The democrats are going to be kept quite busy squaring themselves with themselves and others in this state from now until after the next election and will not have much time to devote to the troubles of their republican friends.

Some paper down east wants to know what we will do with Roosevelt-Teddy seems to be doing something with himself and it may be he would resent having "any ting done to him." We would hate to be the one to approach him on the subject.

Tobey and Hayward are getting their press agents broke into active work and as a result the papers of the district are being requested to print, free of charge, a whole lot of stuff in the interests of the two candidates. And some of the boys are doing it!

A special grand jury has been working diligently for some time to determine whether "white slavery" existed in that New York or not and the report has been given out that the city is not guilty. John D. Rockefeller, Jr., was foreman of the jury and owing to his financial prominence more than ordinary interest has attended the deliberations and investigations of the jury.

Leading into every little town in Cass county, with the exception of Plattsmouth, are good graded roads and that means that the other towns are willing to make a bid for the farmer trade even if Plattsmouth is too niggardly to do so. And the other towns are getting the trade. If the merchants of this city do not believe this we would suggest that they make a trip over the county and see for themselves.

Next Monday afternoon at 5:30, our time, at Reno, Nevada, one J. Jeffries and one J. Johnson will proceed to change one another's faces for the paltry sum of \$101,000 and in the presence of the governor of the state and a few others and less notables. Thousands of dollars are being wagered that the big smoke will not last more than a limited number of rounds and big odds are being wagered that Jeffries will pull down the long end of the purse. Perhaps. And then again, perhaps.

A New York paper says: It looks as if the Wells-Fargo stockholders have been able to "eat their cake and have it, too." After increasing the capital stock 200 percent and declaring a 500 per cent cash dividend some time ago, a quarterly dividend has now been declared on the increased amount of stock at the same rate as prevailed before the increase took place. This is the real argument against a parcels post, and yet the consumer remains ungrateful.

The Plattsmouth Daily News is no more. Like the flowers in May it sprang up and flourished while the dew was yet wet on the grass, but when the hot sun of mid-day threw its hot rays upon its drooping head it withered away. Plattsmouth has two daily papers, or rather had until the News discontinued last Saturday. There is no room for one. Very foolishly a few years ago there was a newspaper war with the result that the advertising rates were cut to a point where they do not pay the cost of composition, consequently in the case of the News it became decomposition. The management will put in all its efforts now to make its semi-weekly edition a thing of beauty and a joy forever, and it is to be hoped that the people over there will lend their assistance in the matter. Hon. E. M. Pollard, who owns the paper, has been putting

money into the publication for some time in an effort to give the republicans of Cass county a live republican paper. Some of them appreciated it and some did not. The last movement which was made by the owner by the advice of the editor, Mr. Quinn, ought to have been made long ago. We trust that now the paper will thrive and prosper. The boys have put in some hard work to make the daily win and it is not their fault that it did not. Here's success to the Plattsmouth News-Herald and its bunch of hardworking people who get it before the people.—Fairbury Gazette.

Up in Fairbury there is a "young lad" we used to know well. He was at one time an associate of the writer on this paper and we always had good reports to make of him. Then he left us in our loneliness and misery went away, finally getting stranded or something at Fairbury where he was compelled to undertake the work of putting new life and vigor into the Gazette at that place. He is succeeding all right, as we knew he would, but at the same time has taken unto himself airs and has become "cocky" if you know what that is. Recently there appeared in this highly moral, and at the same time, great family newspaper, a little whisky editorial to which our friend seems to take exceptions as instance what follows from his pen:

It seems to be so easy for the average editor to throw a few shots at Lincoln on account of its dry condition when occasionally some fellow gets tanked up in that town. The latest comes from the Plattsmouth News-Herald who took a shot at the dry town because a little child happened to get hold of its dad's whisky bottle and imbibed freely with the usual result. Col. Quinn thinks it must be easy to get the stuff in Lincoln. The Plattsmouth News has its office next door to a jug emporium. He can sit in his office and look with longing eyes across the street on the opposite corner and see another booze factory. By turning his chair slightly he can look across the street and see another one. When he goes to his meals he passes by two more and when he goes to his peaceful slumbers he takes them right over another jug maker. It is not to be wondered that our old sid partner should look upon the matter as an easy proposition.

Now we are occupying the same chair that our brother, Barrows, so ably filled when he was here and up to the time we read his diagnosis whatever that may be of the case we had not fully realized our position, to say nothing of our condition. Honestly, as we dash this off on the typewriter a dryness appears in our throat and we are attempted to go out and see for ourselves whether all these thirst emporiums do really exist or whether it is only the imagination of the Gazette man after a flying trip to Lincoln. Barrows, if you have been fooling us we will never forgive you.

OUR FAST BUNCH OF DIAMOND DOBBERS

Plattsmouth Has One of the Fastest Teams in the State.

Last Sunday's game fully demonstrated the all round ability of the Red Sox when they defeated the crack Lincoln Star team, who for but the second time this year met their masters. Our sporting editor was not on the scene Sunday when the shut out game was executed, having gone to Omaha to see some professional (?) ball, and he got his pie-recipe full. It was Omaha and Wichita and the comedy of errors dished up Sunday was enough to make Willie Shakespeare's version read like a card of thanks.

Omaha fans think a lot of Pa Rourke's trained nurses, for they go wild whenever their pets steal a base or get to third and never whimper when they fail to score, because herere used to it we suppose. Of all the dubs that ever booted a pig skin the Omahaogs are the bell-cows. One would judge from the stunt they put on that they had received their training at some ladies seminary, and as Ade says, they couldn't put up a ball were it handed to them on a silver tray with water criss around it.

