You are paying \$7 per month for a four or five room cottage, which is seven per cent on \$1,200, while we can sell you cottages as good as the ones you live in at from \$600 to \$900, and on monthly payments. Buy a home with the rent you are now paying. It will make you a better citizen, you will feel greater interest in the town, you will learn to love your home, you will have more self-respect, your wife and children will be happier and hold their heads higher. You will be adding to the value of your property by working upon it while making your monthly payments, and in the end it will not cost you more than one-half of its real value. It is the only way you should live, the cheapest way you can live, and the most independent way to live. Many homes in Plattsmouth have already been obtained by the means of monthly payments.
