

DOINGS OF OUR NEIGHBORS

MYNARD.

If you can't be cheerful, be as cheerful as you can, until the mud dries up.

Wm. Stokes is loading his car for Alberta, Canada, where he expects to make his home in the future. We regret to lose so good a neighbor as Mr. and Mrs. Stokes, but our loss will be the gain of their neighbors in Canada. Success to them in their new Canadian home.

Wm. Fight is nicely settled in his home south of town. He attended W. J. Valley's horse sale in Plattsmouth last Saturday and bought several head of young colts.

Robert Propst attended the sale of horses in Plattsmouth on Saturday. Mr. Propst purchased the fine pair of horses known as the "Bob Hull team" they certainly are beauties.

Tom Ruby and family have moved on one of C. Bengen's farms south of town.

Mrs. Ed. Wiles is slowly recovering from a very severe attack of pneumonia fever.

Mrs. Robb visited in Wyoming on Sunday with his family.

Grandmother Jean has recovered from her fall and is able to walk without a cane.

Wm. Kinsley has finished his job of corn husking with R. L. Propst and gone to Missouri.

Mrs. J. A. Kiser of University Place is visiting with her son Guy.

About thirty families represented the farewell dinner given by the neighbors of Mr. and Mrs. Stokes. To say that a most enjoyable time was had is putting it very mild.

Mrs. and Mr. Propst visited their brother at Immanuel hospital over Sunday.

Months have passed since seeing as auto in Mynard, can you guess why.

WABASH

Mr. O. O. Thomas, banker at Wabash came down from Lincoln Thursday, returning on the 6:10.

The Farmers State Bank at Wabash is being roofed this week. Mr. Miller of Elmwood is doing the work assisted by George Johnson.

Mr. S. J. Service of Lincoln was Wabash Thursday and Friday. He is working in the interest of the Investment Company of Alberta, Canada.

Mr. Glen Copple, who has been attending school at the Academy at Weeping Water, is having a vacation this week.

Mr. Charles Hulfish, Mail Clerk, making his regular trips out from Lincoln, is home for a day to visit his parents, Mr. and Mrs. S. Hulfish.

O. H. Allen and I. Meovey drove a fine bunch of cattle through Wabash Friday which they had just recently purchased.

Mr. E. J. Wilson says that he will beat Barrett in the poultry business or know the reason why. Wilson has incubators, while Barrett has the real thing, Chickens.

Mr. Fred Lake was in Wabash early Sunday morning, to take the early train to Lincoln. He said that his nice driving team and buggy also the harness was stolen from the street in Murdock Saturday evening between 7 and 8 o'clock. He says they have tracked them south of Elmwood and west toward Lincoln.

Probably went over the same road Mr. Creamers team did a short time ago and driven by the same party.

Mr. John Creamer and wife took a drive in the country Sunday.

Mrs. L. R. Stanley and sister Nora Lorenson, took the 9:60 for Weeping Water, Sunday morning.

William Murfin who went to Canada a year ago and came back last fall to spend the winter has made up his mind to remain in Cass County this summer.

A. W. Barrett and Sons from Elmwood spent Saturday in Wabash.

WASHINGTON DOPE

For many weeks there has been in Washington a delegation of Omaha Indians from Thurston County, Nebraska, representing their tribe in matters pending here. They found friends from Nebraska to help them out at the Department and at the Capital. Assistant Commissioner of Indian Affairs Fred H. Abbott, formerly of Aurora, Nebraska, had the handling of practically all of the busi-

ness at the Department, and in the various bills pending before Congress, Senator Burkett and Brown were at the front for them. Senator Burkett has one important measure upon which he has been working for the Omahas for five years, while Senator Brown is a member of the Indian Affairs Committee, and hence has been able to do good service for them there. Senator Burkett spent many hours at the Department with the delegation also.

The visit of the Omahas has brought results that mark an epoch in their lives, giving nearly all of them final control over their property, and conferring upon them the prerogatives of full citizenship. To the Omahas it is a new page in history, just as significant to them as the granting of Magna Charta to the people it affected centuries ago, or the proclaiming of independence to the colonists of New England. While the Department is still to have some friendly oversight of those of the Tribe that specially need it, for the most part they are to be wards of the government no longer, and will take their place in affairs of private and public interest as citizens.