This may sound like spreading on the mustard with a paddle, but the Plattsmouth Red Sox can skin Rourke's aggregation as easily as a monk can skin a banana, and we predict that ere the end of the present season the World-Herald will be asking for donations for the establishment of a home for "also ran" ball players. Graham plays the game all the time but he resembles a diamond in a dirty shirt when they get together.

The game on the local grounds Sunday should bring out a record breaker crowd. The Red Oak, Iowa, team, one of the fastest of that state, will be here and they're will be something doing your while.

The line up will be about the same as Sunday, and from their performance with the stars we see where the Red Oak will have to travel some if she expect to take our goat over the river.

Don't forget the big game on the Fourth. The Lincoln Stars have arranged to play the Sox on that date. As the Sox have been the only team which has not allowed them to score this year they are naturally "laying for us." It will be their playing to regain lost laurels and the Sox playing to show them their superiority, so don't fail to be there.

Of course if you're a cheap mutt, and prefer to do the tight-wad specialty by walking around and planting yourself up on the hill where you can pinch your two bits, the boys would just as soon you stay at home with the rest of the cattle, or go to the gate keeper like a man and tell him your broke no doubt he'll let you in free. Don't climb the hill and get your eye full for nothing. It takes money to run a ball club and if your interested enough to see the game—see it as you should.

To the People of Nebraska.

In response to an urgent demand from educators and from other citizens throughout the state I have decided to present my name before the Republican primaries for the state superintendent.

I desire to say that the efficiency of the State Department of Education is such that no one can hope to improve greatly upon it. Having been in close touch with the work of the department during the past twelve years, understanding and approving of the leading policies of the administrations of Jackson, Fowler, McBrien and Bishop, together with my knowledge of public school conditions in the state I feel that I ought to be able if elected to continue the growth and impregnance of this department in its relation to the common and higher schools of the state. I regret that Superintendent Bishop is not to remain to work out more fully the excellent movements started during his administration. It would be my desire to maintain the general policy of the present administration with reference to the teaching of agriculture and other industrial work in the schools. I would earnestly desire to lay special emphasis on the

Rid Yourself of Unnecessary Burdens. A Plattsmouth Citizen Shows You How

Don't bear unnecessary burdens. Burdens of a bad back are unnecessary.

Get rid of them. Doans Kidney Pills cure bad backs. Cure lame, weak and aching backs. Cure every form of Kidney ills. Lots of local endorsement toprove this.

P. M. Lindsay Marble St. Plattsmouth Nebr. says: 'off and on for about two years I suffered from pains in my back and while at work a dull, steady ache through my loins greatly disturbed me. I had reason to believe that my trouble was caused by disordered kidneys but I was able to find relief from the remedies I tried. Finally Doans Kidney Pills were brought to my attention and I procured a box at Gering & Co's Drug Store. The results that followed their use showed that I had at last found the right remedy for my trouble. In return for the great improvement Doan's Pills brought, I highly recommend them.'

practical and essential phases of all subjects taught in the public schools. It would be my aim to impress upon the schools of the state the necessity of giving a more thorough knowledge of the common school branches not only as a basis for further study but more especially for the benefit of the many whose education ends with the completion of the common school studies.

It would be my aim to continue the present harmonious relation between the normal schools, colleges and university, and to make the articulation even more perfect between them I would exalt in every possible way the worthy profession of teaching, but above all I would promote the educational interests and welfare of the youth of Nebraska

Very cordially yours,
J. W. Crabtree.

Call For Republican County Convention.

The republicans of Cass County are hereby called to meet in convention in Union on Thursday, July 14, 1910, at 11 a. m., for the purpose of selecting delegates to the state convention and for the transaction of such other business as may properly come before the convention.

The convention shall be made up of delegates chosen by the republicans of the respective precincts of the county at the precinct cause to be held on Saturday July 9, 1910, at the place and time designated by the central committee, on the basis of one delegate for each ten votes or major fraction thereof cast at the 1908 election for O. C. Bell, republican nominee for presidential elector. Said apportionment entitles the several precincts and wards to the following representation in said convention.

Bees Swarm in House.

A big swarm of bees out in Happy Hollow last Sunday afternoon took a fancy to a peculiar place to hive, the bunch of honey makers decided on a small place between the walls of a house as the general roosting place of their tribe. The house in question was the residence of B. B. Worthing. When the house was finished up many years ago, a small dead air space was left between the siding and subsiding, the only visible entrance to the narrow chamber being an open joint in the boards not more than a quarter of an inch in width Sunday afternoon, one of the members of the Worthing household happened to pass along the south side of

of the house and discovered the swarm scrambling, tumbling and crawling over each other in order to get in and out the narrow entrance to their new headquarters, which was about eight feet from the ground. The occupants of the house are rather puzzled over what to do with the new residents. There are no bee hives in the neighborhood and it is presumed it is a swarm of wild insects. The bees cannot enter the interior of the house from their new hive but it is rather inconvenient place to have them permanently located.

Shop Accidents.

The first of the week was a busy time for the Burlington shop doctor. Although no very serious injury was reported, his office was continually visited by men with a mashed finger or toe. On Monday, James Darrow, a laborer, was loading draw bars, when his right hand was pinched between two of the bars, slightly bruising one of the middle fingers. The wound was serious enough to put him off duty for a day or two. One the same day, James Reed, a company brakeman, had his right middle finger flattened while making a coupling at Ashland. He bound up the injured member and made the trip to Plattsmouth, where he consulted the company doctor.

Joseph Roueka was one of the most painful hurt; he was wheeling in a load of flues to the blacksmith shop when the car jumped the track and started to climb over his foot, making a severe contusion on the big toe. He was able to get to the doctor's office, where by dressing the member, the pain was greatly relieved. Sandy Andrews, a
