TRY TO ROB A TRAIN

Five Masked Men Halt Baltimore & Ohio Flyer Near Chicago.

THEY BLOW UP TWO MAIL CARS

Miss Express Department Because of Its Unusual Position—Robbers Threaten to Take the Life of the Engineer for the Mistake Made.

CHICAGO, Aug. 1.—The Baltimore & Ohio passenger train from the east, which was due to arrive in the Grand Central depot, Chicago, at 9 o'clock last night, was held up by five masked men at 8 o'clock between Edgmore and Grand Calumet Heights, Ind., thirty-one miles out from Chicago.

One of the mail cars, which contained no money, was wrecked with dynamite. The attempt at robbery was made after the two mail cars had been detached from the train and run a quarter of a mile ahead. The failure of the robbers to make a rich haul was due to the fact that the express car, which contained the train's treasure, was in an unusual place. It was the third car in the train. After wrecking the mail car and obtaining no booty the robbers disappeared in the darkness without attempting to rectify their mistake. The only loot that they carried away with them as a result of their adventure was the gold watch of the engineer.

The train was the New York and Washington vestibule limited. Most of the trainmen were shot at and had narrow escapes from the bullets. No person was injured, either by the dynamite or firearms.

Just before climbing into the cab the three men commenced to fire with their revolvers to frighten away all assistance. The shots produced the liveliest kind of a panic in the sleeping cars, where the passengers made every effort to hide their money and valuables before the robbers could get at them. No attempt, however, was made to rob any of the passengers.

After mounting the cab of the engine the robbers, covering the engineer and fireman with their revolvers, made them step down and go back the length of two cars. They ordered the men to uncouple the first two cars, which was done. They then hustled the two trainmen back into the cab and, still keeping the engineer covered with revolvers, directed him to pull up some distance from the rest of the train.

Engineer Collins ran up 200 feet and was then directed to stop. He did so, and while one of the men remained to guard him the others jumped off, and hurled dynamite at the door of the car which they judged to be the express car. It burst open the door. Hastily climbing in to get at the safe, they were astonished to find that they had broken into a mail car. They threatened the engineer with death for not telling them that the cars which he had uncoupled were not express cars, and ordered him to return at once and uncouple the next behind the baggage cars. Climbing once more into his cab Collins backed his engine down, coupled on to the third car, which the fireman was made to uncouple at the rear end, and still with the muzzle of the revolver at his head Collins was ordered to run down the track as before.

He drew away from the balance of the train about the same distance as on the first occasion, and the robbers still leaving him under the charge of one of their number attacked the other car. When they reached it they found to their great wrath that they had opened another mail car and that it contained no money. The train had been delayed now fully thirty minutes, and, fearing that if they delayed any longer, help would be coming to their train crew, the robbers gave up their attempt to rob the train and ran into a thicket of scrub oaks at the side of the track and disappeared.

Kentucky Drouth Ends.

LOUISVILLE, Ky., Aug. 1.—The drouth in Kentucky was broken last night and this morning, when there were heavy rainfalls in Frankfort, Owingsville, Danville, Paducah, Shelbyville, Paris, Carlisle, Lancaster, Nicholasville, Burgin, Versailles and Hopkinsville.

Siege of Buenos Ayres Ended.

WASHINGTON, Aug. 1.—The statement of the United States legation at Buenos Ayres telegraphic information to the effect that the state of siege declared in that capital on July 5, by reason of political disturbances, has been raised.

Attempt on Life of Queen.

NEW YORK, Aug. 1.—A dispatch to the Herald from Aix-Les-Bains says: Maria Pia, queen dowager of Portugal and mother of King Carlos, has had a narrow escape from assassination. Her majesty was taking a course of the baths here, but was so perturbed by the attack upon her that she left Aix hastily for Rome. Details of the attempted assassination are not obtainable at present. The police are said to have no clew up to the present time.

IMPROVEMENT FUNDS SHORT.

Missouri River Commission Complains of Shortage of Funds.

WASHINGTON, July 31.—The annual report of the Missouri river commission was received at the war department today. For last year the sundry civil act carried \$250,000 to preserve existing improvements and to prevent threatened damage at Rulo, and other points and \$146,000 to complete the lock and dam at Osage river, Missouri. The committee in its report complains of the inadequacy of appropriations for accomplishing useful results on the Missouri river, or for making progress toward an ultimate improvement. The fact that there is little commerce on the river the commission attributes to the condition of the river, which is such that it is hazardous to run boats and impossible to obtain insurance at reasonable rates. No commerce of consequence can be expected until the river is put in "navigable condition and opened to the mouth."

