Quin World's White Falstaff.
Quin made his last appearance on the stage as Falstaff. The occasion was the benefit of his friend Ryan and the result such a financial success that the beneficiary wrote Quin the following year saying that he would like to repeat the benefit and asking him as a favor to appear once more in the same part. Quin in the meantime had lost two of his front teeth—a loss which so interfered with his speech that he declined his friend's request. His letter to Ryan was short, but characteristic: "My Dear Friend: There is no person on earth would sooner serve than yourself; but sir, I wud whistle Falstaff for no man, James Quin."

The annual meeting of the officers and members of the eastern district union association of old soldiers will be held January 23, 1902, in the G. A. R. hall at Weeping Water, Neb., for the purpose of electing officers and to consider bids for and to locate the next annual reunion.
Twenty years of active service is the record of the B. & M. engine No. 3 now undergoing repairs in the Burlington shops at Havelock. The "3" was turned out of the Plattsmouth shops way back in December, 1881, and since that time has done steady work in the freight and passenger service on the northern division. Compared with some of the modern machines being put out the old class A2 affair is but a good sized working model, yet it was well put together that it will probably be doing a mileage turn when some of the big freighters are sent in to be scrapped.
The Lincoln News says: C. G. Fox, who has worked for seventeen years as a clerk in the office of Master Washburn Smith, has been promoted to the position of bill clerk under Mr. Rhodes, superintendent of motive power. The United States civil service commission will hold examinations at several places in each state during March and April, to secure young men and women for the government service. Over nine thousand persons secured positions last year through these examinations. Probably ten thousand appointments will be made this year. All appointments are for life, and for most positions only a common school education is required. Salaries at appointment vary from \$600 to \$1,200 a year, with liberal promotions afterward. Politics is not considered. This affords a good opportunity for people between sixteen and forty-five years of age. Those desiring places of this kind can get information about them free by writing to the Columbian Correspondence College, Washington, D. C., and asking for its civil service catalogue number 378.

Months of Ant-Enter.
Ant-enterers are in the curious position of being practically unable to open their mouths. It may almost be said, indeed, that they have no mouths to open. There is just a small round orifice at the end of the snout, through which about two feet of worm-like tongue come wriggling out. And as this tongue is bathed with liquid glue instead of saliva, every ant which it touches adheres to it, and the animal leaks the insects up by hundreds at a time.