Before they left Washington, they saw the way cleared for the passage of their bill to grant jurisdiction to the Court of Claims over the claims the Omahas still have against the government. Heretofore the Department has ruled upon their claims, and the Omahas have had no high court to go to. Not satisfied with the awards under the treaties, they have long desired to submit the facts to a court, and the bill referred to, which Senator Burkett has been working on for five years, gives the Court of Claims this jurisdiction. Heretofore the Department has opposed it. However the Secretary of the Interior has finally recommended its passage; the Indian Affairs Committee has reported it favorably, and it seems sure to become a law before Congress adjourns.

DIAMOND DUST.

The Pittsburg-Chicago game of ball scheduled for May 5 at Pittsburg has been moved three days so that President Taft who is to be in the city on that date may see the game. The Chicago club is owned by Mr. Taft's brother.

Mrs. Edna Holmes has filed proceeding for divorce against William (Ducky) Holmes on the grounds of desertion and non-support.

George Davis, lately released by the Chicago Sox and one of the most popular players in base ball, has been signed to manage the Des Moines team in the Western League.

"Chick" Autry, former first baseman of the Omaha team has been sold by Brooklyn to the St. Paul club of the American Association.

The Chicago Cubs played their first game of the season last Sunday against New Orleans at the latter city and the Western League players who are now with the team were the whole show. Tony Smith, who was shortstop last season with Sioux City made three hits and had four assists with out an error and Davidson, fielder with Lincoln last year made a two-bagger with two men on bases bringing them both in. It looks as if there was little chance for either to get back to the West.

Despain & Stoner of the Lincoln club are fixing up their grounds at Antelope Park so that it will be the peach of the league. Increased grand stand seats, higher bleachers, a sodded field all over and a lot of other improvements which will go to make the Antelope playing lot a thing of beauty and a joy forever.

BLOWING BOTTLES.

Processes Through Which Even the Most Ordinary Must Go.

Although the oldest bottles known were made of skins, glass bottles containing wine are represented on Egyptian monuments which are more than 4,000 years old, while as early as Pharaoh of the Exodus there were bottles made of bronze, silver, gold, porcelain and alabaster, which from their superior workmanship and elegant design go to prove that even at that period the art of bottle making was by no means in its infancy. The early history of the bottle is somewhat meager, owing no doubt to the fact that the true bottle has never been a thing of much beauty, except in a few rare instances, but rather a humble vessel of no intrinsic value.

Bottles are made today in stupendous quantities and are of all sorts, sizes and descriptions. In the manufacture of a common bottle either sand, soap boiler's waste, brick clay or other materials, according to locality, are used. Having been run down into a molten mass, the metal is skimmed, and the first operator, known as the "gatherer," takes a little of the glass on the end of a heated pipe. When this has cooled somewhat he again dips his pipe into the glass, having "gathered" in the two dips sufficient to make a bottle. This he hands on to the "blower," who as he blows through the tube rolls the metal on a stone, thereby fashioning the bottle neck. The roughly shaped mass is then placed in a mold and the operator continues to blow until he has brought it to the required form. After this the bottle is handed to the finisher, who by touching the neck with a small bit of iron dipped in water completely severs it from the pipe. He attaches the pontee, an iron instrument tipped with molten glass, to the bottom of the bottle and thus gives it the usual rounded shape. This pontee may be used for from twenty to twenty-four dozen bottles. Then, warming the bottle at the furnace, the finisher takes a small quantity of the metal on what is known as a ring iron and, turning it around the mouth, forms the ring seen at the top of the neck. Taking the shears, he trims the neck. In the center of one blade of the shears is a piece of brass tapering like a cork, which forms the inner mouth, while the other blade has a piece of brass fastened to it, for the purpose of shaping the ring. A boy lifts the completed bottle on a fork, and it is taken to the annealing arch, which contains about ten or twelve gross of bottles placed in bins one above the other. These are the processes which even the cheapest and most ordinary bottle has to go through. So it can well be imagined what an infinitude of care and trouble is needed to produce a bottle of the finest grade.—London Globe.

A Lack of Language.