The completion of the work from the mouth of the river to Jefferson City, the report says, would demonstrate that the commerce would spring up and in addition millions would be added to the valley by preventing destruction caused by the river. The commission estimates that this result could be completed for \$3,000,000 to \$5,500,000, and recommends \$1,000,000 for this work during the next fiscal year. For the Osage river \$50,200 is recommended.

WOOD'S STAY TO BE SHORT.

Expects to Return to Havana as Soon as His Health Will Permit.

NEW YORK, July 31.—General Leonard Wood, military governor of Cuba, accompanied by Mrs. Wood and their three children, arrived here today on the steamer Morro Castle from Havana. General Wood said to a reporter at the quarantine station:

"I am feeling much better. I have not had any fever for ten days and have an excellent appetite. I intend going on board the steam yacht Kanawha for a short trip along the New England coast, where we hope to enjoy a spell of cool weather. I expect my stay to be brief, as I intend to return to Havana at the earliest possible moment."

"When I left Havana everything was remarkably quiet. I am highly gratified by the kindness shown me by the whole Cuban people during my illness. Mrs. Wood and family will remain in quarantine until August 5 as the guests of Health Officer Doty and wife, after which Mrs. Wood will probably join me on a visit to friends."

General Wood left the Morro Castle at quarantine and went on board the Kanawha.

TOO MUCH LIVE STOCK.

Philadelphia Yards Jammed With Unsaleable Cattle.

PHILADELPHIA, July 31.—The amount of live stock received this week breaks all records. Every stock yard in the city is jammed to the doors and cattle have to be killed almost faster than they can be taken care of for lack of room. Meat prices are dropping and threaten to go to unknown depths. The cause of all this congestion is the recent drouth in the west. Nebraska, Kansas and Texas are simply packing up and sending to the east so large an array of cattle that the most experienced men in the trade can think of no way to work it off.

Strike on in San Francisco.

SAN FRANCISCO, Cal., July 31.—The labor trouble in this city reached a crisis today and as a result maritime traffic and labor along the shore are almost at a standstill, and industry is almost totally paralyzed. The order for a general walkout of the City Front Federation was made effective this morning. The City Front Federation comprises fourteen unions and organizations with a full membership of about 15,000.

Payne Returning Home.

MILWAUKEE, July 31.—Friends of Henry C. Payne, national republican committee man of Wisconsin, received advice by cable today stating that Mr. Payne is at Nuremberg, not Berlin, and that he will sail for home from Cherbourg.

Condition of the Treasury.

WASHINGTON, July 31.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balance, \$176,078,982; gold, \$98,650,698.

Missouri Millionaire Dies.

ST. LOUIS, Mo., July 31.—Information has been received in a telegram from Baltimore of the death of Col. John O'Day, of Springfield, Mo., from the effects of paralysis. He was a millionaire. In the early days of the St. Louis & San Francisco railroad, Col. O'Day was first vice president and general counselor. He was chairman of the democratic state central committee in 1884 when his party in Missouri sent a solid delegation.

PEACE STILL WAITING

First Day's Conference Fails to Settle the Great Steel Strika.

UNIONISM APPEARS IN THE WAY

Association and Corporation Men Differ About Its Meaning—Regular Men Ask Their Discharge, but Companies Thus Far Refuse.

PITTSBURG, July 31.—Disappointment and apprehension pervade the air of Pittsburgh tonight because of the failure of the executive board of the Amalgamated Association of Iron and Steel Workers to ratify the peace proposals arranged at the conference in New York last Saturday between the national officers of the Amalgamated association and Messrs. Morgan, Schwab and Gary, representing the United States Steel corporation.

When the conference opened today it was confidently expected that an agreement would be reached in a short time, but after a session, lasting from 9:50 a. m. until 6:30 p. m., the conference adjourned without arriving at any conclusion, so far as known. It meets again tomorrow.

The protracted session indicates that the board is not satisfied with the provisions of the compromise measures and unless some modifications are made its ratification is doubtful. The opening of union mills to non-union workmen is the point on which the board hesitates, and the long distance telephone between New York and Pittsburgh was worked frequently today to get a modification of this clause. The workmen hold that this would give the mill owners full opportunity of crushing the union without a strike, by finding excuses to discharge union men and then fill their places with non-unionists.

