DIAMOND DUST

Manager Fox of the Omaha team is expected to report today.

The players of the Lincoln team will commence to roll in the first of the week and then life will be worth living for the average capital city bug.

We are mighty glad to see that Pitcher McCafferty has joined the work-out bunch at the Antelope ball yard in Lincoln. It means a great deal for both the player and the club, for somehow we expect to see Mac make a record this year which will win him glory and games.

John Fink, the star shortstop of the Iowa City base ball club has been secured to manage the Seward team in the Nebraska state league. O. A. Belzer, a former state university player who has a good record as an amateur manager will manage the Grand Island team.

Omaha may lose Doc Keeley and Blaine Durbin, two of her best pitchers, according to the dope sent out by some of the papers from that town. Durbin wants to quit the game anyhow and sooner than be sent back to the minors he will quit the game. Mrs. Keeley does not want her husband to continue in the game and so there you are. What the outcome will be it is hard to determine, but here's hoping that it is not so.

The Mink league held a big session in Nebraska city last Thursday and having received the resignation of the Atchison, Kansas team elected Falls City and Auburn as members of the league. A big banquet was held and a big time indulged in.

The controversy between Hartford, Conn., in the New England League and Lincoln, Neb., over the possession of Paul Cobb, brother of Ty Cobb for

the season of 1910 has been decided by Secretary Farrell in favor of the Lincoln team. President O'Neill of the Western league, who saw Cobb work last season in the California league says that he shows all the elements of a great player which his brother displayed at his age. Anyhow nine home runs out of 27 hits while with the California club shows something of value.

Manager Despain of the Lincoln club has been offered the choice of three pitchers from the Chicago Cubs—Willis, Giest and Knapp—by President Murphy.

Base ball games yesterday:—
At Fort Worth—Cleveland 2nd team 7, Indianapolis 5.
Atlanta—Philadelphia 7, Atlanta 2.
Birmingham—Philadelphia 2nd 9, Birmingham 0.

Hot Springs—Brooklyn 1st 11, Second team 1.
Dallas—Detroit 2nd 3-13-0, Dallas 0-2-1.
Hot Springs—Boston Am. 2-7-2, Cincinnati Nat. 2-8-4.
Houston—St. Louis Am. 5-11-1, Houston 0-3-1.

The marriage occurred at the bride's home Wednesday evening and was witnessed by about fifty relatives and friends. The Rev. Wilhelm of Ithaca performed the ceremony. The young couple will begin house-keeping on their farm west of town. They have the best wishes of a host of friends for their future happiness and prosperity.

That may be a pretty strenuous life for Ed but he goes after it as if he meant to be editor some day.

GOOD COMEDY AT PARMELE.

**Lively Play Put on Last Night by
Grew Company.**

(From Friday's Daily)

A light little farce of the comedy nature, "Is Marriage a Failure?" was presented by the William Grew Company at the local theater last evening. Probably on account of the electric lighting trouble early in the evening, the company did not play to an overly crowded house, but the play on the whole was good and the theater goers seemed well pleased with the performance. The entire play was a badly mixed up and tangled condition of love affairs that brought out many comical circumstances. The first act of the short three act comedy was hardly more than the foundation for the two pleas-

ing, comical acts that followed.

One of the leading characters, Manuel Snyder, in the role of Benjamin Buttercorn, was a new man with the company, taking well with the audience in the capable handling of his part. Mr. Grew as Doubledot, and Miss Pettes, as Diana, played in their usual attractive and pleasant manner. The talented young lady, Miss Edna Sevier, as Josephine, could hardly have been surpassed in her presentation of Doubledot's affectionate wife number two. The minor part of the Swedish house maid, Amy Eliza, was a difficult one to impersonate and at times seemed a little over drawn.

The play is of French origin, and presents a promising young musician, Doubledot, falling in love and marrying a fair young lady who has a dear mother of the Batling Nelson type. After a few days of married life, with the mother in law as a body guard, and following an exciting encounter with the charming old lady, the young people agree to disagree and separate with the mother in law in a horrible flurry.

Two years later, Doubledot, again loses his heart, this time to the only daughter of an old widower, and the elderly gentleman, while away for his health, meets and marries Doubledot's former wife, whom he brings home, accompanied by her parasite mother. Oh, ye gods and little fishes! but the times that follow are strenuous and the circumstances are trying! The same separation stunt is again pulled off by the bull dog mother and her gifted daughter, after they have secured enough of the filthy lucre from the old gentleman to last them for the rest of their natural existence, and an old friend of the young lady's is roped in for the next performance. But here the curtain prevents the further routine of the affair, and there you are! and you find yourself asking "Is Marriage a Failure?"

The next week's appearance of the company will be the strong play, hardly to be judged by its title, "Way Out West."

SOME SORTS

Written by "Our Devil" with the mallet.

Weeping Water is on the boom; the Republican states that a new cement walk will be laid there this spring.

The editor of the Republican over at Weeping Water, a way station on a branch of the Missouri Pacific about five miles south of Manley, has an editorial in his last issue telling the people about this seed corn business. He says that Franklin B. Clores of Indiana, the corn specialist who has spent a lifetime in the study of this subject is nutty and that Mr. Clores advice to "test your seed corn" is about as sensible as editing a weekly journal at Weeping Water. Now boys, forget this foolish talk about poor seed corn, listen to Olive, he knows about as much about the growing of corn as a porcupine knows about the manufacture of Lydia Pinkham's compound and he could as easily raise corn as he could the price of the subscription to his weekly joke book. We expect that the next thing he will spring will be a bill before the house at Washington trying to reduce the tariff on button holes or promoting an electric light system over in his home town so that Steve Orton's lantern can get a well earned vacation.
