with its lee decks awash. At about 16:40 a. m., when nearly a mile off shore, it went about on the starboard tack to stand up to cross the line, when a sudden gust of wind sweeping out of Weymouth bay struck the yacht and completely dismantled it. The weather rigging crews of the main shrouds and mast were carried away close to the deck

The yacht's decks were crowded with Sir Thomas Lipton's guests, officers and men, and it seemed a miracle that the disaster was not attended by serious loss of life. Deprived of its chief support, the immense steel tubular mast swayed for a fraction of a second and went overboard, creating general havoc as it fell.