Another group of dissension is said to be the retention in their present jobs of the men who worked as "strike breakers" at the various mills during the strike. It is said that these men have been promised the protection of the manufacturers in case of a settlement and that the mill owners will not concede their dismissal at the request of the organization. The workers, it is said, are willing to declare the mills now working non-union open mills, but strenuously object to having all the mills of the combine classified as open mills.

All is conjecture, however, as it is impossible to get any definite statement as to the day's conference from any of the parties interested. When the board dispersed at 6:30 every member was waylaid by persistent newspaper men seeking information, but every question was answered by the stereotyped phrase, "We can say nothing; there is absolutely nothing to give to the public at this time."

It is doubtful if the members of the general executive board of the Amalgamated association were ever so uncommunicative and reserved as they are since the meeting of today. The full board was present, with the exception of National Trustee John Pierce, who was away on official business.

HE DOES NOT CARE TO SERVE.

Admiral Kimberly Asks to Be Excused from Coast of Inquiry.

WASHINGTON, July 31.—A letter has been received at the navy department from Admiral Kimberly asking to be excused from the Schley court of inquiry on account of the state of his health. The admiral is understood to be suffering from heart trouble. The application was placed in the hands of Secretary Long, who will dispose of the matter from his home in Hingham, Mass.

Admiral Schley has made answer to the precept. The letter was mailed by his counsel last night, but navy department officials say it has not yet been received at the department.

Cristobal Colon Raised.

WASHINGTON, D. C., July 31.—Captain C. A. Flagler has reported to the chief of engineers that he has completed the work of removing the wreck of the Cristobal Colon from the entrance to San Juan harbor, Porto Rico, where she was sunk in an effectual effort to close the harbor.

Freighted With Gold.

SEATTLE, Wash., July 31.—The steamship Cottage City reached port at noon from Lynn Canal with forty passengers and \$155,000 in Klondike gold. She left Skagway July 26.

Accident on the Rock Island.

KREMLIN, Okl., July 31.—The northbound Chicago, Rock Island & Pacific passenger train No. 2, which left El Reno at 7 o'clock, three hours late, crowded with departing home-seekers, was wrecked while going at full speed two miles south of here at 1:45 o'clock. C. L. McLain of Enid, Okl., was killed and twenty-four other passengers received cuts and bruises. It is believed, however, none were fatally hurt.

WASHINGTON ADMITS RAIN.

Official Bureau Reports Confirm the Weather News.

WASHINGTON, July 30.—Official advices to the weather bureau are confirmative of the press reports of the prevalence of rains over the corn belt last night with cooler weather than yesterday. During the past twenty-four hours rain has fallen generally over that section, with some few exceptions, notably southern Ohio, Kentucky and southwestern Nebraska. While not heavy in amount the rains are described officially as pretty fair for summer time. At Kansas City there was over an inch of precipitation; from one-fourth to almost two inches in various parts of Iowa; in Nebraska the rainfall was fair; in eastern and northern Oklahoma there were some showers; in Missouri they were pretty fair.

Showers are predicted for tomorrow east of the Mississippi river and fair weather west. Temperatures in the corn belt were generally above 90 degrees, but in some localities they did not get so high. For the next day or two the temperature will be reasonably moderate as compared with those of the heated period.

In many sections of the middle Atlantic states there have been high temperatures today, but in northern New Jersey, Pennsylvania and New York they were reduced by showers. In Washington the weather has been exceedingly oppressive today, the thermometer registering a maximum of 87 degrees, with an unusual degree of humidity in the atmosphere.

NEBRASKANS DRAW LAND PRIZES.

These Men Are Winners in the Oklahoma Drawing.

EL RENO, Okl., July 30.—Nebraska winners in the Oklahoma land drawing are:

John E. Long, Omaha, No. 496; El Reno district.

James H. Davey, Hebron, No. 106; El Reno district.

Joseph Shultz, Jr., Schuyler, No. 61; El Reno district.

Allen Tingley, Verdon, No. 273; El Reno district.

Alex Hamilton, Wymore, No. 362; El Reno district.

Adolph Lutes, Columbus, Neb., No. 147; Lawton district.

Guy J. Stewart, Helvey, Neb., No. 112; El Reno district.

