export, and that the travelers on this junket of early days little thought to what proportions this nucleus of a great railway system would grow. But the road grew and in 1867 the ers, \$3.50%(4.85; western wethers, \$3.00%(4.90; line to Council Bluffs was complete, and the Pawnees on the Platte and the Sioux on the Missouri began to feel IOWA GETS RHODES BEQUEST. the crowding of the white man's outposts. In 1880 Iowa, Minnesota and Wisconsin had become well settled. Hawkeye and Seven Other States May while along the Platte the Indians still remained. The Northwestern had, CHICAGO-Eight American stuhowever, built a line across southern dents, representing as many central Minnesota and into Dakota as far as states, will be able to go to Oxford Watertown, with feeders to various points, while in Wisconsin and northuniversity next year on Cecli Rhodes' ern Michigan lines had been extended scholarships, according to the proviinto the Lake Superior district through sions made at the convention of the Escanaba to Negaunee and Ishpeming. This all seems very recent, but since that time the system has grown until One or more from each will go the it penetrates nine states of the union. ear following and thereafter two will and its heavy lines of freight trains go from each state during every three and its palatial passenger service years. Each student will have \$4,500 reach all important points from Chicago to Milwaukee, Madison, St. Paul and Minneapolis, Duluth and Superior, The eight states, all of which were Omaha, the Black Hills and Colorado, represented in the convention, are with three fast trains between Den-Iowa, Illinois, Michigan, Indiana, Ohio, ver, Salt Lake, Ogden, Cheyenne and Kentucky, West Virginia and Wiscon-Chicago daily; fast service to and from the Pacific coast. The completion of the first double Dr. G. B. Parkin met the university track between Chicago and the Missouri river puts the road not only at sentative of the Rhodes will trustees, the front as compared with the other western roads, but in advance of many of the eastern lines that traverse country where he population is much more dense. The Original American Expansionist. Captain Thomas Read was the ploneer in our expansion policy, but that was just 112 years ahead of time. On a vovage-this is interesting history-These examinations are to be open in the old frigate Alliance, which his friend Robert Morris had converted into a merchantman, he made the first out-of-season passage to China. There were supposed to be million in it, but they did not pan out. Commodore Dale and George Harrison accompanied him, the former as chief officer and the latter as supercargo. Read discovered two islands, which he named Morris and Alliance. They were while oiling the machinery. His body in the Caroline group, and by virtue was carried around in the large fly of discovery belonged to the United States. The Carolines are not far from the Philippines. Spain came along and appropriated them, while America dead when finally extricated from the sat back on her dignity and looked machinery. Ward was 21 years old pleasant. Our rights never were asserted nor respected. Germany bought the Carolines, the Pelew and Ladrone Islands in 1899 for 16,750,000 marks. Read's discovery is a forgotten chapter in our history. The Oldest School House. The "old log school house" at Camp Run, Westmoreland county, Pa., is said to be the oldest school house in this country. It is very primitive in all its appointments, but the teacher, Miss Cella J. Miller, who is only 16 years old, has enlisted the help of the "big boys" to make some improve-

come serious again in Massachusetts and Dr. Salmon, chief of the bureau of animal industry, will return to Boston in a few days to investigate the situation.

At Mystic, S. D., the air compressor plant of the Castle Creek Mining com- Kong and Canton. pany was totally destroyed by fire. The plant consisted of boilers and engine, as well as air compressor and navy. When I was there they were pump. The loss is \$7,000.
