F. 206 to 210, inclusive, by Senator Hall of Douglas, to abolish appraisement of property under process of foreclosure, and extending for three months the time allowed for redemption, were opposed by Senator Hasty as calculated to work an injustice to the poor man. Senator Pemberton also opposed the bills, declaring that the right of appraisement is a valuable right, and has worked no hardship to either mortgagee or mortgagor. On motion of Senator Hasty the bills were recommended for indefinite postponement, Senator Warner moved the appointment of a committee of three to confer with a like committee from the house to agree on a time for final adjournment. The motion prevailed. and the president named as such committee Senators Pemberton, Alden and Hall of Burt.

PROTEST ON GILBERT BILL Former Deputy County Attorney Lysle Abbott was in Lincoln and incidentally called upon Governor Mickey to protest against H. R. 236, the Gilbert primary election bill, which has passed both houses and is now in the hands of the governor. Mr. Abbott said the bill was a dangerous instrument and should never become a law. "It strikes at the seerecy of the ballot," he said, "and will prevent that independent part of a party which holds the party in line to nominate good men, from participating in the primary. The next step will be to compel a voter to swear who he has voted for at the last election. Any law that tends to do away with the secreey of the ballot is a bad law." Usually it is provided that a treaty shall go into effect as soon as the ra's ifications are exchanged, and with the slight change in this respect the original ratifying clause of the Cuban treaty was in the usual form and would not have led to complications. The date of January 31 was changed by both governments before the United States senate acted to March 31, and that is how the article stood when the senate added this sentence:

It is hardly regarded as feasible, and is certainly in violation of precedent, to exchange ratifications of a document which is not a treaty, as this Cuban convention will not be, in the ment people, until "the congress" has set its approval upon it. If this view is correct, then the exchange of ratifications will have to be deferred until next winter at the earliest, and this delay, it is thought, would cause the failure of the treaty in its present form, because of the inability of the negotiators to meet the requirement of article 11, which demands that the tervals of the game. exchange take place before March 31

Never a Death in the Family. A remarkable family reunion was that of the Thurstons recently held in the town of Rumford, Me., at the home of Mr. and Mrs. Trueworthy Thurston, aged respectively 84 and 79 years. The family consists of the parents, six sons and two daughters. with seventeen grand children and four great grand-children. Thus far not a single death has broken the circle. At one time the members were widely scattered, but all now reside in or within easy distance of Rumford, in what has come to be called "the Thurston district." The youngest, a plump boy weighing over ten pounds, was born there on the day of the reunion.

Ball's Family Pills are the best. Took Him at His Word. King Edward has been restricted by his physicians to five cigars a day. He has been an inveterate smoker almost since his boyhood. Some thirty years ago he was dining with the late Lord Derby, who regarded the use of tobacco as a vulgar and unpleasant habit. After dinner the prince suggested a cigar, whereupon his lordship dryly expressed regret that his house did not contain a smoking room,

Unostentatious Japanese Court. There is no barbaric splendor about the court of Japan nor does the emperor insist on fantastic forms of homage. He is just a plain individual. His guests he receives standing. and he enters freely into conversation with all. There is scarcely a subject that does not interest him or one in which he is not well informed. A delightful host, it is his custom to surround himself with clever menmen who are shining lights of their professions. spending the summer by the shore of a Scottish loch. His habit was to dicopinion of some of the state depart- tate for a quarter of an hour, then row for an equal period, with the object of stimulating the circulation of the blood as to carry him through another fifteen minutes' dictation, and so on through the forenoon. Neither then nor afterward has he worked in the afternoon. Ten years later, at times when his health fell to a low ebb, he would go to a racquet court in the north of London, play with the man in charge and dictate in the in-

To the housewife who has not yet become acquainted with the new things of everyday use in the market and who is reasonably satisfied with the old, we would suggest that a trial of Defiance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturers to be superior to any other brand, but because each 10c package contains 16 ozs., while all the other kinds contain but 12 ozs. It is safe to say that the lady who once uses Defiance Starch will use no other. Quality and quantity must win.

The Champion Milch Cow. Utica, N. Y., has recently won discinction through a Holstein-Friesian cow, Sadie by name which,or perhaps such a cow as Sadie ought to be referred to as "who"-is a resident of that place. Sadie has broken the world's thirty-day record for milk giving and butter producing. In the thirty days during which Sadie was put to the test she produced a fraction over 2,754 pounds of milk, from which was extracted 123 pounds, 81/2 ounces of butter. In other words, the milk that Sadie gave during the thirty days' contest would have been sufficient to drown her had it been tanked and she thrown in, while her month's supply of butter, if packed in the ordinary bricks, would have served to make around her a wall so high that she could hardly have jumped over it.

A man never forgives a woman for being more clever than he things him-