Iowa winners include: Dora Roberts, Council Bluffs, No. 223; Lawton district.

KANSAS IS SMILING NOW.

Good Rains Have Fallen Throughout the State.

TOPEKA, Kan., July 30.—In the place of dry weather reports, ruined crops and hot winds in Kansas, now comes news of good rains, unfordable streams and a restoration of confidence.

Most of the rains have come to the eastern and central parts of the state, but tonight the reports from the west indicate that the rain has extended clear through to the Colorado line. In Salina this afternoon the heaviest in weeks fell. Concordia reports that it has been raining there for the past forty-eight hours at intervals, and that the situation is much improved. During a thunder storm in Concordia Carl Hammersbeck, the son of a farmer, was killed by lightning. At Ellsworth a fine rain fell.

Puts a Quiet on Gossip.

WASHINGTON, July 30.—Secretary Long this morning issued the following general order:

"All persons in the naval service are strictly enjoined to refrain from any public statement concerning the subject matter concerning the court of inquiry requested by Rear Admiral W. S. Schley."

Boxers Have 25,000 Men.

LONDON, July 30.—The so-called "allied villagers," according to native reports, include 25,000 well armed troops in southwestern Chi Li, says the Pekin correspondent of the Standard. Most of them are old Boxers or disbanded soldiers. They have captured all the imperial supplies sent overland from Pekin.

Closing Green River Shops.

CHEYENNE, Wyo., July 30.—The Union Pacific shops at Green River will be closed down on August 1. Fifty men are employed there and these will be given work in the shops at Evanston, Rawlins or Cheyenne.

Long Leaves Thursday.

WASHINGTON, July 29.—Secretary Long will leave here Thursday for his annual vacation, the major portion of which will be spent at his home at Hingham, Mass. He probably will return to Washington during the early part of September, prior to the date when the Schley court of inquiry meets. Assistant Secretary Hasket, who has been spending several weeks at his country home in Newcastle, N. H., will act as secretary.

LANDS DRAWN BY LOTS

Names of Lucky Applicants Come from the Fortune Wheel.

A WOMAN AMONG THE LUCKIEST

Is Second Only to James R. Wood in the Lawton District—Great Enthusiasm During the Drawing—The Great Crowd Worn Out Waiting.

EL RENO, Okl., July 30.—The great land lottery began at 9:45 o'clock yesterday morning. Twenty thousand excited, expectant people jammed and crowded about the platform on which, from the wheels of fortune, the government officials superintended the drawing of the lucky numbers to those of the 167,000 applicants who will receive a homestead among the 13,000 in the Kiowa-Comanche country. The approach to the stand of the commissioners guarding the precious bundles of envelopes containing the thousands of applications was the signal for a great demonstration that was renewed with fervor from time to time during the progress of the arrangements.

It was 11 o'clock when finally ten boys, five for the El Reno district and five for the Lawton district, were lined up before the two wheels and awaited the word to draw out the first envelope from the receptacle. A mighty cheer arose, repeated again and again, and the multitude pushed closer to the platform. Eager, drawn faces watched every movement of those about the wheels and necks were craned to hear the name of the first winner. A moment later when a deputy marshal called loudly for the order the crowd was stilled instantly.

At 9:35 Colonel Dyer, one of the three commissioners, read the president's proclamation relating to the drawing. This finished, the envelopes were placed in the wheels, each was turned repeatedly to insure a generous mixing up, and then in another moment the drawing was on.

The first envelope taken from the wheels contained the name of James R. Wood of Weatherford, Okl., who had registered for a homestead in the Lawton district.

Mattie H. Beals of Wichita, Kan., whose birthplace is in Missouri, drew No. 2 in the Lawton district. The crowd went frantic over the announcement, but became quiet instantly and listened intently to hear the names of the other fortunate. Without doubt Woods and Miss Beals, who have the right to make the first filings, will select the two quarter sections adjoining the Lawton town site district and which are believed to be worth \$40,000 each.

When Colonel Dyer, the commissioner, in thunderous tones announced the woman's age as 23, her height the same as that of Mr. Wood, 20,000 persons shouted in chorus: "They must get married."

No. 1 in the El Reno district is Stephen A. Holcomb of Pauls Valley, I. T., and No. 2 is Leonard Lamb of Augusta, Okl.