A lamentable gap in the English language and indeed in all languages has been discovered by a correspondent of the London Lancet. "Why," asks M. J. Williams, "is there no way of describing smells? You have not described or classified a smell when you have said that it is horrid, and you are just as wide of the mark when you have said another smell is lovely. Consider the parallel of the classification of colors. When you describe a sunset you need not merely say that it is beautiful. You can go further and say that it is red or yellow or purple, as the case may be. But supposing you have been face to face with musk for a few minutes and want to describe it to your friends. You will find that, outside the province of expletives, you are helpless."

The Origin of Numbers.

The use of visible signs to denote numbers can be traced to remote times, but our present decimal system in its complete form with the zero is of Indian or Hindoo origin. From the Hindoos it passed to the Arabians about 750 A. D. In Europe the complete system was devised from the Arabs in the twelfth century. The use of numerals in India can be traced back to the Mana Ghat inscriptions, supposed to date from the early part of the third century B. C. The earliest known example of a date written on the modern system is of 733 A. D.—Chicago Examiner.

A Large Part.

Thespis—What are you doing now?
Bluejowls—Acting a part I created in the new play that is now running in the Thunderbolt theater.
Thespis—What is the nature of your part?
Bluejowls (deep bass voice)—I am the mob that roars outside when the unmasked villain is being hunted down.—London Scraps.

AMERICAN ASSOCIATION BASEBALL SCHEDULE.

COLUMBUS.

At Toledo.—May 20, 21, 22, 23. July 5, 6, 7, 8. Sept. 22, 23, 24, 25.
At Indianapolis.—April 25, 26, 27, 28. July 9, 10, 11, 12. Sept. 3, 4, 5, 6.
At Louisville.—April 23, 24, May 1, 2, July 2, 3, 4. Sept. 5, 6, 7, 8, 9.
At Milwaukee.—May 12, 13, 14, 15. June 16, 17, 18, 19. Aug. 1, 2, 3, 4.
At Kansas City.—May 16, 17, 18, 19. June 20, 21, 22, 23. July 24, 25, 26, 27.
At Minneapolis.—May 8, 9, 10, 11. June 28, 29, 30. Aug. 8, 9, 10, 11.
At St. Paul.—May 4, 5, 6, 7. June 25, 26, 27. Aug. 6, 7, 8.

TOLEDO.

At Columbus.—April 21, 22, 23, 24. Aug. 12, 13, 14, 15. Sept. 14, 15, 16, 17.
At Indianapolis.—April 23, 24, 25, 26, 27. July 2, 3, 4. Sept. 18, 19, 20, 21.

MASUDA AFTER MORE HONORS

Japanese Student at Harvard Trying Hard to Make Baseball Team.

Not satisfied with having won honors in the gymnasium and in soccer football, Nobyo Masuda, a sophomore at Harvard, is among those selected from the untried candidates who have been practicing in the Harvard baseball

MASUDA, JAPANESE STUDENT AT HARVARD, WHO IS TRYING TO MAKE BASEBALL TEAM.

coach for the past few weeks for a thorough tryout with the varsity baseball squad.

Masuda, who is a Jap, has had experience in his prep school days as an outfielder, and he is also a regular on the varsity soccer team. His chances for making the outfield are good if he can hold his end up in the batting line. The Jap is five feet two inches tall and weighs 148 pounds.

German Swordsman After Americans.

Fritz Fiesch of Vienna, the champion swordsman of Austria and Germany, is in New York preparing to gain new laurels in this country. He says he is willing to meet any American fencer and will issue challenges shortly.

To All "Cough Worn" People

It's a shame to let that knife-like cough go on "murdering" you when you can stop it almost instantly with a little Dr. Bell's Pine-Tar-Honey.

It's so grateful to raw throats, so cool, so soothing, so refreshing and so healing that you forget all about ever having had a cough after a couple of teaspoonfuls.

It knocks out colds completely in a few hours.

It removes the cause of the cough and the cold—the germ laden mucus that stops the passages and irritates the throat. It does it naturally—no straining, or extra coughing. Dr. Bell's Pine-Tar-Honey leaves the

throat and the head as clear as a bell. It contains real old-fashioned honey tar and real honey and other ingredients of real benefit to coughs and colds—all plainly stated on the bottle. The standard for twenty years.

