Citizens' Meeting.

The meeting called for the purpose of devising ways and means to collect the delinquent taxes due the city of Plattsmouth, assembled in the district court room last night, as per notice published in the city papers.

The meeting was called to order by Mayor Morgan, and the object of the same was briefly stated by Jesse L. Root. As to numbers present, it was very respectable, and the Journal was pleased to note that among them was a fair sprinkling of the most prominent business men, who seemed to be greatly interested in hitting upon some plan that would assist the city out of its present dilemma; however, but very little was accomplished, except an agreement to stand by the county and city officials in their efforts to collect the back taxes. Hon. R. B. Windham "hit the nail on the head" when he said the proper policy to pursue would be for our people to "get together" and work in harmony for the best interests of the town, instead of pulling against them, as has been done in numerous instances. Let us all unite in one common effort to build up the city, instill new life in our march to prosperity and the welfare of the city and her citizens at large. "A long pull, a strong pull, and a pull together," will soon pull Plattsmouth out of its present rut, and a great boom follow.

Greenwood Citizens "Worked."

A special to the World-Herald, from Greenwood, under date of December 7, gives an account of a pair of swindlers that have been operating in that section during the past week, and as a consequence there are many irate victims who might resort to measures not altogether welcomed by the fakers should they return. The two young men drifted into Greenwood and immediately started in to dispose of a new and wonderful stove polish, which they warranted to last forever, and to make a rusty stove look like a looking glass. Their plan was to rub the preparation over the leg of a stove and then tell their intended victim not to allow it to get hot for two days. The polish was indeed a beautiful one, and they had no trouble in disposing of a large amount of the stuff at 50 cents a pint. At the end of two days they had disappeared.

When a stove that had been polished with the preparation was fired up, the aroma arising from the "polish" was something awful, and it burned with the rapidity of tinder, leaving the stove if anything in a worse condition than it was before the stuff was put on. An investigation proved it to be nothing more nor less than common coal tar, which ordinarily sells at 40 cents per gallon.

Heart Disease Cured

Wonderful Results Follow Recently Discovered Remedies.

A \$250 Treatment Free.

No death comes more suddenly than that from heart disease. Thousands die unnecessarily each year because most physicians do not understand these troubles. Startling improvements have been made during the last few years in the treatment of heart disease. Formerly digitalis was the only remedy employed, though it injured many cases and cured none. Dr. Miles, the specialist in heart and chronic diseases, finds it necessary to employ eighteen heart remedies to cure with certainty the many forms of heart trouble.

To demonstrate the unusual curative powers of his new treatments, Dr. Miles will send a \$2.50 course free. Every sufferer from short breath, pain in side, oppression in chest, irregular pulse, palpitation, smothering spells, puffing ankles or dropsy should take advantage of his offer.

Mr. H. A. Ashburn, of Redding, Cal., six months after he had taken the special treatment, writes: "I feel as I never did in my life. If I ever have another attack of heart trouble I shall write you at once, for no other doctor can treat me."

Jas. E. Adams, 2714 Magnolia ave., Chicago, says: "Your special treatment cured me of heart disease of 15 years standing after several reputable physicians of this city failed."

The president of a leading state college who has been treated without benefit, writes: "Your treatment has wonderfully relieved my heart difficulty. My stomach also is in excellent condition, and my general health is greatly improved. I am feeling much better than for years." (Writer's name given on request)

H. E. Bennett, Monticello, Ind., reports: "I have valvular heart disease, stomach and nervous troubles. Five leading physicians gave me up. Your treatment saved me."

A thousand testimonials will be sent free on request. These include many who have been cured after from five to twenty or more physicians and professors had pronounced them incurable. Send at once for free treatment before it is too late. Address, Franklin Miles, M. D., LL. B., 203 to 209, State street, Chicago, Ill. Please mention this paper.
