The Biggest Little Thing
measured by the amount of nutritive value it contains, is the fresh soda cracker. Many people think a cracker an insignificant and easy thing to make—yet no one ever succeeded in reaching perfection until **Uneeda Biscuit** were introduced. To maintain the quality of **Uneeda Biscuit** requires the best of everything—wheat, flour, baker, and bakery.
Uneeda Biscuit furnishes every element necessary to bodily vigor; and, above all, they are fresh and clean. This is due to the **In-er-seal Package**—the package with red and white seal—which protects them from the air, moisture, dust, and other things not best to mention. There's a world of worry, work, skill and care in making a soda cracker like—