It is the largest selling cough and cold remedy in the world, because no other medicine or prescription ever does for a cold what this does.

You need Dr. Bell's Pine-Tar-Honey in the house all the time. Children love the taste of it and it can't hurt them. Get a bottle now for your cough and see how quickly you begin to feel good again. At all druggists in 25c, 50c and \$1 bottles.

Look for our trade mark (the bell) and Grammy Metcalf's picture on every bottle. Made by

E. E. SUTHERLAND MEDICINE COMPANY

Low Rate Tours

Spring and Summer 1910

See the far west with its diversified sections broadening under scientific cultivation; visit its incomparable cities with their environment of intensive land wealth. A Coast Tour is a broad education and the world's greatest rail journey.

\$60 Round trip, central Nebraska to California or Puget Sound, via direct routes, June 1st to September 30th.

\$50 Round trip on special dates each month from April to July, inclusive.

\$15 Higher one way through California, Portland and Seattle.

\$25 One way, eastern and central Nebraska to San Francisco, Los Angeles, San Diego, Portland, Tacoma, Seattle, Spokane, etc., May 1 to April 15.

Proportional rates from your town. Consult nearest ticket agent or write me freely asking for publications, assistance, etc., stating rather definitely your general plans.

W. L. PICKETT, Ticket Agent, Plattsmouth, Neb.
L. W. WAKELY, G. P. A., Omaha.

BIG CUE MATCH IN SIGHT.

Denver Will Back Eames Against De Oro For \$25,000.

If Alfred De Oro accepts the proposition made to him recently by Denver backers of Fred Eames, the new three cushion billiard champion, the Colorado metropolis will be the scene next spring of an angle game for the biggest stake ever contested for in an individual billiard match. The westerners say they will put up \$25,000 on Eames if De Oro will wager as much on himself in a special match of 150 points to be played in Denver.

After De Oro finishes his engagements on the coast he probably will visit Denver on his way east and consider this proposition seriously. He feels sure that he is the superior of the new champion at the angle game and is inclined to look upon the Denver proposition as easy money. De Oro expects to be in Denver when Hueston plays Eames next March, he has a challenge to meet the westerner.

The Discovery of Florida.

Juan Ponce de Leon, sailing from Porto Rico in search of new land, discovered Florida on March 27, 1512. He landed near St. Augustine, planted the cross and took possession in the name of the Spanish monarch. In 1763 a treaty ceding east and west Florida to Great Britain in exchange for Havana and the western part of Cuba was ratified. In 1781 part of Florida was ceded to Spain, and in 1783 Great Britain ceded east and west Florida to Spain. On Feb. 22, 1819, east and west Florida were ceded to the United States by treaty and purchase, Spain receiving \$5,000,000.

The Beggar's Stratagem.

For artistic methods the Parisian beggar is hard to beat. One man recently arrested was in the habit of wandering through the streets followed at a considerable distance by a Newfoundland dog. On seeing a bone or a crust in the gutter he would dart on it feverishly, and the dog would rush up and snatch it from him. A terrific struggle ensued, ending in the flight of the dog, bearing off the prize, while the man lay exhausted in the gutter. It is easy to imagine how kind hearted wayfarers after assisting him to rise would shower coins on a poor devil driven by poverty to fight so desperately for a meager crust.—London Chronicle.

Censoring the Mail.

"It is strange there is no mail for me," remarked Mrs. Instyle.

"Yes, dear, quite strange," acquiesced Mr. Instyle.

Then as she stepped into the other room he chuckled three fashion magazines, four patterns, a skirt catalogue, a cloak catalogue, a jewelry catalogue and a letter from the Royal Lady Tailors into the fire.

"Two hundred dollars saved!" he chuckled, and became so well pleased with himself that he set aside one-tenth the amount for cigars.—Judge's Library.

The Life Giving Touch of Sympathy.

A man may have become almost a demon, he may have resolved upon immortal hate and study of revenge, but let him once feel the life giving touch of sympathy and love, and the seed, long dormant, will spring up and bring forth its harvest in the field of life.—J. C. Sellers, Jr.
