestly believe far below what they cost to make them and a big stock of such goods. He found over 300 of the very latest conceptions in ladies Wooltex cloaks, coats and skirts which it seems a shame to sell at such low prices. They are simply beautiful. He found

what must represent more than \$3,000 worth of the most magnificent plumes and hundreds of dollars worth of dainty hat trimmings, which is unequalled in this city or in Omaha and they are going at the ruinous prices shown in other lines. He found furs of great value and richness, representing a pile of money, too big a stock in fact for any store in a town of this size to carry. They are being sacrificed as you will learn by asking any of the clerks and exercising your own judgment. He found the most complete stock of dry goods ever exposed at a sale such as is being conducted by Mr. Fanger and it seems a shame to see to what extent he has gone in his desire to close out his business. He found a stock of shoes that would be a credit to a large and exclusive shoe store. He found mens and womens furnishings, trunks, suit cases, umbrellas and a thousands and one articles too numerous to mention that are being fairly butchered in price. He found—but there is no use in continuing. He found that he was up against the hugest business proposition to which his attention was ever called and if the people of Plattsmouth do not load up with everything they may want at this sale, it will be because they would rather go to Omaha and pay more for the same goods, in preference to dealing with a merchant whose business integrity is unquestioned. In next Monday evening's Daily News will appear an announcement in which the prices are quoted to substantiate everything we have said.

John Ohm, daughter son-in-law and wife, Mr. and Mrs. Henry Wolf, and Mrs. Henry Nehls who have been visiting the former's brother Fre Ohm and other relatives, departed Thursday for their home in Oakharor, O., and were accompanied as far as Chicago by Mrs. Joe Warga and daughter.

Mrs. R. G. Terrell and Mrs. T. E. Boswell of Paducah, Ky., who attended the funeral services of their mother Mrs. Pickett at Lincoln arrived in this city Thursday to visit their brother, W. L. Pickett. Edward Weaver and family spent Saturday in Omaha.

A Land For New Homes

Do you realize the excellent chances of future benefits bound to accrue to you, if you make your new home in the Big Horn Basin of Wyoming?

You can homestead a Government Irrigated farm or buy one outright from private corporations, in either case on very easy terms, and your farm will be located in a scenic country of splendid climate, protected by grand mountain ranges with coal, high grade oil, natural gas, timber, stone and cement material, all around you. Add to this the fact that the Burlington's new Wyoming main line will traverse the heart of that country and you have not only a desirable place to live, an excellent market for your products, but an absolute certainty of greatly increased value to your lands. Does not the history of land values that has gone on under your own observation make this plain to you?

MONDELL 320 ACRE LANDS in Northwestern Wyoming are going fast. The Government land offices in that locality are having an unprecedented rush of work receiving filings from homesteaders coming from all parts of the country, who realize the value of these lands and the excellent character of that country for a home.

I personally conduct excursions on the first and third Tuesdays of each month to the Basin and to these lands. Write me freely.