Each succeeding winning for a time was met with shouts of applause and merriment. All was pleasantry. Every man, though he did not draw a prize from the wheels today, had steadfast faith that tomorrow or the next day would surely see him the possessor of a slip reading him a title clear to 160 acres of Oklahoma land. So in the success of friends or relatives, unfortunate ones today instead of bewailing their lot cheered lustily as familiar names were called out.

The crowd fairly exhausted themselves and when the close of the drawing for the day was announced at 6 o'clock hundreds who had neither eaten nor drank during the day sank to the ground where they stood from sheer fatigue, or dragged themselves to better places of rest or to refreshment free from quarrels and general satisfaction with the government's method of disposing of the land was felt.

Secretary Buys Bonds.

WASHINGTON, July 30.—The secretary of the treasury today purchased short term bonds as follows: Twenty five thousand dollar 3s at \$109.118; five thousand dollar 3s at \$109.118; \$5,000 5s at \$109.288; \$1,500 4s at \$113.832.

Troops at Shanghai to Stay.

LONDON, July 30.—The Shanghai correspondent of the Globe, cabling to day says: The assurances given in the House of Commons (July 23) by Lord Cranborne, the under foreign secretary, that the German and French troops are only temporarily here, are refuted by the fact that both nationalities are erecting massive, permanent barracks, which will take two years to complete, indicating that many years' occupation is contemplated.

WEATHER BUREAU ENCOURAGED.

Rain Having Fallen It Believes the Corn Belt Will Get More.

WASHINGTON, July 29.—The weather bureau's advices from the great corn belt Saturday were more encouraging than any that have come to hand for forty days, showing in the opinion of the forecasters that the drouth has been broken by general showers in many portions of that section and with a prospect of their continuation today. Coincident with the fall of rain have come reduced temperatures. With few exceptions the temperatures reported were not abnormally high, no maximums of 100 degrees being reached. West of the Mississippi river they were generally in the neighborhood of 90 degrees.

The forecasters, while not making any specific predictions as to the effect of the rain on the crops, express the opinion that all those crops which have not been irreparably ruined will be benefited by the breaking of the drouth. The late crops naturally would be helped the most.

The reports show that during the past twenty-four hours showers were quite general in the corn belt and were heavy over much of the state of Iowa and over part of the corn belt not hitherto visited by rains, including western Nebraska, southern Missouri and Oklahoma.

INDIANS INTEND TO FILE.

Find a Means of Holding Lands in the Reservations.

OKLAHOMA CITY, O. T., July 29.—Keo Tuck, an Indian, has given notice at the land office at El Reno of his intention to file upon the quarter section of land adjoining the town site of Lawton, which will be the principal town in the new country of the Kiowa and Comanche reservation. This is probably the most valuable tract of the entire 13,000 to be opened.

The application is made under a section of the United States statutes passed in 1887, which gives to every homeless Indian the right to go to any part of the public domain and to make entry for any tract of land that is not in the possession of a homesteader. The section has never been repealed and the right of the Indians who have no allotments or who were omitted from the tribal rolls is one that they can exercise at any time, it is stated.

THOUSAND SILVER DOLLARS.

Sack of Money Disappears from a Chicago National Bank.

CHICAGO, July 29.—A sack of 1,000 silver dollars has mysteriously disappeared from the Commercial National bank and all of the detectives have been put on the case, but their efforts so far have been futile. The package was left outside of the vault—mistake when the bank closed for the night and since then no trace of it can be found.

This is the second strange disappearance of a package of money belonging to the Commercial National bank within a year. Detectives are still looking for a \$20,000 bundle of bills shipped by the bank with the Adams Express company to the National State bank of Burlington, Ia., August 17 last. When the package was opened at Burlington it contained only shippings of papers.

OMAHA MAN SELECTED.

Dr. Foster, Chairman of Nebraska Committee, to Be at Land Drawing.

EL RENO, Okl., July 29.—Governor Richards, chairman of the committee appointed by the president to conduct the drawing of the new lands to be opened for settlement, suggested that each state select a committee to be present at the drawing to see it was fairly and honestly conducted.

Acting upon his suggestion the Nebraskans met and selected the following committee: Dr. H. A. Foster of Omaha, chairman; J. E. Jones of Hastings, George Hess of Omaha, F. A. Swezey of Blue Hill and Amos Quinn of Beatrice. Their headquarters are at the law office of Crow & Jones, room 4, Warren block.

Kansas Thoroughly Soaked.

