The Louisville Bridge.

Quite a delegation were down from Louisville yesterday in the interest of the wagon bridge which spans the Platte river at that point, and which was almost totally destroyed by the recent breaking up of the ice on that and tributary streams, but as one of the commissioners was absent action was deferred. There seems to be a difference of opinion regarding the rebuilding of the bridge. Numerous farmers, many of whom are not directly interested in the matter, and who have no use for it personally, favor its reconstruction and are very free in expressing themselves to the effect that the commissioners should take some action in the matter, and as soon as possible. Louisville is in Cass county, and has some interests worthy of recognition, the same as other sections of the county. To say that this bridge was a great benefit to the business interests of Louisville is all true, the same as the new bridges recently constructed over the Weeping Water and other streams are to the city of Weeping Water and other towns of the county. Louisville draws a heavy trade from Sarpy county, and the very fact that Springfield, over in that county, and one or two towns in Cass county are unfavorable to the proposition, is sufficient proof that the bridge ought to be reconstructed, and that every day it remains in its present condition is a great detriment to the business interests of the thriving little city, of whom its less successful neighbors seem to be exceedingly envious. The Journal very much desires to see the Louisville bridge reconstructed, and without unnecessary delay.

A large delegation from this city to the number of forty or fifty, went to hear the Misses Alice and Ethel Doney in "The Strollers" at the Boyd in Omaha yesterday, and among them were Mr. and Mrs. F. McBride; Mrs. Jack Pearce; Mrs. W. L. Pickett; Mrs. T. P. Livingston; Albert Fricke and Will Butler. Mrs. Geo. Dovey, mother of Misses Alice and Ethel, accompanied by her daughters, Misses Elizabeth, Margaret and Katherine, also went and remained until the departure of the company from Omaha.