ATCHISON, Kan., July 29.—The drouth in northern Kansas, which had lasted without interruption since April 15, was broken Saturday night and Sunday morning. The Missouri Pacific railroad has received reports from all its stations which extend 300 miles westward from the Missouri river and northward into Nebraska, and all except two or three report a downpour of from one-fourth of an inch to two inches. The rain was a steady, drizzling one.

Arizona's Total Acreage.

WASHINGTON, July 29.—According to a bulletin issued by the census bureau there are 5,809 farms in Arizona, with a total acreage of 1,935,327 acres, of which 254,521 are improved. Of these farms 1,769 are owned by Indians.

Crispi Growing Worse.

NAPLES, July 29.—The bulletin issued late tonight regarding the condition of Signor Francesco Crispi says the heart trouble is increasing.

THE FINAL ACT IS NEAR

Many Thousands Are in El Reno to Witness the Great Land Lottery.

EXPECTANCY AMONG HOMESEKERS

Everyone Confident of Being a Shareholder of the Lucky Few—Not as Exciting as a "Run"—Applicants Have But One Chance in Thirteen to Get a Prize

EL RENO, Okl., July 29.—All is expectancy tonight among the thousands of homeseekers here over the grand lottery that begins tomorrow morning. There are 13,000 claims to be distributed, and so each of the 165,865 persons who have registered during the last fifteen days has about one chance in thirteen of winning. It is a long shot, but every one apparently feels confident of being numbered among the lucky, and in consequence the best of good nature prevails.

While the scene lacks the great excitement of the "run" which has heretofore been a part of other land openings in this part of the country, the last act in the throwing open to settlement of the Kiowa-Comanche reservations will not be without life and animation. The drawing will take place in the center of the city and will be witnessed by thousands of people. It will be accomplished on a large platform in the open air, around which the sloping hillsides form a natural amphitheater.

A commission appointed last week by Secretary Hitchcock and composed of W. A. Richards, assistant commissioner of the general land office, and who has had charge of the registration, D. P. Dyer of St. Louis, former United States district attorney, and Frank Dale, ex-chief justice of Oklahoma, will have the drawing in charge.

The actual drawing will be both novel and extremely interesting. On the platform will be two oblong box wheels, each fifteen feet in length, one to hold the names of the applicants for homesteads in the El Reno district, and the other for those of the Lawton district. Into these wheels will be placed envelopes containing names of all the registered applicants. The envelopes will have first been brought to the platform in packages consecutively numbered.

A corresponding series of numbers upon slips will be placed in another receptacle, from which they will be drawn out at random. The package of envelopes bearing the first number drawn will be the first to be placed in the drawing box and well distributed, when another number will be drawn and another package of envelopes distributed, and this course will be continued until all of the envelopes have been placed in the box wheels, after which the wheels will be revolved for a sufficient length of time to insure a thorough mixing of the envelopes.

In each wheel there are five apertures from which the envelopes will finally be drawn. Ten men for each aperture will perform the actual drawing. The order in which they will begin at each wheel will be determined by lot.

The first envelope drawn will be No. 1, which will be at once opened and the identification slips which it contains will be given a corresponding number, and the name and residence which appear upon the slip will be publicly announced. This course will be pursued, numbering each envelope and its contents consecutively, until twenty-five numbers have been drawn from one box, when an equal number will be drawn from the other box in a similar manner. This course will be pursued until 500 names have been drawn from each box, when, if the committee deem it best to do so, arrangements will be made for drawing simultaneously from each box.

After the names have been drawn and announced they will be recorded and a notice prepared to be made to the one whose name is drawn. The drawing will proceed in this manner until every envelope in both boxes has been drawn out.

The Exposition is Paying.

BUFFALO, July 29.—President John G. Millburn of the Pan-American exposition issued a statement today which in part says: "The exposition has been more than paying its expenses since the beginning of June and has already accumulated a considerable surplus. An attendance during August, September and October of the total attendance at Chicago in October alone will pay all the obligations of the exposition and will leave a surplus."

May Cause Complications.

DENVER, July 29.—William Radcliffe, owner of the lease on the Grand Mesa lakes in Delta county, has been summoned to Washington for consultation with the state department. This gives an international aspect to the recent shooting of two men by a deputy game warden, the burning of Radcliffe's hotel and the threatened lynching of the proprietor by a mob of Delta county citizens. Radcliffe claims to be a subject of King Edward.
